DULUTH LAYS PLANS FOR YEAR OF PROGRESS AND PROSPERITY

INVALID GIVES ALARM IN BURNING BUILDING

Mrs. J. J. Fitzgerald Rises From Sick Bed and Arouses Sleepers.

Fire Causes \$125,000 Damage in Metropolitan Block on Superior Street.

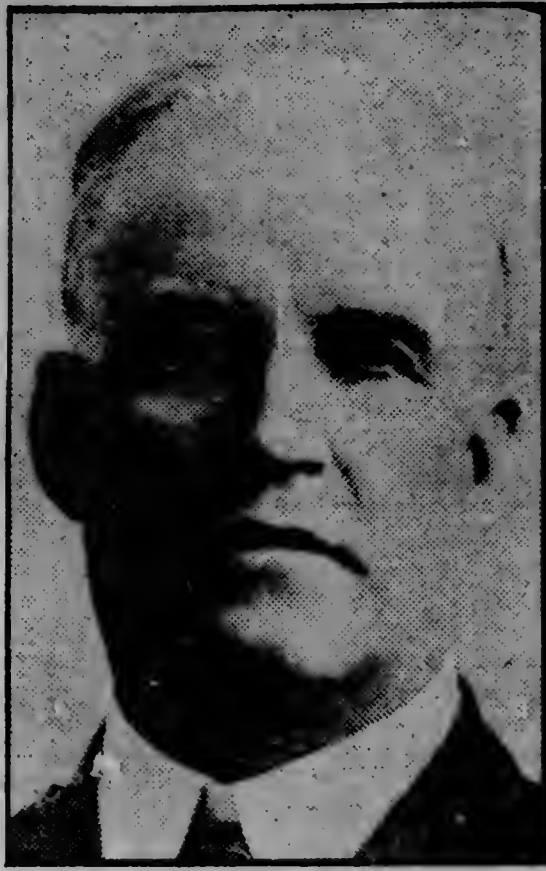

Mrs. James J. Fitzgerald, a bed-ridden invalid, probably saved the lives of a dozen people in the fire which broke out at 6 o'clock yesterday morning in the Metropolitan block, 113-115 West Superior street, causing a loss estimated at \$125,000.

The stores of the Duluth Hardware company and the Wieland Shoe company were completely gutted. The stock of the Gray Tailor company was badly damaged by smoke and the contents of the offices of the second floor were nearly entirely destroyed. Several of the roomers suffered losses. It is figured that the loss of the Duluth Hardware company will amount to about \$30,000; that of the Wieland Shoe company to about \$25,000 and the damage to the building, the stock of the Gray Tailor company and the other tenants of the building to about \$70,000. The losses of all except several of the roomers and two or three of those with offices on the second floor were covered by insurance. The cause of the blaze, which is thought to have started in the basement of the hardware store, is unknown. At the basement of the building was flooded with five feet of water the exact cause will probably never be ascertained.

Woman Gives Alarm.

The first intimation the neighbors had of the fire came from Mrs. Fitzgerald. She has been sick for some time and being a light sleeper because of her ailment, was awakened by the smoke. Driven almost to a frenzy by the fear that they would be burned to death,

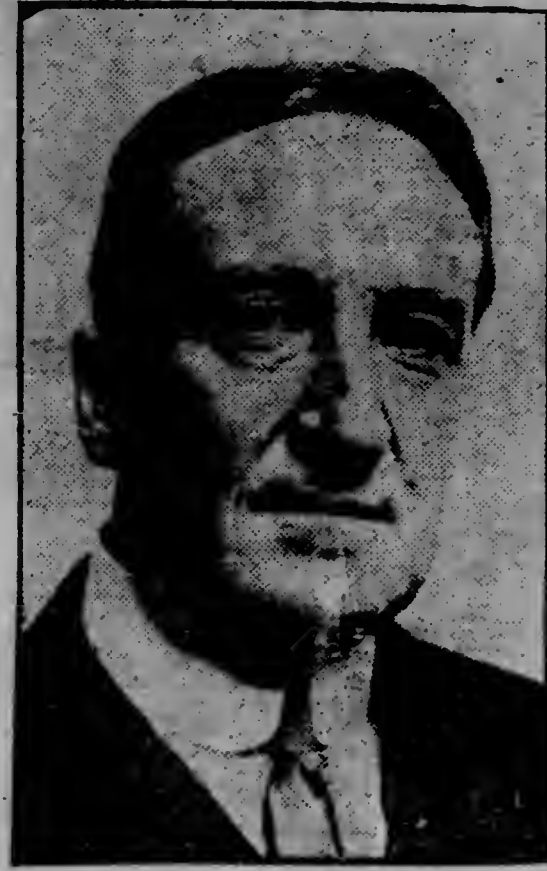

AFTER HALE'S SEAT IN THE U. S. SENATE

CHARLES F. JOHNSON

Augusta, Me., Jan. 2.—Charles F. Johnson is a candidate to succeed Senator Hale in the United States senate. He is a Democrat. He has been in the senate for four years and has made a record for himself. There are numerous other candidates, but Johnson seems to have the best chance up to date.

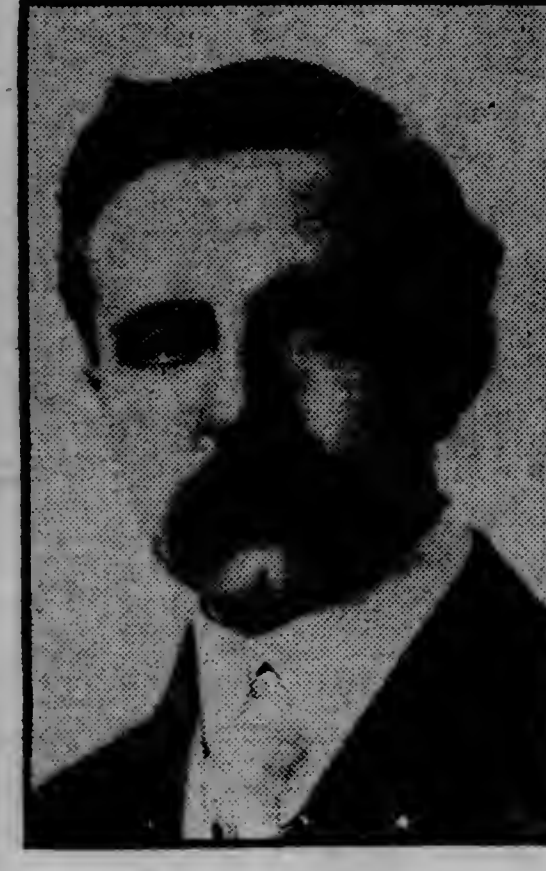

DEMOCRAT IS NOW EXECUTIVE OF NEW YORK

JOHN ALDEN DIX

Augusta, Me., Jan. 2.—John Alden Dix, Democrat, was today inaugurated as Governor of New York. He is the first Democrat to hold the office in eighteen years.

WOULD SUCCEED SENATOR YOUNG

V. A. YOUNG

Des Moines, Iowa, Jan. 2.—V. A. Young of Waterloo has formally announced himself as a candidate for the United States senate to succeed Senator Lafayette Young, owner of the Des Moines Capital. Mr. Young is the supreme protector of the American Nobles, a fraternal benefit society.

BUSINESS MEN VOICE NOTE OF OPTIMISM

Year 1910 Was One of Substantial Increase in Commercial and Industrial Activity.

Business Houses Prepare for Expansion of Duluth Trade Throughout Northwest.

What does the new year hold for Duluth? Will 1911 bring the long expected growth and prosperity that is just beginning to be realized? Will Duluth at last come into her own? Will the new year be a busy, active, prosperous one for the citizens of Duluth? Will those familiar greetings, "Happy New Year" that are being heard today, be realized during the coming twelve months?

These are questions which many thoughtful citizens are asking themselves today, and they are questions which The Herald pronounced to about three score of the prominent men of the city—men who have the prosperity of the city at heart, and are giving their best energies to promote its welfare. They were asked to look back at the past twelve months, review briefly what has been accomplished, and predict a little regarding the future.

Earlier in the month some complaints were heard regarding the Christmas trade. December, 1909, was a banner month for Duluth merchants, and for a time it looked as if 1910 would fall behind, but when the returns were all in and footed up, the merchants had good cause for satisfaction. The totals compared most favorably with last year, and the best sign of all was that the trade did not suddenly slump immediately after Christmas. Duluth people have begun to look for annual sales and wait for them, and the past week has been one of the busiest of the year, not excepting even the week before Christmas.

The general tone of all the answers received by The Herald was most optimistic. Duluth business men are, almost without exception, looking forward to a big year and planning for it. Here is what some of them have to say:

Mayor Cullum:

In response to your request, I have to say that the city has not gone back in any particular, but has been steadily forward, strides which I think are creditable and will be properly appreciated.

Among the more practical things that have been accomplished around the city hall is the complete reorganization of the assessor's department, based upon a scheme that has been recommended, which will result in a complete and practical revaluation of the real property of the city, and in such a way that speedy and accurate reference can be had in each particular case. This we think will result in much good.

The health department has also been reorganized, benefiting by the improvements suggested under the present plan.

WALKER HOSPITAL VISITED BY FIRE

Robbers Poison Dogs Before Raid. Patients Driven Out Into Cold But None Are Injured.

Walker, Minn., Jan. 2.—(Special to The Herald).—The Walker hospital was partially destroyed by fire this morning and over twenty patients in night apparel were driven out into twenty-six below zero weather to take refuge in neighboring houses. None of the patients were burned though Walter Moya, janitor, was severely burned about the back and arms as well as suffering from frozen feet. The department saved the building from total destruction after about six hours fighting. The building, valued at \$18,000, was damaged to the extent of \$7,000. Several friends were badly frozen from exposure.

Dr. F. L. Wilcox, proprietor of the hospital has comfortably housed his patients in homes in the village until suitable quarters can be arranged for them. Two of the patients had to be removed from the burning building on cots. The fire started from the steam heating plant.

Coldest Weather of Season.

Denver, Colo., Jan. 2.—Denver and Colorado in general are experiencing the coldest weather so far this winter. The thermometer at the United States bureau station here registered 14 deg. below zero at 6 o'clock this morning. There is practically no snow in this part of the state, but comparatively heavy falls are reported from the mountain districts. Railroad traffic is considerably affected.

COPPER OUTPUT SHOWS DECREASE

The Consumption, However, the Largest on Record.

Washington, Jan. 2.—The United States geological survey today made public figures on the 1910 production of copper, lead, zinc and tungsten in the United States. The copper output falls considerably short of the 1909 production, but is above any previous year. The 1910 figures for blister and lake copper are 1,079,000 pounds against 1,022,500 pounds in 1909. The consumption of copper in the United States was the largest on record, reaching 760,000,000 pounds. Exports were also about 75,000,000 pounds.

For 1910 Arizona again takes the lead among the copper producing states and territories.

The lead smelting had a busy year, the total output exceeding that of 1909 by a comfortable margin. The total production of refined lead in the United States from foreign and domestic ores was approximately 462,632 tons, with an average price of \$2.83.54 as compared with 448,112 tons in 1909. Missouri retained first place among the lead producing states.

The total production of zinc in the United States in 1910 broke all records, totalling 267,423 tons, worth at the average price \$2.83.54 as compared with 255,760 tons in 1909.

There was strong demand for tungsten ore throughout the year, and the production rose to 1,824 short tons, valued at \$22,952.

DEMOCRATS IN CONTROL

Seventy-Ninth General Assembly of Ohio in Session.

Unusual Interest Is Shown in Proceedings of Body.

Columbus, Ohio, Jan. 2.—The seventy-ninth general assembly of Ohio opened today at 10 o'clock with the Democrats in control of both branches and Judson Harmon, a Democrat, in the gubernatorial chair, having been re-elected at the November election.

Unusual interest is shown in the proceedings of the legislature, because a successor will be elected to succeed United States Senator Charles Dick, a Republican, and because of the fact that Governor Harmon is believed to be in training for the presidential nomination.

In the senate there are 19 Democrats and 15 Republicans, and in the house 70 Democrats and 48 Republicans. The Republicans lose one member by the death of Representative-elect C. J. King, of Ashtabula county. The Democrats, therefore, have a majority of twenty-six on joint ballot.

Vining Elected Speaker.

The retiring secretary of state, Carmel Thompson, called for election, and finally the house immediately elected Samuel J. Vining of Mercer county as speaker. The Democratic caucus nominee, Mr. Vining at once assumed his seat.

The senate was called to order by Lieutenant Governor Francis Treadway, who will preside for a week, when Lieutenant Governor-elect Alton Pomeroy of Stark county, will succeed him. Mr. Pomeroy making the oath of office on Jan. 9.

All the members of the general assembly were sworn in and the caucus nominees for the minor offices were ratified as follows:

In the house, Price Russell of Wayne

AMERICANS IN DANGER

Feared That Mexican Rebels May Kill Off a Few.

In Hope of Causing Intervention By United States.

Chihuahua, Mex., Jan. 1, via El Paso, Jan. 2.—A condition of anarchy among the insurgents is reported by a well-known mining man who returned here from the Minaca district. Foreigners express the fear that once the insurgents find themselves hard pressed they will kill a few Americans in the hope of bringing about American intervention.

W. Burling Tucker, a Californian, who is prominent in this country, went through a hair-raising ordeal at Minaca recently. A squad of half-drunk revolutionists accused him of being a spy and he was saved from being executed only by the devotion of a storekeeper, a German named Junk. Four times Tucker was stood up to be shot and as many times saved by the most vehement protestations, secured help, and finally saved his friend's life. Junk was asked if he would stake his own life in guaranteeing the neutrality of Tucker. He did so and the shooting party was postponed indefinitely.

Former Mayor Executed.

At Guerrero, two days ago the former mayor under the government regime was executed at the orders of the new revolutionary mayor. The latter is alleged to have thus satisfied an old grudge.

The man bringing the above adds further details.

EMPEROR'S HEALTH IS NORMAL AGAIN

Francis Joseph Arises as Usual at 4 a. m.

Vienna, Jan. 2.—Emperor Francis Joseph, who yesterday was compelled to forego the usual New Year festivities because of a slight indisposition, enjoyed an undisturbed night and arose at his customary early hour, which is 4 o'clock in the morning. After attending to his correspondence his majesty held private audiences as usual.

An official announcement issued this afternoon in connection with the aged monarch's health says:

"He is not the slightest weaker. His majesty merely has a cold. He has no fever cough."

LOADED LEATHER A SIMPLE FRAUD

Dr. Wiley Gets After the Manufacturers of Shoes.

Washington, Jan. 2.—Fraudulent "loading" of leather by the use of glucose and other materials is being practiced to an immense extent, to the great detriment of the lower quality shoes according to information laid before congress by Dr. Wiley, the chemist of the department of agriculture. Dr. Wiley has gathered a collection of samples of this loaded leather and has pronounced the work "a simple fraud."

"Especially is sole leather loaded, which ought not to be," said Dr. Wiley, "glucose adds to the weight of the leather and of course when you go out into the wet and snow the glucose which is soluble, runs out and the water runs into its place. There ought to be some law to prevent the practice."

And How We Celebrate Today by Keeping Awake.

STORM GRIPS NORTHWEST

Duluth Has Temperature of 10 Deg. Below Zero and Forty-Six Mile Wind.

Street Cars in City and Incoming Trains Delayed By Drifts.

A stiff northwest wind that at times attained the velocity of a gale made life uncomfortable today and last night for pedestrians and drivers. A few forward striders, which I think are creditable and will be properly appreciated.

Among the more practical things that have been accomplished around the city hall is the complete reorganization of the assessor's department, based upon a scheme that has been recommended, which will result in a complete and practical revaluation of the real property of the city, and in such a way that speedy and accurate reference can be had in each particular case. This we think will result in much good.

The health department has also been reorganized, benefiting by the improvements suggested under the present plan.

DIX INDUCTED INTO OFFICE

First Democratic Governor of New York in Eighteen Years.

Says He Is Not Fettered By a Single Promise.

Albany, N. Y., Jan. 2.—John Alden Dix, a Democrat, was formally inaugurated governor of New York state at noon today. He succeeds Governor Horace White, who became chief executive last October when Governor Charles E. Hughes, resigned to become an associate justice of the United States supreme court.

Surrounded by a brilliant gathering in the great assembly chamber, which had been appropriately decorated for the occasion, Governor White relinquished the office of chief magistrate to Governor Dix, the first Democratic governor to assume the office in eighteen years. The governor then delivered his inaugural address after the which he had been publicly administered by Edward Lazansky, secretary of state. Governor Dix was sworn in privately at his home on Saturday.

"The end of all government should be the preservation of that liberty which is the right of every man the fullest measure of individual freedom consistent with the maintenance of the rights of all others, and at the same time preserve and maintain."

FREE DELIVERY OF EXPRESS PACKAGES

Bill to Compel It Before the Missouri Legislature.

Jefferson City, Mo., Jan. 2.—Free delivery of express packages to every part of towns and cities in Missouri that have a population of more than 5,000 persons, will be compulsory if a bill prepared by the railroad and warehouse commissioners, passed by the legislature, which convenes today. The proposed bill will give the commissioners power to force the companies to make free delivery. Under the proposed law, the bill is not delivered to recently annexed sections of Kansas City and St. Louis. This is not done now.

FIRE TAKES LIVES OF FIVE CHILDREN

New Year's Celebration Causes Fatality in Pennsylvania.

Pottsville, Pa., Jan. 2.—The five children of John Markasavage lost their lives at Minersville, near here, early today in a fire which destroyed three houses in the foreign quarter of the town. The children ranged in age from 2 months to 8 years. The infant was burned almost to a crisp, while the other four were slightly burned, death having been caused by suffocation.

The origin of the fire is credited to a New Year's celebration by youngsters in one of the houses, an upset oil lamp, it is said, starting the flames. When the fire was discovered, Markasavage and his wife ran into the street and being unable to speak English gave rescuers the impression that there were no children in the house and they made no effort to enter the place. The father, however, unmindful of the flames, dashed back into his home, but failed to reach the little ones. He was seriously burned. When the flames were extinguished the dead children were found in their beds.

AAD TEMPLE GREET'S YEAR

Celebration at the Spalding
Saturday Night Unique
Affair.

Nobles of the Ancient Arabic Order of the Mystic Shrine and their ladies enjoyed one of the most pleasing of their annual New Year's eve banquets and balls at the Spalding Saturday night, when 400 of them welcomed the coming of another contribution to the calendar. Aad Temple was the host and the Aad battery of one gun was there, which fact was most emphatically demonstrated by the fact that when the gun squad brought in the gun and unloosed its voice, the crowd took the cue and noise was the result. Every kind of noise maker that could be obtained was used, and the seven sleepers had been tucked away anywhere in the Spalding they would have lost their reputation. The banquet hall on the fourth floor was beautifully decorated and there were features of the decorations that for novelty and originality reached the limit. One of these features was an illuminated picture, representing one man just discarding a suit, while another was lighting a fresh 1911 cigar. The legend read: "Smoke up for 1911." This sentiment relates to the next annual convocation of the Shrine, at Rochester, N. Y. Walter J. Johnson was chairman of the committee on arrangements and he was the recipient of many compliments on the efficiency of his committee. Dancing followed the banquet until near midnight, when it was discontinued for the serious business of the evening, which was to give the new year a noisy welcome.

Performs Last Marriage Ceremony.
Judge J. B. Middlecott performed his last marriage as probate judge Saturday afternoon when Edwin Gulbranson and Agnes Thompson became man and wife.

Notice.
Clarence Peterson—write to your parents at Stillwater at once.

Repairs to Bridge.
The aerial bridge service is being interrupted today because of repairs which are being made to an overhead truck of the car. It is expected that the regular trips will be resumed this evening. It is believed that the sudden cold weather was partly responsible for the break.

Gets Sixty Days.
Edward Johnson received a New Year's greeting from Judge Cutting in police court this morning in the shape of sixty days in the county jail. He was found guilty of stealing clothing worth \$7 from Helmer Olson while the two were sleeping together in a Bowery lodging house.

South Shore in New Depot.
Yesterday morning the first train over the tracks of the Duluth, South Shore & Atlantic ran into the new Soo depot. The South Shore trains will run into the Soo passenger station from now on. With the addition of the South Shore trains the passenger service at the Soo, the new station will have fourteen trains in and out daily.

Injuries Prove Fatal.
John Burcer, 29 years of age, died at St. Mary's hospital this morning after living since June 23, last, with a broken back. He was injured in a railroad accident on the D. M. & N. The body was taken to the undertaking rooms of C. J. Stewart. A brother, Frank Burcer, who lives at Atlantic City, Mich., was notified by wire of his death. No funeral arrangements will be made, pending word from him.

Fined for Carrying Gun.
Joe Gutche was fined \$50 and costs or fifty days in police court today when he pleaded guilty to carrying concealed weapons. He did not try to shoot any one, or make any threats, but he had put away a considerable quantity of liquor he began to flash a gun.

Small Blaze at Mill.
The fire department had a run to the Scott-Graft mill shortly before noon. The wind blew sparks from the stack and the company feared that it might get beyond their control. With the aid of the department the blaze was put out with little damage.

AVIATOR HOXSEY VICTIM OF TREACHEROUS WINDS

Daring Airman Falls to His
Death at Los
Angeles.

Cross Currents Catch Bi-Plane
During a Spiral
Glide.

Los Angeles, Cal., Jan. 2.—The winds' treacheries Arch Hoxsey had often defied and conquered, killed the noted aviator Saturday. As if angry at his daring, they seized him and his fragile machine, flung them down out of the sky and crushed out his life. He fell dead on the field from which he had risen but a short time before, with a laughing promise to thousands of cheering spectators to surpass his own phenomenal altitude record and soar higher than any other man dared to.

Cross currents, whirled off by a vagrant storm that floated in from the sea, caught his bi-plane and shot him downward 563 feet to earth. Catching his fragile machine as he was making one of the spectacular spiral glides that are dangerous even in the calmest weather, the warring winds sported with it a moment and then hurled it to the ground.

One Side of Face Crushed.
When field attendants reached the spot where the tangled pile of wreckage lay, Hoxsey was dead. One side of the face, whose engaging smile had won the regard of thousands of spectators each day during the meet, had been crushed.

His body lay broken and twisted almost out of all semblance to a human form. All of the spectators in the grand stand witnessed the tragedy, as it occurred directly facing them, on the opposite side of the course. They sat in awe-stricken silence for many minutes, until the announcer gave the news through a megaphone. "Hoxsey has been killed."

Mother Will Get \$10,000.
Mrs. Hoxsey, mother of the dead aviator, will receive approximately \$10,000 it is said from the aviation

ARCH HOXSEY

committee as the winnings of her son at the meet. The altitude prize of \$3,000 was won by Hoxsey last Monday.

His American endurance record of 3 hours and 17 minutes made the day before his death, undoubtedly will stand and this will add \$3,000 more to the purse. Hoxsey's winnings of daily altitude and endurance will amount to \$4,000 additional, according to estimates.

After being removed from Aviation field, Hoxsey's body was brought here, Sunday it was removed to Pasadena, where it will lie in a mortuary chapel until Roy Knabenshue, manager of the Wright team, completes his plans for the funeral.

All funeral expenses will be borne by the Wright brothers, and a competent sum will be given to Mrs. Hoxsey. It was learned last night that every cent which Hoxsey has made during his aviation work has been given to his mother.

Mrs. Hoxsey is 62 years old. She has been a widow nineteen years, during which she has lived alone with her son.

Hoxsey was a fatalist. He believed that when his time came to

die he would die no matter where he was or what he was doing. He talked of this so much to his mother that she came to believe the same as he did. This accounts much for his fearlessness and for the resignation of the mother.

"My neighbors always worried me and wanted me to have Arch stop flying," she said. "But somehow or other I had no fear. When Ralph Johnstone was killed in Denver, my friends begged me to have Arch stop, but I did not because I always thought he would not be hurt. It seems impossible, but of course it is so."

ENROLL MONDAY

The office of the Duluth Business University will be open from 9 a. m. until 5 p. m. Monday, Jan. 2, when applicants are requested to call to enroll for the New Year opening, day and night school, Tuesday, Jan. 3. Location: 118-120 Fourth Avenue West, Christie Building.

BUSY WEEK AT BOYS' BUILDING

Holiday Program for the
Young Members of
Y. M. C. A.

Big plans have been made for the open house at the boys' department this afternoon. The clubrooms will be open to the boys of the city from 2:30 p. m. to 9:30 p. m. The building will be decorated in the colors of the club. From 2:30 to 3:30 the boys' department orchestra will give a program of music and there will be a rousing and cartoon tournament.

In the den there will be a fortune teller. Fritz Campbell will give a piano

solo, Kenneth Harris will make some lightning cartoons, Miss Agnes Johnson will give a reading. From 3:30 to 4:15 there will be a shooting gallery and phonograph concert. At 4:15 to 5:30 there will be a program in the gymnasium opening with a candy hunt. Three membership tickets will be hidden somewhere in the gymnasium and every body who has never been a member of the club will be permitted to make part in the hunt. Two basket ball games will be played, and then every boy may go on the floor for a game of battle ball. Refreshments will be served in the Dutch kitchen.

In the evening there will be a program at 8 o'clock. The sketch given last night will be repeated. It is a one-act play entitled "Fun in a School Room." Glen Merritt takes the part of teacher, Kenneth Harris, Caldwell Harris, and Walter Wandler appear as pupils. Mr. Hatchler will give an exhibition of club swinging using illuminated clubs. There will be a trip through Cuba and Mexico with the stereopticon. The orchestra will give a number, these members and their guests will adjourn to the gymnasium for a peanut hunt. Three senior membership tickets will be hidden somewhere down stairs, and every guest who is a member of the club may enter the contest. This will be followed by a game in which every body may participate, and the evening will be brought to a close with refreshments which will be served in the Dutch kitchen.

The special holiday program will be continued all week. Tuesday morning at 9 o'clock, the members of the boys' department will meet at the curling club, where they will be guests for the morning at a skating party. The boys from the Bryant school will be the guests at the boys' department Tuesday evening. Wednesday afternoon the annual water sports will take place at the central department. The events are 50-yard dash, tub race, candle race, floating contest, crocodile race, and a game of pom-pom-pull-away. Parents are invited.

At 6:30 in the evening the Boy scouts will have a banquet. All boys who have passed the tenderfoot degree are invited, the banquet will be served in the Dutch kitchen. At 8 o'clock the new boys of the city will be guests at the club-rooms. The special holiday program will last until Saturday and on Monday the regular work of the boys' department will commence.

SHOE SALESMEN GET TOGETHER

Northern Shoe Company's
Selling Force Visits House
to Inspect Samples.

Traveling representatives of the Northern Shoe company will assemble in Duluth this week to discuss plans for enlarging their work and pushing the goods of the company in the new year. The salesmen of the Northern Shoe company gather annually in this city to talk over business, coming here from their homes, where they have enjoyed a vacation in the holidays.

The last year was satisfactory, the company having transacted an excellent business. The drought in North Dakota and part of South Dakota prevented the expansion that had been expected for the latter half of the year. Despite the partial crop failure the company did a business considerably in excess of that of 1909, an accomplishment that was made by few shoe houses. The first half of the year was exceptional, business contracting in the latter half.

The Northern Shoe company has adopted an aggressive policy for 1911.

The advertising campaign has been extended and salesmen will carry the most attractive lines of samples ever put out by the company. The local demand for home-made shoes is growing and the company is gratified at the support given it in its home city.

While in Duluth the salesmen will inspect their new samples, view the factory and study the new styles. The Northern Shoe company specializes in a product peculiarly fitted to the needs of the territory in which it is sold. The success of the company in this regard is due partly to the suggestions which have been made by salesmen.

The salesmen and the officers of the company will be the guests at an informal dinner tomorrow evening at the home of A. W. Hartman, president of the company, 2400 East Superior street. The salesmen will exchange experiences and recount stories from the crop that they garner during the year. C. C. Cutts of Montana has been telling his friends of the bucking bronchos and cowboys riding into the lobbies of hotels on the outskirts of the "bad lands." F. F. Hanes has been spinning yarns of life in Alaska and others have run them close races in the informal story-telling contest which will probably end in some rapid-fire work at tomorrow's dinner.

The salesmen who will have arrived in Duluth by this evening are: L. A. Kent, Northern Michigan; John Hoels, Northern Wisconsin; E. J. Erickson, Northern Wisconsin; G. B. Stickle, Western Minnesota; and South Dakota; P. W. Reimer, Western Minnesota; J. W. Schmitt, Duluth and Superior; W. N. Donaldson, Northern Minnesota; R. E. Little, Iron ranges and Northern Minnesota; Robert Leick, Northwestern Minnesota; L. C. Lieberg, Northern North Dakota; Ben Rud,

Southern North Dakota; C. C. Cutts, Montana; E. J. Kenney, Eastern Washington; O. A. Netter, Oregon and Southern Idaho; F. F. Hanes, Western Washington and Alaska.

REAPPORTIONMENT ISSUE IN SOUTH DAKOTA, TOO.

Pierre, S. D., Jan. 2.—Many of the legislative members of South Dakota are on hand for the opening of the assembly Tuesday. The chief fight in the house will come on the selection of a speaker. C. J. Morris of Sioux Falls leads in the race, with E. C. Isenhardt a close second. State reapportionment is the most interesting question which confronts the present session.

There are Jewels and Jewels

—BUT OURS ARE GEMS.

We are reaching a standard in business for which the higher type of merchant strives—that of being the house which first comes to the mind of the judge of values—the connoisseur in creations of the jeweler's art.

We welcome your visits, whether for the purpose of purchasing or simply for the pure delight of the beautiful.

T. E. REINHART, Jeweler
7 East Superior Street.

FIRE!

OWING to water and smoke damage sustained in yesterday morning's fire —Gray-Tallant company's White Sale announced to begin at 8:30 Tuesday morning is postponed until the loss is adjusted. Watch for further announcements. A word to the wise is sufficient.

ALBENBERG'S

Annual January Clearance!

Now for the Unloading!
Now for the Big Savings!
Now for the Chance You've Waited for!

Beginning Tomorrow At 8:30 A. M.

We start our January Clearance Sale—a sale that will shout cut prices from every shelf, case and counter, from any section, every department. It will be your opportunity to buy anything in wearing apparel—Suits, Coats, Waists, Skirts, Dresses, Millinery, Dress Goods, Underwear, Hosiery, Ribbons, Laces, Embroideries. There's no use quoting prices. Every surplus article and yard of goods has got to be moved and the knife of reductions and the pencil of inducements have been busy. Take a hint. Watch our windows. Come and see what we are doing. Come early; come often.

ALBENBERG'S

Store Opens 8:30

Closes 5:30

D. H., Jan. 2, 1911.

Take Notice!

Now WE are getting into the bargain game. 1911 Columbia Sales do not start in September or October, 1910; simply because they are real sales with real high-class merchandise at real cut prices. They are for the many people who are thoroughly disgusted with the insane, impossible and dishonest advertising methods of "back-number" merchants still adhering to ante-diluvian ways.

Our Bargain Program for the first week is as follows:

Store closed all day today, January the second.

Tomorrow
Gloves at... **89c**

It starts at 9 o'clock. A big bunch Gordon samples—silk lined and unlined kids, capes, mochas, buckskins, etc. in sizes from 5 to 10½, **89c** to be sold at.....

Even better qualities than usual in these Columbia glove sales.

Limit: Three pair to a customer.
See display in our vestibule case.

Wednesday Men's Clothes

On Wednesday our annual reduction sale of high-class suits for men and young men is to begin. This year's choice of the stock will be given for \$19.11.

All Overcoats and Fur Coats go on sale the same day at prices according to the cost of the garments, which will be published on Tuesday evening.

Thursday Boys' Clothes

On Thursday the Bargain Feast will be augmented with a general mark-down sale of Boys' and Children's Suits, Overcoats and Reefers. This sale is now in course of preparation and will probably be opened with a sensational special offer. Depends on the condition of the stock.

A Shoe Sale may also start on Thursday.

After this the other departments will be taken up just as soon as we can do so, until every section of the store has been reached.

January Offerings of White Goods

**Tuesday Morning at 8:30 We Open Duluth's Greatest White Sale
Larger Stocks and More Powerful Values Than Ever**

The Best White Sale in our history will start here Tuesday morning, great as our past successes have been—in assortments, quantities and values. It will eclipse any of our previous sales. Stocks are greater by many thousands of dollars; values have not been exceeded in any previous sale, and in most instances they have not been equalled.

Its importance you may judge from the items which are mentioned here, though the list is but a small part of the offerings of this great sale. Scores of other equally attractive values await you here.

From the large number of the special offerings enumerated in this announcement, all of which will be of special interest to the thrifty and economically inclined shoppers.

Annual January Sale of White Goods

THIS annual series of White Sales event has been planned on a larger scale and will be of vastly greater importance this year. As the initial showing of correct styles in dainty underwear and white goods it teems with interest. As an economy event it ranks foremost among the year's great sales, and is worthy of your first consideration. The merchandise offered is of such character as is seldom found in special sales. Space permits of but a few of the important items. Avail yourself of the big savings.

La Grecque Tailored Underwear

HERE is a most satisfactory quality tailored underwear—the La Grecque. This wear fills the demand for close and perfect fitting garments. Every piece is made true to the patterns that are designed to conform correctly to living models. La Grecque underwear is made from soft, clinging nainsook and cambric, has double stitched and flat felled seams, insuring unexcelled fitting and wearing qualities. Our complete stocks offer—

Combinations: Corset cover and drawer combination suits that fit and hang like a well tailored gown. Correctly proportioned as to eliminate all fullness at waist line or hips. Daintily trimmed with edgings and insertions of prettiest new laces and embroideries. Prices range from \$2.25, \$2.49, \$2.98, \$3.50 and \$3.98.

Combinations: Corset cover and skirt combination, tailored to fit smoothly around hips and waists, lessen outside dress measurements and produce a trim figure. Durable, neat and daintily trimmed styles at \$2.98, \$3.50, \$3.98 and \$4.98.

Princess Slips: An indispensable foundation for all close-fitting dresses. Expertly tailored to fit smooth over bust and hips, with sweep below the knees to give perfect freedom in walking, daintily lace trimmed, priced at \$3.98 and \$4.98.

Drawers: Correctly cut and proportioned so as to fit stoutest figure without extra fullness at hips and waist, by means of fitted yoke instead of the drawstring used in ordinary garments; prettily trimmed, sold by waist measurement at 59c, \$1, \$1.50 and up.

IMPRESSIONS OF DULUTH

Live Wire in the Industrial North—City Built on a Rock—The Home of Great Wealth.

The editor of the Merrill, Wis. Star-Advocate recently visited Duluth and gave the following description of the city:

To visit Duluth is to become at once assured, if not inspired, that one has landed in a city where they do things, and big things at that. The very atmosphere twinges with energy, and the inhabitants absorb and radiate it until the magnetism is unmistakable even to the initial visitor. Most peculiarly located indeed, beginning at Lake Superior's edge and extending backward and upward, overlooking the rocky face of the promontory, covering it with the hosts of trade and the homes of its people. Wonderfully huddled together, it is a wonderful city in many ways, and when one sees the things that are being done, they do not much marvel at what has been done.

Great wealth abounds in Duluth, which is a main factor in the accomplishment of big things. It is one of the cities in the United States, and we won't dispute it. Vast fortunes have been taken from this mine, and found its way into the channels of business, and the beautification of Duluth. A most sociable and friendly people we found here, even during the pre-holiday business rush, and every soul of them proud of their city and its accomplishments. We don't know what the last census shows the population to be, but the official figures given is 35,000 for 1908, and the rapid strides made up to date entitles them to the rank of "bustlers."

There are many things that forcibly impressed us during our brief stay in the "Zenith City," but circumstances prevent further detail because to the general reader, some of the "big things" will be of greater interest and of them we mention but a few, and that briefly. During the past ten years Duluth has seen valuations, business, population, freight and lake receipts and shipments of coal, grain and ore, just about doubled and look for an equal increase in considerably less than the next five years.

Duluth has twelve railroads and ten public parks, comprising 300 acres. One of the wonders of the city is the mammoth aerial bridge. It is indeed a marvel of engineering skill. Its length is 393 feet, width 34 feet, height 165 feet above the water, and cost \$11,000. Like a huge steel basket suspended from play to pier with apparently little effort. It is one of the things that no visitor to Duluth cares to miss.

The courthouse, completed last year, cost \$1,250,000 and stands as a monument to the wealth and pride of St. Louis county. The new boulevard drive is a perfect panorama of passing beauty. This drive is given miles long and at its highest point is 400 feet above the level of the lake, and along its way are many lakes and beautiful spots that enchant and cause expressions of admiration and wonder.

From seven to ten story buildings are becoming quite common in Duluth, and one has recently been completed, towering sixteen stories above the basement. Another "novelty" experience was the ride on the incline railway. This incline is nearly a mile in length, running at a steep incline from Superior street to connect with the boulevard at the hilltop and intermediate lines.

Between Duluth and Superior is the mammoth interstate bridge, for which is claimed the longest "draw" in the world.

Duluth looks well to its educational facilities and besides its other school buildings it boasts of the "Central high school" building, which cost \$500,000, with its mammoth tower reaching high above all surrounding buildings and visible from nearly every part of the city. It is a magnificent structure.

A very large manual training school building has recently been completed and fully equipped. An imposing and commodious Carnegie library, churches of all denominations, those of the Methodist and Catholic denominations being the finest—massive piles of stone fashioned in architectural beauty with interior adornment in keeping.

Duluth has many palatial residences, the most prominent of which is probably that of the Hon. Chester Conant on the London road. Like a huge castle of old it stands surrounded by enclosures of solid masonry and is surrounded by a full retinue of servants. The leading hotels of Duluth are in keeping with the reputation for big things.

The M. C. A. building is six stories high above the sidewalk and the Y. W. C. A. is five stories high. The board of trade building, which was told by these two agencies, "The board of trade building" has seven stories and is one of the substantial buildings of the city.

Minnesota Point is a strip of land seven miles long, running out into the lake, and is a straight street, with all that is business and residence street implies, with its street car line and all the conveniences of modern times—including a constant lake breeze, summer and winter. The Duluth harbor will accommodate the largest boats, and has ample docking space for the fishing fleet.

The natural scenery about Duluth is grand and inspiring in its ruggedness, and affords constantly some new surprise for the visitor. It is worth a visit to the Zenith City to see and learn of the things accomplished by pure grit and push.

Banks and Financial Institutions Generally Prosperous.

NEW YORK, Jan. 2.—The past year is likely to linger long in the memories of those who have their being in what is popularly known as Wall street. For the banks and financial institutions generally, it has been a prosperous year, but for the rank and file of the stock exchange, whether trader or commission broker, the net result has been far from satisfactory. From the very start of the year, the market was characterized by a general depression, but almost uniformly adverse in its results.

The first few days witnessed a setback in prices due primarily to a disclosure of the government's attitude toward the corporations. This was followed by a wave of depression and a violent, though temporary rise in money rates. The second month brought more unfavorable developments, including the failure of prominent banking house and further liquidation of stocks. Labor troubles added to the confusion, but the strain was relieved in a measure by a check in the decline of prices.

Improvement marked the opening of the second quarter of the year, despite new legislation by the government in the Standard Oil and American Tobacco cases, but the period was made memorable by the beginning of a campaign on the part of the railroads to raise freight rates and the successful efforts of the federal authorities to curb such a movement.

By the middle of the year the securities market fell back again because of a renewal of government activity against corporate interests and the withdrawal of proposed freight rate increases by the Western roads at the close of the year.

Trading on the exchange for the year was much below that for 1909. This applies to bonds as well as stocks. The half-yearly issues, which constitute the great bulk of the year's operations, declined in the last half of 1909 range from eight points in Pennsylvania to 35 in St. Paul. The Hill and Harriman stocks are from 20 to 34 points below and United States Steel is down about 20 points.

Depression in the steel trade is of such long standing and so generally recognized that a detailed recital of conditions is superfluous. The view prevails that the branch between producer and consumer cannot be bridged by anything short of material price concessions.

The situation in the copper trade is equally discouraging, curtailment and lower production and shading of prices having fallen almost entirely to stimulate demand.

There is some divergence of opinion concerning the immediate future but on one point all are agreed that the situation calls for economy and all-around conservation.

Frozen Near Fergus Falls. Fergus Falls, Minn., Jan. 2.—Coroner Haugen returned from the town of Fergus, where he was called to investigate the death of August Ludwig, a prominent farmer, who was found lying in the snow a short distance from his home. Ludwig was in poor health, and had apparently become bewildered while returning from a neighbor's house, late at night. He appears to have frozen to death.

A LUCKY ESCAPE. The housekeeper. The farmer and his wife were chased by a mad dog. The dog was chased down the track after the 4 o'clock train. It was a short distance from the house, and the dog was always returned. "I wonder why he chases that train?" remarked the wife, with her eyes on a little cloud of dust that showed where the dog was.

That's not what's bothering me," answered her husband, "I'm wondering what he'll do with it. He's caught it."

WILL MEET WITH TAFT

Business Men of Country Rally for Tariff Board Convention.

Lasting Body Sought By Association—Politics to Be Barred.

NEW YORK, Jan. 2.—To call upon congress to create a permanent non-partisan tariff commission, two of the leading business men from every section of the country have sent word to this city that they will attend the national convention that has been called in Washington on Jan. 11 and 12 by the National Tariff Commission association.

President Taft has promised to meet and speak to these delegates from the principal commercial bodies of forty-two states at a banquet that is to be held at the close of their deliberations. Senator Cummings, Congressman Longworth, Senator Beveridge and Long, Emory, chairman of the existing tariff board, are others who will deliver addresses.

Besides representatives of the 100 chambers of commerce, boards of trade and trade organizations that have affiliated themselves with the tariff commission association, delegations appointed by governors and mayors of all the states and the principal cities of the country have already notified the Washington headquarters that they will join this general gathering of business interests. Applications from many men representing industrial and mercantile conditions in towns scattered from Maine to California and Oregon to Florida, are being made for places in the convention, which is open to any of the thousands of business men who have been interested in the work of the association.

The investigation of President Taft. This, together with reports of severe drought in the Northwest, led to heavy selling of the list, chiefly the grangers. July was in some respects the worst month of the year. Prices drifted downward until well into the third week when the collapse of the Pearson-Argular syndicate marked the lowest price level of the year. The stock holdings of the syndicate were taken over by an international banking house and the elimination of this interest was followed by a general recovery.

August was a month of excitement and anxiety on account of the political situation and there were grave doubts as to the outcome from the crops. The situation was further strained by money rates. A group of well known speculators in grains and cotton. Events of the next few weeks were more encouraging. A good demand for bonds was one of the few redeeming features of that period and crop prospects were then already fairly good.

Improvement marked the opening of the year, despite new legislation in banking circles, but more than a fortnight preceding the election of William Taft, the situation was again strained. The breaking party in the state and the spread of the so-called insurgent movement among business men in banking circles, but more than a fortnight preceding the election of William Taft, the situation was again strained.

The most satisfactory feature of the final month was a revival on a large scale of the movement in bonds. The demand came in a large part from institutions and private investors seeking an outlet for their January interest payments. A complete change in the market for these securities which had been in a state of congestion on the greater part of the year.

Trading on the exchange for the year was much below that for 1909. This applies to bonds as well as stocks. The half-yearly issues, which constitute the great bulk of the year's operations, declined in the last half of 1909 range from eight points in Pennsylvania to 35 in St. Paul. association that brought into being the present tariff board.

Special excursions to the capital from the Pacific coast, the Middle West, Southwestern and Southern sections are being planned by groups of delegates, who are taking the opportunity to get together and exchange business ideas as well as to urge their common object of a non-partisan tariff board that will last and hold the respect and confidence of the people.

No party or factional forces are to dominate or dictate to this non-political movement of business men for a permanent tariff commission, which is led by the National Tariff Commission association. Through conferences were held with President Taft and many senators and representatives before the introduction of the bill now before congress creating a permanent tariff body, which the association regards as an absolute necessity, it is believed that its passage as demanded by united commercial interests will harmonize instead of rouse factional differences.

The two years of its existence the National Tariff Commission association has succeeded in obtaining the support of every element of business men throughout the country, who through it today intorse the work of the existing tariff board and call upon congress to speedily pass a bill giving it a permanent place in the national government.

John Candler Cobb, vice president of the Boston Chamber of Commerce, is president of the National Tariff Commission association; D. A. Tompkins of Charlotte, N. C. is vice president; Henry H. Towne, president of the Merchants Association of New York, is treasurer; H. E. Miles, of Racine, Wis., chairman of its executive committee, and Henry T. Willis, an authority on foreign trade matters of this city, is secretary. Alva B. Johnson, of Philadelphia, J. J. Culbertson, of Paris, Tex., and John Kirby Jr., president of the National Association of Manufacturers, are among the members of the executive committee.

"We believe that the country through its important business organizations will so express itself at our convention that congress will be convinced that the permanent tariff commission bill represents the popular will and should be passed," said Henry T. Willis, secretary of the National Tariff Commission association today, before leaving this city for the convention headquarters at the New Willard hotel in Washington. "An exciting word from hundreds of business bodies that they will send delegations, and hope to hear from hundreds more before the convention. Every commercial and other organization favorable to the object we are all seeking should send representatives to swell this great demonstration of American business men."

At this time, while there is so much coasting in various parts of the city, we wish to urge a word of WARNING with particular reference to coasting across the car tracks.

On all streets where there are car tracks and on all hills which cross or terminate on streets having car tracks, there is CONSTANT DANGER to those indulging in the sport of coasting.

Men and women, as well as boys and girls, have lost their lives, or have been seriously injured by dashing into standing or moving cars on their sleds.

Remember that at the very time when coasting is best the street car rails are also very slippery and it is often impossible for cars to be stopped within many times their length.

Why jeopardize your lives by coasting where the hazard is so great, when there are so many other places in this city of hills where this sport may be indulged in with perfect safety?

We particularly urge parents to caution their children not to coast down any of the avenues crossing car tracks.

Every commercial and other organization favorable to the object we are all seeking should send representatives to swell this great demonstration of American business men."

At this time, while there is so much coasting in various parts of the city, we wish to urge a word of WARNING with particular reference to coasting across the car tracks.

On all streets where there are car tracks and on all hills which cross or terminate on streets having car tracks, there is CONSTANT DANGER to those indulging in the sport of coasting.

Men and women, as well as boys and girls, have lost their lives, or have been seriously injured by dashing into standing or moving cars on their sleds.

Remember that at the very time when coasting is best the street car rails are also very slippery and it is often impossible for cars to be stopped within many times their length.

Why jeopardize your lives by coasting where the hazard is so great, when there are so many other places in this city of hills where this sport may be indulged in with perfect safety?

We particularly urge parents to caution their children not to coast down any of the avenues crossing car tracks.

WEST END**CHURCH HOLDS****ANNUAL MEETING****Swedish Baptist Congregation****Has Made Fine Progress****During Past Year.**

The annual meeting of the First
Swedish Baptist congregation was
held this afternoon at the Swedish
temple, Twenty-second avenue west
and Third street.

Officers were elected, reports were
read and a series of resolutions was
passed. Following the business session,
the ladies' aid society, covers
were laid for nearly 150.

The congregation has accomplished
much in 1910. It has erected and al-
located for a \$35,000 church at
Twenty-second avenue west and Third
street. The edifice is one of the most
imposing and substantial of any in the
city. Only a debt of about \$6,000 re-
mains to be paid.

Rev. Swaney Nelson, pastor of the
past year and a half past of the church,
will conduct a series of revival ser-
vices at the church during the next
few weeks. The first service will be
held every night, commencing Tuesday
except Saturday, for three weeks.

This week George Carlson, a Duluth
boy, who has been a student at the
Mason Park school, will assist in the
meetings and next week, Rev. C. An-
derson, pastor of the Second Swedish
Baptist church of St. Paul, formerly
of Duluth, will assist in the meet-
ings.

Following the revival services here,
Rev. Nelson will return with Rev. An-
derson to the latter at revival meetings.

EPWORTH LEAGUE**GIVES DINNERS**

Each inmate of the county poor farm
and of the county tuberculosis hospital
was given a New Year's basket dinner
yesterday by the Epworth league of
the First Norwegian-Danish M. E.
church, Twenty-fourth avenue west
and Third street.

The baskets were filled with fruit
cakes, cookies, meats and other good
things to eat and were taken out to
the county institution by a commit-
tee of four representing the league. In
all 160 baskets were given away.

The dinner served on the committee
were Misses Gertrude Jorgensen, Anna
Hanson, Kate Aronson and Henry An-
derson.

PETER JOHNSON DIES.**Tuberculosis Takes Retired Farmer****Who Had Lived in West End.**

Peter Johnson, 57 years old, a re-
tired farmer, who has been residing at
1905 West Superior street for the past
few months, died this morning of
tuberculosis at his boarding place.

Little is known about him, except
that he came here a few months ago
to take medical treatment. He is said
to have owned a farm in Normann
township before coming to Duluth.

POWER COMPANY IMPROVEMENTS

Extension to Be Made This Year Entails Expenditure of \$1,000,000.

The Great Northern Power company, it is said, will spend about \$1,000,000 this year in building extensions, a sub-station in Superior, and duplicate lines so that the interruption of power service cannot be for more than a few minutes after the improvements are made.

The company is continually enlarging its reservoirs and gathering additional watershed. It desires to plan for the distant future and to guard against a possible shortage of water now and in many years to come.

New Recipe for Home Made Laxative Cough Cure.

A cough or cold is due to congestion and inflammation of the membranes of the throat and lungs. Something to overcome the congestion is necessary if you expect a cure. Morphine and chloroform preparations relieve, but they do not cure—only aggravate ultimately and weaken the natural resistance and health.

Here is a formula that will cure chronic cases of old coughs and acute coughs of old or young.

Essence mentho-laxene, 2½ Oz.
Granulated sugar syrup, 12½ Oz.
Get the essence mentho-laxene of any well stocked drug-gist, empty it into a bottle and fill up the bottle with syrup made as follows: Take a pint of granulated sugar, pour over it a half pint of boiling water, stir and let cool. Then add it to the mentho-laxene and take a teaspoonful every hour or two as needed.

This will break up any cold, cure sore throat, relieve coughing instantly, loosen the tightest cough, and soon cure by its laxative tonic action, differing from everything ever heard of. Try this simple but effective formula and you will forever bless the day you learned of it, and you'll save \$3 or \$4 besides.

AMUSEMENTS

NEW YEAR'S DAY ATTRACTIONS

LYCEUM—"This Man and This Woman." ORPHEUM—Vaudeville. EMPRESS—Vaudeville.

REAL GIANT AT THE ORPHEUM

George Auger a Big Man and a Good Actor—Well-Balanced Bill.

Featured by "Jack the Giant Killer," and with five other acts, every one within bidding distance of headline honors, the new vaudeville bill which opened at the Orpheum theater before two large and enthusiastic audiences Sunday is a succession of rapid fire hits.

There is plenty of vim and dash and go to all the numbers and some of them go off with even more than the ordinary Orpheum "pop." It is a good, clean, lively and entertaining show from the selection of the orchestra at the beginning down to pictures of San Francisco which whiz by the show.

On this week's bill there is something for everybody. The acts are widely different and that is as it should be on a vaudeville program. There is comedy, clean cut and wholesome; an act of mystery that is the goods; a playlet full of laughs and with a tear tucked away; comedy quartet which furnishes both fun and melody; an unusual as well as a unique mythical tale well told by a giant and a diminutive killer; the whole being capped by a fitting climax by a real musical comedy with pretty girls in becoming gowns, beautiful music, special scenery, good looking men and a real comedian.

With nearly eight and a half feet of height, George Auger appears as "Grim Goblin" in a playlet entitled "Jack the Giant Killer." The "killer" is as short as Goblin is tall. The story is that which appears in every juvenile story book and it is a great act for children with plenty in it to amuse the older folks. Yesterday the older people liked it so well that they made Auger bring forth his huge frame for a curtain speech. Auger stands eight feet and two inches in his stocking feet and if he were not such a good actor, some promoter might find in him "the white man's burden." He is a likable fellow and he entertained with some of the experiences encountered by a tall man. He explained to the audience that shortly before attaining his present height he became alarmed and took to smoking cigarettes to stunt his growth. He says that had it not been for that, he surely would have been sixteen feet tall. The act is as light as a feather and is entitled to all the good things that have been said of it in other cities.

Mr. and Mrs. Franklin Colby have an act of mystery. Before the eyes of the audience objects appear from almost anywhere and fly about the room. The whistling talk of Mr. Colby is one feature of the act. They also do a short musical turn with electric bells. All that can be heard of Kalyans is that he is a very wonderful as well as extraordinary person. He worked at disadvantage yesterday as his outfit had been lost in transit. The boards stood up late yesterday morning and were used at the evening performance. He writes with both hands at the same time one word being written straight, the other backwards and upside down. The act is entertaining and does not drag.

"Marse Shelby's Chicken Dinner" is a one-act playlet that is interesting from the very beginning. Mr. Wade as Jefferson Jackson Monroe is a fine actor. His lies are so raw that poor old George Washington who hung on the wall couldn't stand it and fell down. The playlet is full of ripping good comedy and tells along with the comedy a story of heart interest. It is one of the best playlets seen on a local vaudeville stage in some time.

The Bison City Four is a shout. They are more than that—riot. Yesterday's audiences went wild over them and insisted on more after encore until their stock was about exhausted. Even at that the people did not have enough. The Bison City Four is composed of four men with good voices. Their act is live and they are about a minute ahead of the ordinary act of this kind. They are up and coming all the while and give the impression that he is being tickled from behind. The quartet up to the minute made good.

"At the Waldorf," a musical comedy composed of twenty people numbering comedians, show girls, catchy music, and a magnificent special setting, is a fitting climax to an excellent bill. This is the same company that last week presented the "Love Waltz" and "At the Waldorf" certainly goes the "Love Waltz" one better. Sandwiched in between the serious stuff is comedy that is a painless laugh producer.

Even the pictures this week are better than usual. They show scenes in and about San Francisco.

Any one in hard luck, any one with a grouch, any one who has lost money can forget it at the Orpheum this week.

NEW VAUDEVILLE AT THE EMPRESS

Three Large Audiences Are Well Pleased With Holiday Offering.

Plenty of good entertainment is furnished at the Empress this week. The new bill which began yesterday contains merit all the way through and three large Sunday audiences went away immensely pleased.

Master David Scheeler, "The School-boy Faderewski," is a musician of rare ability for one so young. He plays several difficult selections and with the ease and grace of an old timer. He gives a finished and almost perfect performance on the piano and the most difficult numbers are rendered in a pleasing manner. He gets the real music out of the piano and the selections by himself proved that he has a talent for composition.

Joe Whitehead dances, and his dancing is better than that of most vaudeville performers. He has a style that is all his own and he mixes almost every kind of dancing into his short act. Miss Flo Grierson assists him in the act and besides knowing something about dancing she is long on looks.

Then in dancing turn is an enjoyable feature of the show.

Both Bobby Pandur and his brother are unusual specimens of physical manhood. Their development is marvelous. Their feats of strength are of the variety that somehow pull the spectator right out of his seat. Bobby displayed his control over his muscles in a series of physical culture poses.

John Hamilton is an artist. Out of the quick dashes of paint on a canvas the most wonderful scenic views are made in less time than it takes to tell about it. His comedy makeup helps to keep the audience in good humor while the act is going on.

"Jerry the Janitor" is an amusing little sketch. Charles E. Murphy and Miss Rae Hamilton present it in a charming manner. Mr. Murphy makes

many quick changes and appears at unexpected moments from unexpected places as an entirely new character. In each of the parts he is clever. Miss Hamilton is pretty and sings so well that the audience clamored for more.

The experiences of a novice on skis is the subject of the moving pictures which end the show. He has many and varied experiences before he has finally had enough. The subject is good and is particularly interesting in Duluth, the real home of the sport in this country.

Taken as a whole the offering at the Empress this week is ahead of the ordinary and ranks with the best. It is ninety minutes of real entertainment. There will be three performances daily the rest of the week.

"OUR NEW MINISTER."

Rural Drama Is Sunday Offering at the Lyceum Theater.

"Our New Minister" at the Lyceum last night, attracted a small audience. Holiday festivities seemed to engross the attention of those who usually are playgoers. The play was written by Deuman Thompson and George W. Byrom. It is a humorous playlet and very acceptably enacted. The story is of an aggressive young preacher, the play deals with the career of an ex-minister, his daughter, Nance, and the new minister, Thaddeus Strong. Village characters complete the cast. Harbortable is the name given the village which is the locale of the play.

Ransom, who has served a term in prison for a theft he did not commit, although he helped the man who did commit it to clear himself with the result that the actual criminal escaped and Ransom was imprisoned, is the subject of a moving picture which is shown in the Lyceum.

A love story follows the logical playwright's course and leads to a happy termination. To be expected, Nance and the new minister being the principals in the romance.

"The New Minister" was presented yesterday afternoon and evening.

HOPWOOD PLAY OPENS AT THE LYCEUM.

Avery Hopwood, the author of the reigning comedy success of New York and the Maxine Elliott theater, New York dramatic success of "This Woman and This Man" in which Miss Minnie Victorson and her company will appear at the Lyceum this afternoon, tonight and tomorrow night has used the theme of estrangement of husband and wife united through the instrumentality of a child, and by treating it with the most tactfully artistry and restraint, which is more than usually sustained in the interpretation, has evolved an entertainment which offers many ways the most interesting offerings of the season.

ATTEMPT WAS MADE TO POISON BESSIE CLIFFORD.

Speaking of pluck, Bessie Clifford is pluck incarnate. This pretty girl who is pleasantly remembered in Duluth for her remarkable dancing "Twins" at the Lyceum, was cash girl seven years ago at the magnificent salary of \$1.50 a week. Being a cash girl is hard work—almost as hard as dancing the "Twins" and it is more than when your salary is \$1.50 per week.

Bessie went to thinking. Her mother kept an actor's boarding house in New York and the girl saw the dancers rehearsing. She went into a room and imitated them; that was the beginning of her efforts and soon she had a place on the stage. She brought youth, beauty, energy and originality to her work, and now at 21, she has an assured place on the stage. To see her dance is a joy.

There is another story that shows what she is. It might have happened in the day games when it would have been less interesting because more common. It shows what unusual pluck and courage this pretty little dancer has.

Watch her graceful and energetic dance and try to imagine if you can, doing your own thing, your own way, with a big hole in your instep and one on each side of the small of your back. That is what this girl is doing. She says the wounds will heal, but the scars will always be there to remind her of the strange experience that never happened outside a dime novel.

It is only one month since Bessie Clifford rejoined the "Three Twins" company in San Francisco. From June until September, she lay in an English hospital between life and death, and famous English doctors ransacked the books and lore of the ages for some light on her disease. She was poisoned

burned with powder and in danger of losing his eyesight. Henry Johnson, young son of County Commissioner C. O. Johnson, is suffering the result of the accidental exploding of a .22-caliber rifle. Young Johnson was hunting rabbits at the time of the accident but knows of no reason for the explosion which blew the breech out and tore the lock completely off.

GOOD BILLS AT THE ODEUM AND LYRIC.

Large audiences enjoyed the shows at the Odeum and the Lyric theaters yesterday.

"Sunshine in Poverty Row" is an interesting and contains many elements of human interest. "Winning Back His Love" is a dramatic film. "The Joke on Humphries" is a humorous playlet. Miss Maddox sings, "Wishing You All a Happy New Year."

At the Lyric an interesting film shows the life of a New York policeman. "The Runaway Motor Car" is a comedy film that appeals not only to owners of cars but also to folk who "get the dust." "Max Goes Skating" is a funny film. "The Three Twins" is an explanatory. Incidentally Max has a difficult time learning to ski.

ENTERTAINMENT AT THE Y. M. C. A.

Open House and Water Carnival Features on New Year's Day.

The usual New Year's water carnival will be held at the Y. M. C. A. this evening. The carnival will be held at the Y. M. C. A. this evening. The carnival will be held at the Y. M. C. A. this evening.

There will be indoor baseball and basketball games and a musical program will be given in the lobby this afternoon. The carnival will be held at the Y. M. C. A. this evening.

A musical program was given in the lobby of the Y. M. C. A. yesterday afternoon by the choir of the English Lutheran church. Miss Margaret Smollett was the soloist.

Miss Clara Meekison, organist and choir leader, Miss Margaret Smollett, Miss Jessie Johnson, Miss Alice Nelson, Mrs. A. F. Olson, Miss Tillie Meekison, Miss Marjorie Wenderly, Edgar Johnson, Ed Rank, A. F. Olson, Albert Meekison and Mr. Tangerman.

The vaudeville performance at the Lyceum was witnessed by about 250 people. Joe Horak led the band of noble gladiators around the hall. Horak proceeded nonchalantly in his hands. The business men in the evening gymnasium class defeated the afternoon class 21 to 19 and 21 to 16 at volleyball ball. The afternoon class was handicapped by the absence of a number of players.

W. J. Oleott did some fancy club swinging. Earle Baker sang a solo and Miss Nell Brown gave a piano solo. Hans B. Haroldson told some dialect stories. D. A. Willard threw some colored views of Cuba and Mexico on a screen and explained their significance.

The usual meeting for men was not held yesterday afternoon. A large audience enjoyed a concert of sacred music by the choir of the English Lutheran church.

GRAND FORKS AUTO EXHIBIT IN FEBRUARY.

Grand Forks, N. D., Jan. 2.—(Special to The Herald).—The second annual automobile show will be held here Feb. 7, 8, 9, and 10. A committee has been named by the Commercial club with Leslie Simons at its head to make arrangements for an exhibition that will eclipse anything of the kind yet given in the state. The auditorium, the largest building in the city and an ideal place for the displaying of cars has been secured for the show and already numerous large auto concerns have applications in for space.

Escapes While Seeking Bonds.

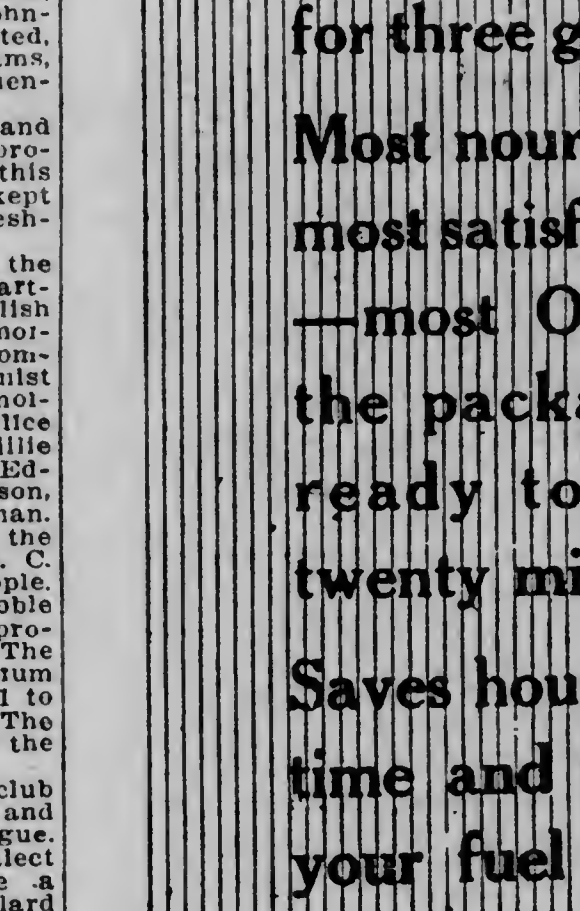

Bowbells, N. D., Jan. 2.—(Special to The Herald).—J. D. Link arrested at Coteau, Burke county, for violation of the prohibition law and bound over to the district court after a hearing in this city, escaped while out rustling a bond of \$200 which was fixed by Justice H. C. Henker. Messages have been sent in every direction to be on the lookout for him.

Neal Treatment for the Drink Habit Clinches "Sweep Off" Resolutions

Chinches—Swear-Off—Resolutions.

NO HYPODERMIC INJECTIONS—NO POWERFUL OR POISONOUS DRUGS—NO BAD AFTER

Transforms the Most Excessive Drinkers Into Confirmed Teetotalers.

Resolutions to "swear off" drinking are easily made. Just now thousands of people are counting on turning over a new leaf and writing "dry" on their first page of the new year.

ness for over-indulgence in drink will turn from liquor on New Year's day only to find himself irresistibly drawn back to old drinking ways by an intense craving which can only be satisfied with drink oft repeated. Many

a man does not drink because he "wants to" but for the simple reason that his will to quit is overpowered by this easily explained craving for liquor.

The excessive drinker is not a victim of disease. His system is impregnated with alcoholic poison that is taken too fast for nature to throw off and this accumulated poison causes the intense craving and desire which more drink and then more drink only

temporarily satisfies. The excessive drinker needs medical help as badly as the typhoid fever patient. Good resolutions are all right, but some drinkers suffer tortures during their long fought battles for self-mastery, and then fall. SAYS IT WAS

ALL A MISTAKE.

Otto Elchopp, 28 years old and a plasterer living at 229 Central avenue, who the police say attempted to commit suicide Saturday by taking carbolic acid following despondency over a loss in a card game, has a different version of the affair.

He explained to a Herald reporter this morning that the carbolic acid was taken through a mistake. He said that he thought that the bottle contained a gargle and says that he spit out the acid as soon as he discovered his mistake.

He also denies the story that he had lost any money in a card game.

Annual Meetings.

A number of the societies of Elm Swedish Lutheran church, Fifty-sixth avenue west and Elmer street, will hold annual meetings this week.

Thursday afternoon at the home of Mrs. E. E. Johnson of 5301 State street, the ladies' aid society will meet in yearly session. Saturday, the annual business meeting of the girls' sewing society will take place at the parsonage, 706 North Fifty-sixth avenue west and the congregation will hold its annual meeting at the church Friday evening.

Cantata to Be Sung.

A cantata, "The Story of Bethlehem," will be given this evening at Our Saviors' Norwegian Lutheran church, Fifty-seventh avenue west and Wadena street, by the choros of fifty voices. Several solos will also be given and the pastor, Rev. J. A. Berke, and others will make addresses.

Entertains for Nicee.

In compliment to her niece, Miss Jean Cochrane, who will leave today for Ann Arbor, Mich., to attend school, Mrs. L. A. Barnes entertained at 609 Saturday evening at her home, 331 North Fifty-seventh avenue west.

BRIEFS FROM CLOQUET.

Cloquet, Minn., Jan. 2.—(Special to The Herald.)—While Scammon is almost at past history the town which was called the town into existence by their saw-mill interests are evidently prospecting in the West as is evidenced by a talk with one of the promoters of Scammon, Harry K. Brooks, who paid Cloquet a visit. Mr. Brooks is making his headquarters in Vancouver, B. C., and the men who comprised the Brooks-Scammon company have purchased a large tract of timber land in the northwestern part of the province.

The name of the enterprise is the Powell River Lumber company, and D. C. Brooks of St. Paul is president. It is said \$2,500,000 will be expended in establishing the plant and developing the water power. Forty-five thousand horse-power has been developed, and part of this is to be used for the operation of a large sawmill which will be established by the same men. The first section of the paper plant will be ready for operation by early summer, and will have a capacity of 100 tons per day, to be increased within the year to 300 tons. The product of the concern for the next five years has been sold to parties in Canada and the United States.

TEACHING THE INDIANS.

Harvey Hanson and Wife Take Position Near Cloquet.

Cloquet, Minn., Jan. 2.—(Special to The Herald.)—Harvey Hanson, who was recently appointed to teach the Indian school in the village north of Cloquet, has been transferred from Sawyer, and with his wife and two children has taken up his abode near the school. He has been in the school and is a house-keeper, whose duty it has been to teach the Indian girls to sew and keep house. There are two sewing machines in the school and a quantity of material on hand to be made up, as it has been some time since the school has had any one in charge who has been capable of taking charge of this

part of the work. Mr. Hanson and his wife have been in charge of the school at Sawyer for several years.

BRIEFS FROM CLOQUET.

Cloquet, Minn., Jan. 2.—(Special to The Herald.)—Gretton of Duluth has been spending a week at the home of H. C. Brown.

The Silver Bell confectionery store in the East and has been sold by L. A. Hanson to Andrew Alsaga.

County Auditor Norman's little son, Joseph, is recovering rapidly.

Mrs. J. Swindale will entertain St. Paul, and Mrs. E. Keable have been spending a few days at Grand Rapids.

Mrs. Forman and son of Duluth were guests of Mrs. Forman's sister, Miss Elin Lindberg.

Allen J. McPherson and wife of Lake Umbagog were guests of the former's parents, J. W. Morgan and wife.

Mrs. W. K. McNair will entertain the Presbyterian ladies auxiliary Tuesday afternoon.

Joseph Loisel spent the latter part of the week in St. Paul, buying a hard-ware stock for the new firm of Loisel & Son.

Miss Anna Bentz is visiting friends at Little Falls, Minn., Jan. 2.—(Special to The Herald.)—Frank Kubka, laborer at the Hennepin paper mill, had two of his fingers and his thumb badly crushed by having those members caught by a falling tamarac log that he was handling.

Washington, Jan. 2.—President Taft was appealed to today by Former Governor Gifford Pinchot and his brother, Amos Pinchot, to cancel immediately without further hearing, the so-called "Cunningham" claim.

In a voluminous brief filed with the president, in accordance with permission given in a letter written to them by Senator Norton on Nov. 3, Mr. Pinchot and his brother contend that the record in the case "abundantly proves" that the claims are illegal and that the government is liable for the cost of the claims.

The charge also is made by the Pinchots that certain evidence of conspiracy was suppressed by agents of the land office in the case, and that in existing documents was not produced and that the government's case was "inadequately presented by counsel."

NEW YEAR IS WELCOMED

Noisy Demonstration Marks

Arrival of Father Time

With the Infant.

When the New Year came Duluth welcomed the infant, escorted by Father Time, with an excess of noisy enthusiasm that threatened to crack the dome of the sky. Most of the noise was confined to the hotels, as usual on New Year's eve, and was of a most pleasing character, but those not inclined to participate in these more exuberant festivities found opportunity in home, church and lodge hall fittingly to mark the coming of the new decade.

The most elaborate New Year's celebration was at the Spaulding, where Add Temple, Nobles of the Mystic Shrine, had a banquet and ball. This celebration was one of the most enjoyable that the Shriners have ever had on the eve of new year. The banquet hall was decorated with the most careful attention to detail, and the result that the hall presented a harmony of colors most pleasing to the eye. But the banquet hall celebration was for the Shriners, and in the lobby the public had a greeting of the most auspicious circumstances. Greenery adorned the chandeliers and was hung from pillar to pillar in the lobby. The ball room was similarly decorated and the electric room also. When the advent of the new year approached, not a vacant seat was to be found in either of these rooms, and the Superior street cafe had its quota of patrons.

E. H. Lee, managing owner of the Spaulding, was told by a pioneer resident of the city that he doubted if at any time in its history the hotel had been the scene of so pleasant a greeting of the new year as it was Saturday night. Mr. Lee and his staff were busy to perform a multitude of duties in a very brief space of time, but the Spaulding acquitted itself well and took the best of care of its many guests.

All the hotels had a large number of guests, and the favorite rendezvous of the New Year celebrants, there was a crowd such as is usual in that popular hostelry on the eve of the new year.

All the cafes in the city were filled and the merriment was general and contagious. The lobby was thronged with guests who had seats were now and then induced to give them up, and for a time the lobby was a scene of might share in the general enjoyment. The St. Louis is one of the places that in its seldom overworked in a celebration of the New Year and Saturday night.

At the Lenox there was the usual New Year's gaiety and a dinner given by W. M. Ferguson for twenty-five Duluthians who are in the habit of hunting. Saturday night they didn't hunt, for a sumptuous game dinner. At midnight there was so much noise in the Lenox that the big clock on the Superior street side toppled, but it did not fall.

Music and music helped to enliven the evening at the Holland, which gave a double extra of music and dancing. There, as at the Lenox, Christmas was the big day, and the New Year was greeted less noisily.

Away from the downtown district, the New Year was welcomed in many different places. Watch meetings were held in churches, lodge meetings got together in their meeting places, and in a large number of the Duluth homes New Year parties were held.

The weather man did what he could to induce no one to stay within doors. Music alternated with less harmonious atmospheric disturbances in the city, and in all the hotels where there usually is a large number of guests, made for it Saturday evening.

The Spaulding a temporary platform orchestra of twenty-eight pieces entertained the guests of the hotel.

At the St. Louis there was special music, and the Holland devoted much attention to this feature.

SAVING CLAIMS ARE ILLEGAL

Washington, Jan. 2.—President Taft was appealed to today by Former Governor Gifford Pinchot and his brother, Amos Pinchot, to cancel immediately without further hearing, the so-called "Cunningham" claim.

In a voluminous brief filed with the president, in accordance with permission given in a letter written to them by Senator Norton on Nov. 3, Mr. Pinchot and his brother contend that the record in the case "abundantly proves" that the claims are illegal and that the government is liable for the cost of the claims.

The charge also is made by the Pinchots that certain evidence of conspiracy was suppressed by agents of the land office in the case, and that in existing documents was not produced and that the government's case was "inadequately presented by counsel."

Regarding the effect of monopoly in Alaska, the brief says: "It is evident that an enormous saving can be made by the people of Alaska, to the whole Northwest and

NEW OFFICERS OF ST. LOUIS COUNTY TO TAKE UP THEIR DUTIES

There will be three new faces in the galaxy of St. Louis county government and five changes tomorrow, when the men elected to office in November will assume their duties. Except for these five all heads of departments succeeded themselves. It follows that the new officials will bring with them other men and women to succeed those who have held minor positions, perhaps, but these five are the only new department heads to come into office now.

John R. Meinung will succeed William J. Bates as sheriff. His chief deputy will be Victor Dash. Mr. Meinung has not announced any other appointments, but it will be his privilege to fill the number of other deputies.

S. W. Gilpin will succeed J. B. Middlecott as judge of probate. His clerk of court will be Arthur E. Templeton. W. M. Archer of Virginia succeeds Charles Adams as court commissioner and E. A. Dyer of Hibbing succeeds Lyonel Ayres as county surveyor.

N. A. Young, who has been assistant superintendent of schools, succeeds the man who has been his chief, S. W. Gilpin, who becomes judge of probate. Mr. Meinung, Mr. Archer and Mr. Dyer are new in the county service.

NO STOCK OR GRAIN MARKETS

There were no stock or grain markets today.

The Tuolumne Copper Mining company has declared an initial dividend of 15 cents a share, action on the dividend having been taken at a meeting of directors in Butte late Saturday. The dividend will be paid Feb. 15 when \$120,000 will be given to the holders of 800,000 shares of the Tuolumne stock. Ore shipments will be doubled hereafter, daily shipments scheduled at 250 tons. The Tuolumne has a large cash surplus amounting to \$100,000. The directors are of the opinion that there is no need for so large a surplus as it now holds.

CAUSE DISTURBANCE ON INCOMING TRAIN.

William Barrett and Ben Osborn left the New Year "spirits" get the better of their judgment while coming to Duluth from Cloquet on a passenger train yesterday. They were imbibing freely from a bottle which they had purchased and induced Edna Starr to join them. It was not long before she was also under the influence, and helped them create a disturbance.

Before they got to Duluth the men put the woman on the platform and locked the doors so that she could not get inside. She had not been for the conductor she would probably have been severely frozen if she had not lost her footing and fallen off the coach. When they got to Duluth the conductor arrested all three of them, sending them to headquarters. The men were charged with being drunk and disorderly and the woman with being drunk. All entered plea of guilty when arraigned today. Barrett was fined \$25 and costs or twenty days, Osborn got \$15 and costs or fifteen days and the woman was released on a suspended sentence.

KILLED FELLING TREE.

Thief River Falls, Minn., Jan. 2.—(Special to The Herald.)—David Maccoe of this city was instantly killed in the woods near Baudette, Friday afternoon. He was employed by one of the logging firms and was in the act of cutting down a tree when another one was felled near him, the top of which struck him fairly on the top of his head fracturing the skull. The body of the deceased was brought home and interred in the Catholic cemetery today. He leaves a wife and seven small children.

MINNESOTA LEGISLATURE IN SESSION AND ELECTS CAUCUS SLATES INTACT

COMMITTEES APPOINTED

Notify the Governor That Both Houses Await His Message.

Albert Pfaender Is Supported By the Democrats for Speaker.

Clapp to Be Renominated at Republican Senatorial Caucus.

(By a Staff Correspondent.)
St. Paul, Minn., Jan. 3.—(Special to The Herald.)—The thirty-seventh session of the Minnesota legislature began at noon today with the formal organization of both houses, after which committees were appointed from each body to notify the governor that the legislature is in session and is ready to receive any little remarks he may care to make—which he will make to the extent of 15,000 words tomorrow. The senate was called together by Lieutenant-Governor Sam Y. Gordon, and, with Senator Collier as

POSTAL SAVINGS BANKS OPENED

But Few Deposits Are Made on the First Day.

Houghton, Mich., Jan. 3.—The first postal savings bank in Michigan opened in the Houghton postoffice today. There were only a few depositors in line for the opening.

Mantowoc, Wis., Jan. 3.—The first postal savings bank in Wisconsin was opened today in this city and about a dozen deposits were made. Special accommodations have been made for the depositors. The savings bank is in charge of Assistant Postmaster A. H. Buchner, who was the first depositor.

Mantowoc has a large foreign population, especially of Poles, and they are expected to become patrons of the bank.

VACANCIES ALL FILLED

Supreme Court of the United States Again Complete.

Van Devanter and Lamar Take the Oath of Office.

Washington, Jan. 3.—The two vacancies on the bench of the supreme court of the United States were filled today when Judge Willis Van Devanter of Wyoming, and Judge Joseph R. Lamar of Georgia, each took the oath of office as associate justice and began immediately the performance of the duties of that position. For the first time in nineteen months the bench was complete and for the first time since the organization of the court, nearly a century and a quarter ago, one president had commissioned within a single year five men to sit upon the bench.

The ceremonies attending the elevation of the two justices were simple throughout. Chief Justice White administered to each the oath of allegiance. The administration of this oath took place behind the closed doors of the robing room, just before the court took its place on the bench, at noon.

In open court, immediately after the justices had taken their places, Chief Justice White announced that the new members were present and ready to take the oath. He referred to the judicial oath. The clerk of the court was directed to read the commissions. Then Justice Van Devanter, having been named first by the president, took the oath first and was escorted by the marshal to the chair on the extreme right of the chief justice. Justice Lamar, after he had subscribed to the oath, was shown to his seat, which was at the extreme left of the chief justice.

DUNN WINS WITH EASE

Republican Caucus on the Speakership Is a Tame Affair.

Oscar Arneson of Herman Elected Chief Clerk of House.

(By a Staff Correspondent.)
St. Paul, Minn., Jan. 3.—(Special to The Herald.)—Thanks to the weakness of the middle-of-the-road county opposition forces and the industry and astuteness of a steering committee, appointed during the day as a result of district caucuses, last night's Republican house caucus was a pretty tame affair.

H. H. Dunn of Albert Lea secured the nomination for speaker over J. A. Burquist of St. Paul by a vote of 52 to 22.

The proposal to take the appointment of committees away from the speaker and turn it over to a committee on committees, an imitation of national insurgency proposed by the middle-of-the-road county opposition, was defeated, 15 for and 67 against.

The caucus, according to agreement, was called to order by George A. Mackenzie of Gaylord. F. Kunz of Minneapolis nominated R. C. Dunn of Princeton for chairman and his election was unanimous. In taking the

ANOTHER AIRMAN HAS A CLOSE CALL

James Radley Encounters Adverse Currents in the Air.

Los Angeles, Cal., Jan. 3.—James Radley, the English aviator, began the last day of the Los Angeles aviation meet with a narrow escape from death. Although the day was calm and there was no wind about the starting point in front of the grandstand, drifting gusts of wind caught the Englishman's Heriot monoplane and for a second or two it danced and wobbled in the air in a manner that startled the spectators.

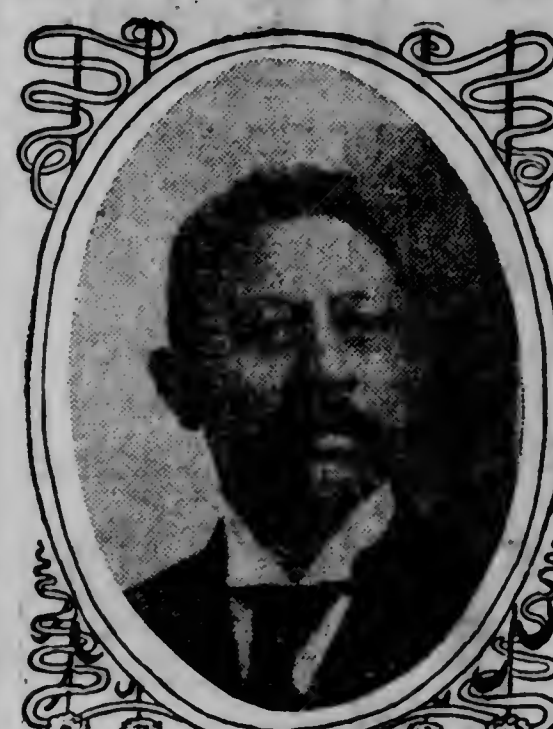

Radley's encounter with the air currents was unexpected. He was totally unprepared for it but regained control of the machine and immediately landed. A few minutes later he accepted an offer from a purchaser to buy his machine. He said he would fly at the San Francisco meet but that after that he might abandon the sport that had claimed so many victims.

GRANVILLE FIRE SWEEP

New York City Suffers a Loss Estimated at \$250,000.

Failure of Water Supply Gives Flames Big Start.

Troy, N. Y., Jan. 3.—The business section of Granville, N. Y., a village of 5,000 inhabitants, about fifty miles north of this city, was swept by fire early today with a loss of \$250,000. The absolute failure of the water supply at the critical moment owing to a stoppage of the intake pipe at the reservoir, which supplies the village, gave the flames full sway. The local firemen, assisted by volunteers from several nearby towns, finally strung long lines of hose to the bank of the Pawlet river and then pumped a feeble stream up to the scene of the blaze, but their efforts were of little avail. The sudden shift of the wind saved the residential section of the village, driving the flames back over the already cleared business section, to complete their work there.

There was no loss of life and no injury.

The fire was discovered by the 19-year-old girl operator in the telephone exchange on Main street, and she gave the alarm at once. Although the office where she worked was almost constantly threatened by fire and twice was ablaze, she remained at her post and kept her single wire in commission without interruption. She sent

Daring Holdup of Overland Limited on Southern Pacific.

Two Bandits Secure Booty From Over 100 Persons.

Ogden, Utah, Jan. 3.—Southern Pacific Passenger Train No. 1, the Overland Limited, westbound, was held up by two masked bandits at an early hour this morning at Reese, nine miles west of Ogden. William Davis, a negro porter, was shot and instantly killed. A. W. Taylor, another porter, was mortally wounded and a passenger was slightly wounded. One hundred passengers on the train were relieved of their valuables. The robbers did not attempt to enter the express car, but devoted their entire attention to the Pullmans, where they made a rich haul among the California-bound passengers, holding the train for more than an hour.

The train proceeded westward. The body of the dead porter and the

SIXTEEN INJURED IN N. Y. COLLISION

Two Trolley Cars Come Together at Foot of a Hill.

New York, Jan. 3.—Sixteen persons were injured, two fatally, in a collision between two Brooklyn trolley cars early today. One of the cars ran away on a long incline leading from an elevated line to the surface tracks and crashed into the other in the dense fog. Nearly every passenger on both cars was injured to some extent. The motorman told the police that his brakes refused to work, presumably on account of the condition of the rails, which were slippery from sleet and fog.

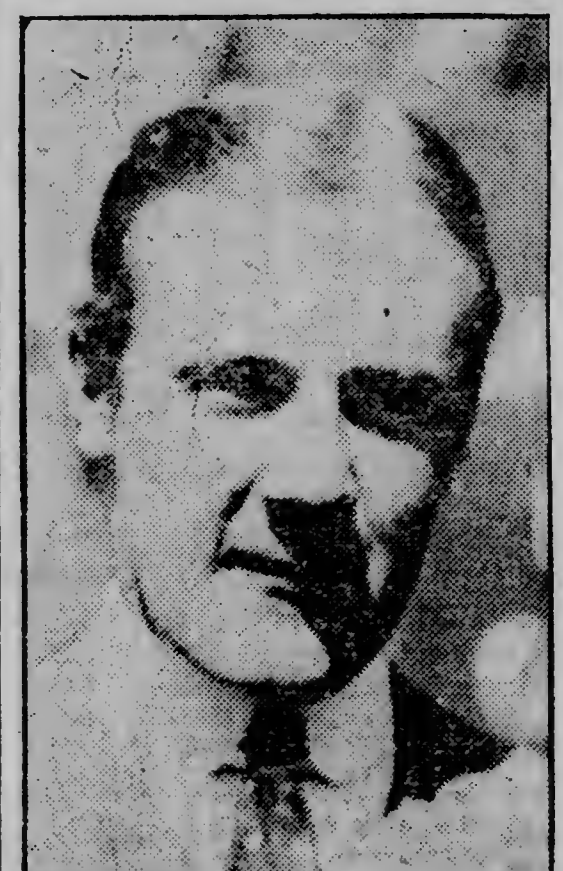

A new low temperature record for this winter in Duluth was fixed this morning when the official thermometer at the weather bureau on the hill read 30 deg. below zero. Fortunately, there was only a light wind with the low mark.

At 10 o'clock this morning, the temperature was 22 deg. below zero in the tube. H. W. Richardson, the local weather forecaster, says that the mercury will rise slowly during the day and night and by tomorrow afternoon should be above zero again. Tonight will be cold, but not so cold as last night.

Although the lowest temperature was recorded this morning, the weather yesterday was really more severe on account of the high wind. The temperature never got above 4 deg. below zero yesterday and in the afternoon the wind attained its maximum.

TREASURER IS SHORT \$7,500

H. A. McConville of Fargo Admits Having Used County Funds.

Fargo, N. D., Jan. 3.—(Special to The Herald.)—Great surprise was felt here this morning over the announcement by H. A. McConville, retiring county treasurer, that he was short \$7,500. McConville had been county treasurer for two terms, or four years, and began to use the county funds soon after his first election, but so skillfully covered up his transactions that no one knew of it. He had been a deputy in the office four years before becoming chief and his familiarity with the office made it easier for him.

McConville announces that the county funds were spent because of illness in his family and through his desire to give his children college educations. The retiring official neither drinks, smokes nor gambles, and is a leading worker in religious circles.

BEMIDJI, MINN., HAS GAINED 133 PER CENT.

CRIMINALS CREMATED

Set Fire to Building While Surrounded By Police.

Hundreds of Bluecoats and Guardsmen in the Attack.

The Men Believed to Have Been Murderers of Policemen.

London, Jan. 3.—One of the most remarkable criminal outbreaks ever occurring in London took place in broad daylight today not far from the heart of the city. A band of suspected anarchists directed its deadly fusillade from a building temporarily converted into a fortress against hundreds of policemen, reinforced by troops and guardsmen, mounted and on foot who had besieged the criminals, finally setting fire to their fortress. Six of the desperadoes were burned to death in the ruins of their improvised citadel. The affair took on the dimensions of a veritable battle. The civil authorities finally became masters of the situation. At one time the besieging force called for machine guns, but these were not brought into actual use. A member of the ministry, Home Secretary Winston Churchill, visited the scene when the fighting was at its height and assisted in the work of

City Adopts New Form of Government at Election.

Springfield, Ill., Jan. 3.—By a vote of 2,698 ayes to 3,629 nays, Springfield yesterday adopted the commission form of government. Despite the blizzard, nearly 7,000 voters, about 60 per cent of the voting population went to the polls.

DENSE FOG CONTINUES

Marine Traffic in New York at Complete Standstill.

Many Ocean Liners Are Held at Their Anchorage.

New York, Jan. 3.—The heavy fog or "Scotch mist" which has been enveloping the Atlantic seaboard for the last twenty-four hours, showed no signs of lifting early today and marine traffic in and out of the port of New York was at a complete standstill.

Fourteen trans-Atlantic and coastwise steamers, both inward and outward bound, tied up at their mudhooks off the Ambrose channel lightship and the quarantine station waiting for a chance to get under way. Eight other ocean carriers are due today but will be probably held off Sandy Hook by the fog.

Sixteen persons were injured, two probably fatally, when two crowded Brooklyn rapid transit trolleys crashed together early today on the incline at Sixty-seventh street and Third avenue, Brooklyn. The front platform of the rear car was wrecked and the motorman and several passengers were badly hurt.

An all-night search was kept up by tugs in the Long Island Sound for two young boys, Raymond Collins and William Rothkrans, who went out on a duck shooting expedition in a 12-foot dinghy and were lost in the mist off Larchmont.

Among the steamers due here today and which are no doubt held up on the ocean by the fog, are: Alliance, from Genoa; Maracibo, from San Juan; Breslau, from Bremen; California, from Puerto Mexico; and Clara, from Puma.

MUCH MEAT CONDEMNED

Nine and One-Half Tons Sent to City Incinerator By Inspector.

Over Half of Meat Condemned Is Veal—Shops in Better Shape.

In the annual report which he filed with Health Commissioner H. E. Webster today, Plumbing Inspector George Kragger strongly recommends a discontinuance of the practice of allowing sanitary sewer connections to be made with storm sewers.

He declares that it has come to be a most serious problem in the city. He states that in the dry season the stench from the catch basins of storm sewers which have sanitary sewer connections emptying into them is "awful." The sewers are not being flushed as is necessary and the odor is a nuisance to many parts of the city afflicted in this manner.

Inspector Kragger also refers to the practice of allowing sanitary sewers to run into the different creeks in the city. He asserts that it is most insanitary, causing not only much unpleasantness for the residents along their banks, but breeding disease. He believes that as far as possible every sanitary sewer now dumping into creeks should be cut out as soon as possible and connections made with sanitary sewers wherever it can be done.

Referring to sewer connections he states that the hands of the plumbing inspector's department are tied. For proof he refers to the figures in his report. Out of 195 connections recommended to the council, but forty-five were made. The owners of the property in the other cases, he says, went to the aldermen of their respective wards and had the recommendation nullified. He spoke of conditions in the creek, where many have been discontinued where they dumped into it.

During the year he collected 2,602.25 in fees made \$19 inspections, issued 925 permits and supervised the installation of 4,912 fixtures.

Stott Briquets. "The modern wonder fuel" is for sale by all fuel dealers. \$6.25 a ton. Matchless for kitchen ranges.

That the best advertising which they can get is to throw their places open to public inspection, is the theory upon which Bakery Inspector Joseph Pratt has been working the six months the ordinance has been in force, according to the report which he filed with Dr. H. E. Webster, health commissioner, this morning.

He states that in all places his first object has been to maintain cleanliness, adding that since the ordinance went into effect there has been a big improvement in the bakeries, hotels, restaurants and candy factories. He explained that some of the buildings first not arranged to comply with every provision unless they are rebuilt.

During the six months he has been working Inspector Pratt has condemned two bakeries, one ice cream plant, and a considerable quantity of dough and other ingredients which go into the making of foods and delicacies manufactured or baked in the city. Three shops have been stopped from going into business in basements and out of six arrests made, two convictions have been secured.

Altogether 1,435 visits have been made to different establishments in the city, divided as follows: Bakeries, 349; hotels, 230; restaurants, 250; confectioneries, 72; ice cream plants, 107; candy kitchens, 295; and stores, 114. These do not include inspections of delis, wagons.

The inspector states that he has found a general willingness among the owners or managers of the different places to comply with the requirements of the ordinance. They thought that some of the requirements were too passed, but practically all of them have come to a realization of the importance of complying with the law. The ordinance was passed to improve sanitary conditions, to secure better light, to better the working conditions of the employees, and generally, to safeguard the health of the public.

Nearly 19,000 pounds, or 9 1/2 tons of meat and poultry were condemned by Meat Inspector Leo Bernhardt of the health department since he assumed his duties last April. The record is the most remarkable made since the office was established, and will probably stand in a class by itself when compared with the reports of all other departments of the city government, now in course of preparation.

Since the office of meat inspector was created no such quantity of meat has ever been condemned. In several different months Inspector Bernhardt ordered more meat sent to the incinerator to be destroyed than was previously condemned in any entire year.

Most of his attention has been devoted to the wholesale houses and shipments received at the depots, as shown by the report which he filed this morning with Health Commissioner Webster. Practically every veal carcass which has been shipped into Duluth has been examined as it came from the express cars, before it could be taken into coolers or refrigerators in wholesale houses. The same is true of a big part of other meats which have come into the city by express.

Several attempts to "dope up" meat which was unfit for consumption have been nipped in the bud. Sometimes preservatives have been restored to and in other cases efforts have been made to put off meat on retailers after killing the odor by freezing it. In one instance about half a ton of beef was condemned as it hung in an ice box. The wholesaler refused to sell it at a cent less than the market rate and was keeping it, awaiting a favorable opportunity to palm it off on some one who would not be likely to know the difference.

Approximately half the meat condemned was veal, 9,517 pounds being

ordered to the incinerator. Most of this was expressed into Duluth by farmers tributary to the city. During the hot months it was not properly cared for and had spoiled before it left the express car.

Other amounts condemned were as follows: beef, 3,026 pounds; poultry, 2,761 pounds; pork, 1,515 pounds; mutton, 199 pounds; sausage, 872 pounds; lard, 12 pounds; tongues, 195 pounds; livers, 267 pounds; hams, 57 pounds; hearts, 17 pounds; kidneys, 170 pounds; and bear, 95 pounds. The inspector also destroyed 129 pounds of fruit and two cakes.

Since April he has made 6,155 visits to wholesale houses and 1,896 visits to retailers. Both classes have been directed to make numerous material improvements, particularly in sanitary lines. After two or three shops had been arrested the others took the warning and lost no time in getting into line. Some of them had sausage machines which looked as though they hadn't been cleaned since they were bought. Others cleaned their counters with the drippings from their ice boxes and washed their hands in the same water they used for cleaning their implements. They are now in far better shape generally than for years.

In addition to other duties, 490 cattle were inspected, 5,892 veal, 142 pigs, 230 sheep and 2 bears.

JANUARY TERM OF DISTRICT COURT

The January term of the district court begins tomorrow.

There will be 148 cases for trial. Sixty-one of them are new jury cases, twenty new court cases and twenty-two new divorce cases, making a total of 103 new cases.

From the November term, sixty-three cases were continued, jury cases to the number of thirty-eight were continued, court cases to the number of twenty-three, and two divorce cases. Judge William A. Caut will be the presiding judge at the coming term of court.

The grand jury will go into session at 11 o'clock Wednesday morning. The chief matter for consideration is the case of the state against Joseph Schmitz, who is accused of the murder of George Hiley.

County Attorney John H. Norton will appear for the state at this term of court.

WE ARE OVERSTOCKED

\$75,000 More Merchandise on Hand Than We Should Have As a Result of Unfavorable Weather Conditions. Stock Must Be Reduced or Once.

The magnitude of our purchases makes it necessary for us to place our orders for fall business early in the summer. It is impossible, of course, to determine the future weather conditions. We find now that we were too optimistic in our purchases. The size of our stock must be reduced quickly. We are employing heroic measures to accomplish the big task. Merchandise in every department of this store will be sacrificed in price regardless of the cost or profit. Our loss will be your gain.

REFUSED TO ACCEPT REGISTERED LETTER.

If you're away from home and you get a registered letter from your wife, accept it, or she may have you arrested. That's what happened to Tony De Flora, who was arrested in a warrant sworn out by his wife charging him with child abandonment. He was at a child's birthday party at the home of Ashland and refused to accept the registered letter she sent him. Mrs. De Flora then sought the authorities and swore out the warrant on which he was arrested. He is held for an examination, which was set for Thursday afternoon. Bail was fixed at \$300.

Laxative Sent Free to Try

It may be taken for granted that there is no family of any size that goes very long without needing a laxative. If you don't know of a good laxative, or the laxative you are using is losing its effect, we want to call your attention to Dr. Caldwell's Syrup Pepsin, which thousands of families are using successfully.

We have scores of letters from mothers, and scores from prominent men saying they are using it personally and giving it to their families, men like Mr. C. K. Smith of the Traffic Clearing House, Pine Bluff, Ark., and Mr. George B. Turner, a lawyer of Harlan, Ky. The thousands of mothers who use it themselves and give it to their children would take too much space to mention.

The reason they prefer Syrup Pepsin is that it is a mild, gentle laxative—tasteless, and does not gripe—effective and yet so mild that babies can take it. Its tonic ingredients invigorate the body and strengthen the stomach and bowels so that they again do their work naturally. If you have been a victim of salts, pills, and strong cathartics you will discard them when you once use Syrup Pepsin.

You can buy a fifty cent or one dollar bottle of any drugstore, but before doing so you may want to try it free. If so, send your address to Dr. Caldwell, free sample bottle. Then, being convinced, as so others are doing, and buy it in the regular way of your favorite drugstore.

Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the reader any advice on the subject free of charge. All are welcome to write him. Whether for the medical advice or the free sample address him Dr. W. B. Caldwell, 541 Caldwell building, Monticello, Ill.

MUST PAY FINE.
Chicago, Jan. 2.—Congressman William J. Moxley's oleomargarine company today lost in the United States circuit court of appeals his fight against payment of \$29,000 fine charged against it because of failure to pay the 10 cents a pound revenue tax on a quantity of oleomargarine manufactured by it. His claim was that use of palm oil as a coloring and food ingredient did not violate the internal revenue laws.

LOSS OF \$1,000,000.
Little Rock, Ark., Jan. 3.—Fire originating in the Hollenberg Musical company's building, destroyed an entire block of business houses here this morning. The loss of the buildings and stocks of the goods amounted to \$1,000,000.

The fire was discovered at 3 o'clock this morning on the third floor of the Hollenberg building. It was under control shortly after 9 o'clock. The burned buildings were owned by Gov. Donaghey, the Calk estate and the Elizabeth Shall estate.

JOHN DID NOT GET BACK TO DULUTH
St. Paul, Jan. 3.—(Special to The Herald.)—John J. Lewis, who lives in Duluth, came to St. Paul a few days ago with plenty of clothes, but no suit and a place for patients who wish to leave the city. The tubercular patient at the poor farm is filled to capacity, having twenty-nine patients. No room can be made there until one of the patients dies or recovers sufficiently to be discharged.

TWO CHILDREN DROWN.
Utica, N. Y., Jan. 3.—A boy, aged 3 and a girl, aged 7, children of Mr. and Mrs. George Radell of this city were drowned New Year's day in a stream near here. The bodies of the children were found today a mile below a hill, where they were coasting.

Town Seems Doomed.

DUNN WINS WITH EASE

(Continued from page 1.)

Chair Mr. Dunn assured all sections and all interests a square deal, and they got it.

Burquist Proposed.

W. I. Nolan of Minneapolis proposed Mr. Burquist for speaker. J. N. Johnson of Canby seconded the nomination, saying that certain interests have dominated legislation during past sessions, and that these interests have taken a hand in the speakership fight and are more or less active in the support of "some one" for speaker in order to further their influence in the house. That man is not Mr. Burquist, he said. Ernest Lundeen of Minneapolis also seconded the nomination of Burquist in an eloquent and impassioned speech, saying that the vote on this contest would determine whether the state is to be controlled among the progressive states, or is to be a retreat.

Lewis C. Spomer of Morris proposed H. H. Dunn as a man "full grown, mature and with admittedly good judgment and ripe experience." The single issue mentioned by those nominating Mr. Burquist without naming it, is not the only issue before this session, he said. There are forty others to watch Republicans are committed. Re-arrangement, equal taxation and other issues are equally matters of principle. So is a better administration of the public domain.

Seconding speeches for Dunn were made by T. M. Ferguson of Barker, C. R. Fowler of Minneapolis, Frank Hop-

kins of Fairfax and George A. MacKenzie of Gaylord.

Dunn Nominated.

A roll call was demanded, and it resulted in the nomination of Dunn by a vote of 55 to 28, as follows:

Dunn—Aker, Anderson, Boothroyd, Borgen, G. W. Brown, L. D. Brown, Campbell, Christie, Congdon, Converse, Crane, Denzer, Diersner, H. H. Dunn, R. C. Dunn, Edwards, Ferguson, Fisher, Fowler, Frankson, Fuchs, Greene, Haftten, Hauge, Healy, Hennon, Hoffman, Hopkins, Jellinek, Knapp, Kneeland, Kunze, S. N. Lee, Lennon, Libera, Lydard, Mackenzie, McNeil, Nash, A. Nelson, H. Nelson, Sze, Palmer, Papke, Perry, Ole Peterson, Reed, Rice, Spooner, C. R. Stone, Thayer, Warner, Washburn, Westcott, White—28.

Burquist—J. J. Anderson, Burquist, Conley, Davis, Harding, Holmberg, C. R. Johnson, J. N. Johnson, J. T. Johnson, Klemmer, Knutson, I. J. Lee, J. E. Lee, Lundberg, Lundeen, McMartin, Mattison, Nolan, O'Neill, Orr, A. J. Peterson, J. E. Peterson, Putnam, Rines, Tolbertson, Rustad, Sampson, E. Warner, Webb—29.

Absent—A. V. Anderson, Davies, W. T. Stone—3.

Excused from voting—Holten. Representative Mattison moved that Dunn's nomination be made unanimous and his motion was adopted without a dissenting vote. G. H. Mattison and George A. MacKenzie were named by Chairman R. C. Dunn to escort the nominee to the platform. Mr. Dunn said that he hoped the house would be able to hand the Republican party back to the people at the end of the session in better shape than it had

found it at the beginning. As to the charge that "a certain candidate for speaker" was pushed by a "certain interest," he said, "Let's forget it." "I shall keep religiously all pledges and promises that I have made regarding issues that will come before the house," he said in conclusion, adding that he would give every section of the state a square deal. His address was brief, pointed, earnest and full of feeling and sincerity.

Mr. Burquist was called upon, and made a brief talk thanking his supporters for their staunch loyalty.

Arrested for Chief Clerk. Following out the agreement of the steering committee, which met in the afternoon, the following house officers were elected:

Chief clerk, Oscar Arneson of Herman.

First assistant clerk, G. O. Hage of Crookston.

Second assistant clerk, Jerome Rice of Minneapolis.

Enrolling clerk, R. J. Thoreen of Stillwater.

Engraving clerk, Crawford Sheldon of Little Falls.

Sergeant-at-arms, George H. Deans of Foreston.

Assistant sergeant-at-arms, Barney P. Seitz of Red Wing.

Postmaster, William Scanlon of Minneapolis.

Assistant postmaster, Ole O. Halman of Murray county.

Chaplain, Moses M. Maxwell of St. Paul.

All these nominations were made unanimously.

W. I. Nolan of Minneapolis then sprung what might have been a sen-

sation had there been votes behind it, in the shape of a resolution calling for a committee on committees to take away from the speaker the power of appointing committees. L. A. Lydard of Minneapolis moved that the resolution be laid on the table, but at the request of Chairman R. C. Dunn he withdrew the motion and a roll call was ordered, which resulted in the defeat of the resolution by a vote of 15 for and 67 against, fourteen of the Burquist supporters voting against it.

On motion of N. J. Holmberg of Renville the caucus went on record against the employment of any persons under 17 years of age; which will put an end to the employment of children of school age as pages.

Eighth District Caucus.

At the eighth district caucus, held yesterday afternoon, the unit rule was adopted except as to the speakership; this exception being made in order to allow representatives Webb and Rines to vote for Burquist. They were the only eighth district members who did not vote for Dunn at the caucus. It was unanimously decided to oppose the plan of taking the appointment of committees away from the speaker. A. L. Richardson of Aitkin was endorsed for chaplain, though he did not land the place. Representatives Rines, Ferguson and Knapp were appointed members of the steering committee which selected the candidates for house positions.

The Democratic members of the house also held a caucus, but decided not to act on the speakership until it was learned what the Republicans did, the idea being that if Dunn needed a few

votes to win, the Democrats might furnish them. After appointing Clinton Robinson of St. Charles, Albert Fraender of New Ulm, J. D. O'Brien of St. Paul, F. E. Minnette of Sauk Center and L. Wisniewski of Foley as members of a steering committee, the caucus adjourned until this morning.

The meeting of Democratic Senators called by Senator Works turned out to be merely a get-together gathering, and nothing was done.

Clapp and the Senators. Here is a situation that is peculiar. Indeed, the Minnesota legislature has elected senators before without any abounding enthusiasm, but tonight the Republicans are going to declare for Moses E. Clapp and Jan. 17 the legislature is going to elect Moses E. Clapp, both with as little enthusiasm as ever attended a senatorial election in Minnesota.

But a senatorial election unattended by enthusiasm lasts just as long, draws just as much pay, and offers quite as great opportunity for glory as a senatorship offered on the jewel-set gold platter of the wildest enthusiasm.

Senator Clapp will be nominated and elected, but—

Disregarding pledges made in fear-ful awe of a people suspected to be progressive and suspected to favor the progressive of Clapp, disregarding the pledged members who will vote for Clapp because they fear the same thing that those feared who pledged themselves for him, disregarding those Republicans who will vote for Clapp because there is nobody else handy to vote for, there are votes enough lying about, if they were free and unafraid to elect almost any good man United States senator.

Even leaving the pledged votes as

they stand, still there are enough votes lying about to beat Clapp.

Even adding to the pledged votes those who fear to vote against Clapp, because they believe their constituents want him elected, probably there are enough votes to beat the junior senator.

Nevertheless, Clapp probably will be nominated and elected because there is no candidate against him and because there is no organization of the opposition.

Most of the Republican members of both houses have signed the call for tonight's Republican caucus, which in itself, coming from the Clapp forces, was a confession of fear. The Clapp folks want an early caucus so the opposition will not have a chance to size itself up and realize how formidable it really is. If the opposition gets a hint that it is as large as it really is, it may summon up the courage needed to adjourn the caucus to a later date, and then nobody can tell what may happen.

But the chances are ten to one that there will be no adjournment.

Pittsburgher Claims \$30,000 Damages for Alienating Wife's Love.

Pittsburgh, Pa., Jan. 3.—Pittsburgh's chas of quiet rich reed, a distinct shock when George B. Kress, aged 60, filed a suit in court asking \$30,000 damages from John A. O'Hara, also aged 60 years, charging the latter with having alienated the affections of Mrs.

Kress, who is under 40 years of age and looks 25.

Both parties are wealthy. Kress being the head of the manufacturing firm of George B. Kress & Co., while O'Hara is the head of a great contracting firm, his grown son, being his business partner. In addition Kress and O'Hara have been friends from childhood.

The very quietness and lack of detail attending the filing of the suit has set Pittsburgh to guessing and investigating. No detectives were employed by the aging Kress, who, on finding what he considered proof that his wife, twenty years his junior, was slipping away from him, took up the detective work himself, and for almost two years, he avers, he has followed his wife and his former chum, O'Hara, until, it is alleged, he has woven the chain about them most completely. The \$30,000 which he asks of O'Hara, according to his attorney, is only for the loss in business he has sustained in the past two years through giving his attention mostly to the trailing of his wife. Mrs. Kress was formerly Miss Amanda Miller of Easton, Pa.

Foley's Kidney Remedy—An Appreciation.

L. McConnell, Catherine St., Elmira, N. Y., writes: "I wish to express my appreciation of the great good I derived from Foley's Kidney Remedy, which I used for a bad case of kidney trouble. Five bottles did the work most effectively and proved to me beyond doubt it is the most reliable kidney medicine I have ever taken." Sold by all druggists.

WEST END RESULTS OF CLUB'S WORK

Hillsiders Have Obtained Results in Way of Civic Improvements.

Annual Meeting of Organization Will Be Held Sunday Evening.

SOME THINGS THAT THE HILLSIDE CLUB SECURED.

An extension of the Piedmont avenue street car line to Tenth street.

An ordinance, providing for the establishment of building lines on Tenth and Eleventh streets.

The new English school, built on Tenth and Eleventh streets, for which was strong among the hillsiders.

The grading of Piedmont avenue from Third to Tenth streets.

The new English school, built following a long agitation started by the hillsides club.

Friday, Jan. 6 is the date selected for the annual meeting of the West End Hillside Improvement club, which will probably be held at the English school house, Twenty-third avenue west and Tenth street.

Officers are to be elected, reports of the past year's progress read and plans for the future outlined. In many ways, the club has had a successful year and its members are enthusiastic over the prospects that are ahead.

The club has taken an active hand in affairs of the hillsides people for a number of years. It was the first to demand the establishment of building lines on Tenth and Eleventh streets, and the first to demand the grading of Piedmont avenue from Third to Tenth streets.

The extension of the Piedmont avenue street car line from Nineteenth to Twenty-third avenue west and Tenth street was brought about by a long agitation started by the hillsides club.

At the time of the completion of the line last summer, members of the club held a celebration. The hillsiders are deriving much benefit from the extension and feel that they owe much to the club.

In line with the Piedmont avenue extension was the cutting down of the grade of the street during the afternoon and evening, but became brisk again during the night and those who were out for a walk this morning encountered the cold snap at its most intense stage. Its 7 o'clock temperature, below zero was registered, there was only a light wind.

Temperatures from 30 to 40 deg. below zero prevailed this morning throughout the city. A light wind from the west, however, kept the temperature from falling lower.

At the meeting of the hillsiders Friday evening, the club members established a new record. The club has secured the extension of the line on Tenth and Eleventh streets and is now striving to make a permanent record on all of the hillsides streets.

For the past few months, the hillsiders have given most of their attention to the matter of water extensions and water rates. It is probable that there will be considerable discussion on the subject at the meeting of the hillsiders Friday evening.

The club, says Peter Olson, president, is not quite satisfied with the attitude taken by the water board in the matter. It is probable that the club will go to the board of directors as to the probability of the club as to going on record as being opposed to the board.

The present officers of the club are Peter Olson, president; Frank Sorvig, vice president and H. J. Weber, secretary and treasurer.

Dr. and Mrs. Martin Aune, who have been guests for the past week at the home of the Aune family, returned yesterday to their home at Minneapolis.

The monthly meeting of the Missionary society of Grace church will be held tomorrow afternoon at the home of Mrs. A. N. Hopkins of 2821 North Twenty-third avenue.

Rev. James Sauker, superintendent of the Red River valley district, will preach at the church last evening. The service will be held at the church, 1615 West Superior street.

The meeting was of a routine nature. Mrs. H. J. Hest of 212 Exeter street has gone to Minneapolis on a few days' visit.

Revel meetings will be started this evening at the First Norwegian-Danish church and will continue for a month. Rev. Edward Erickson, pastor, will be in charge, but there will be other speakers from time to time.

court, and the house by Justice C. L. Brown. The usual resolutions providing for the appointment of employees were adopted in both houses.

The rules committee were announced as follows: Clague, Cashman, Gundersen, Fossheim, V. L. Johnson, Hager, Rustad and Boyle.

House-Mackenzie, Congdon, Fowler, C. E. Stone and Westcott.

The Stephens-Saugstad and Farrington-Frosthouse contests were filed in the senate. The Emmel-Ahman contest did not make its appearance, and seems to have been dropped. Following the organization both houses adjourned till tomorrow, when Governor Eberhart will be inaugurated and will deliver his message.

The house members drew for seats, the senate already having taken care of that matter.

Democratic Caucus.

The house Democrats caucused this morning and decided to stand for Albert Praeger for speaker. A permanent organization was formed with F. E. Minnette of Sauk Centre as chairman and Clinton Robinson of St. Charles as secretary. A senatorial caucus probably will be held tomorrow.

Tonight the Republicans will caucus on the senate floor, and all rumors to the contrary notwithstanding, Clapp will get the nomination. James G. Tawney has been in the city and seems to have taken with interest to suggestions that he be a candidate against Clapp, but nothing is likely to come of it.

Walter J. Smith of Eveleth took office this morning as state auditor. He was preceded by a state auditor, and Guy A. Eaton became oil inspector.

Employers' Liability.

The legislature this morning was presented with a communication from the commission appointed to draft an employers' liability law asking until Jan. 20 for the report of the members of the commission.

According to the law under which the commissioners have been acting, the new law should have been presented this morning. The three members have been unable to agree on a number of points and they have asked further time which will be given.

"One difficulty we are up against," said W. E. McIlwain, state labor commissioner, "is the fact that there are forty-seven states in the Union. If we impose too great a burden upon industry in this state, firms will be at a disadvantage in doing business in other states when it comes to competition."

FIREMEN THANKFUL FOR HOT COFFEE AND LUNCH.

The Duluth firemen, who were called out early Sunday morning to fight the fire which gutted the stocks of the Duluth shoe company and the Wieland shoe company, were very grateful to the people of the city who supplied them with hot coffee and a lunch. None of them had been home since they were called out in the bitter cold to fight the fire. The hot coffee, which they were able to swallow, was given them by the people of the city.

They were on the ground until noon and a large number did not leave the scene until late in the afternoon.

TOO MUCH WATER RUINED HOUSE

Allentown, Pa., Jan. 3.—Phineas Fogg, who left the gas burning while touring the world in eighty days, was killed today in his hotel here. Elizabeth A. Powell, who left for a tour of the world last year, found it to her fine home today she found it to be a grave mistake not to have attended to the water problem in advance. She had been told that the water was good, but she had not thought when she left of how cold it was.

The pipes had frozen and then burst, and instead of the beautiful home she had found, she found a water problem. There was skating in every room, and the water was everywhere. The papering of the house was all soaked off. From all indications the pipes had been frozen for a month, and ever since then the property had been in a state of confusion. It was valued at about \$16,000, a practically ruined.

TUNE HUMMED BY BARBER

And Letter Found By Libby Result in Divorce Decree.

Pittsburg, Pa., Jan. 3.—"Blue eyes, blue eyes, I love you," hummed Harry J. Wilson, proprietor of the Duluth House at earlier stage at Butler, Pa. Every other day, as he shaved F. W. Libby.

Wilson, the handsome barber, seemed so addicted to the blue eye business that he had been hummed by the Libby, on his way to the barber shop, in unmitigated nauséous handwriting in his wife's bedroom, beginning "Blue eyes, I love you, but you," etc., he whistled to himself and did not notice the letter.

The result was that Judge Galbraith had issued a divorce decree in the case of F. W. Libby from Alice Libby. Harry J. Wilson, the handsome barber, had been hummed by the Libby, on his way to the barber shop, in unmitigated nauséous handwriting in his wife's bedroom, beginning "Blue eyes, I love you, but you," etc., he whistled to himself and did not notice the letter.

Free of Charges.

Lancaster, Pa., Jan. 3.—Alma H. Vaughn and Dr. James R. Hull, accused of the murder of Prof. John H. S. Wilson, a prominent educator, were freed of the charges against them yesterday after Judge Galbraith refused to grant the further continuance asked by the state.

BOOTS OR BEER, WHICH?

Many a Man Drinks Alcohol While His Children Wait.

When a man selfishly persists in spending money for beer and whisky that ought to go for the comforts, and, perhaps, the very necessities of life for his wife and children, such a man needs treatment.

Some would say that he should be put under restraint and forcibly kept from wasting that which belongs to his family even more than to himself. If, however, this man can be made to give up drink by a treatment administered without his knowledge, it would certainly seem to be a wise thing to do, but in searching for such a treatment the wives and mothers of drinking men should be careful that they deal with honest people and get an honest treatment.

The White Ribbon Remedy is honestly made by honest people, with the sincere desire to help the homes that are being injured and, perhaps, even destroyed by alcohol. It is odorless, tasteless, contains absolutely no habit-forming drugs, and may be administered secretly if desired.

It has proven its efficacy so many times that those who earnestly desire to win the drinker from the alcohol habit may begin treatment with confidence that excellent results will follow.

White Ribbon Remedy costs \$1.00 per box, or six boxes for \$5.00; will be obtained at the local drug store, or may be obtained of the Hegan & Co. stores, New York city, or direct from the White Ribbon Remedy Co., Boston, Mass.

SUREST KIDNEY MEDICINE KNOWN

Few Doses End the Most Severe Backache or Urinary Trouble.

The blessed relief that follows the use of Pape's Diuretic is a revelation to sufferers from backache or kidney, bladder and urinary disorders.

The time to cure kidney trouble is while it is only trouble—Before it settles into Dropsy, Gravel, Diabetes or Bright's Disease.

Pape's Diuretic acts at once upon the kidneys, bladder and urinary system; cleanses, vitalizes and regulates these organs, cures and prevents at the same time. It is a powerful, yet gentle, and completes the cure within a few days. The moment you suspect any kidney or urinary derangement, or feel a constant, dull backache or the urine is thick, cloudy, offensive or full of sediment, irregular in passage, attended by a sensation of scalding, you should begin taking Pape's Diuretic as directed, with the knowledge that there is no other remedy in the world, which will effect so thorough and prompt a cure.

Misery in the back, sides or loins, sciatic headache, inflamed or puffy eyelids, nervousness, rheumatism, and darting pains, heart palpitations, bilious stomach, prostatic trouble, dizziness, sleeplessness, indigestion, worn-out feeling and other symptoms caused by inactive, sluggish kidneys, simply vanish. Use Pape's Diuretic (especially at night), smarting, discolored water and all bladder misery ends.

Your physician, pharmacist, banker or any mercantile agency will vouch for the responsibility of Pape, Thompson & Pape of Cincinnati, Ohio, who prepare Pape's Diuretic—50-cent treatment—sold by every druggist in the world.

COLD WEATHER DELAYS TRAINS

Intense Cold Has Effect on Railroad Traffic in Northwest.

Train traffic is still delayed by the storms that are sweeping over the routes between here and Chicago. This morning the Northwestern was delayed for about a hour, while reports state that the train due here at 10 o'clock is also behind its schedule time.

The train over the Northwestern, which left at 8:25 arrived at 10:30 and the officials say that the weather between here and Chicago is still so severe that traffic is very likely to be delayed for some time. In cold weather the trains are delayed, and it is hard to get the steam working right, and until the weather moderates somewhat, it is very probable that all trains coming to Duluth may be slightly behind their running duplicate.

The Soo train from Chicago was delayed for about a hour, while the South Shore was about an hour. The Soo is due here at 7:15 and the South Shore at 10:30.

Conditions are better than yesterday, however, the weather is still full and to the troubles of the trainmen. Although conditions are better today, there is still a bad stretch of wind swept country along both the Soo and South Shore routes.

For either acute or chronic kidney disorders, for aching and painful urinary irregularities take Foley Kidney Pills. A host of testimonials of medicine for kidney and bladder disorders. Sold by all druggists.

DEVELOPMENT OF THE COAL FIELDS

Both in Alaska and United States Is Strongly Recommended.

Washington, Jan. 3.—Development of the coal fields, both in Alaska and the United States, "with due regard to the principles of conservation," is strongly urged by Commissioner Dennett of the general land office, in his annual report to the secretary of the interior. He wants the coal delivered to the barge of the consumer at the cheapest possible price, but at the same time wants legislation which would prevent the coal fields from falling into the hands of the monopolies.

In concluding, the commissioner recommends that the provision of fuel for the agricultural entries of coal lands be extended to Alabama and Minnesota.

FIREMEN CALLED OUT FOUR TIMES

Busy Holiday for Duluth Department, But Fires Are Small.

The fire department had four runs in the severe weather yesterday, but fortunately all of the fires were extinguished before they reached a serious stage.

The first run yesterday was to the Scott-Graft mill shortly before noon. The fire was in a large room, and the firemen were called out to a small blaze started by people who were attempting to thaw out water pipes. At 1:30 p. m., a water heater at the home of R. B. Merrick, 2120 North Second street, was filled with steam, frightening the occupants. The firemen were called out to a small chimney fire at Seventh avenue east and Fifth street.

We Take Orders for Embroidering

Great Throngs of Eager Buyers Ushered in the January Sale of White Goods Today

BUYING in this Annual January White Sale began with a great rush this morning. The sharp winter atmosphere seemed to incite people to brisk buying. And such a fine lot of white goods they had to select from—the entire store, transformed into a veritable sea of white, afforded most pleasing suggestions at every turn. The fascinating beauty of the dainty garments, embroideries and sheer white things, with their appended low prices—the lowest quoted anywhere—won recognition from all, and the selling bids fair to make this the greatest first-day of any similar event we have ever held.

Wednesday you will find most desirable choosing from these—

35c Corset Covers, 25c: Of selected muslin trimmed with four rows of lace in front and one at back, three rows ribbon drawn or V-neck, embroidery trimmed; regular 35c value, sale price 25c.

49c Corset Covers, 35c: Trimmed with four rows lace, heading and ribbon drawn; regular 49c value, sale price 35c.

75c Corset Covers, 59c: Covers, the material of which would cost what we ask for them a garment, trimmed with new laces and embroideries, ribbon drawn; regular 75c value, sale price 59c.

Up until this time there have been no women employed in this office but a young woman appeared this morning and she will do the stenographic work, it is said.

ASHLAND OPPOSES THE INDIAN LID

Business Men, Brewery Agents, Ministers and Priests Agree.

Ashland, Wis., Jan. 3.—(Special to The Herald.)—At a representative gathering of business men, brewery agents, ministers and priests with the Indian agent last night, sentiment was practically unanimous against attempting to cut off the sale of liquor to Indians by the enforcement of the Indian treaties, as advocated by Anti-Liquor League. A committee of nine was appointed to confer with the state board of liquor control to get them to cut out the sale of liquor to Indians voluntarily. If this fails, agitation will follow.

WANTED—A DENSER POPULATION.

According to some census figures put out the other day, Minnesota has only 257 people to the square mile.

Many states have a sparser settlement than that, but most are more thickly settled.

Some of them are settled so densely that it really amounts to congestion, though those states seem content with this condition in spite of the fact that it means distress in many cases, and not enough to eat for thousands.

Clearly, a readjustment of the population is needed, to the end that the relation of population to soil shall be better proportioned to the ability of the soil to support the population.

Clearly, Minnesota's population of only 257 persons to the square mile—and that counting in nearly six hundred thousands people in the three large cities—calls for some plan of development that will increase the density of the state's population by bringing people willing to work to the rich but idle soil that is willing to respond with wealth to the wooing of the tiller.

The legislature can put before itself no worthier objective than that of increasing the density of population in Minnesota by covering the millions of rich acres now idle in Northern Minnesota with a denser population.

The legislature has before it no higher duty than this, no task calling for so much patriotism and public spirit, no opportunity so certain to yield large results and to make this session a shining epoch in the state's history.

Minnesota has 2,075,708 people, and at 257 to the square mile, that figures out 80,767 square miles of land in the state.

Wisconsin, which still has much unsettled land in its northern portions, has a population of 422 to the square mile. That is not a dense population—Rhode Island has 308.5 people to the square mile, Massachusetts 418.8, New Jersey 337.7, Connecticut 231.3, New York, 191.2, and Ohio 117.

If Minnesota had as dense a population as Wisconsin—422 to the square mile—its population would be 3,408,367 instead of 2,075,708—an increase of 1,332,659—and most of the new citizens would be in Northern Minnesota, settled on its fertile acres and producing wealth for the greater glory of the state and the benefit of every part of the state.

That increase isn't difficult to manage. The legislature can do it if it will take wise and business-like steps toward the development and settlement of Northern Minnesota.

The reason Minnesota ranks so low among the states in density of population is that its area of idle acres is so large. If its population were as dense as that of Rhode Island it would have 41,070,019 people; but it is to be hoped that it will not have that many people for many years to come. If its population were as dense as that of Ohio, Minnesota would have 9,449,639 people, and there is ample room for that many people in Minnesota without unduly crowding the cities.

The legislature has an opportunity to add a million people to the population of Minnesota in the next decade, if it will make wise use of the latent resources of the idle acres of Northern Minnesota.

A FRUITFUL DECADE.

The World's Work Magazine celebrates its tenth birthday with its current issue. The World's Work is a good magazine, and its career is worth reviewing. What leads The Herald to speak of the matter, however, is the suggestive review made by the magazine of what this short period of ten years has brought about.

It is significant, by the way, of the puny staying powers of those debaters who tried to tell us that the twentieth century began Jan. 1, 1900, that they were not busy a year ago proclaiming that to be the end of the first decade of the century. If they were right, the first decade of the twentieth century ended with December, 1909; but the date passed without a revival of the old controversy—for which much thanks. The period reviewed by the World's Work is the first decade of the twentieth century.

Says that magazine: "So many things have happened these ten years that the early volumes of the magazine take one into another world. You will discover, if you read the first number, that President McKinley was cartooned as 'the Emperor,' and if he should be re-elected there were those who foresaw that he would have imperial power. Our negotiations with England looking toward a canal across the Isthmus were yet unsuccessful. The danger of a Japanese-Russian war had just begun to appear. The Boxer trouble had culminated with the siege of Peking. Mr. Taft was still on the bench, his Philippine career not yet having begun. The Boer war was going on and Cecil Rhodes was alive. Queen Victoria, of course, was on the throne of England. Herbert Spencer was living. Leo XIII was pope. Li Hung Chang was the great figure in Asia; and the Japanese statesmen and fighters who have since become famous were hardly known even by name, except Prince Ito. The United States Steel corporation had not been formed, nor even the Northern Securities company, for the great era of industrial and financial organization was just beginning.

"Not one of the institutions endowed by Mr. Rockefeller and Mr. Carnegie had been founded (except Chicago university). The Carnegie Institution and the

Foundation for the Advancement of Teaching, the General Education Board, the Rockefeller Institute for Medical Research, were all to come. Nearly all our important universities and colleges had other presidents than those they have today. John Fiske was writing his histories; Mark Twain was lecturing in Europe to pay his debts; Bret Harte was still alive; Marconi had not sent a wireless message; and of course the aeroplane had not been made. The New York subway was an unfinished ditch, and there had yet been no 20-hour train from New York to Chicago. Yellow fever was yet a scourge, for Dr. Reed and Dr. Lazear had not made their heroic demonstration of the methods of its transmission.

"But the reports of some activities of ten years ago have a familiar sound today. In the first number of the magazine this paragraph appeared: 'The most culminating performance of the campaign has been Governor Roosevelt's unparalleled tour of speckmaking—unparalleled even by Mr. Bryan's. Two months of public speaking, from Wyoming to New York, is a physical feat that hardly another man could perform. 'Does it not tire you?' some are said to have asked Governor Roosevelt. 'On the contrary, it's great sport,' he replied. The truth is, whether you admire him or regard him as tooth and claws in politics, Governor Roosevelt is by all odds the most interesting personality in our public life, and the man that has won a more spontaneous enthusiasm from the people that like him than any other man of his time. The worst mistake of judgment that can be set down against him is his fear that in the vice-presidency itself, if he win it, is likely to wake up and recall the days when men found it a perch instead of a shelf.'"

And so it came to pass.

TRYCUT AT LAST.
Peculiar interest is felt by The Herald in the opening today of the United States postal savings banks. This form of government enterprise has been consistently advocated by The Herald for years—indeed this paper was a pioneer in the promulgation of the idea of introducing the system into this country. Today the postoffice department is putting the plan into operation, and Bemidji, one of Duluth's near neighbors, is one of the cities where the trial operations are to be conducted.

Under the regulations adopted by the postoffice department for the conduct of the savings banks the plan ought to appeal strongly to wage-earners. The rate of interest paid is small—only 2 per cent—but all deposits and all accretions of interest are backed by the United States government. There is a limit of \$500 put on the aggregate that any individual may have on deposit at a given time, but in case any depositor accumulates more than that amount provided States bonds, in denominations of \$20 and multiples of twenty up to \$500. This provides for a ready-to-hand and indubitable investment, and as the bonds will pay one-half per cent higher interest than the deposits, the arrangement provides an additional incentive to the use of the postal bank.

Deposits can be made by any person 10 years old or over, and once made they can be withdrawn by nobody but the depositor; the accounts of married women cannot be touched by their husbands; deposits must be in sums of one dollar or more, but by the application of the credit stamp system the practice of saving can be begun with as small an amount as ten cents, and the use of the same system should make the postal banks appeal to children by giving them both opportunity and encouragement to cultivate the habit of saving.

Deposit certificates will be issued, and as these are to be non-transferable and non-negotiable they will represent a saving fund rather than a temporary deposit which will be liable to reduction by drafts or checks.

As put into operation today the plan is the result of long study by postal and banking experts, and it should meet with a response in every city where it is being tried out that will lead to an early extension of the service to all postoffices in the country.

MULTI-MILLIONAIRES' MITES.

During the year just closed the very rich people of our country gave away \$163,197,125.62. Gave it away, understand, without asking or expecting any return for themselves—unless one is to recognize personal gratification, personal advertising or perhaps personal satisfaction or balm to one's own feelings as purchasable commodities. Among the donors were John D. Rockefeller, Andrew Carnegie, Mrs. Russell Sage, and other men and women of notable affluence. Andrew Carnegie leads the list with total presents of \$20,000,000. Who gave the least is not explained, but it probably was represented by the last two figures of the grand total—possibly even by only the last figure.

Now stop and think a moment of another side of the great gifts. Not one of the givers actually felt the lack of what he parted with, unless an exception might be found in the case of David Rankin, Jr., of St. Louis, who gave away his entire fortune of \$3,000,000 for educational purposes. Under the theory that "it is more blessed to give than receive," not one of these donors of dollars reaped any real benefit from his act. The hard-pressed man or woman who sacrificed some personal joy or comfort to give a child a Christmas or birthday toy that would bring pleasure, profited immeasurably by that act over the gain of any or all of the financial riches and queens who distributed so lavishly of their superabundance.

It is probable, too, that the humbler gift brought more joy to the recipient than did any or all of the millions given by the very rich, for it not only represented wealth to the child, compared with his other possessions, but it brought with it a spirit that cannot accompany the presentation of any small part of abundance.

According to the doctrines of the Great Teacher, the poor widow who gave her mite was more blessed in that act than were the rich men who gave but a moiety of their vast substance. In the presence of the enormous presentations of the multi-millionaires our own gifts may look small and insignificant. But when we consider the spirit that prompted the lesser gifts, a spirit that led to the giving in spite of personal need of the amount of the gift, and the pleasure that came from knowing that it was a personal sacrifice that gave the joy to the recipient, who would trade places with the multi-millionaire in the matter of sharing his goods with others?

THE NORTH DAKOTA LEGISLATURE.

For the special interest of its many readers in North Dakota, The Herald has made arrangements for full reports of the doings of the legislature of that state, which convened at Bismarck today.

H. D. Paulson, who is also representing the Grand Forks Times, will keep The Herald's readers posted on the work of the legislature. Mr. Paulson is well equipped to perform this work in a satisfactory manner, having acted in the same capacity at the last session of the legislature.

Established Fact.
Tospeka Capital: The census bureau surprised nobody by its report that the least densely populated state in the Union is North Dakota. It has proved that at many elections.

TALKS WITH THE STATE PRESS

In a Recent Suggestion.
Fallen Journalist: The Minneapolis Journal is making a highly creditable fight for clean and honest city government. But why does not the esteemed Journal take up the question of a commission form of government? That seems to be the most satisfactory and practicable solution of the evils of municipal rule.

The Sentinel's suggestion is one that Minneapolis well might consider seriously, and perhaps eventually she will do so, for many students of the commission form of government are of the opinion that its rapid advance in public favor means that in due time every city will adopt it, modified as it must be to meet the needs of local conditions. The greatest defects of American administration are admittedly found in municipal government, and the unfortunate experiences of Minneapolis herself have sent danger signals to attract attention to the urgent need of radical departure from the old lines of municipal government and the way of finding remedial ways and means.

Not Nominally No Names.
Winona Independent: "Clark As Good As Speaker," says a Washington letter, "is a very much better speaker than a certain speaker who might be named."

That's right, there's no use stirring up that mess again, because the gentleman, that is to say, the individual to whom reference is made may have a stir or two left in him.

Will Swap Stunts Soon.
Little Falls Transcript: The Democratic brethren in congress will not be too busy attempting to do things in the way of legislation that will benefit the country, but will be busy with their own as well as of the opposition, to longer put in their time solely in harassing Republicans in their movements.

Not Quite a Threat.
Ada Herald: A North Dakota editor shot two dispatches to the press yesterday, one of which was a threat to say whether or not they were delivered to the press yesterday.

This paragraph has a grimly hopeful tone.

Reply to An Inquiry.
Cambridge Star: We noticed in the papers this week a long report from a legislative commission in which it was stated that the state of Massachusetts had agreed to pay compensation for laboring men injured in the course of their employment. Would it be any having their interests sincerely at heart who do not propose to do this?

Yes, in the language of today, "You bet." Billy McEwen is a member of that commission.

Not a Spavined Lady.
Le Sueur News: A lady in Wisconsin who is said to be a spavined medicine by mistake. It wasn't that, but she was a spavined lady.

But would the effect have been otherwise if the lady possessed a spavin?

Wages and Prices.
Elk River Herald: An increased wages means an addition to the price of commodities, and if the price of commodities is increased it will be impossible to reduce them, so the wages and prices will be reconciled to higher prices.

Why the Reconciliation?
Haven't heard of any separation, except from the fact that reconciliation with that seems hopeless.

Ever So Much Obligated.
Pillager Herald: Senator Knute Nelson has been very much obliged to the many, many and trade reports, which is very valuable for reference to the public mind.

There is a nucleus for such an organization in Northern Minnesota's over-representation in the legislature.

Not All for One Brainerd.
Brainerd Dispatch: The public press chronicles the death of a man who was a member of the legislature. There are several people in Brainerd who do not propose to take any chances on such dangerous excursions.

Not all the citizens of that ilk make their home in Brainerd.
Brainerd is welcome to them. Brainerd is a great development and improvement center.

A Half-Cent Coin.
Cleveland Leader: The idea of the half cent as currency has not in the past harmonized with American notions of the value of money. It is a coin that has seemed too insignificant to bother with. But American notions of the value of money are changing, and it is probable that an effort will be made to introduce a half cent coin into the country's coinage.

The lack of the half cent in our money is a serious matter. The members of the United States millions of dollars every year. Competition has become keen in business that producers and middlemen figure their prices down to the finest point. The difference of a half or even a quarter of a cent in the cost of such things as flour, sugar and soap means in the aggregate thousands of dollars to them.

And that fraction of a cent as valuable to the buyers as to the sellers. Yet when a certain cloth is advertised for sale at 45 cents a yard and a woman buys three yards of it, she pays 135 cents, because she can't stand over \$1.12 1/2. With eggs at 45 cents a dozen, she pays 25 cents for a half a dozen. The odd half cent goes to the seller. Never does the purchaser get the benefit of it.

Among the more than 90,000,000 people in the country, the loss from this cause must be enormous. In the case of any one family of average size it will amount to a great sum in the course of fifteen years. Aside from the absence of the half cent coin to meet the half cent prices is unnecessary. None should feel too proud to accept half cent prices as unreasonable. Manufacturers are not. Neither would the greater number of people who make the money for the money to live here. There money in even smaller fractions and the senselessness of waste of all kinds is taught from the cradle.

The age of conversation has begun in America. What form it will take is not so certain. But it will be the age of the people to get down to the value of the money they are earning. The last most of them work hard to earn. The half cent is by no means too trivial to take into account.

THE OPEN COURT.

(Readers of The Herald are invited to make free use of this column to express their ideas about the topics of general interest. Letters should not exceed 100 words—the shorter the better. They must be written on one side of the paper only, and they must be accompanied in every case by the name and address of the writer, though these need not be published. A signed letter is always more effective, however.)

SAYS BLIND PIGS ARE RUNNING WIDE OPEN.

To the Editor of The Herald:
In today's paper I was reading a piece on the liquor question by Veritas, stating that the government agents acting in Minnesota deserve the highest praise would like to know for what? Blind pigs are running wide open here and I would think myself selling whiskey to the Indians, so I know just what I am talking about. Yours truly,
JOHN ANDERSON,
Lumberjack.

APPEAL FOR EGYPT EXPLORATION FUND.

To the Editor of The Herald:
Archæology is fast giving us a new antiquity. The Egypt Exploration Fund, which was founded in 1882, has headquarters in London and in Boston, has since that time brought to light more than 100,000 years of Egyptian history. The fund is now in need of money to carry on its work, and it is to the generosity of the people of the United States that the fund appeals.

TWENTY YEARS AGO

Taken From the Columns of The Herald of This Date, 1890.

George Barnes has returned from Cedar Falls, Wis., accompanied by his bride, formerly Miss Edith Briggs, who is a niece of Chief Briggs of West Duluth.

Creditors of the Hall bank at the West end are not likely, they believe, to get over 25 cents on the dollar, although T. O. Hall assures them that he will pay in full.

The West Duluth Land company expects to spend \$200,000 this year in putting the blast furnace plant on a good working basis. Extensive additions will be made to the plant, which is now capable of making only pig iron.

A very pretty wedding took place on New Year's night in St. Paul's church, when Harry Seymour of Chicago and Miss Minnie Moore of this city were married. Frank Sellers of Chicago acted as best man. The ushers were Messrs. J. F. Merriam, Peyton, Tear, Samuel Bradley and a number of others. The bride, Miss Moore, sisters of the bride, acted as bridesmaids. The ceremony was performed by Rev. W. M. Barker, rector of the church, and Mrs. L. H. Higgins of Chicago. The bride's sweet little attendant, Page Morris, eldest daughter of Judge Morris, spread flowers before the bride and groom as they left the church. A reception was held at the bride's home, and among the guests were Mr. and Mrs. Seymour, Mr. and Mrs. Judge and Mrs. Morris, Capt. and Mrs. Grady, Mr. and Mrs. Bishop, Rev. Mr. Barker, Mr. Barker, Mr. Barker, Mr. Loman, Dr. and Mrs. Allen, Miss Armstrong, Miss Godwin, Miss Allen, and a number of others.

The funeral of Newton T. Estey was held yesterday afternoon at Endion Baptist church, under the auspices of William A. Gorman pastor. G. R. Estey, brother of the deceased, was the casket bearer.

Mr. and Mrs. C. F. Craig returned yesterday from a three weeks' wedding tour, and will reside for the present at the Spaulding.

Charles Nelson came in from Luton, near Grand Marais, in a sailboat with a ton of fish. He returned yesterday with a boatload of groceries. It is a perilous trip at this season of the year.

Creove & Nickerson, instalment goods men of Minneapolis, will open a branch in Duluth.

James H. Cully, a fish dealer of Cleveland, Ohio, is expected to locate in Duluth.

Is yet uncertain on account of the slowness of collections, when the first payment will be made to the depositors of Bell & Eyster's bank.

Miss Ephie Austin has left for her home in Stillwater after visiting several weeks with friends in Duluth.

Andrew Erwin, an electrician of Fergus Falls, is in Duluth and expects to make his home here in the near future.

County Attorney Sherwood expects to leave for Galveston as soon as his term of office expires.

DIES SIX WEEKS AFTER BEING REPORTED DEAD.

William N. Cadranat, a carpenter, residing at 524 Third avenue, who was reported as having died about six weeks ago and was reported to an undertaker as dead, was only prevented from being taken to the morgue by his wife, died yesterday at his home.

It was only about two weeks ago that he called on another undertaker, who told him that he was still alive, that time and told him of the occurrence. He is survived by his wife and several children. The funeral arrangements will not be made, pending the arrival of a brother from Chicago.

HYPNOTIZE BY WIRE

Is New Stunt to Be Tried By Negance Mining Man.

Nevadine, Mich., Jan. 3.—(Special to The Herald.) Vol. W. Goudge, master mechanic at the Volunteer mines on the Cascade Iron range, has resigned and intends to go on the road as a hypnotist.

Mr. Goudge has changed his name to John Wicks, the latter being his real name, and soon will give his performance at Gwinn. Among new features will be hypnotizing subjects over the telephone.

Goudge has been studying guides for sold and expects to be said that he has become a proficient in the art of mind reading and hypnotism.

McCann Taken to Prison.

Chicago, Jan. 3.—Former Police spectator Edward McCann, who was arrested on the telephone for being sentenced to an indeterminate sentence of one to five years imprisonment, was taken to the state prison at Joliet today.

Spirits for Rheumatism

The increased use of sprits for rheumatism is causing considerable discussion among the medical fraternity. It is a wonderful cure when used properly. It is a powerful and taken properly. The following is the formula: "To one-half of good whiskey add one ounce of Sarsaparilla Compound, one ounce of Sarsaparilla Compound. In tablespoonful doses before or after meals. The ingredients of this drug have these ingredients or quickly get them. Any one can use this formula. This formula was published last winter and thousands were promptly benefited. It gives immediate relief.

BIG BULGE IN WHEAT

Bulls Drive Shorts to Cover Southwestern Weather Unfavorable.

Foreign Markets Strong, Visible Decreasing—American Supply Increases.

Duluth Board of Trade, Jan. 3.—The customary New Year's bulge got away in good shape today and the markets advanced steadily and rapidly. A really bullish aspect of the world's situation is the reality with which Western consumption has overtaken the influx of wheat. In the last five weeks stores have decreased 150,000,000 bu. Factors generally were bullish and the longer worked them for all they were worth. Related shorts were driven to refuge. The market closed strong and buoyant, support returning after the temporary dip. The noon May wheat advanced 1/4c from Saturday, July closed at \$1.09 1/2, and was offered at the opening at \$1.10. Cash was 2 1/2c under May. The Winnipeg market was strong and buoyant. Crushers picked up a little seed and at one time the cash market was only 1c under May but at the close had returned to the previous basis of 1c under May. May gained 6 1/2c. Cuts gained 1/2c to 3 1/2c an acre and barley was unchanged. May during advanced 1/2c to 92c.

News was generally bullish today, although sentiment had more to do with putting up wheat than actual facts. Shorts who had put on the late decline and the later advance were forced to scramble hurriedly to cover. The market opened strong on higher cables and bullish news from Argentina and severe cold weather in winter wheat states in this country. The continental demand for wheat was in evidence, buyers being frightened out of their complacency by the Argentine crop. The abnormal cold weather in the Southwest was looked upon as a bullish factor by the bulls because of possible damage to the wheat in the Argentine. The widespread snow in the Northwest includes Texas and Oklahoma. The widespread snow in the Northwest was driven about by wind and the wheat, said dispatches, is not uniformly covered.

World's shipments were smaller than the previous week. Shipments were 488,000 bu against 11,720,000 bu in the previous week and 8,720,000 bu last week.

There was a fair demand for cash wheat both in the Northwest and the West. Moderate interest in the situation. Receipts at all primary markets are decreasing. The market is feeling the effects of declining receipts. The market is feeling the effects of declining receipts.

GOVERNOR EBERHART SUGGESTS MANY IMPORTANT REFORMS

GOVERNOR BURKE OF NORTH DAKOTA GIVES ADVICE TO ASSEMBLY

ECONOMY IS SUGGESTED

Urges Great Care in Constructing New State Buildings.

Favors Election of United States Senators By Direct Vote.

Makes Plea for Adoption of the Initiative and Referendum.

Bismarck, N. D., Jan. 4.—(Special to The Herald.)—Governor John Burke, Democrat, was for the third time inaugurated governor of the state of North Dakota this afternoon, and the reading of his message to the members of the legislature in joint assembly was the principal feature of the ceremonies. Other elective officers of the state were inaugurated at the same time and took the oath of office. The legislature then adjourned for one week to give Lieut.-Governor Burdick and Speaker Hanley time to arrange their committees.

The important recommendations by Governor Burke have to do principally with the appropriations that will be made by the assembly at this session. Economy in all things is asked by him, and he submits a statement covering the expenditures of the commonwealth during the past two years, together with a statement of the probable revenues in the next two years.

On the question of constructing new buildings at the state institutions, he urges great care, except in the case of the minor normal school, which he believes is entitled to a liberal appropriation because of the overwhelming manner in which the people of the

LEGISLATURE OF MASSACHUSETTS

Annual Session Begins With Much Business in Sight.

Boston, Jan. 4.—The Massachusetts legislature met in annual session today. Besides the election of a United States senator, the legislature will be called upon to consider various problems in connection with railway and trolley transportation and besides will take up on joint ballot of twenty-five the re-election of the United States senate Henry Cabot Lodge is confronted with the avowed opposition of thirteen Republican members. The voting will begin Jan. 17.

New York Governor Says Expenditures Are Startling.

He Recommends Revision of Primary and Election Laws.

New York, Jan. 4.—Governor John A. Dix delivered his annual message to the legislature today.

Governor Dix's message is devoted largely to the state finances. He finds, he says, a "startling tendency of late to increase annual expenditures of both money raised by taxation and of money borrowed by the issue of bonds."

"During the three years 1893, 1894 and 1895, the state was practically out of debt for the only time in its history since 1815. In 1896 a new state debt was created which increased slowly for the next seven years," he says.

The governor points out that from 1883 to 1893 annual expenditures increased at the rate of \$29,814.01 per year; from 1893 to 1903 at the rate of \$19,670.74 per year, and from 1903 to 1910 at the rate of \$1,509,162.46 per year. "This, he says, unquestionably represents excessive taxation and was naturally followed by greatly increased annual expenditures, adding, 'excessive taxation is next door to criminality, for it inevitably breeds extravagance, waste and criminal corruption.'"

The governor recommends a "revision of the election and primary laws of the state to be done so as to provide for a system of direct nominations—state-wide in its application—which shall insure to the people the right to choose members of political committees and members of legislative bodies for public office."

Personal registrations of all voters throughout the state is recommended. Governor Dix urges the passage of a resolution asking for the general extension of the parcels post system by the national congress.

Election of United States senators by popular vote is favored.

HOT AFTER ANARCHISTS

London Police Pursue Search for the Russian Des-peradoes.

Body of "Peter, the Painter," Taken From Burned House.

London, Jan. 4.—Public excitement over the hunting down of the anarchist burglar gang continues at fever heat. Today great crowds swarmed about the dingy East end street which yesterday was the scene of a battle, the like of which had not been known in the history of London's police department. The police, who have been greatly overworked during the past forty-eight hours, had their hands full in keeping the streets open to traffic, while the detective department pursued its investigation into the Russian anarchist colony with unremitting energy.

During the night the police thoroughly overhauled the ruins of the tenement house in Sidney street where the out-laws made their last stand and were shot or buried to death in the fight with the police and soldiers.

The officers recovered parts of another body. While little except the head and neck was intact, the authorities have no doubt the parts were from the body of "Peter, the Painter," who last night was believed to have been still at large.

All three bodies recovered from the burning house were found in a back room on the ground floor.

The claim is established apparently that the building was fired by the desperadoes, as it is thought that the trapped men found their ammunition nearly spent and escape impossible, they set fire to the building and committed suicide.

No papers were found throwing light on the operations of the gang.

RECOMMENDATIONS MADE BY DENEEN

Illinois Governor Sends His Annual Message to Legislature.

Springfield, Ill., Jan. 4.—Numerous recommendations are made by Governor Deneen in his message to the forty-seventh general assembly today.

The governor urges that adequate railroad legislation be enacted which will give the railroad and warehouse commission control of stock and bond issues, express companies, and street railway companies.

He also urges anti-pass legislation; empowers Chicago to build and operate its own subway; conservation of natural resources; employment stability laws; corrupt practices act; initiative and referendum on important public measures; improvement of mining conditions with view to minimizing danger.

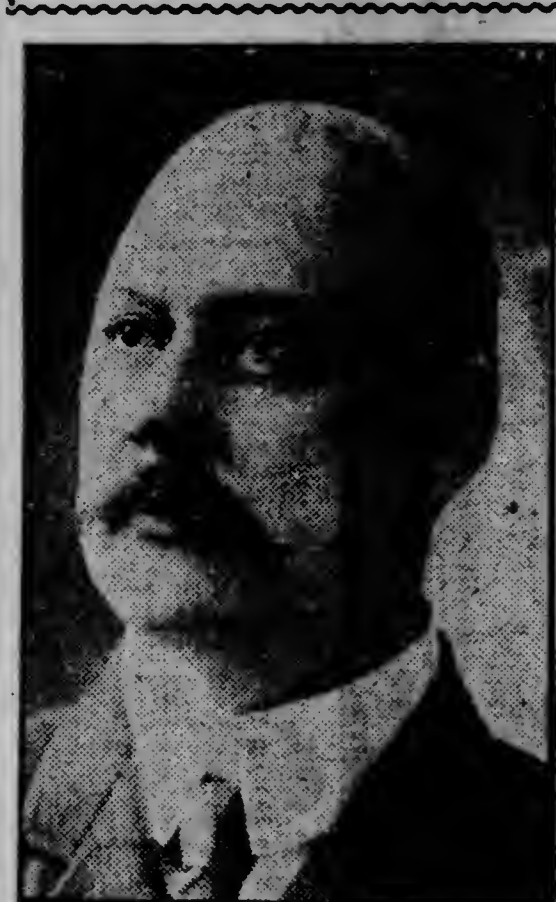

Passengers Leave in Panic and Cross Tresle to Safety.

New York, Jan. 4.—Fire which broke out in the middle car of a speeding "N." train at the highest point of the Ninth avenue elevated railroad, furnished an unusual early morning spectacle for uptown New York today.

The car was of the old wooden pattern and burned like tinder.

About thirty passengers fled to the rear end of the train in a panic as the grinding brakes jolted the cars to a stop. The motorman, the guards and the passengers left the car to its fate and crawled over the slender steel trestle, 125 feet above the street, to the nearest station. No one was hurt, although a high wind and a coating of sleet over the ties made their venture a perilous one.

All Stores and Residences in Vyerny Are Destroyed.

Probable That Many of the Inhabitants Are Dead.

London, Jan. 4.—An earthquake of gigantic proportions was recorded by the seismograph at the observatory at West Bromwich between 11:26 o'clock last night and 3:56 o'clock this morning, apparently 3,000 or 4,000 miles to the eastward. The oscillation was so violent that the needle of the instrument collapsed.

Some Lives Lost.

Tashkent, Asiatic Russia, Jan. 4.—A violent earthquake was felt at various points of Russian Turkestan from 4 to 4:20 o'clock this morning. Many buildings were destroyed and there were a number of fatalities, though the loss of life is not yet known.

Great fissures opened in the ground. Practically all of the stores and residences in Vyerny, the capital of the territory of Somerjetchenak, were destroyed or damaged. The city has a population of 23,000.

HIS FIRST MESSAGE TO THE LEGISLATURE

GOVERNOR A. O. EBERHART.

OPPOSITION FIZZLES OUT

Senator Clapp Unanimous Choice of the Republican Caucus.

Promises to Continue Efforts in Behalf of the People.

(By a Staff Correspondent.)

St. Paul, Minn., Jan. 4.—(Special to The Herald.)—The fizzling out of the opposition to Senator Clapp, though complete, that there was hardly enough left of it to make anybody stutter when he voted for Clapp in last night's caucus, really isn't to be taken as a measure of that opposition.

It was much more formidable—or might have been made so—than it turned out when the caucus got down to business last night. Lacking a leader, lacking a candidate, lacking almost everything including courage, it was hardly to be expected that the opposition would prove formidable.

While the opposition was two-headed, consisting of those who were against Senator Clapp because he is radically progressive and those who were against him because they questioned the good faith of his radicalism in the Hague tribunal. This is in compliance with the suggestion contained in the joint note recently presented to the two republics by the mediating powers, the United States, Brazil and Argentina.

Peru Agrees to Submit Its Boundary Dispute With Ecuador.

Lima, Jan. 4.—Peru has agreed to submit its boundary dispute with Ecuador to the arbitration of the Hague tribunal. This is in compliance with the suggestion contained in the joint note recently presented to the two republics by the mediating powers, the United States, Brazil and Argentina.

HAGUE TRIBUNAL TO SETTLE MATTER

Peru Agrees to Submit Its Boundary Dispute With Ecuador.

Lima, Jan. 4.—Peru has agreed to submit its boundary dispute with Ecuador to the arbitration of the Hague tribunal. This is in compliance with the suggestion contained in the joint note recently presented to the two republics by the mediating powers, the United States, Brazil and Argentina.

TO PREVENT LOG ROLLING

Senate Committee Proposes End of Omnibus Appropriation Bill.

Plan to Have All Bills Returned Within Twenty-Five Days.

(By a Staff Correspondent.)

St. Paul, Minn., Jan. 4.—(Special to The Herald.)—Two radical changes in legislative procedure were proposed by the senate committee on rules at its session this morning.

One provides that instead of having an omnibus appropriation bill, which is very much similar in character to the pork barrel appropriation bills of congress, and which works out to completion by a system of log-rolling very like that which creates tariff bills, there shall be three main bills, considered separately, as follows: An educational bill, a pub-

RADICAL CHANGES

Urges Consolidation of the Many Boards and Commissions.

Attacks Officials Getting Fees and Suggests New Assessment System.

Makes Strong Recommendation for Equal and Just Apportionment.

***** GIST OF THE MESSAGE *****

Urges material changes in the administrative body by consolidating boards and commissions.

Attacks fee system of paying officials.

Suggests new assessment system.

Oil inspection department should be abolished and work performed by dairy and food department.

Inspection of logs and lumber should be done by forestry department and fees turned over to state.

Favors new state land department, a geological survey, a public waterways department, etc.

Urges the co-operation of the state agricultural bureau and societies, with immigration societies, to the end that the state be developed more rapidly.

Recommends that the public land sales law be amended so that settlers could buy new lands at any time.

Good roads should be built by the state in sparsely settled regions, to encourage settlement and relieve the burden of the new home builders.

Not less than \$100,000 should be spent annually in advertising for immigrants.

Enforcement of sanitation in cities, schools, hotels and homes suggested as the basis of work for the state bureau of health.

Favors passage of workmen's compensation act.

Recommends a department of education, a non-partisan board elected for six years, which should name the state superintendent.

County boards of education should be provided.

Favors vocational education and steps to provide every country boy and girl with scientific farming instruction.

Recommends abolishing capital punishment and urges indeterminate sentence laws and provisions for paroling convicts.

Urges increased appropriations for the National Guard.

Criticizes the primary election law of the state and asks that it be changed to prevent minority regulation of the majority party's candidates.

Strongly favors legislative reapportionment in order to secure equal representation and to prevent an increase in the size of the senate or house of representatives.

St. Paul, Minn., Jan. 4.—(Special to The Herald.)—In a ceremony marked chiefly by its simplicity, Adolph O. Eberhart was sworn in as governor of Minnesota to succeed himself at 11 o'clock this morning before a joint session of both branches of the legislature.

Governor Eberhart proceeded immediately to read his comprehensive and business-like message. Both houses met first in their respective chambers, and after routine sessions recesses were taken, and the senate in a body entered the house chamber, where Speaker Dunn presided over the joint session, with Lieut. Governor Gordon beside him on the speaker's rostrum. The galleries were full, one gallery being set apart for the family and friends of the governor.

Governor Eberhart was escorted to the house chamber by a joint committee from the house and senate, but owing to a mistake arrived before the roll call of the joint session was finished, and had to stand waiting in the back of the chamber until it was completed. He was accompanied by Ex-Governors Van Sant and Hubbard.

The Message.

Chief Justice Start administered the simple oath, whereupon Speaker Dunn introduced the governor to the legislature, and he began the reading of his message, which took nearly two hours. The legislature listened with patience if not interest, though each member had before him a printed copy of the document. After the reading of the message both houses resumed their separate sessions, adjourning shortly after until tomorrow morning. The governor said:

The people of Minnesota in the election of 1908 have seen fit to place the control of all branches and departments of state government in the hands of the Republican party, thereby charging that party with a double responsibility. I pledge you the most earnest and effective co-operation (Continued on page 10, first column.)

TO PROTECT CROSSING

Northern Pacific Will Install Gates on Crossings at Fifty-Seventh Avenue.

That the Northern Pacific road will install crossing gates or warning bells on Fifty-seventh avenue west, which heretofore has been unprotected, and that the gates on Central avenue will be changed so as to include the side tracks as well as the main lines, is practically assured, according to L. A. Barnes.

Mr. Barnes has had conferences with Supt. L. K. Nicolas of the Northern Pacific and says he has reason to believe that the work will be done by the railroad people in the spring or as soon as the weather permits. Supt. Nicolas, following the fatal accident on the Fifty-seventh avenue west crossing about two weeks ago, has looked over the situation thoroughly.

With the exception of the Fifty-seventh avenue west and Central avenue crossings, it is not expected that any other steps will be taken by the railroad company. Supt. Nicolas explains that the Fifty-ninth avenue west crossing needs no gates, bells or watchman because the crossing is a wide

one and trains can be seen for some distance both ways. At the Raleigh street crossing a watchman has been placed and no other protection is needed. Until the crossing gates or bells can be placed on the Fifty-seventh avenue west station, special precautions will be taken and trainmen instructed to not run over ten miles an hour when approaching this crossing.

DRAW IN BAGLEY EVENT.

Carlson Will Play in Squad Style for the Trophy.

Play will begin this evening in the Bagley event at the West Duluth curling rink, Fifty-seventh avenue west and Bristol street. The first games will be Holland vs. Iltis and Scott vs. Method. The Bagley event will be played in squad style. Buckley and Strand have been drawn to play a postponed game in the Esterly event and Wade's kids and Macaulay will also play in this event. No games were curled last evening on account of the low temperature, although a good sized crowd turned out to skate.

FAIRMONT JUNIORS

DEFEAT WEST PARKS.

The Fairmont Juniors, an amateur hockey aggregation of West Duluth, have chalked another victory to their credit. They defeated the West Parks by a score of 3 to 0. Owing to the severe weather both sides were short of men. The Fairmonts are still after games. Games may be arranged by calling Calumet 31 or 101-1.

The lineup of the Fairmonts follows: Herbert Munson and William Dunleavy, goal; Munson and Clark, point; Herbert Brisson, cover point; Melville Leader, center; Alex Donald, left wing;

Dunleavy, right wing; Allan Meldrum, rover.

PROCTOR Y. M. C. A. TO MEET COOPER ALUMNI.

The Proctor Y. M. C. A. basketball aggregation will play the Cooper Alumni bunch this evening at the Cooper's gymnasium at Superior. Both teams have made a record so far this season and the outcome of the game is looked forward to with considerable interest.

The lineup for the game this evening is:
Y. M. C. A. Cooper Alumni
Dunham Cooke
Wambacher Olson
Mitchell Erickson
Macbeth Jackson
Shoven Steen

MODERN BROTHERHOOD

TO INSTALL OFFICERS.

The annual installation of the officers of Fraternity Lodge, No. 360, Modern Brotherhood of America, will be held jointly with the West end and up-town lodges tomorrow evening. The following officers of Fraternity lodge will be installed: L. A. Barnes, president; Joseph Beck, secretary; Mrs. Jazze Huxen, treasurer; Mrs. Cora Murray, chaplain; Martin Kenney, conductor; Carl G. Carlson, watchman; Merrill King, sentry; Doctors David Graham and D. E. Seashore, physicians; W. H. Schaefer, trustee; and Miss Hazel Crosby, musician.

BOARDING HOUSE AT

STEEL PLANT SITE.

Mrs. Mary Costella is planning on the erection of a \$5,000 boarding house at New Duluth, near the site of the steel plant. The building will be 80 feet by 25 feet and two stories high. Construction will be started about Feb. 1. It is said that a number of other new boarding houses are to go up this spring at New Duluth to accommodate the influx of laboring men employed at the steel plant site.

Joint Installation.

Division No. 4, Ancient Order of

Hibernians, and the Ladies' auxiliary, No. 2 will install officers jointly at Gilley's hall tomorrow evening. The affair will be followed by a musical program. It is expected that there will be a large attendance at the ceremonies.

DIRECTORS OF WESTERN STATE BANK ELECTED.

Stockholders of the Western State bank yesterday afternoon held their annual meeting and elected fifteen directors. The directors named will meet next Tuesday to elect officers and to declare the bank's annual dividend. The directors are: L. A. Barnes, James Cochran, M. M. Clarke, L. R. Clarke, A. H. Donald, David Graham, A. Hendrickson, C. F. W. Korth, S. J. Nygren, A. J. Melidahl, L. R. Rasmussen, J. A. Scott, J. P. Wier, F. H. Wade and H. R. Elliott.

West Duluth Briefs.

West Duluth Hive, No. 73, L. O. T. M., will meet tomorrow afternoon at 2 o'clock at Gilley's hall, Central avenue. Ernest Bergum, who has been spending the holidays at West Duluth, returned this morning to St. Peter, Minn., to resume his studies at Gustavus Adolphus college.

The annual meeting of the Ladies' Aid Society of Edin Swedish Lutheran church will be held tomorrow afternoon at the home of Mrs. E. E. Johnson of 5301 State street. Officers will be elected and other business transacted.

The Misses Nellie Girard and May Dornay of Ashland returned to their homes today after a visit during the holidays with relatives at West Duluth.

Mr. and Mrs. Axel Berggren of 407 North Fifty-seventh avenue west has returned from Cloquet.

The annual meeting of the congregation of Edin Swedish Lutheran church will be held Friday evening at the church, Fifty-sixth avenue west and Edinor street.

Firemen from No. 8 department were called out to two fires last evening shortly after 6 o'clock. The first blaze broke out in the pool room of C. Gunnerson at 231 Central avenue and was caused by an overheated stove. The second fire, caused by a defective chimney, was at the home of Carl Anderson of 618 North Fifty-eighth avenue west.

Mrs. E. J. Meldrum has returned from a visit at Hurley, Wis.

For Sale—Within two blocks of Central avenue, five-room house, hard-

wood floors and finish; water and electric lights; nice location; good terms direct to buyer. W 502, Herald.

Mrs. T. E. Deegan of Sault Ste. Marie, Mich., is a guest at the home of Mrs. C. L. Peterson of 423 North Fifty-eighth avenue west.

J. J. GALLAGHER IS PLACED ON TRIAL

Jersey City, N. J., Jan. 4.—James J. Gallagher, declared legally sane by a jury yesterday, was placed on trial today before Justice Swaysee on an indictment charging him with intent to kill street cleaning Commissioner William Edwards of New York at the same time that he attempted to assassinate Mayor Gaynor. Work of selecting the jury was immediately commenced.

WOULD INVESTIGATE.

Illinois Senator Wants to Know About Bribery Charges.

Springfield, Ill., Jan. 4.—Senator Daley of Peoria today offered in the senate a resolution calling for the appointment of a committee consisting of Senators Helm, chairman; Hay, Burton, McKenzie and Etelson, "to investigate the charges of bribery and corruption made against certain members of the senate who have been implicated for consideration of the facts relating thereto and report to the senate their conclusions as to whether such senators or either of them should be unseated or expelled from the senate."

COLD IN FLORIDA.

Land of Flowers and Sunshine in Grip of Frigid Weather.

Washington, Jan. 4.—Florida, the land of flowers and sunshine, is in the grip of frigid weather.

Today the thermometer stood at the freezing point at Jacksonville, while in the northwestern portion of the state the mercury fell from 12 to 14 deg. below. Great damage to the orange crop is believed to have resulted.

CONTRACTS ARE AWARDED

County Board Transacts Routine Business at Semi- Annual Meeting.

The county board finished its business this morning and adjourned to meet again Jan. 20. The meeting, the first session of which was held yesterday, was the regular semi-annual gathering of the board.

The Duluth Herald was awarded the contract for the printing of the financial statement and the News Tribune was awarded the contract for the printing of the official proceedings of the board and the delinquent tax list. At the meeting yesterday afternoon Chairman Neil McInnis was re-elected chairman of the board and Joseph Cummings was elected vice chairman.

Dr. F. F. Clark was appointed Jan. physician. He succeeds Dr. Cavanaugh. The contract for the steel vaults to be installed in the district court building at Virginia was awarded to the Art Metal Contract company. The work was secured on a bid of \$1,445.

Renewals of liquor licenses were granted to C. P. McGuire of the town of St. Louis, S. Huber of the town of Ault and Tony Tinpano of Stevens location.

The board received a communication from the state association of county commissioners stating that resolutions have been passed recommending that the legislature abolish the state highway commission so far as it pertains to county districts. It also recommends that state funds be expended under the direction of the several county boards. This, it is claimed, will eliminate delays. The county board passed a resolution that showed the members to be in accord with the resolutions passed by the state association. The board approved the appointments of Sheriff Melning and County Superintendent of Schools N. Young.

LARGE AMOUNT OF MONEY RAISED

Nearly \$7,600 was raised in cash by the congregation of the Swedish Mission church, Twenty-first avenue west and Second street, during the year just past. The receipts of the church in 1910, according to the annual report, were \$7,523.

This figure represents the work of every society affiliated with the congregation. The report is a very encouraging one when it is considered that the congregation is a very young project, such as a new building, under consideration.

To the foreign mission cause the congregation donated \$225 in 1910 and the Anti-Slavery League received \$280.66 during that period. At the annual meeting of the officers were elected: President, Fred W. Erickson; vice president, C. J. Lindahl; secretary of finance, Herbert Lundgren; recording secretary, E. G. Erik; treasurer, Dennis Johnson; C. G. Anderson, P. E. Anderson; treasurer, Nels Pearson; deacons, L. M. Johnson, C. J. Lindahl, C. Nelson, Gust Johnson; Sunday school superintendent, Charles Erickson; assistant superintendent, Gust Helin; East end Sunday school, John Turnquist, John Beckman.

Mrs. Edstrom Dies.

Mrs. Katherine Helen Edstrom, aged 50, wife of Paul Edstrom, died of apo-

plexy yesterday at the family residence, 2919 West Third street. Besides her husband she is survived by six children. She also has one brother living in Minnesota and two brothers and three sisters residing in Sweden. The funeral will take place Friday at 1:30 o'clock from the home at 2 o'clock from the Swedish Mission church, with interment at Forest Hill cemetery. Rev. J. J. Daniels will officiate.

BANQUET POSTPONED.

Orpheus Singing Society Will Have Annual Gathering Jan. 12.

The date of the tenth annual banquet of the Orpheus Singing society, which was to have been held Friday, Jan. 6, has been changed to Thursday, Jan. 12. Arrangements are now being made for an elaborate program. Dr. J. J. Daniels will be guestmaster and there will be several speeches and musical numbers.

The society was organized about ten years ago and has about twenty-four active members. There are many who hold associate memberships in the club and it is expected that there will be about 150 seated at the banquet. The committee on arrangements consists of A. F. Lundholm, George Johnson, E. Meander and H. Ogren.

DIES AT AGE OF 91 YEARS

Mrs. Ellen Henderson Brown, 91 years of age, died yesterday morning at the home of her daughter, Mrs. Arthur H. Brown, 219 Tenth avenue east. Death was due to complications resulting from old age. She made her home with her daughter in Duluth for a

number of years and during that time made for a large number of friends. She lived for a number of years at Shalaburg, Wis., and later removed to Flandreau, S. D.

Mrs. Brown is survived by five sons and four daughters. They are T. H. Brown of Sioux Falls, S. D.; H. A. Brown of Elkton, S. D.; R. L. Brown of Flandreau, S. D.; C. W. Brown of Duluth, S. D.; J. D. Brown of Watertown, S. D.; Mrs. E. R. Robison of Salt Lake City; Mrs. Mary E. Norcross of Sumnerland, Cal.; Mrs. F. C. Miller of Sioux City, Iowa, and Mrs. A. H. Brown of Duluth. The funeral arrangements have not been made.

JURY FINDS THAT GIBBONS IS INSANE

Hastings, Minn., Jan. 4.—(Special to The Herald.)—Patrick Gibbons, the

South St. Paul commission merchant who last May shot and killed Father E. J. Walsh, and shortly afterward killed his wife, was today acquitted of murdering the priest by the jury which has been trying him on the ground of insanity.

It is probable that Gibbons will not be tried on the charge of murdering his wife but that he will be confined in the insane asylum at St. Peter.

HUMAN REMAINS.

Havana, Jan. 4.—The first human remains from the wreck of the old battleship Maine were brought to the surface yesterday by a dredge. They consisted of two ribs and some small bones, apparently bones of the hand. They were carefully placed in a special receptacle to await the recovery of other parts.

Live News From The

Sale of White!

We were busy yesterday and today taking orders for the year-ahead-supplies that clients give us at this time every year—for the very good reason that prices on staples are lower now than at any other time.

For the benefit of those who couldn't get here yesterday, we will quote the January prices on some things—probably 10 or 12 items from the—as many thousands—in this White Sale of ours.

Dainty Undermuslins

There are vast mounds of best grades, piled high on tables with special January prices—that are speeding them out steadily. Every table has a miscellaneous collection, so that price lists wouldn't serve.

These few will give some idea:

STREET CAR RUNS AWAY TWO STORIES TO BE ADDED

Rushes Down Third Avenue
West and Causes Great
Excitement.

Takes Curve on Superior
Street and Nobody Is
Injured.

Heavily laden with passengers, a West Fourth street car of the Hobart type rushed madly down the hill on Third avenue west this morning shortly before 9 o'clock to what seemed certain disaster, and then by the best of good fortune took the turn on Superior street without any damage being done, except to the nerves of the passengers.

After swinging onto the avenue track at Second street, the car began to descend with a sudden spurt of speed. The motor man threw on the brakes, but they failed to hold. The passengers were thrown forward, and the car, before the car had gone a block, the wildest panic prevailed, but the passengers were not injured. The motor man strove to the utmost of his resources to check the speed of the car, realizing that it would go down the hill and perhaps be smashed to pieces. Such a finish of the car's mad career would have meant death for many, in all probability.

The car, when it struck the curve, was going at a tremendous speed, and the people on the street scattered from the line of danger, expecting to see a tragedy. But luck was with the passengers and crew of the car, which swung into the curve, and away with the force of the impact, glided onto the Superior street line, where it was speedily brought to a stop. The infinite relief of the passengers and spectators.

DULUTH PIONEER PASSES AWAY

W. H. Opper Dies at Home
of His Daughter in
Virginia.

C. H. Opper, a resident of Duluth for forty years and one of the pioneer merchants of the city, died this morning at the home of his daughter, Mrs. F. H. Russell, at Virginia, Minn. He was 82 years of age. Mr. Opper was born in Germany and came to Duluth in 1870 and for many years conducted a general store on East Superior street and in later years conducted a grocery business.

Mr. Opper is survived by three sons and six daughters. The sons are C. C. Opper and Herman Opper of Duluth and W. H. Opper of Virginia. The daughters are Mrs. C. H. Chapman of Livingston, Mont.; Mrs. Ed Johnson of Wendell, Idaho; Mrs. F. H. Russell of Virginia; and Mrs. C. H. Russell of Duluth. Mrs. Opper died seven years ago.

The body will be brought to Duluth this afternoon and taken to the home of Dr. Robert Graham, 220 Third avenue east. The funeral arrangements have not been made.

at St. Ignace college last night, emanating from a point probably 6,500 miles distant. The earthquake was recorded on the seismograph of the University of Kansas at a distance of about 4,000 miles from here.

The disturbance began at 5:30:30 o'clock p. m., and this far has consisted of five shocks. The heaviest began at 6:12 o'clock and lasted twenty minutes.

Prof. H. P. Cady of the university, in giving an account of the seismograph records, said that the motion of the tremors appeared nearly equal in north and east-west directions.

Recorded at Washington.

Washington, Jan. 4.—The tremors of a very pronounced character were recorded on the seismograph at Georgetown university last night. The vibrations began at 6:11 o'clock p. m., and continued until 6:20 o'clock. The maximum tremors were recorded between 6:15 and 6:17.

The vibrations were equally intense in the north-south and east-west directions. The distance was estimated at about 3,500 miles from here.

Lawrence Gets Record.

Lawrence, Kan., Jan. 4.—A severe earthquake disturbance took place according to the seismograph of the University of Kansas at a distance of about 4,000 miles from here.

The disturbance began at 5:30:30 o'clock p. m., and this far has consisted of five shocks. The heaviest began at 6:12 o'clock and lasted twenty minutes.

Prof. H. P. Cady of the university, in giving an account of the seismograph records, said that the motion of the tremors appeared nearly equal in north and east-west directions.

In Region of Iceland.

St. Louis, Mo., Jan. 4.—Calculations from the seismographic records at the St. Louis university locate heavy earthquake shocks in the region of Iceland.

The instrument began vibrating at 6:49:18 o'clock p. m., the main waves reaching St. Louis at 7:12:20 o'clock. There were ten distinct shocks on the east-west line and fourteen on the north-south line.

railroads to Duluth, Minn., and Superior, Wis., than to Milwaukee.

All three of these places transship the grain to Eastern destination by water. The petition of the chamber of commerce urges that under the law that city is entitled to as low rates on grain from the points named as Duluth and Superior, and the commission is requested to readjust the train rates on a basis of equality.

Rosenbaum Brothers, large grain dealers in Chicago, complain of alleged excessive freight charges on wheat, which is then shipped and elevated at Sandusky, Ohio, for various Eastern destinations.

The commission is asked to define the situation definitely and to give Rosenbaum Brothers an opportunity on previous shipments on which they regarded as excessive charges.

NEW SHIPPERS TO THE FRONT

Communities in Northern Minnesota Look for Market in Duluth.

Communications reach the Duluth Commercial club almost daily from small communities in the rapidly developing territory tributary to the head of the lakes, asking for information about market possibilities here. Places seldom heard from before are flocking to the front as sellers of produce, emerging out of what a few years ago was the wilderness to voice their insistent demands for a market for the things they raise.

For instance, McGraw, on the Soo

road, has in the last week appealed to the club for information about the Co-operative market. As a shipping point McGraw is a newcomer, but like all the many others that are being developed in every direction, it is coming with enthusiasm by the boosters of Duluth marketing facilities.

Phalar, up in the Chippewa country, where not so long ago Indian troubles were the chief product, comes to the front with a request that it be provided with a market for its veal. When a town gets to shipping veal it is out of the wilderness.

ABOUT THE WATER LOSS

THE deluging of a section of each floor in our store Tuesday night, caused by the blowing out of a sprinkler head, did not hinder business today. It requires causes more serious than water damage to close this store.

The leakage extended to the Silk, Drug Sundries, Millinery, Hair Goods, Tailoring, Upholstery and Curtain departments (also the reserve stocks on the fifth floor), but these sections of the store are busy places today, notwithstanding their handicap.

Meanwhile, THE WHITE SALE goes on with unabated interest. Last night's totals showed yesterday to be the greatest first-day of a white sale ever held in the store.

GOVERNOR BURKE OF NORTH DAKOTA GIVES ADVICE TO ASSEMBLY

(Continued from page 1.)

state voted for it in the election last fall.

Cutting Appropriations.

He reviews the conditions of two years ago, when appropriations were made for such a large amount that the responsibility of cutting these down was placed on his shoulders. Early disposition of the appropriation question, that he need not be mixed up in the proceedings of the final day, is also urged.

As a remedy against the possibility of appropriation bills being strung out, he suggests that the governor be empowered to call them in before they reach the assembly. He says that all appropriation bills should be given fair and just consideration, and in the event that there be too great an appropriation, fair and just treatment can be given all bills.

Legislative expenses are also dealt with and he advises the abolishment of the practice of printing copies of all bills and mailing them out, believing it to be a waste of public money.

He also suggests that the legislature should be held in session for a shorter period.

Under the constitution of the state the governor says that, while it is provided that no session shall be longer than sixty days, there is nothing to hinder the members from closing up their work earlier and returning home, thus establishing a remarkable precedent.

Election of United States senators by direct vote and the income tax are also mentioned.

On the question of erecting grain elevators in Minnesota, the governor says that such a plan would be unconstitutional, but he does state that the establishment of terminal elevators within state could be brought about.

Recommendations of the railroad commission are also contained in the governor's message. These include the abolishment of the terminal elevators, the control of public utility companies, the abolishment of the terminal elevators, and the control of public utility companies.

SAYS CITIES MUST UNITE

Thomas H. Fairfax Pleads for Co-operation Between Duluth and Superior.

Says Tri-State Fair Would Attract Settlers to This Section.

Thomas H. Fairfax of Superior made a forceful plea before the real estate exchange at its meeting in the Duluth Commercial club rooms yesterday for enthusiastic co-operation between the two heads of the Lakes cities toward the realization of Superior's ambition to hold an annual Tri-State fair. It is proposed that the fair shall be participated in by Northern Minnesota, Northern Wisconsin and Northern Michigan.

Mr. Fairfax said that such a fair would exert a stronger influence in the direction of securing settlers for the cut-over lands of the Northland than could any other device. It would be an object lesson in general demonstration of the agricultural resources of the region serving to turn the interest of great masses of the people to the advantages offered for stock raising, dairying and general farming. He told of the good results enjoyed by both Chippewa Falls and Eau Claire as the result of holding the Northern Wisconsin state fair.

Mr. Fairfax said Duluth and Superior must work together rather than against each other to realize the full prosperity to which the head of the Lakes is entitled.

Effect of Depressions.

Mr. Fairfax said that a zone of agricultural activities about the cities at the head of the Lakes would be an insurance against financial disaster when the next business depression occurs.

Continuing, he said:

"Recall the slight depression in 1907 and how the iron mining people began to look back to Europe. Multiply that depression by a real one. What do you have, and how long? What will the range towns get?"

"It remains to devise means to induce these people to remain in this country, buy patches of grounds and farms and till the soil until the mining again revives, thereby protecting these cities already established. The subject of money in shape of postage money orders being sent continually to Europe by the iron mining and kindred companies, but few address themselves to the problem of keeping that money in this country. If by any means we can help this region's most faithful friend—the man who seeks to plant a new settler on cut-over lands—it is our plain duty to do so, and the establishment of a fair of this nature removes one of the handicaps under which he is laboring and give him a chance at the iron mining money."

"The large initial cost of ample grounds, of getting water sewage and railroad lines to the grounds is already wiped out by finding such grounds owned by the city of Superior which may be had for a nominal consideration for an indefinite period if used for fair purposes. In the site of the Twin City fair was valued at \$500 per acre for \$40 acres, \$20,000. The site cannot be bettered except one on the St. Louis bay or river which should be free and with equal facilities. Such a one is not forthcoming. The Twin City fair was held twenty-five years ago with a free site and \$100,000. We hope to duplicate the same in starting. All that is necessary is to improve the site and place buildings on it."

Cities Should Work Together.

"Gentlemen of Duluth, is the number of your wholesale houses in excess of Superior not great enough already? Are you still waiting for more worlds to conquer before you will join with us in protecting ourselves and the smaller cities—our wards—in our surrounding territory?"

"Do it for Duluth is likewise, but these shillshells have not kept from joining hands and working on a joint harbor nor should they in matters when it is necessary to put our strength together."

Twenty-two years ago I came here because of the eloquence of Prof. Phelps and the giants of those days, who insisted, and with reason, that the head of the Lakes would outstep the Twin Cities. I have never given up the idea."

While these two cities were trying to escape bankruptcy during the '90s, the Twin Cities took advantage of us, switched the railroad rates on us and dismantled our mills. Is it possible that any one can imagine that we can beat that combination by doing it for ourselves and doing each other, playing a local game together and hold our first fair next fall? It is now forty-five days since our half of the joint committee was chosen and the Duluth Commercial club has refused to be at work now drafting legislation for premiums and support at Madison, with our attitude of incorporation on file. What this scheme needs now is your hearty good will and earnest attention. Are you with us?"

Mr. Fairfax called attention to a number of editorial endorsements of the project, quoting the Nashua, N.H. Herald among others. The northern ends of these states want the settlers," says the Herald, and the Tri-state fair will undoubtedly attract the attention of homeseekers as no other

BARBER'S INJURIES FATAL.

Michigan Man, Shot By Negro, Dies at Marquette.

Marquette, Mich., Jan. 4.—Frank Witherill, the Shingleton barber who was shot Nov. 20, by a negro named Schaefer, died in a local hospital two days ago. The murderer is in the jail at Shingleton.

On the night of Nov. 20, when Witherill was about to close his shop at Shingleton, he got into a playful scuffle with one of a party from a lumber camp, who had been spending part of the evening in his shop. The negro, perhaps believing that Witherill was fighting with one of his gang, raised a rifle and, firing through the open door, mortally wounded Witherill.

business usually is attractive under such circumstances.

Duluth is a hungry market for eggs. The city seldom is overstocked and the market is growing steadily, a fact which is notable when it is remembered that the territory tributary to the head of the Lakes is being transformed rapidly from the wilderness it was a few short years ago into one of the finest dairy and poultry regions in the Northwest.

An agent of the extension service was in Barnum several days ago and was told by the manager of the local creamery that he had on his hands seven cases of eggs. Two years ago the same extension worker had held a poultry school at Barnum, with the result that now that place has an unfailing supply of eggs. The seven cases mentioned being on hand there on a day when the Minneapolis market was at a low ebb. Of course, there were some private shipments into Minneapolis that day, but the five cases was all that came to the open market. The school to be held here will probably be in the Y. M. C. A. building. The management of the association has rendered the use of one of the class rooms for the purpose and it will be equipped completely for the course of instruction to be given. Mr. Hostetter is desirous of hearing from all those who think they would like to profit by the instruction offered. Amateurs and beginners in the poultry business are particularly invited to get into communication with him, he said.

Williston's New Hospital.

Williston, N. D., Jan. 2.—(Special to The Herald.)—That Williston will have a new hospital in the course of another year is almost certain. The United Lutheran people, who have just completed a \$50,000 institution at Rugby have interested some of the leading citizens of this city in a similar project.

Forty pupils must be secured before the extension workers can establish such a school here. Each is required to pay a fee of \$2. This payment is calculated to do more as a spur to interest in the school, than to serve any other purpose. It will help pay for some of the literature that will be distributed, but the expenses of transporting the elaborate equipment and the salaries of the teachers are paid by the state.

The value to Duluth of a poultry school can be readily appreciated when it is remembered that many scores of Duluthians will next summer be living on home acres and will have the best of use for the knowledge that may be gained at the poultry school. Many of them will desire to embark in some enterprise that will provide an addition to their incomes and the poultry

lar building for this city and as there is a great need for such an institution it is almost certain that the necessary \$15,000 will be raised within a few months.

DIVIDES WITH ITS MEN.

Jefferson, Wis., Jan. 4.—The Copeland & Ryder Shoe company of this city made a New Year's present to their employees in the shape of a 4 per cent bonus based upon the earnings of individual employees.

Stockholders received a very pleasant surprise in the announcement of a 25 per cent stock dividend and the regular annual dividend of 7 per cent. The local company is one of the first companies in the state to inaugurate the division of profits with employees.

BIBLES FOR MINNEAPOLIS.

Ton and Half of Sacred Books for the Hotels.

Minneapolis, Minn., Jan. 4.—(Special to The Herald.)—If the patrons of the hotels do not travel in the straight and narrow path, it will not be because they have not had plenty of chance to read the good book, as a ton and a half of Bibles, numbering 1,900, were received yesterday by H. F. Slater, of the Gleasons, the Christian traveling men's organization. The books will be placed in the rooms of various Minneapolis hotels. We have already placed Bibles in the Rogers, Vendome, Rowe and West hotels," said Mr. Slater, "and the new supply expect to supply all the other large establishments. The freight on the books from New York was \$32.50.

Continue Murderer's Case.

Glencoe, Minn., Jan. 4.—The case against Joseph Herzan, the alleged murderer of Mrs. Joseph Flinn of Silver Lake, who was arrested Saturday, and who made a complete confession Sunday, after being in the sweatbox twenty-four hours, was continued until Jan. 11. Herzan wrote and signed a full confession. It was in Bohemian.

Neal Treatment for the Drink Habit Clinches "Swear-Off" Resolutions.

NO HYPODERMIC INJECTIONS—NO POWERFUL OR POISONOUS DRUGS—NO BAD AFTER-EFFECTS—NO PUBLICITY—NO FAILURES.

Transforms the Most Excessive Drinkers Into Confirmed Teetotalers.

Resolutions to "swear off" drinking are easily made. Just now thousands of people are counting on turning over a new leaf and writing "dry" on their first page of the new year.

To make a resolution is one thing, but to keep it is quite another—particularly if the one "resolving" is a heavy drinker.

Many an excessive drinker who is bawling business, health and happiness for over-indulgence in drink will turn from liquor on New Year's day only to find himself irresistibly drawn back to old drinking ways by an intense craving which can only be satisfied with drink off repeated. Many a man does not drink because he "wants to" but for the simple reason that his will to quit is overpowered by this easily explained craving for liquor.

There is a way to turn over a new leaf and keep it turned. The Neal Treatment for the drink habit will in three short days take from any drinker—moderate or excessive—the craving and desire which transforms the occasional drinker into the "regular" nerves.

The excessive drinker is not a victim of disease. His system is impregnated with alcoholic poison that is taken too fast for nature to throw off and this accumulated poison causes the intense craving and desire which more drink and then more drink only temporarily satisfies.

The excessive drinker needs medical help as badly as the typhoid fever patient. Good resolutions are all right, but some drinkers suffer tortures during their long fought battles for self-mastery, and then fall. As a well known business man advises:

"To any one who wants to 'out out' drink, I would say—don't be foolish and try to fight it out with all the tortures of hell racking your body and soul for weeks while making the fight. Take the Neal Treatment and get the alcoholic poison out of your system in

three days. You will then be in a position to meet Mr. John Barleycorn anywhere on equal footing."

This same business man had been a periodical drinker for over twenty years.

"I managed to get good and drunk from two to four times a year," he said. "Now the thought of liquor is repulsive."

The Neal Treatment insures a happier, brighter and more prosperous New Year to the excessive drinker and it only takes three days to bring about this result—three days—not the month or more which other treatments require with no such cheerful results.

The Neal Treatment consists of the administration by a regular physician, who is in constant attendance, of a perfectly harmless vegetable remedy taken internally, with positively no hypodermic injections, no poisonous drugs, and no bad after-effects.

The Neal Treatment neutralizes and eliminates all the stored up alcoholic poisoning in the system. When this is done, the drinker is in the same physical condition that he was in before he ever had a drink, so far as liquors are concerned, for it is the stored up alcoholic poison in the system that causes this appetite, and when once alcoholic poisoning is eliminated, the appetite is also eliminated.

Satisfaction is guaranteed or money is refunded.

Home treatment can be arranged for those who prefer it.

If you have a friend who ought to rid himself of the drink or drug habit, don't delay a day.

TWENTY YEARS OF HONEST GROWTH OF THE DULUTH HERALD'S HOME CIRCULATION!

The Duluth Herald has never used voting, guessing or premium schemes of any nature to artificially stimulate its circulation. The advertiser who uses The Herald buys nothing he cannot use, and pays for nothing he does not get. The following figures show the average daily circulation since 1890:

Year.	Circulation.	Year.	Circulation.
1890	2,200	1901	11,063
1891	2,650	1902	12,669
1892	3,100	1903	13,885
1893	3,478	1904	15,248
1894	4,500	1905	16,677
1895	6,250	1906	19,690
1896	8,240	1907	23,003
1897	8,338	*1908	22,095
1898	9,344	1909	23,936
1899	10,168	1910	26,027
1900	10,392		

*This slight decrease was due to the fact that the out-of-town subscription rate was increased 25 per cent and payment in advance was insisted upon to comply with the new postal regulation.

GIVES ADVERTISERS A SQUARE DEAL!

The Duluth Herald holds a unique place in the Duluth newspaper field in that it is the only daily paper here that has never used voting, guessing or premium schemes of any nature to artificially stimulate circulation. The Duluth Herald today leads all Minnesota papers (outside the Twin Cities) by thousands of daily paid subscribers.

Duluth Herald advertisers get the full benefit of a home circulation of a high order—a proven circulation of quality as well as quantity.

The Herald presents the store news ahead, so that the prospective purchaser has plenty of time to plan a shopping tour.

Circulation is the wise advertisers' guide.

Every one knows the incomparable character of the circulation of The Duluth Herald. The Herald is an institution. It is the great home paper of Duluth. Its record of public service; its accomplishments in behalf of Duluth and its readers, stand second to none of the newspapers of America.

ASKS HEAVY DAMAGES

George D. Beattys Sues Northern Pacific Railroad Company for \$125,000.

Says Company Was Responsible for Destructive Fire at Ironton.

Claiming damages to the extent of \$125,000 as the result of a fire, said to have been caused by negligence on the part of the Northern Pacific Railroad company, George D. Beattys filed an action for that amount against the railroad company in district court yesterday.

The action is brought by Beattys as trustee of the estate of John E. Searles, bankrupt. The action is the outgrowth of a fire at Ironton in 1908 for which the plaintiff claims the railroad company is responsible.

The chief damage was to a machine shop in which there was a quantity of valuable machinery. It is claimed. The railroad company, it is claimed, piled a great number of railroad ties near the plant. They were old and dry. It is claimed, and the fire which destroyed them traveled to the machine shop.

The complaint states that the fire was unattended and was allowed to spread to the Searles property.

Mr. Beattys asks not only \$125,000, but also interest from the date of the fire, which was April 10, 1908.

INCREASE IN NUMBER OF CARS

Lake Superior Demurrage Bureau Shows Gain in Year's Report.

The Lake Superior Demurrage bureau, of which James Kelly is chairman, handled 465,044, compared with 370,290 in 1909, a gain of 94,754. The receipts in the early part of the year were larger than in the corresponding period last year, but the number of cars handled diminished in the fall on account of the partial failure of crops in the Northwest.

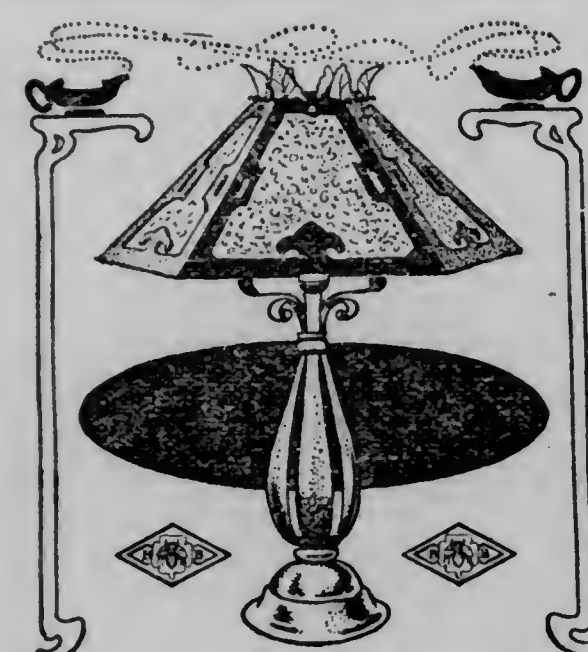

Following is a statement of the cars handled by the bureau for last year and in 1909:

Month	1910	1909
January	38,037	26,954

The Sale of Sales Is On!

A Columbia Sale is always an event in this city. Like all good things, it's a rather rare event. Being the real thing, Columbia January Sales do not start in November or October. Nor do they set a sober-minded bargain-seeker on edge by offering forty or fifty-dollar overcoats at fifteen dollars. Nor do they dwell upon the greatness of a dearly purchased little Bankrupt Stock with about as much furnishing goods as we sold in any three days before Christmas and less clothing than a good-sized Traveling Salesman carries in his trunks. Nor—but hold on Mister Ad-Man, you are muckrak-

ing and advertising your friends, the competitors, who like Brutus, are honourable men, all honourable men.

"I speak not to disprove what Brutus spoke, But here I am to speak what I do know." Methinks, both in politics and in business it pays the Public and incidentally the square politician and dealer to be occasionally "Posted," which remark (with due apologies to Shakespeare, Collier's, Teddy Roosevelt and Stillman H. Bingham) shall end at once the unseemly digression and this Ad-itorial!

Tomorrow Starts the Big January Sale of Boys' and Children's Suits, Overcoats, Reefers

Our \$19.11 Suit sale and our big Overcoat sale started today with the full-fledged rush, common to Columbia sales. No four-flushing is needed here to make the aeroplane go. Most people know by this time Columbia values, and appreciate the big slices we take off from our always decent first prices.

ALABAMA MAN WANTS TO BUY MOOSE TRAINED TO HARNESS

Have you a moose trained to trot in harness? If you have and can give satisfactory information as to the speed of the moose and the price you put on the steed, there's a man down in Alabama who wants to get into communication with you.

L. D. Noville, 703 Fifth street east, Birmingham, writes to the postmaster of Duluth:

"I understand there is a man in your city who has a moose that is trained to trot in harness, but I do not know the man's name and this is to ask that you kindly refer this letter to him if the moose is for sale, as I would like to have lowest price of same, and statement as to what time the moose can make a mile in harness."

Postmaster Cook hasn't such a moose,

nor information concerning one, so he referred the letter to the Commercial club. There has been a deplorable slackness in the driving moose trade of late and the Commercial club of Duluth couldn't offhand locate the article desired by the Alabama man. But always eager to help anyone who wants to buy anything in Duluth, the officials made diligent inquiry, but without the desired result. No moose appeared.

Freak driving stunts have been pulled off in the moose territory and it may be that somewhere in Northern Minnesota a moose trained to trot in harness may be discoverable.

But what effect the Alabama climate would have on the health and well-being of a Minnesota moose is a disturbing question.

until he found it one day in looking for something else.

There was one man in New York who had not heard it and Mr. Wade took it to him. That man was Tony Pastor, and he liked the sketch and said so. He was closing his New York house the next week and he offered to feature the little act. It came at the end of twelve long numbers, and even Mr.

Wade was a little nervous over how it would go under those circumstances. The people liked it so well that they brought the little company back for encore after encore and insisted that Mr. Wade make a speech. It was the hit of the show. Since that time the little playlet has been given in many of the houses managed by people who turned it down. Mr. Wade says that since that night of the first performance, two years ago, the company has been idle but three weeks.

The little play, which deals with Southern life, has been popular all over the Orpheum circuit. Everywhere that it has been presented people have said nothing but nice things about it. Mr. Wade plays the part of an old and devoted negro servant so naturally that many times he has been accused of being a negro.

SAME PRINCIPALS IN "THE THREE TWINS."

"The Three Twins," with Victor Morley and Bessie Clifford again playing the leading roles, will open at the Lyceum tomorrow night for three nights and a matinee. "The Three Twins" is a favorite in Duluth, but the play is held no higher in the estimation of Duluth people than the clever principals in the cast.

"The Three Twins" has appeared twice before in Duluth, for a solid week on each occasion. The piece loses none of its charm by being seen frequently and nearly everybody who saw it before is anxious to see it again, to see Bessie Clifford in "The Yama-Yama Man," to hear "The Girl Up There," "Cuddle Up a Little Closer" and the other song hits.

The company on this visit will be up to the high standard of the principles. "The Three Twins" has lost nothing in the years it has been on the road, and it is expected to draw crowds that will tax the Lyceum at each performance.

COMMENDED BY PRESIDENT OF THE UNITED STATES.

"You are a fine pianist and I appreciate your work." When a lad barely 16 years old has been singled out from a group of celebrated artists by the president of the

United States in order to receive such a compliment and afterward retains the modest equilibrium that is his greatest personal charm—that boy is David Schoeller. What is more—David Schoeller is a success. Master Schoeller is appearing at the Orpheum this week and is making a decided hit. David Schoeller is the only child of German-Jewish parents. Statistics declare that the greatest intellectual prevails among German Jews and this is emphatically demonstrated in the case of young Schoeller. Despite his marvelous ingenuity as a musician, which included an intuitive knowledge of harmony, a masterly technique and a peculiar grasp of each composer's individuality, he is a close student of books and conducts everything pertaining to his business. In speaking of music he remarked:

AT THE ODEUM AND LYRIC THEATERS.

"The Sunshine of Poverty Row" is the feature dramatic film at the Odeum theater this week and it is drawing commendation from patrons of the house. The other dramatic film is "Winning Back His Love," and an amusing comedy film is "The Joke on Bumpkins." Miss Maddox is singing "Wishing You a Happy New Year" at the Lyric theater. A Tenderfoot's Message" is the feature. It is a dramatic story of the Western plains. Other films are "The Runaway Motor Car" and "Milk and Honey." The latter is particularly appropriate in Duluth. Good crowds are being drawn to both the Odeum and Lyric theaters this week and they are given good, wholesome entertainment.

EX-GOVERNOR LIND TO SPEAK IN MASON CITY.

Mason City, Iowa, Jan. 4.—The plans for the Jackson day banquet here Thursday evening are completed. Former Governor John Lind of Minnesota, Al Sorter of Minneapolis, D. D. Murphy of Elkader, N. F. Reed of Ottumwa and

M. J. Wade of Iowa City will be the speakers.

Gets \$10 First Day.

Deadwood, S. D., Jan. 4.—Receipts totaling \$10 and eight individual depositors, was the net result of the first day of business in the postal savings bank here. Would-be depositors expressed some dissatisfaction that no

deposit of over \$100 a month would be accepted. Postmaster Grimshaw attributed the small business yesterday to ignorance that the bank is open.

Camp Clerks and Loggers.

We will mail our large 22x28 office calendar (large figures) to any address upon receipt of 5 cents postage. Eaterly, 425 West Superior street.

Thanks to the Chief and His Brave Firemen.

We wish to express our sincere appreciation of the good work done by Chief Randall and his good men in protecting our store from Sunday morning's fire.

The chief fought the fire in a masterly way—and every one of the ninety-five men on duty did his best. We would like to print the names of every man in this notice—but we can't—but we want to say right here that Duluth is to be congratulated on having such an efficient corps of fire-fighters.

uniform, intelligent, scientific and just valuation of the state.

Second, instead of attempting what is apparently impossible, to raise the assessed valuation to the full 100 per cent of actual value, as required by law, and thereby upset the present basis of bond issues and fixed salaries, amend the statutory basis of valuation to agree with custom, and assess all property at 50 per cent of true value.

Third, as to logs and lumber, scale and assess the logs on the ground where cut, instead of at the point where manufactured.

Fourth, the inheritance tax law should be amended, with new rates and classifications, on a basis similar to that favored by the last legislature, giving the tax commission full powers of administration.

Fifth, in regard to taxation of railroad companies, whenever it is ascertained that railroad property under the present tax rate is not carrying its full and fair share of the state tax burden, the tax should be increased to a basis of equality with other property.

Amendment of the railroad gross earnings law should include an amendment making railroad taxes payable semi-annually. Like real estate taxes.

Further legislation is desired giving statutory form to existing rules and decisions constraining and applying the gross earnings act, and giving reference to co-operative, mutual and rural telephone lines and telephone companies, in order that all classes of companies may be dealt with justly and in accordance with their respective business conditions.

STATE FINANCES.

At no time in the history of the state were the finances in better condition. The revenue fund is greater by nearly \$1,000,000 than it was a year ago. Fully \$1,000,000 more is available to the state and the investment board that \$500,000 should be appropriated for the purpose of retiring state capital certificates. This will reduce the interest-bearing debt of the state and place this amount in the school fund, where it can be loaned to counties and municipalities for public improvements. A large number of loans approved by the investment board are still pending for lack of funds, and since it is unquestionably poor business policy to sell bonds over a depressed market, I would recommend that the legislature immediately authorize the retiring of capital certificates in the amount suggested, so that the pending applications for municipal and county loans may be granted.

RAILROAD AND WAREHOUSE COMMISSION.

It is now an admitted fact that state and federal control of public service corporations is essential to the public interest, not only for the benefit of the corporations themselves. The important service rendered the state by our railroad and warehouse commission is becoming more and more recognized. It is the duty of the state to see that the public interest is protected in the operation of these corporations. One of its important duties is to see that the valuation of state railroad properties is fair and equitable, and that the commission is now investigating excess charges for the same purpose.

In the Minnesota rate cases, the master in chancery raises questions of the authority of the commission to make a general investigation and determination of what shall constitute a reasonable rate. In fact, any doubt as to the authority given to the commission by the state, it should at once be removed by appropriate legislation.

The speedy execution of our rural communities and the building of suburban electric lines opens up another field of regulation. These electric lines will soon become active factors in the transportation of business, and their operation should, therefore, be subject to the same regulation and supervision, similarly with the railroads. Again, until Minnesota secures the services of a public utilities commission, the control of telephone and telegraph lines should be placed under this commission, for it is important that these essential factors in state development, upon which the public at large is at all times dependent, should be under the control of the state.

DEPARTMENT OF PUBLIC EXAMINER.

Public revenue received and disbursed by state, county, and municipal governments in Minnesota, only approximately \$10,000,000 per annum. As a check upon irregularities in accounting and expenditures, the legislature of Minnesota many years ago created the department of public examiner. The great volume of work required is much beyond the physical capacity of the public examiner. The legislature is fully justified in providing the examiner with adequate help as is reasonably necessary for the performance of the duties required by law. It is the duty of the legislature to see that the expert character of the work is maintained.

STATE BANKING DEPARTMENT.

The federal controller of the currency is by law authorized to exercise his discretion in issuing a charter to a bank where the public interest in business does not justify its organization, and in cases where the application is made by the local stockholders, in this state there is a demand for similar action. It is the part of the superintendent of banks with reference to applications for state charters which restrictive power, when properly exercised, is of value in safeguarding the interests of depositors, but since the exercise of such discretion may in many instances be prejudicial to the public interest, I would suggest that the grant of power be carefully safeguarded.

DEPARTMENT OF INSURANCE.

It is a recognized fact that Minnesota has one of the highest rates upon

Home Made Dentifrice.

Tooth powder purchases make quite an item in the list of expenses. For food stuffs are soaring and it keeps the average person on the lookout for economy in all ways. Here is a splendid formula, taken from a dental journal and any one can mix it at home. It makes enough to last a family nearly a year and possesses many other advantages over high-priced labeled tooth preparations. For less than a dollar, one can make three-fourths of a pound. This much of labeled goods would cost three or four dollars.

It whitens the teeth, prevents decay and perfumes the breath. Buy separately, five ounces of precipitated chalk, one ounce of powdered soap, three ounces powdered sugar and two ounces antiseptic vilane powder. Put all in a paper sack, shake and mix very thoroughly. Keep in a tight box or jar. Apply daily with tooth brush. Many families in the East now use this in preference to anything else.

Symptoms of Stomach Ills.

A feeling as if the heart has stopped action for a moment, or if it flutters, or if there is a dull, aching pain in the lungs, if the brain feels dull and confused in thought, or if there is a nervous hysteria, or if the stomach feels bloated or heavy, and the bowels constipated all may be

cola has one of the best insurance laws in the country. Our insurance laws, which were enacted largely in the 1907 session of the legislature and which have been so ably and rigidly administered ever since, have placed insurance on a sound basis in our state.

Since the pernicious fee system was abolished the state has received considerable revenue from this source. During the year 1909 the state received \$29,999.55 in fees. In 1905 the fee privileges of the insurance commissioner were abolished with the result that in 1910 the department collected \$1,525.26, showing an increase of \$11,631.01 during a period of six years.

PRIMARY ELECTIONS.

The principle of primary election is justly in keeping with the modern idea of popular government. Its application to present conditions has not been satisfactory, and the legislature should make every effort to remedy existing defects. To permit the voters of a minority party to determine the nominations of the majority party is conceded to be unjust and requires no further comment. As our government is a party government, the fundamental principle that no party should be permitted to make its own nominations cannot be discarded. That the solution of this problem is difficult, no one will deny, but it is the duty of this legislature to give the matter most careful consideration, and I have confidence in its ability to reach a successful solution in order that the law may operate more justly.

REAPPORTIONMENT.

Of all the important questions that are decided by the present legislature, that of reapportionment will be watched with the greatest interest by the people of the state. Our government was founded upon the principle that taxation without representation is unjust, and every step forward since has been in defense of that principle. Since the organization of our state there never existed greater inequalities as to representation. In some sections of Minnesota 12,000 people elect a senator and in other sections 5,000 people elect a representative and in still other sections 2,000 people elect a representative. The constitution, Article IV of our Constitution guarantees to the people fair representation in the law-making bodies, and that guarantee should be sufficient assurance to the people that the legislature will do its duty. In addition thereto, both political parties have pledged themselves to carry the will of the people into effect as required by the constitution. In both conventions and to give the people of the state a fair representation in the legislature, the legislature should be confronted with these conditions and should be required to do so by every principle of right and justice. The legislature should be required to do so, and definitely promised by both parties in their respective platforms.

Nothing but purely personal and selfish motives can be the basis of such a measure.

It is true, small districts are unwilling to make a general investigation and determination of what shall constitute a reasonable rate. In fact, any doubt as to the authority given to the commission by the state, it should at once be removed by appropriate legislation.

The speedy execution of our rural communities and the building of suburban electric lines opens up another field of regulation. These electric lines will soon become active factors in the transportation of business, and their operation should, therefore, be subject to the same regulation and supervision, similarly with the railroads. Again, until Minnesota secures the services of a public utilities commission, the control of telephone and telegraph lines should be placed under this commission, for it is important that these essential factors in state development, upon which the public at large is at all times dependent, should be under the control of the state.

RELIEF OF FOREST FIRE SUFFERERS.

Reference should be made at this time to the effects of the forest fire disaster in the northwestern Minnesota and the necessities for relief of the sufferers. The prompt and generous response of the people of Minnesota to my call for relief has so far provided means for the relief of the sufferers. I am advised by the Red Cross relief committee that the state has done much for the sufferers, but that the work of the legislature must be extended to these people. I would, therefore, urge the legislature to consider this matter at an early date and extend such relief as shall be deemed appropriate.

CONCLUSION.

It is not difficult to anticipate that there will be considerable opposition to the proposed legislation. I wish to impress on the members of the legislature that my only ground for urging this reorganization is to secure greater efficiency in the administration of state affairs and to enable the people of the state to better safeguard their heritage of natural resources.

I particularly would urge upon the legislature the importance of the creation of new offices, of special fitness and qualifications for the duties to be performed. The only remedy for the present situation is to reorganize the state and to enable the people of the state to better safeguard their heritage of natural resources.

To place the control and management of the state's public resources and the management of our institutions in the hands of a political machine is a proposition which is not only a disgrace to the state, but a disgrace to the people. The great state of Minnesota, the richest and most progressive state in the north, is now called to a new career, a career of such material, intellectual, and moral development as will result in the greatest blessings to all our people. We are not a product of materialism, but a people of high ideals. We are not a people of narrow interests, but a people of broad vision. We are not a people of selfishness, but a people of generosity. We are not a people of ignorance, but a people of knowledge. We are not a people of weakness, but a people of strength. We are not a people of despair, but a people of hope. We are not a people of defeat, but a people of victory. We are not a people of failure, but a people of success. Perpetual Youth

Let Me Tell You How to Regain All Your Old Vim, Vigor and Manly Strength. Be a "Health Belt Man," Feel Young for Balance of Your Life. Age Doesn't Count if You Have the Vitality.

"I could shout for joy. After years of Weakness and Debility, your Wonderful Health Belt Cured Me. I am a Man Again. Use My Name as You See Fit."

* C. L. SNELL,
Middleport, N. Y.

Perpetual youth. That is precisely what I mean. I say as man to man give me a reasonable chance and it will carry you through any business, mental or physical strain you may be under. It doesn't stimulate; it simply adds the electro-ionic element to your bone, nerves, tissue and blood; all the force and strength which has been drained from your system by some earlier indiscretion. My Health Belt is essentially a strength giver. It overcomes the private symptoms of weakness in men which sap the vitality. If you are nervous and lack manly vigor you are passing away thousands of brain cells every day. Ask your physician if this is not true. I stop this awful weakening process. You wear my Health Belt nights; while sleeping a great stream of soft electricity passes into your body at the small of the back; it cures backache in one application; you feel better immediately; inside of an hour; two months will make a new man of you. No privations; or restrictions except that you must give up all dissipation. Follow my advice and I promise you will feel younger and look younger. Let me restore your vitality and you will be able to face the world with new ambitions. The Health Belt cures other ailments, too. A positive remedy for rheumatism in any part of the body, sciatica, lumbago, kidney, liver and stomach disorders.

Special attachments furnished, and worn by women as well as men.

Let Me Send You This Book Free

It fully describes my Health Belt and contains much valuable information. One part deals with various ailments common to both men and women. The other part is a private treatise for men only. Both sent upon application, free, sealed, by mail. If in or near this city, take the time to drop in at my office that you may see, examine and try the Belt. No charge for professional advice either at my office or by mail. If you cannot call, fill in the coupon and get the free book by return mail. It is better than a fortune for any one needing new vigor.

COUNCIL COMMITTEE SAYS CHARGES SHOULD BE PROBED

Reports on Complaints Against the Water and Light Board.

Doubtful of Council's Authority to Order or Conduct Investigation.

The council committee on light and water, consisting of Alderman Charles Hector, chairman, Alderman J. A. Wharton and Alderman John Hogan, filed a report with the council last night declaring that the charges made against the water and light board by the Hillside clubs are of such a serious nature that they should be thoroughly investigated by the proper authorities.

The committee states that if they can be substantiated these charges are of a serious nature and should be given the closest scrutiny to demonstrate their truth or falsity.

The committee took the position, however, that under the charter the council has no authority to control the charges for water, and it was uncertain as to whether or not it would make any investigation into the charges made against the water and light board.

The interest in the water and light situation has been considerable and the report in this connection, with the resolution attached, is given in full as follows:

Should Be Investigated.
"To the Common Council:
"You committee on light and water, to which was referred communication from the general committee of the hillside improvement clubs, asking that this council make an official inquiry into the matter of water rates, and enforced by the board of water and light commissioners, and the physical conditions of the water and light plant of this city, have carefully considered the same and the opinion that from the nature of the charges made they should be thoroughly investigated by the proper authorities.
"Your committee finds that this council has no authority to order or conduct an investigation into the charges for water. Section 163 of the charter provides as follows:
"The board shall regulate the distribution and use of the water rates, and this provision poses where the same shall be required for either public or private use, and the price and rates of water provided, however, that in case of hydrants, fountains, public water and public fountains and watering places, the board shall fix and locate the same, as the common council may direct."
"It was the intention of the charter commission to take away from the council any power whatever to regulate the water rates, and this provision was endorsed by the people in the adoption of the charter. Therefore, it appears to your committee that it would be useless for this council to investigate the charges for water when it has no power whatever to regulate the same. The investigation into the matter of water rates, and enforced by the board of water and light commissioners, and the physical conditions of the water and light plant of this city, would place itself in the position of usurping the rights and authority granted by the charter to an entirely different portion of the city government. As this is a matter of complaint it would appear to your committee that there is no one to whom the petitioners may apply except the board of water and light commissioners themselves.
"There are other charges made in said petition, which, if substantiated, and we think these charges should receive the closest scrutiny and the fullest investigation possible in order to demonstrate the truth or falsity thereof. If the council is the proper body and has authority to make such investigation and provide for a change in the methods of doing business in said department in case the charges should be substantiated, we are of the opinion that such investigation should be undertaken at once. We are unable to find, however, from the charter or statutes of the state any provisions for either such investigation or reformation unless it may possibly be contained to a very limited extent, to the right of the council to audit the books of the department. If the council has no authority in the premises of course such investigation would be useless, and would be a farce. In order that this council be fully advised as to its rights and duties in the premises we recommend the adoption of the following resolution:
Resolved, That the committee of Peter Olson, Chan Smith and Joseph L. Moigan, general committee of the hillside improvement clubs, asking that this council make an official inquiry into the matter of water rates, and enforced by the board of water and light commissioners, and the physical conditions of the water and light plant of this city, be referred to the city attorney for investigation and control of the water and light department of this city as this council has no control over the establishment and enforcement of water rates to be charged for water furnished to the inhabitants of the city of Duluth, and the power to investigate the charges of mismanagement made against the board of water and light commissioners, and the physical conditions of the water and light department, and if, by said investigation the charges contained in said communication are substantiated, the council has the power to enforce a change in the business methods of said board.
"If the council has the right to direct any officer of the city to investigate said charges, what officer is it that has the power, and in what way may it be exercised, and if said charges should be found to be substantiated, in what way may proper changes be effected."
New Ordinance on Shows.
Alderman Moore introduced an ordinance to regulate all shows, circuses, moving picture exhibitions or other public entertainments. Under its provisions nothing of a lewd nature shall be allowed and no liquor shall be allowed on the premises. Application must be made in writing for a license. Upon an affidavit of two people being left at the box office or served upon any officer of the firm or corporation, alleging violations of the ordinance, the license shall be suspended for one month in case the allegations are substantiated. For the second violation the suspension is made three months and upon the third violation the license is cancelled. The addition of the alternative of fifty-five dollars to the county jail. It was referred to the committee on ordinances and resolutions, which will report it later.
The council passed a resolution declaring that building bridges across Grand avenue and Fifty-fifth avenue west the Canadian Northern should leave a clear path on both thoroughfares.
The Swedish Lutheran church was given permission to use the town hall at Lakeside for Sunday school purposes upon the payment of \$1 per month in advance.
The city engineer furnished an estimate of the cost of paving Superior, Jensen and Ontario streets with sandstone from Twenty-fifth to Forty-sixth avenues. He figured that it

would take \$211,415 to do the job if the bridges at Forty-fifth and Forty-sixth avenues were filled with dirt a year previous to the paving of them. It is the immediate prospect of the work being done.

The ordinance was passed giving the building inspector power to require hand rails on both sides of winding stairs. Until the change was made the ordinance stated that the rails should be placed on the right-hand side, which would furnish no rail for a stair, winding to the left.

Mayor Cullum notified the council of his appointment of J. H. Connelly as secretary to succeed J. H. McCall, and Assessor J. A. Scott sent in a communication stating that he has appointed J. H. Miller a deputy assessor at a salary of \$100 a month.

A Chicago clipping bureau offered to furnish the city a clipping service on the commission form of Government for \$10 a month. The matter was referred to the finance committee.

The East Duluth company sent in a communication announcing that it withdrew its signature from the petition for the Woodland trunk sewer on the ground that it was believed that the emptying of a large amount of sewage into the lake would contaminate the water supply.

The matter of aiding the Associated Charities in an experiment to make men applying for assistance break the ice in the harbor was discussed over until next week in order to give some of the aldermen an opportunity to investigate the situation.

PROMISE TO WED HIS DOMESTIC

Is Basis of Suit Against Banker Magee of Elmore, Ohio.

Fremont, Ohio, Jan. 3.—John H. Magee, wealthy Elmore banker, has been made defendant in a suit for \$100,000 instituted by Christina Paul, many years a member of Magee's household. Promise of marriage, ill treatment and other allegations are made.
Miss Paul, who is in the ten-page typewritten petition that at the age of 17 she entered the Magee home as a servant and worked for wages until the death of Mrs. Magee, in 1901. She claims that she was seduced by Magee, who was then 25 years of age, and that she was induced to remain at the Elmore home as a domestic. She alleges that she was promised to marry him, but that the promise was broken. She claims that she has been treated ill and that she has lost her reputation and health. She demands \$100,000 as damages. The suit was filed in the federal court at Fremont, Ohio.

STEEL CORPORATION PRESIDENT RESIGNS

William E. Corey to Retire at Pleasure of Directors.

New York, Jan. 4.—William E. Corey, president of the United States Steel corporation, has resigned and it is likely that he will have no successor. His resignation was announced late last night by Albert H. Gary, chairman of the finance committee of the corporation, to take effect at the pleasure of the directors.

The steel president of the United States Steel corporation has been succeeded by Charles M. Schwab, who, following his resignation, became president of the Bethlehem Steel company. Mr. Corey has served as president of the United States Steel corporation for seven years.

"After more than seven years of faithful service as president of the United States Steel corporation, Mr. William E. Corey has tendered his resignation. It is the present opinion of the members of the finance committee that there should not be elected a successor as president in the immediate future. However, as the manufacturing companies are all equipped with the very best talent, the values of which have been proven, it is not recommended that Mr. Corey be re-elected.

"It is the present opinion of the members of the finance committee that there should not be elected a successor as president in the immediate future. However, as the manufacturing companies are all equipped with the very best talent, the values of which have been proven, it is not recommended that Mr. Corey be re-elected.

"The relations between Mr. Corey and all the officers of the United States Steel corporation and subsidiary companies have been most pleasant and agreeable. Mr. Corey severs his connection with a feeling of friendship for the corporation and takes with him the best wishes of all who have known him in the world.

About a year ago the powers of the chairman of the finance committee and the chairman of the board of directors, both of which Mr. Gary is, were enlarged to include not only the administrative affairs of the corporation, but the details of executive management. Unless another president is named, Mr. Gary becomes chief over all provinces of the largest corporation in the world.

Stomach Sufferers Squander Millions

In Search of Relief.

Trial Package Stuart's Dyspepsia Tablets Free.

The world is full of disordered stomachs and 90 per cent of the money spent upon physicians and drugs goes in an attempt to cure the stomach.

People are made to believe that in order to gain health they must doctor their stomachs and use cathartics. So the doctors get busy and the stomach treatment and the druggist for the physic, until the savings of a life time are exhausted and yet no cure.

Let's be reasonable. The sick stomach is in every case the result of over-eating, hurried mastication and improper choice of foods. The mucous lining all the way down the food tract loses its sensitiveness, and when food is forced down the muscles fail to respond. They do not churn the food as they should. The glands no longer give out gastric juice to dissolve the food and render it capable of assimilation. The man has become a dyspeptic.

There is one sure way and only one to bring positive relief. Put into that stomach of yours the very elements that it lacks to get that food into liquid form. It takes pepsin, dextrose, golden seal and other elements to accomplish this. The healthy stomach contains these elements. The dyspeptic stomach lacks part or all of them. Stuart's Dyspepsia Tablets is made up of just what the dyspeptic stomach lacks—nature's digestives.

Stuart's Dyspepsia Tablets are not a medicine, not a drug, not a cathartic. They do not cure anybody of anything but Dyspepsia and indigestion and such ailments as arise from poorly digested food.

While they digest the food the stomach recuperates. The mucous membrane is coming out of its torpor, the gastric juice is coming to the surface, the muscles are regaining their power. Every organ, body takes on new life, the skin gains color, and the eyes are no longer tinged with yellow. You live.

Why then, get your drug yourself? Stuart's Dyspepsia Tablets will take care of your food while Nature cures you.

SEEKS DAMAGES FOR WIFE'S DEATH

Range Man Claims Better Half Did Not Get Proper Care.

Hibbing, Minn., Jan. 4.—(Special to The Herald).—The damages suit of Jacob Gerlach against Dr. D. C. Rood, which was started in district court here yesterday before Judge Hughes and jury, is out of the hands of the court. The plaintiff claims that a physician employed by the Rood hospital in Chisholm did not use due and proper care in attending his wife, Mrs. Helen Gerlach, after childbirth and that a result of said negligence she died May 24, 1909. He claims damages in the sum of \$5,000 and costs of suit.

The case is attracting a good deal of attention on account of the prominence of the doctors and hospital involved. The defendant denies all the charges in the action and claims that everything possible was done for the deceased. The plaintiff took the stand early yesterday, and was followed by Dr. Graham, who attended the woman after the boy was born. Later Dr. Hinchman was called and his testimony occupied the attention of the court for some considerable time. He was still on the stand when court adjourned for the noon recess today.

PARENT COMPANY OWNS THE STOCK

Subsidiary Towing Companies Directed By the Head Office.

Cleveland, Ohio, Jan. 4.—The government's suit against the Great Lakes Towing company under the Sherman anti-trust law, the first testimony in which was recently taken at Detroit, was resumed here Tuesday before Special Commissioner B. C. Miller.

The suit originally was filed by United States District Attorney William L. Day of Cleveland. Testimony will be taken in each federal district having one or more important lake ports. The Cleveland hearing probably will last two weeks.

M. H. Wardwell, secretary of the Great Lakes Towing company, admitted while on the stand that practically all the stock of the four subsidiary companies operated by the alleged trust is owned by the company. The companies are the Union Towing & Wrecking company of Duluth, the Dunham Towing & Wrecking company of Chicago, the Hunt & Johnson Tug Line company of Buffalo and the Thompson Towing & Wrecking association of Port Huron.

Wardwell also practically admitted, in response to questions by District Attorney Day, that each company, including the parent company, had about the same officers, and that the subsidiary companies got their instructions from the general offices of the Great Lakes Towing company in Cleveland.

The only other witness examined yesterday was J. C. Gilchrist, former president of the Great Lakes Towing company, one time owner of sixty-four vessels on the Great Lakes. Mr. Gilchrist testified that in 1889 he operated a tug for the use of the company's vessels, but that after he sold the tug to the Great Lakes Towing company for \$10,000 worth of its stock, although he said the tug was only valued at \$5,000.

Drs. Loughney & Loughney have their offices in the Christie Bldg., between First and Second street, on Fourth avenue west. Their hours are 8 a. m. to 7 p. m. Sundays, 9 to 12 only.

PROGRESSIVE IDEAS MARK FIRST MESSAGE OF GOVERNOR OSBORN

420 WEST 30TH STREET

CONCERNING OLYMPIAN.

Duluth public schools have lost six of their grade teachers this vacation, but just how many of the six cases are due to Cupid hasn't been disclosed. Miss Lindquist of the English, whose home is in Southern Wisconsin, is one who has told of her approaching marriage, and Miss Carey, who was of the Irving family, who married last week. The others who will not be in their rooms when school opens next Monday morning, after the vacation, are: Miss Pascoe of the Washington school, Miss Elissen of the Adams, Miss Lillian Scott of the Irving, and Miss Wetzel of the Onetia.

What My Lady Wears

By VIRGINIA HARLAN

By the favor of an intimate friend I have been able to see some very new and very exclusive Parisian model gowns. As the simplest of these gowns cost between \$250 and \$100 it goes without saying that they have the hallmark of the very best designers. Now, what are the fashion indications to be gathered from these very smart and up-to-date models? First and foremost, that the "hobble" skirt has entirely disappeared. The small dressmaker has only just seized on the knack of making a fairly presentable banded skirt, and she is turning it out for all her customers. Its late arrival has also given it a fictitious popularity. This is because the fashion designers, the factories keep supplying it to the shops.

Then among well-to-do people there is always a certain proportion of women who never care to risk a novelty—they have just taken to the banded skirt. Therefore, even if the "hobble" gathering we see shows the "hobble" skirt in more or less prominence, it is necessary to emphasize the fact that its day is completely over. We were asked what the new skirt has taken its place, I should say—amidst all the varieties of fancies, a straight and the slightly flared skirt. An undulation of any dimension is carefully avoided. The skirt is made of the skirt, yet there is plenty of freedom of movement, and the skirt is made of material. One has heard of the skirts of our grandmothers which were made of muslin and were able to turn them upside down and when the skirt was made of a dressmaker that there should be no "gore," such being considered wasteful.

Well, much the same experiment might be made of the new skirt. It was very modern woman so thriftily inclined. Especially do the gaiters clus-

tered at the back of several gowns that I saw. The waterfall back was gathered wide and straight across at the band to the extent of six or eight inches. The effect is very graceful, especially with a trained gown.

A charming mole-colored satin coat and skirt had this gathered back with a short square train, the train parting from the underkirt about twelve inches from the ground. Corner-shaped square and circular trains are also fashionable—they are without much fuss, and in many cases are quite detached from the skirt except at the waist.

Naturally, trains are only for smart afternoon and evening gowns, but in contrast to the short gowns seen everywhere last winter the train is to be made both in regard to shape and decoration a feature of the gown.

This was brought out in an exquisite gown of apricot velvet. Where the square train had a heavy band of fur, which seemed to weigh it as it reached the ground, and thus kept the narrow aspect which characterizes the new gowns.

The coat which accompanied the mole-colored satin gown reached to just below the hips—neither short nor long, the skirt up the slope. It had very wide, softly-falling revers which reached to the waist, and the skirt was large silver buttons were used as fastenings.

In contrast to this smartest of afternoon tailor costumes there was a very workmanlike coat and skirt of black corduroy velvet. Here absolute perfection of cut was the attraction. The coat buttoned high at the side, and two rows of embroidered black silk buttons outlined the front panel. The skirt had a straight, narrow panel back and front; it was short, and within an inch of the hem the ice or the skating rink, was my mental comment.

cried that he would know it at a glance.

"The road agents fired a long-range fusillade as they saw their horses." "They" got him sure, cried Conlin, "unless we can stop them."

"Already I was on my feet. 'Well, tackle them across the ridge,' I said, 'and if you need not me, I'll be on the crest of the ridge.'"

"He came in sight, his cayuse telling heavily up the slope. We heard shots behind him; then, not a hundred yards ahead, and aiming over his horse's hind a big rider and a mine said: 'It's 400 yards and down pull, Pat,' I said.

"The words were hardly spoken when his rifle cracked, and the road agent hurched one of his saddles. "Three others came into range in a bunch. We opened on them so hotly that they were glad to scamper back out of sight. They had seen the fate of their leader."

"Twenty minutes later we joined our Indians at the top of the highest ridge. The half-breed and his family joined us in getting out of that region. "We were glad to recover all the stolen gold and a lot of silver, but the party currency had already been distributed among the thieves."

"Now, if we would go with him and induce the half-breed to take over the trail, we could find something to do, while they were stopping. At the worst, if the thieves were not to be trusted, we could get out of the predicament we would also have fresh horses to follow."

"Jack reasoned, and we quickly determined to trust him. An hour later we found the half-breed, who turned out to be Two-Strike, an old acquaintance of mine. We quickly told frankly what we wanted. "Good," he said. "My boy pretty smart, he's got trick horse. Maybe he bring word that a boy might do with a trick horse was certainly blind to Conlin. When the led, who was herding, was sent for, and came in with the fellow of 17 or so, with a dare-devil face and a malicious pair of big black eyes."

"At two hours before sunset, Conlin and I were on a ridge, where we could overlook the camp of the road agents. Two or three, with eighteen or twenty ponies, could be seen coming up to them along the hillside. "Presently the Indian pony herd was bunched at a distance of about a hundred yards, and Pawnee Jake came forward and held a brief talk with the men. In the end, the Indian herd was bunched to the herd. Evidently the half-breed was bargaining at the numbers among such customers."

"A big ratty buckskin, which we had marked as especially strong and sure, was saddled with some difficulty. "All men loved it, he was all right. "The men loved the bronco, and the outlaws were hilarious."

"It seemed likely the performance would be kept up till dark, when suddenly the animal lit out in a straight line, and with speed that excited admiration. He circled the camp, came back to it, and began cawing in a hoarse, croaking voice."

"The man on guard ran forward, flourishing his whip and doing any damage. There was a whirl and a plunge, and the man was knocked on his feet. Instantaneously, as it seemed, I saw the Cheyenne leap to the ground and bend over the fallen man, and he struck a swift blow with his quirt handle. "The man who didn't get up, and with rising excitement and hope I saw that the youth's hand was standing to the north. I didn't know it then, but the man was standing with that cayuse save a tiny bone prick in the heel of his rider's moonskin."

"And now young Two-Strike swiftly hustled himself with his saddle. Several of the road agents had started back seeing their man was really hurt. They could not have seen the man who was standing under the bucking horse had kicked him. "They did not show any suspicion until they saw that the man heaved up, then the whole bunch cut loose and ran."

"But the nearest was a long pistol shot away when young Two-Strike got into his saddle. And now, whooping and yelling his triumph, he lay along his horses withers, and put the animal to the route. This I could make out so, heavy a load."

"He fell in the only direction he could safely take—straight to the south. Pawnee Jake and Two-Strike were at the head of the herd, and the conies toward our position."

"We saw it all now—the cunning plan to keep the outlaws wholly unprepared, to coax them away from their plunder by the use of the boy's money. So, as I said, in do some night-of-hand work in their camp, and bring out a saddle which had been so minutely dis-

was employed, and had been sent on by the thieves to some of their accomplices, with a view of dividing the spoils at a safe distance from the scene of the theft. The thieves, however, were not so easily duped. They had seen the signs of the money, but now their resignations were imminent unless the money was returned to them. "I agreed to set out with Conlin on the track of the thieves, though I had little enough hope of the venture being successful."

"With me this time an Indian, Pawnee Jake, the best horse trailer I ever had. I called him and told him to put on his best under saddle and come along with us on a trail hunt. Then I got out my field glasses, rifle and best six-shooter, and was ready."

"At the station where I left the box of gold we found it, but empty, and learned that the agent had left the gold in the hands of the Indian."

"With the aid of my Indian, the trail of the thieves was finally struck, and we followed it."

"In about an hour, Jake, who was some two miles ahead, had found and reported the gang, six of them in camp, about two miles ahead. He had gone alone, he unconcernedly, and found them glad to see him. They wanted to see him, and he was certain, was in some leather bags attached to a big stock-saddle."

"Now, if we would go with him and induce the half-breed to take over the trail, we could find something to do, while they were stopping. At the worst, if the thieves were not to be trusted, we could get out of the predicament we would also have fresh horses to follow."

THE EVENING STORY

ON THE TRAIL

By George Hart.

"On one of my trips between the mines and the railroads," relates an old freighter, "Arkansas John," as he was familiarly called by the gold miners, "I was asked to deliver a heavy carpenter's chest to a certain station on my route. This I did, and on the following morning a horseman came galloping across the prairie and into my camp. I recognized him as Pat Conlin, chief engineer of one of the mining companies."

"After dismounting and setting his tired horse free, he joined me at breakfast and related the story of his urgent visit. It seems like the carpenter's box I had charge of the previous day, and which contained a large sum of money, had been stolen from the office of the mining company, with which Conlin

THREE MEET TRAGIC END

Woman Crazy By Impending Operation Kills Two Sons and Self.

Virginia Mother Gives Boys Carbolic Acid Then Swallows Draught.

Virginia, Minn., Jan. 5.—(Special to The Herald.)—Dread of an approaching surgical operation, the second in less than a year, is believed to have mentally unbalanced Mrs. Nelson Swanson, aged 37, wife of a Virginia miner, prompting her to take the lives of her two boys, Carl, aged 9, and Bernard, aged 6, by giving them carbolic acid, then to add suicide to the double crime by drinking some of the poison herself.

Her husband found the mother and two children in dying agony last night and they expired before medical aid could arrive. So far as known the Swanson's domestic relations were happy. Mr. Swanson cannot account for the triple tragedy on any other theory than that of insanity. The couple also had a 4-year-old daughter, but the mother spared her. Withholding in Death Agency.

The mother and two children were writhing in death agony dressed in night attire and lying on the bed when Mr. Swanson entered the bedroom. He hastily notified the police, and when Chief Walsh and a patrolman arrived the man was nearly beside himself from grief.

He was taken to headquarters to prevent doing injury to himself. While he said he could in a measure understand why his wife might have been driven crazy through fear of the impending operation he could not understand why she had killed the boys too.

"My boys! My boys!" he cried again and again. Then a wild delirium seized him and he would not stop crying, moaning and grabbing at his hair.

Several times he asked for the key to his home and he would not let go of it. He said he would not let go of it. He said he would not let go of it.

When he calmed down, he said: "To-night I was as happy as any man. My wife was not feeling well tonight, and I got the supper. I made good money all summer at the Virginia mine, and everything had been going along fine. Then he broke out into wild lamentations.

Insurance policies on the lives of the boys were carried by the Swanson family up to about two weeks ago, when they were permitted to lapse. The authorities are making a thorough investigation today.

MASTIFF ATTACKS COP.
Hibbing Policeman Shoots the Animal Which Then Escapes.

Hibbing, Minn., Jan. 5.—(Special to The Herald.)—War was declared by the police upon the canine population of the village and it is causing much worry to dog owners. The animals have become so troublesome that the police have been ordered to shoot down the ones that get too racy.

Policeman Bredner was set upon by a big mastiff yesterday, the brute fastening its fangs in the officer's arm. The bloodstained street and the dog's head and the latter escaped yelping down the street.

Mayor Wetrick called the attention of the members of the council to the matter Tuesday evening, and the council has ordered a city-wide hunt for the animal.

TOWER VISITED BY DISASTROUS FIRE

Entire Row of Buildings Including Weekly News Plant Is Wiped Out.

Tower, Minn., Jan. 5.—(Special to The Herald.)—The most disastrous fire in this city in years raged at an early hour this morning and for a time threatened the heart of the city. It destroyed the entire row of frame buildings extending from the Eckenberg bakery on the west to Charles Clark's saloon building on the east.

The loss on buildings is complete and nearly so in contents.

Buildings That Suffered.
The places burned out are the Tower Weekly News, Julius Pearson's barber shop, John Hickox's saloon, Kerner's saloon, the store recently vacated by Charles Govin. The loss is probably no less than \$15,000.

The fire emphasized the need of water works and the subject is one the citizens of Tower ought to consider seriously at once.

DEATH FOLLOWS FAMILY TROUBLE
Hibbing Man in Pesthouse; Child Dies of Lack of Food.

Hibbing, Minn., Jan. 5.—(Special to The Herald.)—Disaster culminated in tragedy yesterday when Clarence Joseph, the infant son of Mr. and Mrs. Charles Blair died of lack of food.

The father is in the pesthouse here, and is expected to remain there some time, and but for the timely aid of the village council and some of the neighbors, it is doubtful how many of the family would be living now.

The father was taken into custody and later on could not get work, and when found by the humane officer here, the family was living in a miserable hole in the wall in Center street. Very little fuel and no food was in the house and in the place of a door an old piece of carpet was nailed up.

The body of the late Tim Murphy was found today at his home in Center street, where he had been living for some time. He died of starvation.

Annie, the infant daughter of Mr. and Mrs. Stelmovich of Pine street died yesterday morning.

MINING PROMOTIONS.
W. M. Tappan Is Made Assistant Superintendent of Hibbing District.

Hibbing, Minn., Jan. 5.—(Special to The Herald.)—W. M. Tappan, for many years superintendent of the Hull-Rust mine, has been promoted to the position of assistant superintendent of the Hibbing district for the Oliver company.

Fred W. Mott of Virginia will take Mr. Tappan's position as superintendent of the Hull-Rust mine. Mr. Tappan has been promoted to the position of assistant superintendent of the Hibbing district for the Oliver company.

BEER NOW BEING HAULED TO BUHL

Breweries Said to Have Started Delivering After Laying Low.

Buhl, Minn., Jan. 5.—(Special to The Herald.)—After laying low for some weeks, the breweries commenced hauling beer again by road to Hibbing, Chisholm, and certain other points today. Since the breweries stopped hauling the saloon men had to send their own teams for whatever supplies they needed, and take all the risk of the haul.

Don't Fear Interference.
It is not believed now that there is any great risk of interference by the federal agents and therefore the breweries have commenced hauling. The report recently published that two breweries were being built in Buhl, is entirely without foundation. As the elated wagons and machinery shipped here were intended for farmers use in the vicinity.

Cannot Get Hibbing Beer.
Nashua, Minn., Jan. 5.—(Special to The Herald.)—The part of some of the saloon men here to purchase beer in Hibbing is not met with much success, as the brewery agents at that point are unwilling to take any chances that might possibly bring them under the ban of the federal government.

Has No Equal for Coughs and Colds

"For all throat and lung troubles and as a general tonic there is nothing to compare with Duffy's Pure Malt Whiskey," says Mrs. George Habitch.

And used as a rub-down for her baby after bathing, it has made him a healthy little chap.

"I use Duffy's Pure Malt Whiskey for coughs and colds and as a tonic and I find great relief. I cannot give it enough praise. I also use it for my baby. I rub it on his back and head every time I bathe him and he is a strong, fat, healthy boy. People take him for a year old child and he is only four months."—Mrs. Geo. Habitch, 248 Fox St., Buffalo, N. Y.

Thousands of letters like the above are received from grateful men and women who have been made well and strong by the great body builder, and who continue to enjoy good health.

Duffy's Pure Malt Whiskey

has to its credit fifty years of success without a question as to its merits as a curative agent. During this time it has brought the blessings of health to overworked men, delicate women, and sickly children, who find in it the strength-giving properties that are so necessary to them. It overcomes all weakening, wasting and run-down conditions of the body, brain and muscle, giving the system power to throw off and resist colds, coughs, grippe, catarrh, bronchitis, asthma and lung troubles, and it is a wonderful remedy in the prevention and cure of consumption, pneumonia, malaria and low fevers, taken as directed. Prescribed by doctors and recognized as a family medicine everywhere.

SENATOR ELKINS OF WEST VIRGINIA PASSES AWAY

Dies at Midnight After Illness Extending From Last Summer.

Washington, Jan. 5.—Senator Stephen B. Elkins of West Virginia died at midnight last night. At his bedside were his wife, his daughter, Katherine and four sons, David, Richard, Stephen and Blaine, and the physicians. Death was due to septicaemia or blood poisoning. He was conscious until within a half hour of death.

In the early evening there were persistent rumors in Washington that the senator's condition had become grave and that he was expected to die.

He might not live through the night. The Elkins family, however, were hopeful to the last and to the numerous inquiries which poured into the Elkins home, encouraging responses were given.

Became Ill Last Summer.

Senator Elkins became ill in the early summer at his home at Elkins, W. Va. He was weak in strict confinement there and only the members

of his immediate family were allowed to see him. On Nov. 5, when he was removed to Washington in a private car, physicians declared that he might be able to take his seat in the senate at the opening of congress.

His ailment never had become definitely known. During the summer he had been suffering from intestinal trouble in many respects similar to acute indigestion. At other times physicians are said to have believed him afflicted with a nervous ailment. Last week it was reported that open air treatment had been advised and that a room on the roof of his home would be arranged for him. According to the physicians in attendance on the senator, the cause of the ailment has been announced. It is probable that the senator will be buried at Elkins, W. Va.

Charge of Hepburn Bill.

During a large part of the time of his service in the senate, Mr. Elkins was chairman of the important committee on interstate commerce. As the head of this great committee he had charge of the Hepburn rate regulation bill of 1902 and of the ad-

ministration bill of 1910. A railroad builder and owner himself, Mr. Elkins had intimate knowledge of the questions affected by this legislation.

Mr. Elkins was born in Ohio in 1841. While still very young, he went with his father's family to Missouri. He was one of the first graduates from the University of Missouri, and as early as 1864 went to New Mexico, where he lived for a number of years, becoming in succession attorney-general, United States district attorney, territorial senator and delegate in congress from that territory.

Married Senator's Daughter.

While serving as delegate in congress he married the eldest daughter of Henry Cassaway Davis, then senator from West Virginia. Soon after his marriage he established his home in that state and there he built up a great fortune, largely through the development of the resources of the state.

While in Missouri Senator Elkins

MAY ACCEDE TO DEMANDS

Friends Urge O. J. Larson to Return to Michigan and Run for Judgeship.

Demands of Friends and Sentiment May Prompt Unique Action.

"If after looking over the field in person, I am convinced that the demand for my return is genuine and sufficiently widespread, it is probable that I will remove from Duluth and again make my home in Michigan, with the intention of becoming a candidate for judge of the district court," said O. J. Larson this morning. "I have no ambition to hold political office, but for sentimental reasons I may be persuaded to follow this course. It would indeed be a great satisfaction for me to preside over the district court in the district where I formerly played a large part of my life."

Mr. Larson has been receiving a large number of communications from residents of Houghton, Keweenaw and Baraga counties, imploring him to return to his former home at Calumet, in Houghton county, and make the race for the judgeship. For the last three years Mr. Larson has been practicing law in Duluth and has been exceptionally successful. He is a Republican, but during his stay here politics has not occupied his attention, except incidentally.

From the time he was 4 years old until he came to this city three years ago, he had been resident of Michigan, and when he began the practice of law at the age of 23 his acquaintance throughout the Copper country was about as wide as that of any other resident of the region. He became county attorney of Keweenaw county at the age of 26 and served in that position two years, going from it to the office of county attorney of Houghton county, where he served three years and six months. Then he practiced law at Calumet, his legal business covering practically all of the territory described as the Copper Country and also extending into Minnesota.

Mr. Larson is a native of Finland and is one of the most widely known Finns living in this country. At the time the czar of Russia abrogated the constitution of the Finnish Republic and a storm of protest among the Finns in America resulted, Mr. Larson was called to prepare the memorial to present to the American government. At this time, Mr. Larson was brought into intimate contact with President McKinley, who showed the liveliest interest in and favorable attitude toward the Finnish cause.

A number of Michigan citizens have been in Duluth recently to call on Mr. Larson and ask him to return and be their candidate. They have argued that his absence from Michigan for the last three years cannot be regarded as a reflection on the fact that he lived there thirty-three years before coming here. To be eligible to the judgeship, a candidate must be a qualified voter, the requirement being that he must have lived in the state six months. As the judicial term does not begin until Jan. 1, 1912, Mr. Larson has plenty of time to re-establish his residence in Michigan.

"I have not decided just what I will do," said Mr. Larson. "It is my plan to go to Houghton county tomorrow and look over the field. If I find the conditions seem to point to a general public sentiment in favor of my becoming a candidate, I probably will accede to the wishes of my friends and leave Duluth. I have not yet made any definite plans, but my experience here has been particularly pleasant, and I would like to remain in Duluth after all."

If Mr. Larson is to be classed as a candidate for the judgeship, there are four aspirants for the honor. The latest to announce a desire for the Republican nomination is W. J. Galbraith, a member of the Duluth bar, a former law partner of Mr. Larson. Elmer T. Streever, the incumbent, and Prosecuting Attorney W. J. MacDonald are the other candidates. The judicial primaries are held in March.

MAIL CLERK SHOT BY TRAIN ROBBERS

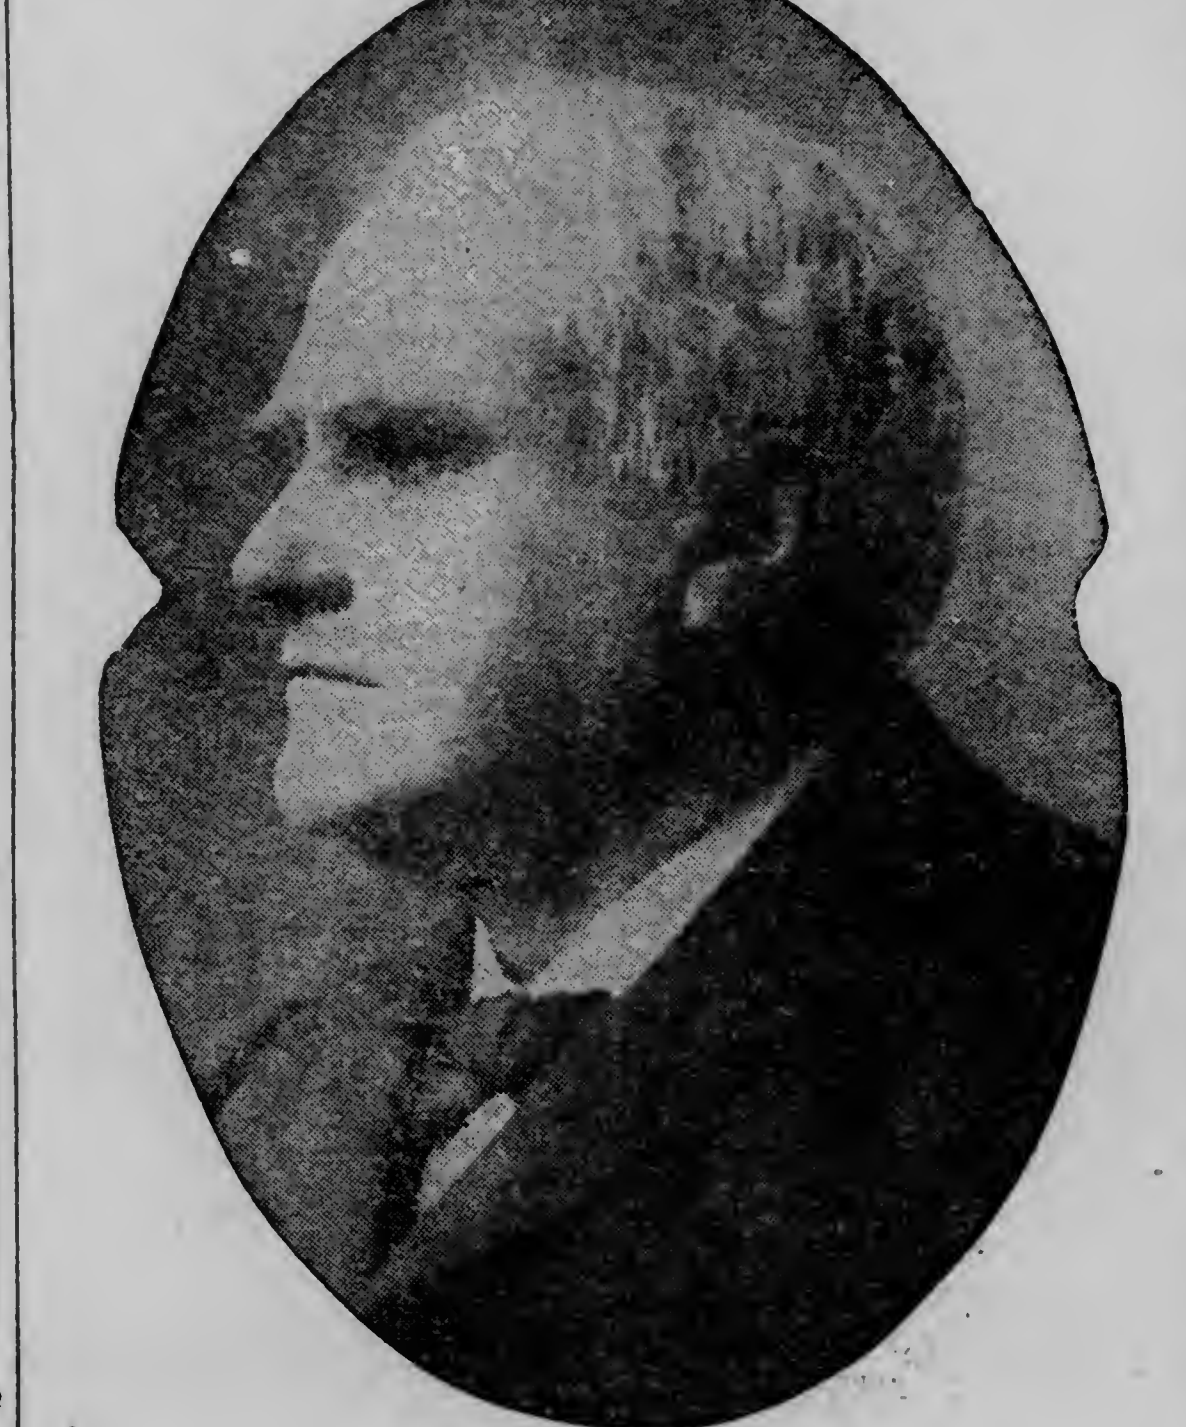

Car on North Coast Limited Ransacked and Mail Stolen.

Auburn, Wash., Jan. 5.—Two masked highwaymen entered the mail car on the North Coast Limited Train No. 2, on the Northern Pacific at 7 o'clock last evening just as the train was leaving the street depot, Seattle. As soon as the first robber got in the door, he leveled his gun at Mail Clerk Harry O. Clark and ordered him to throw up his hands. He fired before Clark could obey the command. The bullet struck Clark in the mouth. As Clark fell, the two robbers turned their attention to the other clerk, C. F. Reid, and covered him.

Both Clark and Reid were then locked in a closet in the end of the car, where they were not discovered until the train reached Auburn. A large consignment of Tacoma and South mail is transferred to this train at Auburn and the doors were opened to make the transfer. The mail opened to the floor led to the closet, which was broken open and the mail found. Two physicians were called and the wounded man was attended and sent back to Seattle.

Train No. 2 does not stop between Seattle and Auburn. The robbers got off at Kent, where the train slows up for the city limits. According to Reid, the two robbers were masked, wore both smooth shaven, about 5 feet 10 inches in height and weighed about 160 pounds each. Mail pouches and registered mail were scattered about the car, but it was impossible to ascertain what had been taken.

When, after the close of the war the Youngers were captured and sent to prison on a life term for robbing a bank in Minnesota, Mr. Elkins recalled their kindness and a source of much embarrassment to him, but if such was the case, he never indicated it by his manner.

He discussed the rumors of marriage between the two with frankness, but while expressing admiration for the young Italian, always denied knowledge of any understanding between him and his daughter.

THREE SUITS AGAINST CITY

Property Owners Claim Lowering of Piedmont Avenue Cost Them Money.

The lowering of the grade on Piedmont avenue has resulted in three damage suits against the city of Duluth. The plaintiffs are Margaret F. Johnson, Susan S. Robeson and W. H. Weber. In all they ask \$1,772.

Johnson asks \$600; Susan S. Robeson asks \$672, and W. H. Weber wants \$500.

The complaint in each case is practically the same. It is claimed that the grade of the avenue was established in 1893. The plaintiffs state that they erected residences to correspond with the grade. When the grade was lowered recently their property suffered a depreciation in value, they claim.

REVERSES ITSELF. The North Dakota Supreme Court Changes Its Ruling in Case.

Rolla, N. D., Jan. 4.—(Special to The Herald.)—The supreme court reversed itself in its decision in the case of Richard G. P. Vallancey vs. Martha and John Hunt, an action to recover possession of mortgaged chattels which the mortgagors contended were sold to them on conditional sale merely, and that the sale never became absolute. The case was first tried before District Judge Cowan who rendered a decision in favor of the defendants. The supreme court upheld the decision but on a petition for a rehearing the supreme court rendered in favor of the plaintiff.

SUPERVISION OF FLYING MACHINES

Recommended By Governor Baldwin in Annual Message.

Hartford, Conn., Jan. 4.—The oath of office as governor of Connecticut, was taken by Judge Stinson E. Baldwin this afternoon before the general assembly in joint convention. Governor Baldwin is the first Democrat who has occupied the executive office in Connecticut since 1895. He is a descendant of Roger Sherman, a signer of the Declaration of Independence.

Governor Baldwin in his inaugural message advocated legislation providing for the registration and supervision of flying machines and dirigible balloons and the extension of the electoral privilege to women, saying that there has been a revolution of property relations between husband and wife and that "taxation without representation does not seem to be in harmony with our republican institutions."

Among the new laws advocated were an employers' liability act, a public

APPROPRIATION BILL FOR ARMY

Military Affairs Committee Likely to Make Some Cuts.

Washington, Jan. 5.—The military affairs committee of the house will meet tomorrow to finish work upon the appropriation bill carrying funds for the support of the army. Members of the committee believe that the war department's estimate of \$700,000 for new field artillery guns will be considerably reduced.

The bill will be ready for the house shortly after congress reconvenes. The house has already passed the urgent deficiency bill, which has become law; the Indian appropriation bill now before the senate and the pension appropriation bill, now before the senate committee on pensions. The bill appropriating money for the legislative, executive and judicial branches of the government is before the house and will be taken up again tomorrow.

WEST END

ORATORIO BY
FOUR CHOIRS

Swedish Lutheran Singers
Will Combine to Enter-
tain Delegates.

While the most of the plans for the entertainment of delegates and for the program for the convention are still being formulated, the committee in charge of the 1911 meeting of the Augustana synod of Swedish Lutheran churches, which will be held in Duluth next June, has decided upon one feature of the program.

An oratorio or grand concert will be presented by the united choirs of the four Swedish Lutheran churches of Duluth, and over 100 trained voices will be heard. Practice will be begun by the choirs early in the spring, so that the singers will be in readiness at convention time.

The synod convention will last for ten days and it is probable that the headquarters will be at Bethany church, Twenty-third avenue west and Third street. A jubilee cantata may also be presented by the choirs under the direction of Dr. R. Magnusson, musical director of Gustavus Adolphus college at St. Peter, Minn.

The program committee consists of Rev. Carl Solmonson, Rev. Carl G. Olson, Rev. G. Oberg, Rev. J. A. Krantz, Gust. Bergquist, Hans M. Marolund and Dr. D. E. Sorenson. The reception committee is Axel Pearson, Edward Nelson, Louis Cole and M. P. Carlson. It is expected that about 250 delegates and 1,000 visitors will be present at the convention.

"THE STORY OF BETHLEHEM."

Cantata Is Presented at the First

Swedish M. E. Church.

A cantata, "The Story of Bethlehem," was given last evening at the First Swedish M. E. church, Twentieth avenue west and Third street, by the united choirs of the four Swedish Lutheran churches of Duluth, and over 100 trained voices will be heard.

The church was well filled. Those who took part were: Sonborg, Misses Ida Broman, Ella Clausen, Betsy Duct, Bertha Hanson, Mildred Jennings, Minnie Nelson, Cora Olson, Tille Reinertson, Clara Rust, Julia Strom, Louise Sundquist, Mrs. W. A. Vayck, Bertha Wanger, Mrs. G. Nesa, Mrs. Gideon Nylander, and Oscar Erickson; altoes, Marie Helt, Ella Hanson, Anna Noren, Marie Nelson, Esther Skagerberg, Mrs. J. A. Broman and Mrs. M. Peterson; tenors, Joe Erickson, J. Abba Johnson, J. O. Johnson, S. T. Johnson, Axel Larson, Ellis McAllister, Fritz Trannstrom and Miss Segrid Siverson; bass, John Aines, Tom Aines, Russell Broman, C. Cummings, L. B. Donner, E. G. Evanson, David Larson, Andrew Nelson, Christ, David, George Salvon and Arthur Sanden.

CORRECTING MISTAKES OF LITTLE BLIND GOD

Two Judges Hearing Divorce
Actions in the Dis-
trict Court.

Twenty-One Cases Are on
the Calendar for
January.

Today was divorce day in district
court.

Two judges, Judge Cant and Judge
Ensign, were busy trying to straighten
out the mistakes made by the little
blind god, and some of the tangles
were so bad that it will be some days
until the twenty-one trials will be
over.

Before Judge William A. Cant,
Bertha M. Hessinger, 49 years old and
her husband, Carl Hessinger, 28 years
old are both fighting for the decree
that can be granted for the divorce.
They were married in 1903 and in
her complaint, Mrs. Hessinger claims
cruel and inhuman treatment, non-
support and misconduct on the part of
her husband.

On the stand this morning she re-
lated some of the trials of married life.
She stated that he forced her to com-
pany of low and vulgar women to her.
She said that he stayed in from her
home for days at a time, and when he
came back would brag about the
things he had done and the time he had
enjoyed. For days he refused to speak
to her, she said.

Mrs. Hessinger claimed that she
supplied the table with vegetables
grown in her garden. She stated that
last year her husband became very

affectionate and finally persuaded her
to deed him a one-half interest in some
city lots. As soon as this had been
done, she claims, the old treatment
was renewed.

In August last year he filed informa-
tion of insanity against her, she said.
She said that she was examined and
promptly dismissed. Mrs. Hessinger
said that her husband has an ungov-
ernable temper and that on numer-
ous occasions he has struck her. She
stated that a few months ago she
found it impossible to longer live with
him as she feared that he would take
her life.

Husband Denies Charges.
In his answer, Hessinger denied the
allegations of his wife and also al-
leged cruel and inhuman treatment. He
states that she slandered his family,
that she is in the habit of using bad
language and frequently swears at
him, calling him "vie" and indecent
names that are too vulgar to be re-
peated.

He asks that the divorce be given
him. The action is the only one in
which both sides have appeared be-
fore the local court in many months.
Late yesterday afternoon the divorce
actions were begun. Helen Vickstrom
was granted a decree from her hus-
band, Charles Vickstrom on a charge
of desertion.

She stated that her dreams of mar-
ried life were shattered when her hus-
band deserted only six months after
the marriage. The court gave her the
right to resume the use of her maiden
name, which was Helen Vickstrom.
Emelia Aronson, 28 years old, was
granted a divorce from her husband,
Axel Aronson, 27 years old. Cruel and
inhuman treatment was the basis of
the action on which the divorce was
secured.

She stated that during the month of
June, the present year, he assaulted
her, leaving marks in several places.
She was then the custody of the
minor child.

Maria was given a decree
from his wife, Anna Maria. They were
married at Somerset, Wis., in 1904. He
claimed that she deserted in 1902.
Carl Muccilli, 40 years old, was given
a divorce from his wife, Mary Muccilli,
28 years old. He claimed desertion
and charged misconduct.

DULUTHIANS WHO ARE DOING "THINGS WORTH WHILE"

Some Men and Women Who Are Working for
a Bigger and Better City—Their Pet Projects.

Mrs. Florence Lee, visiting nurse of
the Duluth tuberculosis committee, is
about as busy a woman as can be
found in the city. Her work covers a
wide territory and she gets over a
lot of it every day. It is impossible to
get over all of the field in one or two
days, but she makes it a point to visit
her patients regularly.

Some physicians think that they have
a vast amount of traveling to do in
making their calls, but they ought to
keep up with Mrs. Lee some day and
they might find that they don't have
such a hard time of it, after all. Sev-
eral scores of patients are fighting the
white plague under her directions.
Some of them have gone to sanitariums
and others have been taken to the
poor farm. Others have built
dormitories and live in them practi-
cally the entire year. They include
old men, young men and women. That
she is securing good results, is shown
by the reports of the health depart-
ment, the falling off in the death rate
from this cause being decidedly notice-
able. Mrs. Lee is actually a sanitary
inspector as well as a nurse. Every
once in a while she runs upon a fami-
ly living under the poorest kind of con-
ditions. That they are not all sick
is the marvel. In such instances her
first step is to make them clean up.
Many of them object, but she gets ac-
tion through persuasion or otherwise.
Generally she is able to show them that
it is for their own good to follow the
directions which she gives them. A
large part of her work is educational.
In this way the patients are better able
to help themselves and others as well.

MRS. FLORENCE LEE,
Visiting Nurse and Apostle of Clean-
liness.

INSTRUCTION POP BOTTLE FOR FARMERS EXPLODES

Lectures on Agriculture Will
Be Continued This
Year.

List of Speakers for the Win-
ter Is Made
Public.

There was a joint meeting of the
Y. M. C. A. educational committee and
the agricultural committee of the Du-
luth Commercial club today, at which
the program for the season's agricul-
tural lectures was discussed and some
attention given to the proposal that
the Y. M. C. A. educational course
should be enlarged to include an agri-
cultural class.

Dr. John H. Gray, professor of econ-
omy at the University of Minnesota,
will be the first speaker on the pro-
gram, his subject being "The Agricul-
tural Education with special refer-
ence to agriculture in the north."
Jan. 27, C. E. Roe and Arthur Cra-
sswell will be the speakers for the
second lecture, their subject being
"Louisiana and how to grow them."
Louisiana and how to grow them.
Mr. Craaswell will discuss ways
of beautifying home grounds.

Prof. F. L. Washington, state entomol-
ogist, will be the speaker Feb. 10. He
will talk about insect pests of garden,
lawns and parks and how to destroy
them.

What promises to be one of the most
interesting dates of the series is the
meeting to be held Feb. 24. It is ex-
pected that a very much of value to
occur, it being the intention to hold
a round-table meeting, at which home
gardens and the marketing of vegeta-
bles will form the subject for free
discussion. The experiences of local
gardeners will be told and it is ex-
pected that a very much of value to
be learned at this session. Every-
thing said will have a local source and
application.

Prof. A. J. McGuire, who is in charge
of the state experimental farm at
Grand Rapids, will be the lecturer
March 10. His subject will be
"Family dairy." Prof. McGuire is one
of the most ardent advocates of the ex-
tensive dairying industry in the
Northeastern Minnesota and is rated
high as an expert on this subject.

The concluding feature of the series
will be a lecture by George H. Mac-
millan, president of the "Home Pro-
duct" idea has made him famous. He
will also deliver other addresses. The
series, probably speaking before the
women's council, the trades assembly,
business men's organizations and
others.

This series of lectures for the most
part relates to agricultural economy,
of interest not only to gardeners and
farmers, but also to business men in
all lines, the agricultural and com-
mercial interests of this part of the state
being even more closely associated
than elsewhere in the state.

**BALLOON SEEN
OVER SWEDEN**
May Be the Hildebrand,
Missing Since Dec.
29.

Berlin, Jan. 5.—A news dispatch from
Copenhagen reports a balloon supposed
to be the German Hildebrand, missing
since Dec. 29, passed over Hogeanaes,
Sweden, last night. No passengers
were visible.

The balloon Hildebrand ascended at
Scharngendorf, Germany, a week
and nothing has been seen of it since.
It carried four passengers on a trip.
On Friday the balloon took the direction
of the Baltic, passed over the sea
with no word from the aeronauts. It
was generally believed they had met
death in the sea.

News Agent Cuts Artery
While Opening Bottle
on Train.

Flow of Blood Stopped Just
in Time to Save
Life.

The explosion of a pop bottle as he
was opening it, nearly cost the life
of Ed McCuen, a news agent on the
D. M. & N. this morning.

The bottle blew up like a miniature
bomb, severing the artery in the
wrist and cutting a big tendon in the
lower part of his arm. The flow of
blood was profuse and had he not
reached a hospital in time, he might
have bled to death before medical at-
tention could be given to him.

The accident happened in the bag-
gage car. As soon as the train pulled
into the union depot, McCuen was hur-
ried into a back standing at the en-
trance and rushed at top speed to St.
Mary's hospital, where Mr. Magie
dressed his wounds. It is expected
that he will be able to leave the in-
stitution in a few days.

The accident is one of the most un-
usual which has been reported in
many months. It is certain that the
bottle contained a very heavy over-
charge of gas used to charge the pop.

**REGULATION OF
PUBLIC SERVICE**
Governor Bass of New Hamp-
shire So Recommends
in Address.

Concord, N. H., Jan. 5.—Regulation
of public service corporations was
recommended by Robert P. Bass of
Petersboro at his inauguration today
as governor of New Hampshire. In
his address, Governor Bass said in
part:

"The success of a democracy re-
quires that the government shall not
fall under the control of any group,
class or portion of the community.
There is a universal demand on the
part of the people that corporations
get out and keep out of politics.
Heretofore they have been in politics
for their own selfish ends."

"All our enterprises, whether agri-
cultural, industrial or commercial, are
to some extent dependent upon trans-
portation. Consequently it is of
vast importance to our people that
there should be adequate regulations
of railroads. We should have the
same regulation of the telephone,
telegraph, light, heat and power com-
panies. I recommend that you create
a public service commission with
authority fully to regulate rates, ser-
vice and capitalization of all public
service companies."

DIXIE FLYER WRECKED.
Fast Train of Georgia Southern
Ditched Below Macon.

Macon, Ga., Jan. 5.—The Dixie flyer,
the fast Chicago-Jacksonville train,
was ditched at 5 o'clock this morning
at Ina on the Georgia Southern &
Florida railroad, ninety miles below
Macon. The engine and four cars were
overturned. The passengers were some-
what shaken up, but there were no fa-
talities.

The only persons seriously injured
was the fireman. None of the sleeping
club cars left the track. The train
started for the South from Chicago yes-
terday. About a month ago the train
was wrecked near the same place.

**AUTHORIZES BRIDGE
ACROSS THE RED RIVER.**
Washington, Jan. 5.—(Special to
The Herald.)—Representative Hanna
today introduced a bill authorizing
the Fargo & Moorhead Street Rail-
way company to construct a bridge
across Red River of the North at
Fargo, N. D.

DULUTHIANS RAILROAD ON PROGRAM AGENTS HERE

Minnesota Commercial Clubs Knights of the Rail Flock
Will Hold Convention to City Following
in St. Paul. Holidays.

Many Topics of Interest to All of Them Report Mid-
This City Will Be Dis- winter Lull in Rail-
cussed. road Business.

Duluth will have a prominent part
in the proceedings of the fourth an-
nual meeting of the Minnesota Federa-
tion of Commercial clubs, which will
be held in the rooms of the St. Paul
Commercial club Jan. 25-26.

A. L. Hostetter, agricultural director
of the Duluth Commercial club, is on
the program for a talk on the first day,
his subject being "What the Commer-
cial Club Can Do for the Farmer."

With this subject Mr. Hostetter is par-
ticularly familiar, all his work here
being along that line.

Governor Eberhart will be the first
speaker. The morning of the first
day's sessions will be devoted to the
general subject of the development of
Minnesota, and the governor will talk
about the value of united effort. Presi-
dent J. D. Worst of the North Dakota
Agricultural colleges is on the program
for an address, and Mr. Hostetter will
conclude the morning session.

In the afternoon there will be a gen-
eral consideration of projects for the
advertising of Minnesota's opportuni-
ties. President Howard Elliott of the
Northern Pacific railroad, Senator E.
H. Canfield of Luverne and immigra-
tion Commissioner George Welsh will
be among the speakers.

State demonstration farms were es-
tablished on the initiative of the Fed-
eration of Commercial clubs and there-
fore a great deal of interest attaches
to the section of the remaining pro-
gram relating to the demonstration
farm results. Dr. A. F. Smith of the
University of Minnesota is the speaker
on this subject.

Communities which desire to have
the state establish demonstration
farms in their vicinity are expected to
present their claims during the meet-
ing and the federation will exert its
influence in their behalf. When the
demonstration farms were begun, not
enough funds were available to comply
with all requests for locating them,
that only a few of the first applicants
secured them. At least eighty acres
should be provided by the communities
which secure one of these aids to
agricultural development.

There are a number of railroad men
in the city today, the traffic repre-
sentatives being the first of the trav-
eling agents to reach Duluth after the
holiday layoff of the knights of the
rail.

"Dave" Small, traveling freight
agent of the Erie, and "Andy" Thomp-
son, traveling passenger agent of the
same company, are in the city today,
as well as Fred L. Lyon, traveling pas-
senger agent of the Rock Island; Frank
Gujer, traveling freight agent
of the Rock Island; R. G. Brown, trav-
eling agent of the Burlington, and
Charles Webb, representative of the
Northwestern at Houghton.

Practically every one of the trav-
eling railroad representatives in the city
today, reports conditions in the Middle
West as very dull at the present time,
and a heavy travel to the winter tour-
ist resorts, as the only bright spot.

Fred Lyon states that the travel to
the Southern California tourist points
is the heaviest in years, which is a
very good indication that there will
be a very heavy passenger travel this
spring and summer.

Andy Thompson, traveling passen-
ger man for the Erie, says that the
railroads have received information
from the steamboat lines that there
will be a heavy travel to this side of
the Atlantic in the spring, which nat-
urally means more passenger business
for the railroads.

Each of the traffic visitors is of the
opinion that the passing of the cold
month will see an increase in both
the passenger and freight business.
R. G. Brown of the Burlington, says
the through freight business west from
the Twin Cities should show a very
good increase after January, which is
the dull month in railroad circles. Mr.
Gujer of the Rock Island is also in-
clined to believe that the freight busi-
ness will begin to show an increase
after the first of next month.

If a few more table guests would
make it profitable for you to keep
boards open, you have business for
a bread and butter.

THE adjusters are
now at work esti-
mating our loss.
We hope to soon be able
to re-open for business.

MIDWAY CHURCH TO BE REBUILT Swedish Lutheran Congregation Makes Plans for Erection of New Building.

A new edifice will be erected in the spring by the congregation of the Midway Swedish Lutheran church, according to Rev. John A. Krantz, pastor. The old building was erected twenty years ago and is too small to meet the needs of the growing congregation.

The congregation within the past few years has accumulated a fund of about \$20,000 for the construction of the new edifice, and a committee consisting of Rev. John A. Krantz, L. P. Thorberg and C. A. Gronquist has been appointed to solicit more money.

Just how much will be expended on the new church building has not been decided upon. The structure will be a frame one and some of the lumber in the old building will be used in the building of the new. The officers of the church elected for 1911 are: L. P. Thorberg, chairman; August Hall, secretary; Oscar Laitke, deacon; L. P. Thorberg, L. P. Thorberg and C. A. Gronquist, superintendents of the Sunday school.

Rev. J. A. Krantz, 608 North Fifty-sixth, avenue, west, has been elected to his pastorate. The church is also president of the Minnesota conference of Swedish Lutheran churches.

CONTRACT FOR NEW SCHOOL

Board of Education Will Consider New West Duluth Building.

When the board of education meets in regular session tomorrow evening, it is expected that the contract for the new Jerome E. Merritt school building, Fortieth avenue west and Sixth street, will be let. The board, a local architect, has completed the plans.

The new school is to have nine rooms besides an engine room and up-to-date heating plant. It will be a two-story high with a basement and enlarged to twenty-five rooms, when occasion demands. The cost is estimated at \$25,000.

The plans call for a fireproof structure, to be erected of pressed brick and terra cotta with the partitions, floors and roof of non-combustible material. It will be the first really fire-proof structure in the city.

If the plans are accepted and presented and the board of education will probably be made that the school must be opened for school next year.

"KIDS" ARE LEADING THEIR SQUAD.

Wade's "Kids" won the leadership of their squad in the Friday evening, when they defeated the Macaulay team, 16 to 9 in the Eastern. In the bagley cup race, this team won 14 to 9. Four games are down this season. In the bagley cup, Olson vs. Strand, Holland vs. Keyes, Zant vs. Buckley and Macaulay vs. Wade's.

"ACRES OF DIAMONDS"

There is nothing that can be said for the railroads. It is very quiet for operating, and that is about all you can say. In the railroad world, there is nothing of any special interest, and you might say things were very quiet. It is the policy of the company to keep in the background, but that is not the case with the business affected by its operations, and that is what brought us to the head of the lake.

GETS \$4,350 FOR A HAND

Judge Homer Dibel has decided that the Duluth Brewing & Malting company for the firm as elevator man, and that the hand was to be paid \$4,350. The trial took place before Judge Dibel last term of court, and his decision was filed in the clerk of court's office this morning.

He claimed negligence on the part of the company in not seeing that the hand was properly secured, and that the hand was crushed, rendering the hand useless for work.

LATEST SPORTING NEWS OF THE DAY

GREAT GAME IS EXPECTED

Copper Country Sending Star Hockey Team to Meet Duluth Seven.

Portage Lake Aggregation Best Since Days of "Doc" Gibson.

LINEUP OF THE TEAMS:

 Portage Lake.....Fenton
 House.....McLaughlin
 Linder.....Woods
 Stute.....E. Cummins
 Strand.....Hardesty
 Foley.....Taylor
 J. Mahan.....Cargill
 or Wana.....
 Curling club reserves—F. Mac-
 rae, Clark and McKenzie.

What is said to be the fastest team developed in the Copper country since the days of the old International league, the glorious days, and nights also, of "Doc" Gibson, Bruce and Hod Stuart, and others of the famous Canadian combination, the bunch of Portage Lake hockey players will reach this city tomorrow morning, ready for the first game Friday evening with the Duluth Curling club hockey team.

The Portage Lake team is made up of the fastest players of a vicinity and has long been famous for the star puck chasers it has produced. When it is considered that the players who will line up against the pick of the local players are the very best that the Duluth curling club hockey team could select, some idea can be gained of the strength of the team.

Joe Linder will place on the ice. "Doc" Gibson since the days of the old International stars, and yet at the present time he is considered the best player in the Copper country. As a defense player, or it is very doubtful if he has an equal in the country.

St. Louis at center is wonder. This fellow follows close in the glittering path of Linder and stands today, in the opinion of the Copper country, as one of the stars of the game. If St. Louis doesn't come in with these great players, so great a player was even then.

W. Mahan played with the Houghton team that played a number of years ago. He is big and powerful and is a very good skater. Like Linder, this player is an exponent of the body checking system of defense play, and the Duluth players may find it difficult to handle the method of putting a man to the boards.

Having played goal for the Houghton team for a number of years and is a steady, reliable player.

W. Mahan is at cover point and Stute will be placed at rover. Stute is very fast and it is expected that he will be a trouble maker for the Curling club defense, for he is considered one of the best players in the Copper country. Foley will be seen at right wing, and J. Mahan at Wana at left wing. Wana is a good player and can be depended on to play a good game. As far as the individual players are concerned, there does not appear to be a weakness of the Copper country team. The only doubt in the minds of the Copper country fans, some of whom will come down here with the team, is how the Copper team will perform on the small rink.

These players have been practicing the present season in the Amphitheatre at Houghton, and there is no denying the fact that the Copper country boys will certainly be capped on the smaller rink of the Duluth club. It is possible that six men will be played on a side.

But even with this handicap the members of the Duluth Curling club team will have to play the best game they have played the present season, with the fast aggregation from Hancock and Houghton of the curling club team announced his lineup this morning. Ray Fenton and Earl Elinings are two of the best players on the local team. Fenton stands today as one of the best players in the Copper country. Elinings should cause a lot of trouble for the visitors, for it is a very difficult shot to escape the vigilance of this star.

Cummins is very fast, is a hard man to stop, is powerful and strong, and the present season is playing the best game of his career. Young Arthur Taylor has been a corner for the past two seasons, and is only a kid, and the present season he is due to develop into a star.

The two games should be the best hockey seen here for a number of years and should go far toward making the game sold in this city.

Ed Anderson, Opponent of

Latest White Man's Hope,

in Duluth.

Ed Anderson, one of the men who fought Carl Morris, the engineer who is attracting a great deal of attention at the present time through his six straight victories, including a knockout of Marvin Hart, was in the city yesterday.

Anderson was knocked out by Morris in five rounds.

He is a very strong and as big as a house, but slow, said Anderson yesterday. "He may learn more of his blows, but when I started in to get him, he was so strong, though, that it is very hard to hurt him."

"Down in the oil country of Oklahoma they think Morris is the coming champion of the world. They will back their opinion with all mines and other small possessions. Some day he may make a great fighter for he has many of the qualifications that go into the making of a champion. One thing he will have to acquire, though, and that is speed and the ability to get his punch over. Morris is an awful sucker if he allows anyone to kid him into fighting Sam Langford."

YOUNG WOULD DESERT NAPS

Cy Believes He Is Good—

May Not Play With

Cleveland.

Peoli, Ohio, Jan. 5.—Cy Young, daddy of baseball pitchers, has joined the

Evva Tanguay "I Don't Care" for this way. Cy has heard no more re-

ports from Cleveland and elsewhere that he is not wanted as a Nap longer.

He has heard that Cleveland doesn't want him, but he will be content to feather his

wings in the Cleveland club. "It is up to Mr. Somers and not me to continue as a Nap. I will abide by their decision."

He is in position to dictate to the Cleveland club now, the same as I was when Boston was a power.

Would Join Minors.

"I don't want to force my services on the Cleveland club. If they think I am through and don't want me, why, I am satisfied to take a walk."

Where they want me, I will go. I am disposed of me to a National league club. I will certainly continue in the game, if conditions meet with my approval."

A few years ago players who had supposedly outlived their usefulness in the major league like him, used to be sent to a minor league club. It is different now. Why, some of the class clubs pay just as good money as they do in the big show. It would be foolish for any of the present-day players to say that they would quit the game rather than go back to the minors.

"I feel that I will have a good season in 1911. Why, I weigh fifteen pounds less than I did when I came home last fall. I'm not very fat and I'm as hard as nails. I'm on a diet, working hard and expect to be in grand shape when the bell rings."

"I never liked the program of Manager McGuire in working me. I don't like it. Why, I'm as strong as any pitcher in the business and it would be a pity for me to work twice a week. At least, I should not be kept in the cooling shed more than four days between games. Why, when I pitched against Cincinnati hadn't worked in five weeks. I need work and lots of it."

He has always liked Cleveland, but if I'm not wanted there, it does not necessarily follow that I will retire from the diamond. I'm still a youngster and will be pitching ball for several years to come."

BURNS MAY FIGHT.

Rumor Says Tommy Will Seek Match With Langford.

Chicago, Jan. 5.—Jim Sewell, at one time a member of the local lacrosse team and at present in partnership with Tommy Burns, former heavy-weight champion, in Calgary, Alberta, who is visiting friends in the city, declared yesterday that Burns probably would re-enter the ring. The former champion recently injured a knee during a lacrosse match and the manner in which it healed will determine the future plans of Burns.

Sewell said if the injured member yields to treatment Burns will seek a match with the famous Langford, a step-ling stone to bigger fights.

SWEETLAND TO COACH CREWS AT MADISON.

Madison, Wis., Jan. 5.—E. H. Sweetland of the University of Wisconsin crew coaches who arrived here yesterday, stated that he would not alter the team from the University of Wisconsin unless he could give more efficiency.

Advices that have been received from Marshallfield, Wis., the home of Fred Beell, the greatest little wrestler in the world for his weight and

inches, state that the little demon is preparing for next work and will in a short time go on after some of the best in the game. It is said that Beel

will go after the best in the game, if he finds that he is still the same old Freddy Beel, the boy that made them all hunt for reasonable excuses.

command the respect of the Minny league people if they want a president who has made a fine record as a newspaper man, and who also stands high among the baseball men of the Northwest.

Frank McInerney, sporting editor of the St. Paul Dispatch has also been mentioned for the office. He is one of the best known of the Twin City sport writers and has a very large following among the baseball fans of the Northwest. Both men would make good executives, and if the magnates decide to go outside of the cities of the league for a president, they could hardly do better than select one of the two Twin City newspapermen.

It is stated that the American association and the Eastern league want the power to draft from the lower leagues at the same time that the two majors do, want the right to reserve their players from draft of the minors, and practically want to be classified next to the two majors, separate and apart from the minor leagues.

Whether this request will be granted by the national commission, and just what will occur, should the national commission see fit to refuse the request of the two minor leagues, are matters that just at the present time are exciting the interest of baseball men throughout the country.

There can be no doubt of the growth of the American association and the Eastern league. They have grown very much in the past two or three years. They have some great baseball towns in the two circuits, and from the attendance of some of the cities in the two leagues last season one might be pardoned for believing that the American association could support major league baseball.

It is hardly fair to give some small club equal voting power with one of the big clubs of the American association or the Eastern league, and if there should be two minors ahead of these other clubs, it is to be hoped that they will be avoided at that, and it is hoped that they will be those who will believe that the Eastern league have taken the right step.

Both the American and National leagues are prepared to spend vast fortunes to prevent their territories from being invaded by the American association moved into Chicago, it would mean war to the very end. Magnates are doing so that if trouble does occur, the club owners are prepared to fight simply because they are convinced they can secure their rights in no other manner.

NOTICES SENT OUT FROM LA CROSSE STATE THAT PRESIDENT OF THE MINNEAPOLIS LEAGUE HAS SENT THE CALL FOR THE MEETING OF THE MINNEAPOLIS LEAGUE DIRECTORS.

NOTICES FIX THE DATE AT JAN. 10, AND LEAVE THE CHOICE OF THE MEETING PLACE WITH THE CLUB OWNERS.

Both Winona and Rochester have asked for the meeting, but it is believed that Winona will secure the privilege of entertaining the delegates. With the calling of the meeting comes the belief that the magnates adjourn. It is generally understood that John A. Elliott will not be a candidate for re-election.

The name most prominently before the magnates at the present time, is that of George A. Barton, one of the Twin city sporting writers. It is understood that Mr. Barton's name will be considered at the meeting.

Barton's record is such that he will

McFARLAND AND WELCH MAY MEET

Match Said to Have Been Arranged But Packy Is Not Certain.

Milwaukee, Wis., Jan. 5.—A match was closed yesterday between "Packy" McFarland of Chicago and Freddy Welch of Cardiff, Wales, lightweight, for a 20-round boxing contest in England, Feb. 3, the boys to weigh 133 pounds at 2 o'clock on the day of the contest, according to announcement made by H. O. Messler, American representative in Hugh Hinkley.

McFarland Denies Report.

Kansas City, Mo., Jan. 5.—Packy McFarland, who is here training for his fight with Johnny McCarthy, in Francis, Mo., said last night that arrangements for his proposed battle with Welch had not been completed.

McFarland said he had told the promoters he would not fight unless Eugene Corri refereed. The Chicago fighter also wants the date for the battle advanced about two weeks, making it take place during the week beginning Feb. 19.

ED ADAMSON SEEKS MATCH WITH SAILOR.

Ed Adamson, often referred to as the king of the little men, and for many years considered the greatest little wrestler in the world, has written that he would like to meet Sailor Jack in this city. The match may be made between the two men for it is believed that it would be a great contest.

Jack has written that he will return from the Pacific coast in a week or so, if his present plans do not miscarry. As the sailor is anxious to meet the very best man of his class in the world, bar none, and as Adamson says he is willing to make the welterweight limit, the match may be made.

Adamson, like the sailor, is demanding a match with Miller, for the world's title and may come West in an effort to get the little St. Paul boy on the mat.

HIGHLANDERS GIVE TWO MEN TO INDIANAPOLIS.

New York, Jan. 5.—The New York American league club yesterday released Outfielder Lester Channell and infielder John Priest to the Indianapolis team of the American association.

Channell, who was with the Highlanders last season, broke his leg in sliding to third base in the game with St. Louis on May 17.

Priest never has played with the local club, which purchased him from Danville, Va., last fall. The New York American league club retains an option on Priest's services, but Channell is released outright.

FRED BEELL, GREATEST WRESTLER IN THE WORLD AT HIS WEIGHT, WILL RETURN TO THE GAME

Advices that have been received from Marshallfield, Wis., the home of Fred Beell, the greatest little wrestler in the world for his weight and

BOYS GAG CLERK AND PORTER, TAP TILL AND MURDER POLICEMAN

SKETCH SHOWING POSITIONS OF TWO
BOYS AND OFFICER IN STREET CARSKETCH OF MURDERED POLICEMAN
DRAWN FROM KODAK PICTURE

HARRY CHESMORE.

Officer Harry Chesmore of the police department, who was shot and killed this morning by a pair of youthful bandits, was 29 years old and unmarried. He had been on the police force since July 3 last. He was formerly employed as a motorman by the Duluth Street Railway company for about a year previous to the time he secured a position with the police department. He boarded at the street car boarding house kept by Miss Clara O'Lander, at 2417 West Superior street. He roomed at Mrs. J. Humphrey's, 21 Twentieth street.

He came originally from Janesville, Wis., his home. His father and mother are both dead. His father died about a year ago. He has a sister, Mrs. Moyer, at Janesville; another sister, Mrs. Pratt of Johnston, N. D., and a brother, Henry, of La Prairie.

Chesmore was a riveter by trade. In his rooms there are several pictures taken while doing steel work on buildings in the course of construction. He was one of the best known and popular men in the West end. He knew everybody from the school principals to the woman on the corner who kept the candy store.

Both at his boarding house and his rooming place genuine regret was expressed at his end. At the boarding house a number of men were discussing the affair. They agreed that Chesmore was "all right." "He attended to his own business, never meddled, was quiet and accommodating," was their verdict of the murdered man.

THE BOY MURDERERS AND BANDITS.

Algot Johnson—Age 15, height about 5 feet 6 inches, pale face, dark hair, slim build; wore white collar, dark clothes, gray overcoat, and gray soft hat. Home at Virginia, Minn.

Inflamed with anarchistic teachings and wild West literature, Algot Johnson, 15, and William Muzzard, 19 years old, murdered Patrolman Harry A. Chesmore shortly after 6:30 o'clock this morning on a Duluth-Superior street car as he was bringing them to police headquarters to answer the charge of holding up the night clerk and the night porter of the Hotel Muzzard, and rifling the cash register of about \$65.

The boy bandits and murderers made their escape from the street car at Sixth avenue west after shooting the policeman and subduing Conductor

Mad at Representative
Holton.His Failure to Vote for Burn-
quist for Speaker
the Cause.

Crookston, Minn., Jan. 6.—(Special to The Herald.)—John Holton is a traitor. After being elected to the county option issue, he failed to vote for a county option speaker of the house. He did not vote at all, in fact. Then he sends me a telegram asking me if I wanted a job. This, I suppose, was meant as a bribe to keep me still. But I wouldn't have any job, don't want one from the state legislature.

The above statement was made by M. G. Peterson of Fertile, when the news came of Dunn's election as speaker, and that Representative Holton had failed to vote for Burnquist and had not voted at all. There is certainly something doing in the county option camp in Polk county. The radicals are madder than hatters at Holton for his course.

East Side Station in
Minneapolis.

Minneapolis, Minn., Jan. 6.—(Special to The Herald.)—An explosion at 6:35 a. m. today wrecked the East side power plant of the Minneapolis General Electric company. Two men were seriously injured. The city is left temporarily without electric current.

In three minutes after the explosion the plant was in flames. The walls bulged out. Everything in the interior was destroyed. James Mulcahey, the sole witness of the explosion, says something blew out on the switchboard and immediately the whole place was in flames. Two men were hurt and sent to the City hospital, Joseph Rhades, 717 Western avenue, bruised about the chest, and John J. Mulcahey, 2311 Grand street northeast, hit by flying iron and his arm fractured.

Employees of the Pillsbury Flour Mills company and Salsbury & Satterlee rushed to the rescue but could not get near on account of the flames.

the Convention at
Portland.

Portland, Or., Jan. 6.—The subject assigned me is "Schedule K of the Payne-Aldrich tariff bill from the wool growers' point of view," said Peter G. Johnston of Blackfoot, Idaho, at the convention of wool growers last night. "I recognize that this is very intricate, and one with which very few men are familiar."

"In the humble judgment of your fellow wool growers the sheep industry and the Western country in general would have been millions of dollars better off if the Payne-Aldrich tariff law had been destroyed by the president's veto. During the last ten years the cost of production has increased fully 11 cents per pound. We do not have enough protection."

"The tariff commission as recently by at the facts. The speculator said a business organization was necessary to protect the interests of the wool growers. He said: 'Most of us who have had the forest reserve to deal with

George T. McKay, a member of the firm of McKay Bros., proprietors of the hotel, was awakened by the shot fired by one of the boy bandits for the purpose of frightening the night clerk into submission. Mr. McKay was sleeping in a room directly above the office.

Had it not been for the fact that Mr. McKay failed to comprehend what was going on in the office, it is probable that he would have been the target for the bullets of the bandits. Fortunately for him, he decided that there was nothing unusual about

Charles Firoved, the night porter of the McKay, gave a straightforward account of the holdup.

He is only a boy in both years and appearance and, considering the fact that he was facing an ugly-looking gun during part of the time that many of the startling details of the early morning holdup occurred, it is rather remarkable that he remembers so clearly what happened.

"Clarence, the night clerk, was standing near the first writing desk and I was putting one of the chairs in place when the two men came in. When the shot rang out, Mr. McKay

Son.

"Don't Forget Jesus and Always Believe in God," is the inscription on a postal card, which Algot Johnson, the 15-year-old boy involved in this morning's holdup, sent to his mother, a few days ago. The card was found among Johnson's possessions in the room which Johnson and Muzzard occupied together in the Merchant's hotel on Superior street, between Third and Fourth avenues west.

A search of the boys' room revealed little of interest to the police. Among the articles found was a cartridge belt and holster. The belt was loaded with 44-caliber cartridges, but the holster was empty and the revolver was found in a pawnshop later in the day. Muzzard had pawned it some days ago. St. Paul, Minn., Jan. 6.—(Special to The Herald.)—The bill amending the primary election law, introduced by Senator John Moonan of Waseca, is not only an extension of the primary election system to state officers and United States senators, as stated in these dispatches, but it is an ingenious attempt to get around the intermingling of voters in party primaries.

Though complaint of promiscuous voting at party primaries have come largely from Republicans, Senator Moonan is a Democrat. He comes from the Republican county, however, where a Democratic candidate of their own, go into the Democratic primaries in order to have a voice in the selection of local officials. Just as Democrats sometimes do in counties that are overwhelmingly Republican.

Michigan.Former Governor Warner Is-
sues a Statement on
the Matter.

Lansing, Mich., Jan. 6.—Former Governor Fred M. Warner, who was succeeded Jan. 1 by Governor Chase S. Osborn, today issued a statement concerning the pardon of Edward Ascher, a life convict in the state penitentiary at Jackson. Because of this pardon, Governor Osborn demanded and has received the resignation of two of the three members of the state pardon board.

"I am convinced," says Governor Warner, "Ascher was not convicted by a voluntary verdict of twelve men, and that at least five or six consented to a wrong conviction only after a 34-hour struggle under circumstances where will power was lost in physical weakness."

Ascher was convicted of the murder of Valmore C. Nichols at Detroit in 1898. It was testified that Ascher, as a spiritualist, had advised Nichols to carry a large sum of money in a hotel. Nichols was murdered in a rowboat at Belle Isle by some one who stole this belt and threw the body into the river. Ascher was convicted on circumstantial evidence.

DIVORCE MILL STILL GRINDING

Mrs. Hessinger Withdraws Her Case and Husband Gets the Decree.

The divorce mill was still grinding today before both Judges Ensign and Cant. The work is becoming slower as the cases seem to be getting longer. The surprise of the divorce calendar came last night when Bertina Hessinger withdrew her case against her husband, Carl Hessinger. Judge Cant gave him the decree after all the evidence was in about noon today. Mrs. Hessinger was the plaintiff in the action and Hessinger fought it, alleging cruel and inhuman treatment. It is unusual for the defendant to be awarded the decree. Both the plaintiff and the defendant alleged almost every form of cruel and inhuman treatment. In his cross bill the defendant claimed that his wife slandered the members of his family. The wife claimed that she had suffered a systematic course of ill treatment at the hands of her husband. The case has been the principal ac-

tion at the present divorce term and began yesterday morning before Judge Cant. Both told weird stories of married life on the stand. Maude C. Garner was given a decree from her husband, John C. Garner. Jeannette E. Sloan was given her freedom from her husband, James A. Sloan. Louis E. Strum was given a decree separating him from his wife, Agnes E. These divorces were all granted by Judge Ensign.

***** REMINDS HOTEL GUEST OF LITTLE OLD NEW YORK. *****
 "When I started from Superior to Duluth I had no suspicion that I was only a little more than forty-five minutes from Broadway," remarked a guest who had just arrived at the Spaulding last evening. "But that's what I say, this takes me right back to New York," and he looked about the lobby with the liveliest interest. The reason for his announcement was that the entire personnel of "The Three Twins" company was quartered in the Spaulding and the lobby was thronged with actors. The company is an unusual by large one and the fact that all its members went to one hotel was generally commented upon by regular patrons of the Spaulding as a very considerable compliment to that house. After last night's performance the scene in the lobby and cafe was suggestive of the Rialto. *****

OLD RESIDENT OF DULUTH DIES

Pneumonia Is Fatal to Adam Kirst, Retired Grocer.

Adam Kirst, a resident of Duluth for nearly twenty-three years, died at his home last evening. Pneumonia, which showed its first serious symptoms a few days ago, was the cause of death. Mr. Kirst was 75 years old and was born in Germany. He came to Duluth in 1888 and was in the grocery business fourteen years, retiring in 1902. Mrs. August Fitzer, a daughter, is the only surviving member of Mr. Kirst's family. Funeral services will be held Saturday afternoon at 4:30 at the residence of August Fitzer, 629 East First street, and the body will be taken to Milwaukee for interment.

HAD BETTER GUNS THAN THE POLICE

London, Jan. 6.—The inquest into the death of the two outlaws who were killed while resisting the police in their Sidney street home on Tuesday began today. The testimony showed that soldiers were summoned by the commissioner of police because the anarchists' revolvers were so superior to the weapons of the police and that less than fifty police officers participated in the siege, the remainder being required to deal with the crowds. The examination of the surgeon who performed the autopsy developed that one of the men was shot by the police or soldiers while the other probably died from suffocation. One of the bodies showed a bullet hole through the skull, the bullet having entered back of the right ear. The surgeon thought that the victim died before the flames reached him. Appearances indicated to the physician that the second anarchist was suffocated. The inquiry was adjourned until Monday.

THE OAK HALL'S

CLEARANCE SALE

WHEN a thing must be done—better do it without stopping to count the cost. Its a maxim of good merchandising, but it calls for commercial courage of the highest order to view the profits of the season vanish into air—and yet the immensity of our stocks has made the appalling cut in prices which make this "CLEARANCE SALE" an absolute necessity. The prompt response of the people, showing as it does their faith in the integrity of our announcements, almost compensates us for the financial loss this sale entails.

RECORD YEAR FOR BRANCH LIBRARY

Encouraging Report of West
Duluth Institution--New
Building Needed.

GROWTH OF THE BRANCH
LIBRARY FOR YEAR PAST.

Library open 274 days.

Circulation in departments, adult

15,492; juvenile, 20,442.

Non-fiction circulation for year

1910, 4,444.

Cards in use at end of year,

2,173.

Fines collected, \$11.86.

Increase over 1909 in attendance,

about 4,000.

Increase in circulation over 1909,

about 5,000.

Miss Lida J. Marble, in her annual

report of the West Duluth branch of

the library, has figures to show that

the growth of the institution at West

Duluth has been remarkable during

1910, and fully warrants the building

of a suitable structure to be dedicated

entirely to library purposes.

For this Andrew Carnegie has al-

ready promised \$20,000 to the library

board, and it is probable that steps

will be taken this spring to procure a

site and start the construction of the

proposed West Duluth library.

There was an increase in attendance

of more than 4,000 last year over 1909

and the increase in books circulated is

said to be over 5,000 as compared with

the year previous. During the past

year the library was closed during the

month of August and during only

for 247 days as compared with 202 days

in 1909.

During the year past the branch

was moved from its old quarters in the

Western State bank building to a more

commodious place in the new Graham

block, adjoining the post office station.

A noticeable increase in the number

of non-fiction books called for is shown

in the report. The average daily cir-

culation was 249 and the smallest 60.

During 1910, 627 new cards were is-

ssued, of which 3,400 were in the de-

partment of fiction and 287 in the de-

partment of non-fiction.

The branch handles the reading

public with seventeen monthly maga-

zines, six weekly magazines, six daily

papers and one weekly paper, all on

his.

Miss Mabelle Roff is assistant at the

library.

JOINT INSTALLATION.

New Officers of Hibernians and

Auxiliary Take the Oath of Office.

A joint installation of the officers of

Division No. 4, Ancient Order of Hi-

bernians and the Ladies Auxiliary, Di-

vision No. 2, was held last evening at

Gilley's hall on Central avenue. State

President Fred Harrison presided and

addressed the gathering, compliment-

ing the lodge members on the splendid

record of the past year.

Others who spoke were Rev. Father

Lynch, Rev. Father Bagley and Mrs.

May Homville, state vice president of

the ladies auxiliary. A musical pro-

gram followed. The officers installed

were:

Division No. 4, A. O. H.—Nicholas

Collins, president; Thomas Callaghan,

vice president; James Connolly, finan-

cial secretary; John Cashin, recording

secretary; P. H. McGraw, treasurer;

Miss Mary, sergeant-at-arms; Ed-

bert Morin, sentinel.

Division No. 2, L. A. O. H.—Nellie

Brotherton, president; Annie Collins,

vice president; Augusta Wilkin, finan-

cial secretary; Mary Allen, recording

secretary; Johanna Madden, treasurer;

Miss Murphy, sergeant-at-arms;

Mayne Hironaka, sentinel; Mrs. Mc-

Veigh, chairman standing committee.

OLIVER STRANDMARK WEDS GLENCOE GIRL.

Cards announcing the marriage of F.

Oliver Strandmark to Miss Edythe Jo-

hanna Stahl of John Cassin, Minn., have

been received by the former's West

noon, and evening at the home of Mrs.

E. Johnson of 5301 State street.

The reports of the two societies

showed them to be in a flourishing

condition.

JOHN F. DIETZ IS RELEASED

Cameron Dam Defender Is

Now at Liberty Under

Bail.

Hayward, Wis., Jan. 6.—John F.

Dietz was released from the Hayward

county jail this morning, following the

approval of his bonds by Judge Ror-

dan, and on order of County Attorney

Williams, the new prosecutor.

Mr. Williams stated that he would

not serve the two years still pend-

ing against the prisoner, who on March

6 will stand trial for the murder of

Charles Harris, a deputy, in the memo-

rable battle of Cameron Dam, when his

capture was effected by Sheriff Mike

Madden.

Police Chief Operated On.

Menominee, Mich., Jan. 6.—(Special

To The Herald.) Chief of Police Eng-

lish was operated on at St. Joseph's

hospital for appendicitis. His condi-

tion is serious, but his recovery is

confidently expected.

MEET SUDDEN DEATHS.

Leaders of Brazilian Revolt Die

While in Prison.

Rio Janeiro, Jan. 6.—According to to-

day's Journal do Commercio, Joao Cas-

cade, leader of the recent revolt in the

navy, and forty-four other mutineers,

have met sudden deaths. Cascade suc-

cumbed to gangrene while a prisoner;

twenty-six of his associates died from

sunstroke while engaged in repairing

the fortress on Cobras island, and

eighteen others were suffocated in the

cells in the prison on Ilhoagoin island.

FUNERAL SATURDAY.

Senator Elkins' Body Will Be

Taken to Elkins, W. Va., Friday.

Washington, Jan. 6.—Senator Stephen

B. Elkins' body will be taken tonight

to the residence here, where it will

be held in state until Friday, when it

will be taken to the West Virginia

capital for burial. The funeral will

be held at 9 o'clock tomorrow morning.

The funeral services will be held in the

capital immediately thereafter.

Private services will be held late to-

day at the Elkins residence here. Pres-

ident and Mrs. Taft and Vice Presi-

dent and Mrs. Sherman, together with a

host of state senators, friends and

colleagues in both branches of con-

gress, are expected to attend.

Secretary of War Dickinson has is-

ssued a general order that as a mark

of respect to the memory of Senator

Elkins, who was secretary of war dur-

ing the President Harrison adminis-

tration, the times at all military posts be

displayed at half mast on the day of

the funeral.

WESTERN UNION LOSSES.

Massachusetts Supreme Court Sus-

tains Verdict of Lower Tribunal.

Boston, Mass., Jan. 6.—In sustaining

verdict of \$20 obtained by William E.

Vernilye against the Western Union

Telegraph company, the full bench of

the supreme court holds that a tele-

graph company is obliged to accept a

contract on a message intended to be

transmitted, or the non-delivery of

a message. The Western Union com-

pany under its rule refused to receive

such a message from the plaintiff, and

in defense relied upon the interstate

commerce act.

TENNESSEE LEGISLATURE IS AGAIN DEADLOCKED.

Nashville, Tenn., Jan. 6.—Unable to

secure a quorum, the lower house of

the Tennessee legislature was again

deadlocked today. Thirty-seven Dem-

ocrats, who have refused to qualify, say

that they are remitting to the state

they can get assurances of what they

term a square deal from the inde-

pendent Democrats and Republicans in

the house.

BLANKS ARE RECEIVED

Corporations Must Make Returns on Business of Year Just Closed.

Test Cases Not Decided, But Corporations Comply With Law.

Blanks are being sent out from the office of the collector of internal revenue at St. Paul to officers of corporations through the state, and they are being notified to make their returns on the business of the year 1910 for taxation under the corporation tax law. Officers of Duluth corporations have received the blanks and they are preparing to make their returns by March 1, in accordance with the act.

Although the cases pending before the supreme court of the United States, attacking the constitutionality of the corporation tax law, have not yet been decided, few corporations will fail to make their returns within the time specified. The tax was paid last year under protest, for although the officers of many corporations maintain that the law is unconstitutional and an unwarranted assumption of the federal government, the penalties are so severe that the corporations are anxious to avoid them, should the law be upheld by the supreme court.

If the law should not be upheld, all money paid to the government under it would undoubtedly be returned to the corporations with interest. That being the situation, the corporations are content to abide by the law until such time as their status under it is established.

The only difficulty encountered in enforcing the law in Duluth is the fact that a number of corporations have died in fact if not in law, and in a number of other cases the president and secretary, who are responsible for the returns cannot be reached. A failure to return the blanks will result in the office of the collector of internal revenue at St. Paul upon Deputy Collector Otto Galtner for the Duluth district the task of making a list of the corporations and the proper officers to be charged with making the returns. A number of corporations listed as doing business in the Duluth district have paid their taxes for last year, but the proportion is relatively small.

WILL OPEN BIDS ON NEW SCHOOL

Board of Education to Award Contract for Jerome Merritt Building.

At the meeting of the board of education tonight the contract will probably be let for the Jerome Merritt school, which will be built this year at Fortieth avenue west and Fifth street. Bids will be opened and if the lowest bid is satisfactory, it will be accepted.

The bids on the work will include everything connected with the building, heating, ventilating, plumbing, electrical work and everything else coming under the general contract. The board has divided the contract into two parts, one for the building and the other for the mechanical work. It is believed that better results will be obtained by having one general contractor responsible for all work.

With the exception of the opening of bids, it is expected that matters to come before the board tonight will be of a routine nature.

Camp Clerks and Loggers.

We will mail our large 25x26 office calendar (large figures) 6x24 at address upon receipt of 5 cents postage. Eaterly, 428 West Superior street.

DAMAGES BY HEAVY GUSTS.

War Department Wants \$22,802 to Reimburse Losers by Target Work.

Washington, Jan. 6.—To permit the settlement of 153 claims now on file at the War Department for damages to fences, trees, and crops, caused by the heavy gun firing and target practice of the Government, the war department has asked congress for \$22,802. Most of the damage was done in the vicinity of Forts Hamilton and Wadsworth, New York; Heath, Banbury, Winchester, Ivers, Mass.; Levett, Minnetonka, S. C., and Milley, Cal.

ANNUAL MEETING OF CEMETERY ASSOCIATION.

The Duluth Cemetery association held its annual meeting yesterday afternoon. The report of W. B. Patton, secretary, indicated a total cash income of \$15,146.14 in the last year, an increase of \$1,473.90 over the previous year.

Permanent improvements cost, \$2,264.25, maintenance, \$2,046.51 and \$1,197.31 for the care of trees, plants and shrubs. There were 207 graves at Forest Hill cemetery, eight less than in the previous year. Joseph Scullwood and John Patton were re-elected trustees. Officers will be elected by the trustees Feb. 7.

NO MORE MISERY IN THE STOMACH

Indigestion, Gas, Heartburn
or Dyspepsia Vanish in
Five Minutes.

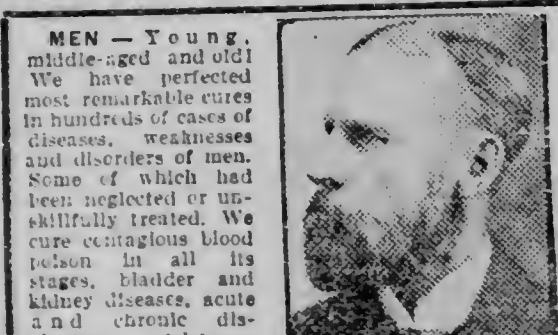

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch Gas and Eructate sour, undigested food, or have a feeling of Dizziness, Heartburn, Fullness, Nausea, Bad taste in mouth and stomach headache—this is Indigestion.

A full case of Pope's Diaprepin costs only 50 cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or Indigestion.

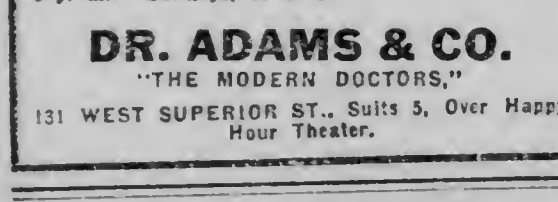

Ask your pharmacist to show you the formula plainly printed on each 50-cent case, then you will understand why Dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs of Indigestion in five minutes. Diaprepin is harmless and tastes like candy, though each case contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite, but what will please your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for Biliousness or Constipation.

This city will have many Diaprepin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too, if you ever try a little for Indigestion or Gastritis or any other Stomach misery.

Get some now, this minute, and forever rid yourself of Stomach Trouble and Indigestion.

DAIRY FOODS ARE CHEAPER

Butter and Eggs Decline as
Storage Stocks Press
on the Market.

Trading in Produce Is Feature-
less—Coffee Advances
at Wholesale.

In the last week the produce market has been dull and featureless. The butter market is a little weaker, the price of high-class dairy being slightly larger while the demand did not keep pace with the increased supply. Considerable butter that was thrown into cold storage last summer is pressing on the market also, as holders have not desired to pay additional storage rates and carry their stock longer. High grade makes, strictly fresh, are bringing premiums over the quoted prices, but these classes are fairly makes which either are patented or have a reputation among discriminating consumers. The undertone of the market has been weak for some time, but speculators elsewhere were working to hold up values and were regulating the supply that was coming onto the market. The flow became heavier, however, and speculators were unable longer to regulate the outgo of their stocks. Buyers were backing away from the market, believing that values were too high and the decline in prices was inevitable, although the reduction did not come as soon as some buyers had expected.

The entire dairy market has displayed a weak undertone, eggs also being slightly cheaper. The egg market is based primarily on the cold storage supply as the fresh shipments are small and are quickly taken by the high class trade at a sharp premium over the stock from refrigerators. The apparent speculators' overvaluation earlier in the year, while holders have succeeded in turning a moderate profit yet a fairly large sized proportion of stock represents a slight loss or a lack of profit, when storage rates are considered. Some holders have been willing to carry their holdings longer and the result has been an increase in offerings.

The cheese market is firm and unchanged. Receipts of oranges are liberal. The changed Grape fruit is meeting with a broad demand and prices are slightly easier, as shipments from Florida are larger. The consumptive demand is broad. Stocks of Eastern apples are low and prices are slightly firmer. Western apples are unchanged. California tomatoes are higher and Jersey cranberries have taken a sharp advance. The supply in small and demand is fair. Radishes are scarce and are sharply higher. Evidence is slightly cheaper. Otherwise the vegetable market is unchanged. There is a shortage in the world's supply of coffee and cheaper grades have advanced sharply. While only the cheaper grades have been advanced, yet 85 per cent of the consumers in the United States are affected, as only 15 per cent drink high class grades. Jobbing prices have been advanced generally, a pound or a total of 10c on the upward turn. Retailers met the last advance by boosting retail prices 5c a pound.

SENATOR CLAPP TO BE CHAIRMAN

Will Succeed Elkins on Senate Committee on Interstate Commerce.

Washington, Jan. 4.—Senator Clapp will succeed to the important position as chairman of the senate committee on interstate commerce, made vacant by the death of Senator Elkins of West Virginia. The committee will be reorganized at the opening of the sixty-second congress. Senators Aldrich of Rhode Island and Keen of New Jersey, who rank Clapp, will retire from the senate March 4. This leaves only Cullom of Illinois ahead of the Minnesota senator, and the venerable senator who is chairman of the committee on foreign relations will not take any further responsibilities. Senator Clapp has always been an active member of the interstate commerce committee, although he was not in accord with a majority of the republican members on the original court of commerce bill, which was practically made over by himself, Cummins and Dooliver. This new chairmanship will place Senator Clapp well to the front as one of the leaders in the senate, which will be entirely reorganized in the next congress.

INSTALLATION BY THREE LODGES

Five Hundred Members of
Modern Brotherhood Attend Ceremony.

About 500 members of the order attended the joint installation of officers of Fraternity lodge, No. 560, Duluth lodge, No. 2250, and Duluth Central lodge, No. 450, Modern Brotherhood of America, at Knights of Pythias hall last night. William E. Kinnman of Minneapolis, state treasurer, was the installing officer, and he was assisted by J. F. Dykeman of Brainerd, acting supreme conductor. Following the installation, addresses were made by L. A. Barnes, Mayor Cullom, John H. Norton and the 3M. Hall sang. J. C. Wesenberg was chairman. Dancing and refreshments followed.

The following officers were installed: Fraternity lodge: L. A. Barnes, president; Joseph Beck, secretary; Mrs. Lizzie Haagen, treasurer; Martin Cullom, conductor; Mrs. Core Murray, chaplain; Knute Jackson, watchman; Fred La Page, sentry, and W. H. Schaffner, trustee. Duluth lodge: Emil S. Gustafson, president; John O. Bradley, vice president; David Larson, secretary; Mrs. Ethel Olson, treasurer; Peter Olson, conductor; William McArthur,

JANUARY CLEARING SALE

A "SPECIAL" SALE AT THE COLUMBIA

A "special" sale at the Columbia means just what it says. And every single item advertised on this page means just what it says. It should not be necessary to put this assertion at the head of a business announcement, but since so many stores make big money by manufacturing "sales" from one end of the year to the other, sales that bring discredit to every one in the business, and raise justified doubts in the minds of the purchasing public, we want all the past, present and prospective Columbia customers to remember, to know or to learn that these rare events of

General Mark-Down Sales at The Columbia Are Different

Our entire stock of clothing for men, young men, boys and children, all our suits, all our overcoats, all our fur and fur-lined coats, all our reefer coats—are now thrown on the market with prices trimmed down to the quick. Keep quality in mind when shopping in January, otherwise a mere price figure is absolutely meaningless. A quick move on your part will save you a lot of money.

FORTUNE IN AN ELECTION

Fifteen Millions Spent in Last English General Vote.

Candidates Pay Out From 16 Cents to \$10 a Vote.

London, Jan. 6.—The election England has just been having cost roughly \$7,600,000, according to the official figures.

But the official figures do not represent the entire cost of the fight. Each candidate is required to report to the government exactly how much he spent on his campaign. Seven million five hundred thousand dollars was the sum.

In addition to this, however, a great deal of money always is spent on canvassing which no report has to be made. All kinds of associations, societies, companies and individuals hold meetings, issue leaflets, display posters and do other things in furtherance of various causes in which they are interested. They make no reports whatever. It is estimated that this sort of campaigning has run into another \$2,000,000.

Millions in Farming.
And then there is the money spent by the candidates themselves before they are officially aware that they are candidates. In other words, there is the cost of "farming" constituents as Englishmen call it. After a candidate is nominated he must keep a record of his expenditures. But before his nomination, no matter how sure he may be that he will be nominated later on, and the English system enables him to be absolutely certain upon this point, sometimes as much as two or three years before the actual nomination is made, he may spend his money as he pleases. In fact, it is possible for a candidate to spend more than \$100,000 before he is actually nominated. It would have been more if the interval between elections had been longer. As it was a trifle less than a year, however, there was not as much time for "farming" as politicians generally would have liked.

Nominations Prearranged.
Neither nominating conventions nor direct primaries precede an English parliamentary election. The rival committees of the various constituencies select the candidates they want to "return" for them and send invitations to them to do so. Such invitations may be extended a year or two years, or more before election day, and the committees may know perfectly well that the candidates intend to accept, but until they do so formally they are not candidates—only prospective candidates.

A day or two before election the candidates accept the committees' invitations and then they have to keep account of their political expenditures. Under this system it is obvious that a candidate may, and as a matter of fact he generally does, spend a great deal more than the law allows. Politicians are all agreed that this is a serious evasion of the corrupt practices act, but by mutual, though silent, consent each party permits the other's candidates to evade it. It is what the British refer to as "playing the game." To find too much fault with a rival's methods is looked upon as "unsportsmanlike."

A candidate's official expenses must be kept within a specific figure, varying widely according to the size of the constituency and also according to whether it is in a city or the country. This limit is based, however, upon the number of electors in the constituency and not upon the number of votes cast. Last December the average cost of each ballot cast was 21 cents. For a particular constituency, the lowest cost per vote for the winning candidate was 16 cents. The highest was in the Walton division of Liverpool, where the proportion of voters to the number of qualified electors was very low, and E. G. Jellicoe was defeated at a cost of \$372 for each of the votes he did get.

Those were the official figures, whether the candidates had previously "earned" their constituencies, and if so, for how long and at what cost, did not appear.

VERDICT FOR WIDOW.

Wife of Man Found Dead Recovers From Insurance Company.

Crookston, Minn., Jan. 6.—(Special to The Herald.)—In the case of Betty Peterson, widow of Alfred Peterson, against the Prudential Life Insurance company, a jury in the district court returned a verdict for the plaintiff for \$1,000 and interest from the date of his death last July. The deceased was found dead in a room in his father's house about 10 o'clock at night. A coroner's jury returned a verdict of suicide. Peterson had taken out a policy for \$1,000 less than a year before, and a clause contained therein made the policy void if the insured ended his life with his own hand.

BAGLEY MAN IS CALLED.

H. D. Courtney, Great Northern Agent, Passes Away.

Bagley, Minn., Jan. 6.—(Special to The Herald.)—D. Courtney, Great Northern agent here, died suddenly Wednesday morning after an illness of but two days, of pneumonia.

Mr. Courtney was one of the best known agents in the system, having been in continuous service for twenty-one years, and was held in high esteem by hundreds of railroad employees and officials. He was 53 years of age and leaves a widow, two sons and a daughter.

WELL-TO-DO EAU CLAIRE WOMAN FOUND DEAD.

Eau Claire, Wis., Jan. 6.—The body of Mrs. Gilbertson, aged 60, was found Wednesday when Policeman Drake broke open the door of her room. She occupied the upstairs in a dwelling on the west side. She had been dead about thirty-six hours. The people who

lived downstairs had suspected something was wrong and notified the authorities. The cause of death is supposed to have been heart failure. Mrs. Gilbertson had some property.

Green Day Man Bankrupt.
Milwaukee, Wis., Jan. 6.—A petition in voluntary bankruptcy has been filed by L. J. Nevada, a real estate dealer of

Green Bay, in which he sets forth liabilities amounting to \$88,724.24, and assets amounting to \$85,910.

ST. CLOUD TO LICENSE PUBLIC DANCES HEREAFTER.

St. Cloud, Minn., Jan. 6.—(Special to

The Herald.)—As the result of the recent killing of Charles O'Brien of Duluth by Harry Albrecht as the result of a fight in the Woodman hall during a dance Dec. 26, the police have been notified to hereafter collect \$5 license for every public dance held in the city. A policeman in plain clothes will be stationed in the dance hall, and if any attempt is made to start trouble, the

offender will be promptly ejected and arrested. The authorities think that if a policeman had been in the Woodman hall the night of the shooting, the deplorable affair would never have happened.

Aged Couple Burned.
Yankton, S. D., Jan. 6.—Firemen here took the bodies of Christian Nelson and

his wife, both aged, from the ruins of their home which was destroyed by fire. There is no hint as to how the blaze started. Both victims were smothered in their bed and their bodies burned to a crisp.

Seeking Missing Heirs.
Fond du Lac, Wis., Jan. 6.—In the hope of concluding a search for

eighty-four heirs of Margaret Shields, who died intestate at the age of 80 years at Connersville, Ind., search is being made from Ningpo, China, to New York. Attorney R. N. Elliott came here to locate the five sons and one daughter of Dr. Marcus Woods, an early day Pond du Lac physician. No trace of the heirs to Miss Shields' estate of \$60,000.

NEW SHIPPER ON VERMILION

Walsh Mine Near Tower Will Be Worked Night, Day and Sunday.

Smelter to Be Erected to Treat Gold Rock Running \$22 to Ton.

It is now definitely known that another shipping mine will be added to the list on the Vermilion iron range with the opening of navigation the coming spring. The mine is the Walsh, owned by the North American Iron Mining company, in the town of Walsh, near Tower. T. J. Walsh, president of the company, confirmed the news today. He said that the steel shaft house of the mine, which is being erected by the American Bridge company, will be completed this week, and that from then on the mine will be worked night and day and Sunday, and would begin shipping ore with the opening of navigation in the spring. The concrete shaft put in by the Foundation company at a heavy expense to shut off surface water, has been sealed and completed to the satisfaction of the company and it is waiting only for the completion of the shaft house to begin actual mining. President Walsh is not willing at this time to hazard an estimate of the probable output of the mine during its first season. However, the mine is equipped for operation on a big scale, including a very large power plant, and it is generally believed that it will have a heavy output from the start of high-grade ore, averaging about 65 per cent. The shaft is known to cut an immense body of ore and has a lifting capacity of 500 tons a season. The town is growing up about the shaft. The Duluth & Iron Range road has built a short spur to the mine. Work has been begun on a \$50,000 hotel, to be known as the North American, and business generally in the town of Walsh is on the boom. It is expected that the railroad company will shortly change the name of the station from Tower Junction to Walsh.

Silver and Gold. In the Herd and several months ago, immense deposits of gold and silver bearing rock have been found adjoining Walsh and the iron formation, and while many people expect they believe the gold will raise will prove even more profitable than the iron. The officials of the company do not care to say much about the gold nonvillages of their property, saying they are devoting their attention first to getting out iron ore and that they will work the gold and silver rock only as a side issue. Pressed for particulars about these

gold rock deposits President Walsh today showed the reporter a drill core of the rock which contains flecks of gold visible to the naked eye. It ranged from the shaft show \$20 in gold from other sources that assays from the shaft run as high as \$85. It has been reported also that the North American company will erect a smelter in the spring. Concerning this report Mr. Walsh said:

The shaft is now down ninety-eight feet and if they hold up to the showings made by the drill holes, then we will erect a small smelter, the type of which we have decided upon, at a cost of about \$1 a ton. There are so many skeptics hereabouts that we have not been saying much about the proposition, but since the Herald is going to print something about our explorations and discoveries, it may as well have things right.

About 50,000,000 tons of this gold rock has been shown up. The vein is more than 2,000 feet long and 500 feet wide, and we have a diamond drill hole in it now to a depth of 1,300 feet. Where the railroad cuts through the property great ledges of gold rock are in plain view and big deposits of it can be quarried right on the surface by stripping.

Gold was first discovered on the Vermilion range sixty years ago. D. D. Owen, a government surveyor, in 1848, made reports of the discovery of iron and more valuable minerals. Seven years later Dr. Henry Ames, state geologist, investigated the range and sent specimens to the Philadelphia mint, with a showing of silver.

This started half a dozen parties of prospectors to work, but they were frightened away by the Indians. The American Bridge company, George R. Stuntz, whose explorations of the range led to its first development of iron by George C. Stone, in drilling discovered gold and values to justify treatment by the then expensive methods. The largest producer of low grade ore in the world, the Homestake mine, per ton, and yet it has produced fortunes. If the latest developments on the Vermilion range are borne out by actual mining it is conceivable that the time its production of gold silver and merrily rich producers of copper. When the deepest mine on the range is the Soudan, which is down nearly 2,000 feet, and which becomes the deeper it goes. Some well-known mining men believe that the Soudan's iron deposits are exhausted it can be converted into a paying producer of gold. The recent important graphite discoveries on the Cuyuna iron range claims are being made along with the gold and silver discovery on the Vermilion. It is not strange that the claims are being made that Minnesota is one of the richest states minerally. The Soudan, without counting her iron mines, which are producing one-half of all the ore in the United States.

For Breakfast Try "Sunkist" Oranges

Luscious Tree-Ripened Fruit

It is not sufficient to know that oranges are the most healthful of all fruits. It is quite as important to know the kind of oranges that are most palatable. The very finest California oranges are now packed under the label "Sunkist." Please serve "Sunkist" oranges at breakfast tomorrow and learn the superiority of tree-ripened, seedless, fiberless oranges over the commonplace kind. Don't fail to save the wrappers.

There is so much "meat" and no wastage in "Sunkist" oranges and so little waste that, in addition to their extra fine flavor and goodness, they are really the most economical oranges to buy.

"Sunkist" Lemons Juiciest.

Lemons differ as much as oranges. Pithy, thick-skinned lemons contain very little juice. You waste money when you buy them. Please ask for "Sunkist" Lemons and note how uniformly sound each one is, and what a small percentage is skin and fiber.

Get This Valuable Orange Spoon

Save 12 "Sunkist" orange (or lemon) wrappers and send them to us with 12 cents to pay charges, packing, etc., and we will present you with a genuine Rogers Orange Spoon, of beautiful design and highest quality. Begin saving wrappers today. If you desire more than one, send 12 "Sunkist" orange wrappers and 12 cents for each additional spoon. In remitting, please send one-cent stamps when the amount is less than 24 cents; on amounts above 24 cents, we prefer money order, express order or bank draft. Don't send cash. We will be glad to send you complete list of valuable premiums. We honor both "Sunkist" and "Red Ball" wrappers for premiums.

Chicken Pot Pie

The Chef's Favorite

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

Some folks think that only "colored mamies" can cook chicken pot pie. That is a mistake. This famous chicken pot pie disproves that assertion. Every member of the family will thoroughly enjoy it.

Chicken Pot Pie, Baked Dumplings
One fowl cut in joints; 1/2 cup flour; 1/2 teaspoon salt; black pepper; 2 cups flour; 3 level teaspoons K. C. Baking Powder; 1/2 cup milk; 1/2 cup shortening; milk or cream.

Cover the fowl with boiling water and let simmer until tender, then remove to a baking dish. Mix the 1/2 cup flour, salt and black pepper with cold water to a smooth paste and use to thicken the broth. Remove the fat from the top of the broth if necessary before adding the thickening. Pour this gravy over the fowl, until it is nearly covered, and reserve the rest to serve apart. Stiff together the flour, baking powder and salt, three times; into this work the shortening and use cream or milk to make a dough, less stiff than for biscuits. Put this by spoonfuls over the fowl in the dish, which it should rest upon and completely cover. Let bake about 35 minutes.

When young, tender chickens are scarce, this presents a most satisfactory way of serving old fowls. Veal or lamb prepared in this manner is also appetizing. When served as a dinner, this and the other delicious recipes in the K. C. Cook Book may be obtained by sending the colored certificate packed in the 25-cent can of K. C. Baking Powder to the Jacobs Bros. Co., Chicago.

ON THE IRON RANGES

MR. MULLINS IS MADE CHAIRMAN

Selected to Preside Over Affairs of Itasca County Board.

Grand Rapids, Minn., Jan. 6.—(Special to The Herald.)—County Commissioner Mullins, hold-over on the Itasca county board, was re-elected chairman of the board at a meeting held this week. The other members are: O'Brien, hold-over; C. W. King, re-elected; and Andy Nelson of the third district and Dr. John A. Sheehan of the fifth district, new members. The bonds of the county officers were approved. County Attorney McQuinn's salary was fixed at \$2,000 and Superintendent of Schools Whipple's at \$1,200. The salaries of other officers were placed the same as last year as follows: County physician, \$50 per month; appointee, Dr. Thomas Russell; assistants, each, \$35 per month; appointee, Iron Range district, Dr. George C. Gilbert; Deer River district, Dr. G. H. Hantley; county health officer, \$50 per month; appointee, Dr. J. J. Lewis; 50 cents per day for each inmate of the poor farm; \$40 per month, with an assistant during the winter months, at \$50 per month; appointee, Charles Huss. The county treasurer was allowed \$600 clerk hire. Two hundred and fifty dollars was voted to the county attorney for a contingent fund, and the auditor's incidental fund was voted \$200.

Three Papers Selected.—The Grand Rapids Herald-Review will print the proceedings of the board and all other official news except the tax list and financial statement, which will be given to the Big Fork Settler and the Caledonian. Commissioners Sheehan, O'Brien and King were appointed as a committee to confer with Dr. Bracken of the state board of health relative to organizing a county tubercular sanitarium commission.

County Auditor Spang was instructed to consult with an architect relative to the proposed changes which are contemplated in the courthouse and to get plans and estimates as to the cost of the changes. He was also instructed to secure from the register of deeds an estimate of the cost of compiling a list of the land owners of the county. Arrangements were made for the purchase of the heating plant for the county buildings. Wood will be accepted after Feb. 20, and a notice and schedule of prices will be published in the local papers.

The bond of Miss Ethel Shook as deputy of the probate judge was accepted.

All bond matters were laid over to the next meeting of the board. The bonds for the printing contracts were set at \$2,000 each.

JURY ACQUITS GUST MAHTALA

Man Alleged to Have Cut Two Men at Chisholm Turned Loose.

Hibbing, Minn., Jan. 6.—(Special to The Herald.)—After one hour's deliberation the jury yesterday afternoon brought in a verdict of not guilty in the case of the state vs. Gust Mahtala, charged with cutting Jack Oja and John Salo near Chisholm several months ago. Attorney Austin, for the defense, emphasized that it had not been proven that the cutting had been done with a knife, that the attack had occurred in the early morning, and that most of the witnesses had been drinking since the early evening.

Further said that it seemed to be an impossibility that the accused could have drawn a knife in so quick a time and sprung back onto the sidewalk and cut the men.

Assistant County Attorney Greene made a strong plea for conviction. Judge Martin Hughes, in charging the jury, directed them to use their careful judgment.

They were definitely decided that Mahtala had committed the crime it was their duty to acquit, but it was also their duty to convict if it was proved beyond a reasonable doubt that he was guilty.

The jury readily considered the evidence insufficient.

After the Mahtala case the court adjourned until Monday morning at 11 a. m.

HAVE CREATED NEW POSITION

Assistant Superintendent of Canisteo Mining District Is Named.

Coleraine, Minn., Jan. 6.—(Special to The Herald.)—Important promotions have been made on the Oliver Iron Mining force in this district. L. R. Salsch, superintendent of the Holman mine, has been appointed to a newly created office, assistant superintendent to M. H. Godfrey, the general superintendent of the Canisteo district. W. H. Plimber, the chief clerk who recently came here from Eveleth, has been ad-

vanced to the superintendency of the Holman mine.

The new position of assistant superintendent indicates the coming importance of the iron ore developments of which Coleraine is the center. In addition to the great work of stripping and shipping of the ore and the mining and shipping of the ore the operating force here has the additional task of looking after the mammoth concentrating plant which has been almost double in capacity for next season by the completion of two additional under construction a large, electrically equipped machine shop.

The American Bridge company has recently finished the structural steel work for this plant. The new work being rapidly advanced. Here is also located the most modern iron ore chemical laboratory in Minnesota. It employs a large force of chemists during the summer months and has a branch laboratory at the Hill mine. The Canisteo district bids fair to be one of the greatest iron ore producing sections in the open pit mining world.

GRAND RAPIDS CHURCH AFIRE

From Photograph Taken When Flames Were Destroying St. Joseph's Catholic Church, One of the Landmarks of Grand Rapids, Dec. 31.

engine for the Hibbing fire department arrived yesterday and was given a trial run. The new piece of equipment which is the latest thing in the fire fighting construction, will be a great acquisition to the brigade and will have the advantage of being light and powerful. The particular advantage of the apparatus is that while being light enough to be easily hauled at a hand gallop by an ordinary fire team, it can throw a stream of chemical at 300 pounds pressure to the inch, and carries enough hose to fight any ordinary fire, namely 1,200 feet.

The \$45 train in the morning is now being held at Kelly Lake to connect with the trains from Hibbing and Virginia, and the change is much appreciated by the traveling public.

Maiden Shipping Pulpwood.—Malden, Minn., Jan. 6.—(Special to The Herald.)—Pulpwood is being shipped here daily, giving work to a large number of men. BETTER EXITS FROM SCHOOLS

Virginia's Fire Committee Orders Better Protection for Pupils.

Virginia, Minn., Jan. 6.—(Special to The Herald.)—The police and fire commission has ordered the school board to provide the school buildings with better exits to the fire escapes. This order was brought about through the report of Chief Thayer, who recommended the changes, stating that all the buildings lacked the proper exits, especially the Primary and Roosevelt buildings, which are main exits to the fire escapes through the windows. He recommended that these exits be made permanent and that the windows be braced with the ordinance regulating these matters.

The commission is looking into the feasibility of purchasing an automobile and also considering the purchase of a gasoline fire engine.

The pay of the members of the fire department and police department have been increased as follows: Fire department—Chief Thayer, \$150 per month; assistant chief, \$100; captains and engineers, \$85; lieutenants and drivers, \$62.50; first year firemen, \$72; second year firemen, \$75; and third year firemen, \$80.

Police department—Chief Ellis Walsh, \$125; patrolmen, one year's service or over, \$85; under one year, \$80; jailers, \$75.

MUCH PULPWOOD BEING SHIPPED

This Will Prove a Record-Breaking Winter at Kelly Lake.

Kelly Lake, Minn., Jan. 6.—(Special to The Herald.)—This winter is the busiest Kelly Lake has ever known. An enormous quantity of pulpwood is being shipped. It is stated that more than 1,000 cars will be the result of the season's cut. The cutting of pulpwood has been going on in this part, and the previous greatest shipment for any season has not reached 500 cars. The major part of the pulpwood is being shipped to the paper mills in Appleton. In addition to the paper making material, a considerable quantity of mining timber is also being cut and shipped, about six cars of mining and logging timber being dispatched a day from Kelly Lake. In spite of the cold snap during the last few days, thermometers registering 4 deg. below zero on Monday morning here, work is continuing uninterrupted.

MINER CRUSHED IN MONROE MINE

Joseph Jaskie Instantly Killed When Earth Tumbles Upon Him.

Chisholm, Minn., Jan. 6.—(Special to The Herald.)—While Joseph Jaskie and Antonio Jaskie, brothers, were working in the Monroe mine last evening a lot of frozen earth crashed down. Joseph, aged 23, was crushed to death but his brother was saved by the timber above him. Joseph's life was crushed out by tons of earth and rocks. Others hurried to the scene and the dead man was pulled out badly crushed.

Under their contract the brothers were supposed to put in timber of a certain measurement. It is alleged that this was not done and that the beams used were not heavy enough to stand the weight that was permitted to come upon them.

STORES MAY COMBINE

Reported Two Hibbing Concerns Will Be Consolidated.

Hibbing, Minn., Jan. 6.—(Special to The Herald.)—The Itasca department store and the Bazar will soon be under joint management, if rumors current prove correct. While no definite statement has been made by any of the interested parties, it is said a deal is being concluded by which the two adjoining stores will be operated as one. The Itasca store is owned by Hulet C. Meritt of Pasadena, Cal., and has for the past ten years been managed by D. McEachin. It was the first store established in Hibbing and has from time to time been enlarged.

The Bazar is owned and managed for ten years by Mrs. D. M. Power of this city. It is understood that if the consolidation is effected, it is the desire of the two owners, Mrs. Meritt and Mrs. Power, that the old employees remain, and very few changes are anticipated. Many improvements will be made.

NO INQUEST HELD.

Virginia Triple Tragedy Will Not Be Further Probed.

Virginia, Minn., Jan. 6.—(Special to The Herald.)—After investigating the triple tragedy in Nelson Swanson's home of Wednesday night when his wife gave their two young sons carbolic acid and took some herself, causing their deaths, Deputy Coroner Crowe decided a formal inquest unnecessary. According to report Mrs. Swanson also gave some of the acid to her 3-year-old daughter, Lillian, but not enough to hurt her. The distracted

husband and father, who was taken into custody to prevent his making away with himself, has calmed down considerably but is still under police surveillance.

WOMAN ATTEMPTS LIFE.

Alleged to Have Taken Rat Poison Through Jealousy.

Hibbing, Minn., Jan. 6.—(Special to The Herald.)—Mrs. William Webb is said to have taken rat poison Wednesday night. NURSE FOR SICK POOR

Duluth Women Raise Funds to Employ a Visiting Nurse.

Will Work Under the Direction of the Associated Charities.

A visiting nurse for the sick poor of Duluth is assured. Mrs. J. L. Washburn, president of the Women's council, heading a committee of women, has secured a sufficient amount in pledges, to make the immediate employment of such a nurse possible, and to guarantee the continuance of her work for at least a year.

The other women on the committee are: Mrs. R. M. Marble, Mrs. S. R. Holden, Mrs. M. H. Kelley and Mrs. T. J. Davis. The securing of such a nurse is one of the most important steps that could be taken for the assistance of families in need, as one of the chief causes of distress is illness in many cases. All credit for this achievement is due to the Women's council, particularly to Mrs. Washburn and the ladies assisting her.

The nurse will be under the direction of the Associated Charities, and the office of the nurse will be at the office of the Associated Charities, such a nurse has been sorely needed. The case of one family, in particular, illustrates this. Six children, one after another, acquired typhoid fever, all being ill at one time. The eldest, a boy of 22, was one of the main supports of the family. In addition to this, a brother of 19 was also ill, although not with typhoid fever, and the father had to remain at home to help nurse the other members of the family. Day after day a young girl of 17, the only support of the family during this trying period, had to leave her brothers and sisters to go out to work and earn money for something to eat.

In cases like this it is practically impossible for the family to really meet the needs of the family. Nothing can take the place of the watchful and expert care of the visiting nurse. She can not only actually look after those who are ill, but she can help and train the other members of the family that they can give much better care to their suffering relatives.

Another most important thing that she can do is to teach methods of sanitation and the prevention of disease. In the case of the family mentioned above, the typhoid fever was brought in from an outside source, and in all probability every case except that of the first one who fell ill, could have been prevented by precautionary measures, such as a visiting nurse would have taken.

In addition to all this the services of a visiting nurse have a value apart from that of nursing alone. Through her intimate personal contact with the members of the family, she gains an insight into their character and ambitions, and a knowledge of real conditions such as could not be gained through twice as many visits by a regular investigator. The family regards her as a personal friend, and is very ready to take her advice and suggestions. This the nurse is not only a powerful factor for curing and preventing disease, one of the chief causes of poverty, but her influence is often one of the strongest for good that comes into their lives.

Duluth already has a visiting nurse who gives her time to tuberculosis cases only.

DULUTHIANS WHO ARE DOING "THINGS WORTH WHILE"

Some Men and Women Who Are Working for a Bigger and Better City—Their Pet Projects.

Many Duluth men are "doing things," and most of them are getting a material reward for their excellent deeds, but there are others who seek no material reward for their good work. Among these is T. W. Hugo, and his work in the cause of good music in this city is a remarkable one.

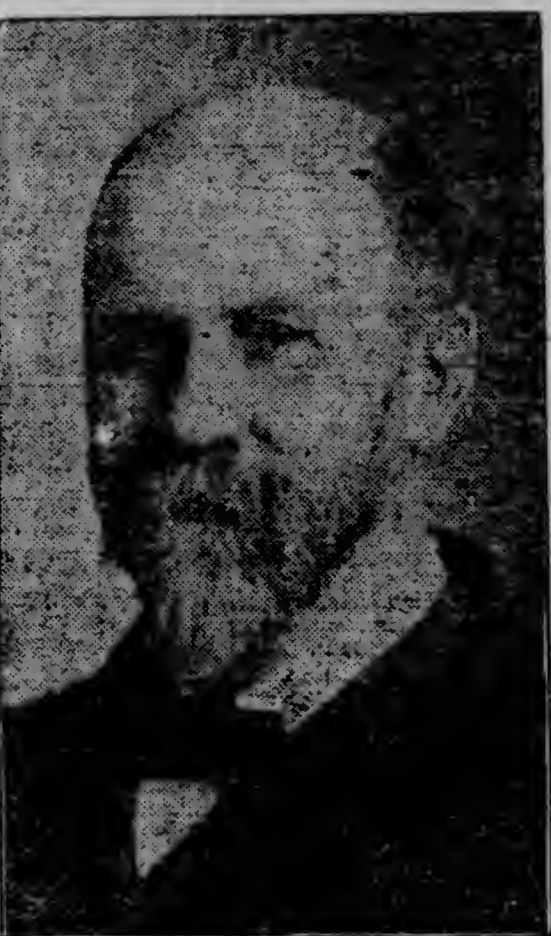

This is the third season of the popular free Sunday afternoon concerts that Hugo initiated these concert series, his purpose being to develop the musical taste of Duluth. In the beginning of this effort Mr. Hugo's selections of program numbers were of the popular class of compositions, and this policy resulted in a more widely distributed interest in the concerts than otherwise would have been secured. Gradually the programs have been made to include an increasing number of selections from the most noted composers, and the audiences have been edited and entertained to a corresponding degree.

All this has not been accomplished without considerable work and careful attention to detail, but Mr. Hugo has performed his self-appointed task with enthusiasm and cheerfulness, as well as confidence in the ultimate good results to be attained.

The Masonic temple is equipped with all arrangements for the concerts, but also operates the organ Sunday afternoons. It is necessary for him to secure the services of the soloists and others, and as these concerts are free, there is no fund from which to pay for the services of the musicians.

However, Mr. Hugo has been uniformly successful in finding singers and musicians who are willing and eager to help him. They receive no pay.

Since these concerts were begun the people of Duluth have had many opportunities to hear the best amateur talent in the city in the Masonic temple at these Sunday afternoon concerts. It has been a delight for Mr. Hugo to watch the growing enthusiasm of the

T. W. HUGO.

general public for some of the best music to be found in the world's music library.

The goal for which Mr. Hugo set out has in a way been reached, but he is not satisfied yet and will keep up the good work indefinitely. The concerts are excellent ones, and a constantly increasing proportion of the public appreciates the fact.

The swimming periods, will be as follows: High school boys, Tuesday and Thursday at 2:15 p. m.; evening class, Tuesday and Friday at 7 o'clock; intermediates, Wednesday, 4:15, and Saturday at 9 a. m.

The Bible classes will all resume their sessions Monday. The high school class will meet Monday for dinner at 6:15, the intermediate class Saturday for dinner at 12:30, and the evening class, Saturday at 7 o'clock. All the classes are planning to participate in the international Bible study examination to be held in April.

Monday evening at 7:30, the aeroplane club will meet for organization. The purpose of the club will be to study aeroplanes and to make models. An exhibition will be held later in the season and a meet will be held. Charles Carman of the manual training department of the public schools will be the leader of the club.

The Scouts will meet Sunday afternoon at 3 o'clock and the Sunday club for the older boys at 4:30.

The boys who are to take part in the minstrel show are being picked. This is the big entertainment of the year it will take place the latter part of February or early in March.

COPPERS STEADY; LEADERS ADVANCE

Undertone Firm and Shorts Continue to Cover—Trading Light.

The extended covering of shorts continued today in Amalgamated and the entire market was firm in consequence. It may seem paradoxical but along with short covering there is considerable liquidation. That the market is able to withstand this steady stream of selling

speaks well for the technical position of the general situation, although the covering of a heavy line in the copper market has been to a large extent responsible for the steady level at which values have remained in the last two weeks.

There is an undercurrent of strength in the American tobacco case which it will continue to exist or increase in intensity in general business undoubtedly would result in a firming of the market as the bear news has been worn to shreds and has lost its effect.

The short interest is still sizable, which contributes to the technical strength of the market. Even though the hearing in the American tobacco case was started this afternoon and the Standard Oil hearing and the freight rate discussions before the interstate commerce commission are about to reach a climax, yet the market is not manifesting the uneasiness that many people had expected of it in the face of such disturbing factors.

American stocks abroad came across the pond about on a parity. Money rates are temporarily firm and the strength in the money market is not expected to last. A favorable feature in the business world today is the placing of an order by the Harriman lines for 150 engines at a cost of \$4,000,000 for the next summer.

VIOLATING THE COASTING ORDINANCE

BELLBOY MAY HAVE HAD OLD GRUDGE AGAINST OFFICER

Is William Muzzard, or Muzgay, which is the latest spelling which has come into the possession of the police, the same bellhop who swore the night of Sept. 7 that he would "get the ——" yet, when Chesmore caught him after he had broken away from Patrolman Simoliet?

The indications are that he is, the only difference being in the name and it is highly probable that the bellhop gave a false name at that time.

Smollet had arrested the bellhop for being drunk and disorderly at a dance. When he got him to the station he broke away and would have made a getaway had it not been for Patrolman Chesmore, who was murdered on a Duluth-Superior car at 6:30 o'clock this morning.

At that time he declared that if he had not been so drunk he would not have allowed Chesmore to get him so easily. With a big oath he swore he would "get the ——" yet.

The descriptions of the man, a boy named into Duluth with a circus and went to work in the bellhop who turned boy bandit and murderer this morning. The police are inclined to the opinion that they are the same and that Muzzard had a previous grudge against Chesmore and the police department.

Chief Troyer stated this morning that he could only express the sincerest regrets at the killing of the policeman. It is the first time in the history of the department that an officer has lost his life in the performance of his duty, he said.

The police are making every effort to catch the boy bandit, one of whom, Algot Johnson, it was learned this noon, is but 15 years of age. Every boat every shed, every barn, every nook and along the water front are being thoroughly searched. The city is being raked with a fine comb, and if they are inside the limits it is difficult to see how they can make their escape. Many reports have been made along the streets of their capture, but up to 3 o'clock this afternoon all were without the slightest foundation.

A telegram was received from Janesville this afternoon by Chief Troyer asking to have the body of the murdered officer prepared for shipment. It was signed by C. E. Moyer, a brother-in-law of Chesmore. The wire was sent to his sister there, Moyer is leaving for Duluth on the 3:30 train this evening.

NEXT HEARING WILL BE HELD IN DULUTH

Investigation of Towing Trust to Be Transferred to This City.

Cleveland, Ohio, Jan. 6.—Charles Maytham, formerly an independent tug owner operating in Buffalo, Ashtabula, Cleveland and Duluth harbors, and at the Soo, was the principal witness at today's hearing of the government's suit against the Great Lakes Towing company.

Maytham told how he and his brother, Edward, quit business in 1902, selling their thirty tugs to the Great Lakes Towing company.

"We had to get out of business or lose our all," he testified.

Maytham said he gave \$5,000 in Great Lakes Towing company stock to Capt. James Davidson of Bay City, Mich., after the latter had negotiated a deal whereby the Maythams sold out to the so-called trust for \$120,000.

A telegram was received from Janesville this afternoon by Chief Troyer asking to have the body of the murdered officer prepared for shipment. It was signed by C. E. SUPERIOR CLUB HOUSES ARE PLANNED

Elks Will Build and Commercial Club Is Considering Project.

At a meeting last evening the Elks' club decided to build a home on the southeast corner of Ogden avenue and Eleventh street. The club owns four corner lots there. The new clubhouse will cost in the neighborhood of \$25,000 and will occupy two of the lots.

Construction on the building will be started about May 1.

The Commercial club is also considering a proposition to erect a clubhouse. A special committee which has the matter in charge is also looking

over several other propositions for new quarters.

JUDGE LANDIS TO HOLD COURT IN SUPERIOR.
Judge K. M. Landis of Chicago, familiarly known as "the judge who dined the Standard Oil company \$23,000,000," will sit at the next term of the United States circuit court in Superior in place of Judge A. L. Sanborn. The term opens Jan. 24. Among the actions noticed for trial are those involving the riparian rights of the city to street ends on Superior bay. The defendants are the Northern Pacific, Great Northern and Eastern Minnesota railroads.

Basket Ball Games.
The Superior high school basketball team will take on the Duluth Y. M. C. A. quintet tonight at the high school gymnasium, and the Nelson Dowsy high school team has a game arranged with the normal school at the normal school.

SAFE IS ROBBED

Bandits Get Away With \$5,000 in Cash and Jewelry.

El Paso, Tex., Jan. 6.—Two masked bandits entered the office of the Angelus hotel yesterday and robbed the safe of about \$5,000 in cash and jewelry. Thirteen safety deposit boxes were carried away.

Later yesterday afternoon the boxes were found in the basement of the hotel. The bandits forced the night clerk to deliver the key to the inner door of the safe before driving him into the basement. One man then stood guard in the basement while the other opened and looted the safe. The commission was not set.

About twenty-five boxes containing several thousand dollars in cash and diamonds were left untouched. The hotel cash box yielded \$800. One box left behind is said to have contained \$6,000 in gold.

OFFICIAL MAP OF THE WEATHER

SNOW

The weather man was a little off on his prediction yesterday, for the mercury dropped to 3 deg. below zero last night and there was no snow.

The weather has moderated considerably, however, and a high temperature of zero was attained yesterday that had not been predicted for tonight.

Duluth had below-zero temperatures a year ago today.

The rising time of the sun is at the turning point of the year and it will come above the horizon a minute earlier tomorrow. It will set at 4:35 this evening, giving eight hours and forty minutes of sunlight.

Mr. Richardson makes the following comment on local weather conditions:

"Low pressure areas that remained about stationary over the lake region and western Canada during the last twenty-four hours respectively caused

other two were taken to Stanley to await the pleasure of the court.

COMMITTEE IS NAMED.

To Check Sale of Liquor to Indians in Ashland County.

Ashland, Wis., Jan. 6.—(Special to The Herald.)—Mr. Campbell has announced the appointment of the committee to check the sale of liquor to Indians in Ashland County.

The committee of ten is as follows: S. W. Campbell, chairman; Rev. A. E. Driscoll, T. P. Culver, John Hedman, Dr. J. M. Dodd, Rev. T. C. Thomas of Oshkosh, George F. Merrill, Guy M. Burdham, B. Maytor Hoppenyan, Judge James McCully.

They have accepted their appointment, and agreed to serve excepting Mr. Thomas, who is unable to do so at the present time. He is a full blood Chippewa. Father Fabian was originally appointed, but he suggested appointment of B. Maytor Hoppenyan and it was made.

FARMERS GET PREFERENCE.

Rural Districts Will Control the Pennington County Board.

Thief River Falls, Minn., Jan. 6.—(Special to The Herald.)—At the first regular meeting of the board of county commissioners for Pennington county which closed Wednesday, the most important matter which came up for

consideration was the districting of the new county into five commissioners' districts. It was claimed that the city of Thief River Falls, having over half the population of the county, should dominate the settlement and arrange the district so that the city would control the board. This was avoided, the city being allowed only one member under the arrangement, the rural districts having the other four.

This will make Pennington a farmers' county, though the city has a minority of votes and population. The salaries of several officers were set, and the printing awarded. Other matters of importance were cared for and the commissioners have a gratifying start in the economical administration of county business. At the present time the county officials are housed in the city auditorium rooms, but in the spring they will move into the city hall which was donated the county by Thief River Falls.

CHILD DELIVERS POSTAL.

Instead of Mailing on Train, Goes Along With Missive.

Marquette, Wis., Jan. 6.—(Special to The Herald.)—Antoinette Brendevost, a 4-year-old girl of Iron Mountain, Mich., was given a postal card to mail to Miss Naomi Whelan of Marquette. The child thought she was to deliver the card in person, boarded a train and accomplished her object. In the meantime the postal card was lost. The girl was greatly excited as to her fate and she was making the two-hour trip to this city.

WOLVES NEAR ST. PAUL.

One Shot This Week in Vicinity of White Bear.

St. Paul, Minn., Jan. 6.—Ben Gervais shot his second of this winter near White Bear Tuesday and brought the

scalp into the county auditor's office, where he received \$7.50 for it.

Mr. Gervais, who is a resident of Rose town, killed from two to three wolves in Ramsey county every year. Last week he shot the first one, and according to the hunter he is likely to get a few more over the winter. The weather, which brings the howlers down from the North in search of food.

JURY SAYS CAUSE OF DEATH UNKNOWN.

Cumberland, Md., Jan. 7.—Grace Elosser and her fiancé, Charles Twigg, whose dead bodies were found by the mother of the girl, seated on a sofa in the parlor of the Elosser home last Saturday, "came to their deaths by means unknown," according to a coroner's jury verdict reached last night.

QUARREL OVER SHOTGUN HAS FATAL TERMINATION.

New Orleans, La., Jan. 7.—Ferdinand Cure, a planter, is dead and C. M. St. Germain, registrar of St. Bernard parish, is under arrest as the result of a quarrel over the disposition of a shotgun, which led to a fatal shooting at Bay View today. St. Germain claims he shot in self defense.

ATTEMPT MADE TO KILL KING ALFONSO

Explosion Occurs While Monarch Is Visiting Malaga.

Two Persons Injured But No Other Harm Is Done.

Malaga, Spain, Jan. 7.—What is believed by many to have been an attempt upon the life of King Alfonso occurred during his brief visit here Thursday and threw his attendants into a panic.

The facts became generally known for the first time today. The king, attended by Premier Canalejas, Gen. Aznar, minister of war, and Arlas Miranda, minister of marine, had arrived here from Madrid en route for Melilla for a week's stay in the vicinity of the Spanish town in Morocco.

At the railway station his majesty was accompanied by a great throng that joyously followed the carriage in which he drove the mayor to the palace of the governor general.

Arriving at the palace, the king stepped down from the carriage and acknowledged the salutes of the crowd and entered the palace. As the doors closed behind him an explosion in the crowd outside drowned the cheers. Before the alarmed and stampeded mass fully realized just what had happened grenades had been thrown into the crowd and two persons had been slightly injured but no other harm done.

An official account of the incident says that it was unimportant. A civilian dropped a pistol enclosed in a box. No further details were made public.

Yesterday the king and his party boarded the royal yacht Graciosa and proceeded for Melilla. The yacht was conveyed by warship.

PUBLIC FEELING AGAINST MINISTER IS VERY BITTER.

New Orleans, La., Jan. 7.—The Rev. Clyde Doyle, wanted at Amite, La., on a charge of wife desertion, bigamy and embezzlement, was brought from Tyler, Tex., last night and placed in jail in this city. So bitter is the feeling against the minister at Amite that the authorities decided today to hold the prisoner here for safe keeping.

SUSPENSION OF GREAT FINANCIAL INSTITUTION CAUSES ONLY A RIPPLE

MURDERED IN COLD BLOOD

President of Wichita Pipe Line Shot at Caney, Kan.

Deed Is Committed By Prominent Business Man of City.

Caney, Kan., Jan. 7.—J. D. S. Neely, president of the Wichita Pipe Line company, president of the Lima, Ohio, Trust company and head of several large oil companies, was shot and killed in the Palace hotel here this morning by Al O. Truskett, a prominent business man of Caney.

The shooting occurred in the back part of the hotel. Mr. Neely had been sitting in the lobby reading a letter. Truskett, sitting opposite, had been watching him closely. When Mr. Neely got up and walked toward the rear of the hotel, Truskett hurried around the sampleroom. As Neely passed the door of this room, Truskett fired at him. One bullet passed through Mr. Neely's heart and the other through his left arm. When employees of the hotel reached the man he was dead.

President Neely arrived here yesterday on his regular monthly inspection of oil and gas interests. The killing is believed to have been largely the result of a feud now existing between Truskett and the Wichita Pipe Line company. Truskett refused to make a statement following his arrest. His friends, however, say the lawsuit weighed heavily on his mind and that frequently advisers had told him he was being deceived by the corporation.

Carnegie Trust Company Is Closed By Bank Superintendent.

Said That the Depositors Will Be Paid in Full.

Leslie M. Shaw the First President of the Company.

New York, Jan. 7.—The Carnegie Trust company, one of the large banking institutions in the city with deposits of nearly \$8,000,000, closed its doors today by order of State Superintendent of Banks Cheney. The suspension hardly caused a ripple in the financial district where the trust company was often reported in a shaky condition.

Superintendent Cheney in an official statement said "to conclude that it is an unsound condition to transact business and that it is not safe for it to continue." State banking officers are now probing the company's books. Officials of the trust company have made no statement and the extent of liabilities is unknown. Bankers, however, said depositors would be paid in full.

DAYTON STREET CAR IS HELD UP

Well-Dressed Young Men Rob Conductor of Money.

Dayton, Ohio, Jan. 7.—Two neatly dressed young men, wearing masks, boarded a street car late last night, pulled the trolley from the wire and grappled with Conductor Henry Doe. Motorman John Hollis hurried to his rescue. One of the highwaymen fired twice at the motorman, one shot entering his left forearm, the other striking him in the forehead, making a deep scalp wound. The men robbed the conductor of a dozen's worth of street car tickets and some small change.

Instantly killing Engineer Zumbren and brakeman Jones, was reported this morning to be dying from injuries received. All three victims were residents of Sheridan. No others were hurt.

SUIT PLANNED AGAINST CHARTER COMMISSION

Constitution May Shut Out Commission Government in Usual Form.

Right to Unite Legislative and Administrative Functions Doubtful.

Suit is to be brought against the Duluth charter commission to prevent the submission to the people of a charter providing for the commission form of government for this city.

This litigation will be based on the language of a paragraph of the amendment to the state constitution authorizing the adoption of new city charters, which reads:

"It shall be a feature of all such charters that there shall be provided, among other things, for a mayor or chief magistrate, and a legislative body of either one or two houses, if of two houses, at least one of them shall be elected by the people."

SIX DEATHS FROM POISONED FLOUR

Persons Eating Bread Made From It Soon Die.

San Antonio, Texas, Jan. 7.—Six deaths have occurred and many residents of the village of Telfener, in Victoria county, are ill as a result of eating bread made from flour containing poison.

Several days ago the village grocer poured a dozen sacks of flour into a sugar barrel and one of his first customers was Joe Brown, a negro. After the morning meal the entire Brown family became ill, two of Brown's children dying the same night. Since then four other deaths have occurred in the town. The flour which a Victoria chemist analyzed, is declared to contain arsenic. How the poison got into the flour has not been determined.

Melodrowski—"I first got my idea from seeing moving pictures and then reading 'Buffalo Bill' and 'Wild West' stories." Johnson—"I would never have done anything like that if I had not read 'Nick Carter' and other detective stories."

Charles Melodrowski, alias William Moenaski, alias William Muzzard, alias "Toke," and Algott Johnson, the boy bandits who murdered Policeman Harry A. Chesmore on a Duluth-Superior street car at Sixth avenue west at 6:30 o'clock yesterday morning after holding up the night clerk and night porter of the McKay hotel at the point of revolvers, tying them to posts, ransacking them and robbing the cash drawers of about \$50, were captured last night in the camp of the Cleague Lumber company, twenty-two miles from Duluth.

Neither of the youthful desperadoes is yet 16 years of age. Melodrowski (Continued on page 5, second column.)

MORGAN CANNOT STOP BUILDING

Business Blocks Are Rapidly Approaching His Residence.

New York, Jan. 7.—Business took another step up town yesterday, this time encroaching on the privacy of J. Pierpont Morgan, who has been fighting its advance on Murray Hill, where he and many other members of old and powerful families still live. The appellate division of the supreme court decided that Mrs. Margaret Cameron will not have to tear down the two sixteen-story buildings she put up at the corner of Madison avenue and Thirty-fourth street.

Mr. Morgan lives at Madison avenue and Thirty-sixth street. He brought suit under an agreement between property holders in 1847, restricting the character of new developments, and fought the case into the court of last appeal which today decided against him.

CASE BEFORE GRAND JURY

First Degree Murder Charge Will Be Brought Against Two Boys.

Five Murder Trials on January Calendar in District Court.

It is practically certain that the January grand jury at the present time in session will indict Charles Melodrowski and Algott Johnson for murder in the first degree.

A number of the witnesses in the case were seen about the grand jury room yesterday, and they undoubtedly testified in the case.

The trial will be held at the present term of court before Judge William A. Cant, who is the presiding judge at this term of court. County Attorney John H. Norton will undoubtedly appear in the case for the state as Mr. Norton is handling the cases at the present term of court.

If all the trials come off that are scheduled at the present time, there will be five murder cases at the January term of the district court. George Riley, who is accused of murdering his neighbor, was indicted and held for trial as the first action of the January grand jury. He is accused of the morning meal the entire Brown family became ill, two of Brown's children dying the same night. Since then four other deaths have occurred in the town. The flour which a Victoria chemist analyzed, is declared to contain arsenic. How the poison got into the flour has not been determined.

"ANGEL OF THE POOR" DEAD.

Sister Isidor, Famous Southern Nurse, Passes Away Aged 85.

New Orleans, La., Jan. 7.—Sister Isidor, known here as the "Angel of the Poor," died last night at St. Joseph's convent, after sixty-four years in the order of St. Joseph. She was 85 years of age, being one of the oldest sisters in New Orleans both in years and in length of service.

Through several epidemics, Sister Isidor nursed the sick and in some instances helped to bury the dead. Once she herself was near death from yellow fever, but recovered. During the Civil war she nursed the soldiers of both armies. She was born in Havre, France.

DR. MITCHELL

You Must Try His Magnetic Treatment. It Will Cure You.

It is an every day occurrence with Dr. Mitchell to heal people who have been disappointed by failure of other methods. The attached letters come just as thousands of others during the past years, entirely unsolicited.

Mrs. E. E. Youngquist of 1517 Seventh street, Superior, Wis., wrote to Dr. Mitchell after she had given up all hope of getting well and was cured of Bright's disease. Her daughter, Gertrude, who had undergone three operations, also went to see Dr. Mitchell, just able to walk, and was cured.

Mr. Oscar Warden, 2320 West Huron street, Duluth, cured of a tumor by Dr. Mitchell.

Mr. John Barker of Alabaster, Mich., treated for stomach, heart and kidney trouble, and recommends Dr. Mitchell's treatment.

Mr. O. D. Bennett, 2513 Twenty-second street, Superior, Wis., says: "I recommend Dr. Mitchell's magnetic treatment to anyone suffering from stomach and bowel trouble. My wife went to him as a last resort and I consider he saved her life."

Dr. Mitchell consulted at 325 West First street, one block east of post-office. Phone 578.

R. E. DENFELD IS RE-ELECTED SUPERINTENDENT OF SCHOOLS

Robert E. Denfeld, who is now in his twenty-sixth year as superintendent of the Duluth schools, was last night re-elected to that position for three years, beginning Aug. 1, 1911, when his present contract expires. The new contract will call for a salary of \$4,500 a year, an increase of \$500 over Mr. Denfeld's present salary.

In his twenty-six years as superintendent of the city schools, Mr. Denfeld has seen the school system grow from small beginnings to its present size and efficiency. He has been instrumental in obtaining the efficiency for which the Duluth schools are noted and he is held in high esteem by the board, alumni, students and citizens in general.

Mr. Denfeld was educated for the law, but found educational work more congenial and he adopted it for his life's work. The present standing of the Duluth schools is testimony to his success.

He was convicted of the murder of Milton Berry in Monroe county, March 1, 1910.

ENROLLING STUDENTS

A. B. Hostetter Finds Duluthians Anxious to Take Poultry Instruction.

Class of Forty Needed Before Instructors Can Be Obtained.

A. B. Hostetter, agricultural director for the Duluth Commercial club, this morning received three applications for enrollment as students in the poultry school which it is proposed to hold for one week at the Y. M. C. A. in the near future. It will be under the direction of the university farm school extension. This beginning is considered a very promising one.

"We have received, among other letters relating to this school, one from a man whose experience probably is typical," said Mr. Hostetter. "He said that he has been working at a desk for eleven years and is now no further ahead than he was when he began."

Mr. Hostetter expressed the opinion that the Milwaukee charge was brought more for counter purposes than because the business men of that city really believed Duluth was getting more favorable rates than Milwaukee, and also believes that when the matter is thrashed out it will be found that Duluth has not more favorable rates and that no discrimination has been indulged in.

The board of education last evening endorsed the scheduled series of lectures on agriculture, which has been arranged by Mr. Hostetter and tendered the use of the high school assembly hall in the event that the facilities available in the Y. M. C. A. should prove inadequate.

OPTION HAS NOW EXPIRED

Deal for Sale of Old Iron-Plant Is Off.

The option held by Chicago interests, represented here by Francis C. Cary, on the old Iron-Plant, expired yesterday and no deal for the transfer of its ownership is now pending.

The plant is owned by the Duluth Iron & Metal company, which many make some announcement of its plans relative to the property a little later. The site is owned by the Riverside Land company.

DEATH COMES SUDDENLY

Louis Skalberg Dies of Heart Failure in a Saloon.

Louis Skalberg, about 50 years of age, dropped unconscious in a yard in the rear of a saloon at 113 St. Croix avenue about noon today. He was carried into the saloon, where he died. The body was removed to J. L. Crawford's undertaking establishment, 18 Second avenue west.

Coroner McCuen investigated the incident this afternoon. Men who were in the saloon when Skalberg died believe heart failure was the cause. Little is known of Skalberg's life.

Life's Blessings

For the mother in the home to be strong and well, able to devote her time and strength to the rearing of children, is one of life's greatest blessings. Often the bearing of children injures the mother's health, if she has not prepared her system in advance for the important event.

Women who use Mother's Friend are saved much of the discomfort and suffering so common with expectant mothers. It is a penetrating oil that thoroughly lubricates every muscle, nerve and tendon involved at such times, and thus promotes physical comfort. It aids nature by expanding the skin and tissues and perfectly prepares the system for the coming of baby. Mother's Friend assures a quick and natural recovery for every woman who uses it. It is for sale at drug stores. Write for free book for expectant mothers.

WOMAN LAWYER WINS FIRST CASE IN COURT

The first appearance in district court of Duluth's woman lawyer, Mrs. J. C. Buell, took place this morning, when she appeared before Judge William A. Cant to argue against a motion transferring the case of Duchon Vuckovich against the Cleveland-Cliffs Iron company to the Virginia court.

The motion for the transfer was made by Attorney Theodore Hollister, who represents the mining company. Judge Cant denied the motion.

Mrs. Buell represents Duchon Vuckovich in his personal injury case against the Cleveland-Cliffs Iron company. He was hurt, he claims, while working for the company, and asks \$2,500.

Mrs. Buell is making quite a reputation as a settlement lawyer. Since coming to the city she has never before appeared in court either to argue a motion or to try a case. Some attorneys think it best to talk the matter over and settle it out of court.

INAUGURAL BALL HELD

Half a Thousand People Gather in the North Dakota Capitol.

Governor and Mrs. Burke Receive Guests of the Evening.

Bismarck, N. D., Jan. 7.—(Special to The Herald.) Fully 500 people were in attendance at the inaugural ball which was held at the state capitol last night. In magnificence and brilliancy it eclipsed any state reception which has ever been held in the capital city.

At 8:25 p. m. the governor's carriage left the executive mansion and at 8:30 his excellency arrived at the capitol building, which was a blaze of lights and illumination. Governor and Mrs. Burke received the guests of the evening.

taught to be unselfish and to work for the love of work, not for money alone. Mrs. Peary read from his log book detailing his four hours' sleep, his journeying beyond and back to the camp. Peary said he made no entries in his book on his return march April 8, and not until the afternoon of the 9th. Just at the close of the hearing Mr. Roberts handed the explorer a copy of a pamphlet purporting to describe how Peary discovered the pole, printed in Washington and headed "By Robert E. Peary." He asked Capt. Peary if he had ever seen it before. Capt. Peary replied that he had written it. When the naval committee wanted Peary to appear last spring he declined because of publishers' rights to his story, and this pamphlet, the date of the publication of which he could not recall, is claimed to have appeared at that time.

PEARY FURNISHES PROOF OF POLE

Appears Before Sub-Committee on Naval Affairs.

Washington, Jan. 7.—Capt. Robert E. Peary retold today the story of his trip to the frozen North at a hearing before a sub-committee of the house committee on naval affairs, the purpose being to furnish proof of his attainment of the North Pole on April 6, 1909. In connection with pending legislation for national recognition of his achievements.

He produced all of his original memoranda and answered numerous questions. Cross-examination by Representative Macon of Arkansas, who has announced his opposition to recognition of the explorer, was deferred on account of the time taken in reading the same. The committee adjourned until next Tuesday.

Mr. Macon asked especially on the thirty hours Peary was at the pole, and Mr. Peary read from his log book detailing his four hours' sleep, his journeying beyond and back to the camp. Peary said he made no entries in his book on his return march April 8, and not until the afternoon of the 9th.

Just at the close of the hearing Mr. Roberts handed the explorer a copy of a pamphlet purporting to describe how Peary discovered the pole, printed in Washington and headed "By Robert E. Peary." He asked Capt. Peary if he had ever seen it before. Capt. Peary replied that he had written it. When the naval committee wanted Peary to appear last spring he declined because of publishers' rights to his story, and this pamphlet, the date of the publication of which he could not recall, is claimed to have appeared at that time.

OBITUARY

William G. Meyers, past grand exalted ruler of the Order of Elks and said to be the original "Hello Bill" of that organization, died at his home in Philadelphia, Jan. 7, after a long illness.

Charles S. Alkin, 48 years old, editor of the Sunset Magazine, died at San Francisco Jan. 6, after a protracted illness. Mr. Alkin is survived by a wife and an only child. He was a native of Cleveland, Ohio.

Dr. Samuel A. Ort, a Lutheran preacher and educator, died at Springfield, Ohio, Jan. 6, of paralytic attacks. Dr. Ort was born in Lewisburg, Pa., in 1842. He was president of Wittenberg college from 1882 until 1900.

George Walker, a negro comedian, long associated with Bert Williams, died Jan. 6, in a sanitarium in Long Island, after an illness of more than a year. The cause of his death was given as paresis.

Store Open Late Tonight. The Response

accorded this Columbia January Sale is just about the best reason we can present in urging you to come here tonight or next week.

Keen clothing buyers, men who know a thing or two about value, style connoisseurs whose demands are exacting, are finding this sale supremely satisfying.

Now then, let us tell you a bit about the Suits on sale at \$19.11.

Up to Tuesday morning they bore price tickets of \$35, \$30, \$27.50 and \$25. They came from the wholesale tailoring establishments of the nation's most famous makers at The Stein-Block Co., The "Sincerity" and the "Society" shops, the latter being specialists in Young Men's Clothes. Without restrictions these suits are now on sale at the uniform price of \$19.11.

No less interesting is the Overcoat Sale.

If anything, it is a bit more interesting, for we can say sincerely that Duluth men have never seen finer Overcoats at even higher prices. At any other than the present clearance time, we consider them cheap at \$30, (now \$37.50), at \$45 (now \$33), at \$40 (now \$30), at \$35 (now \$25), at \$30 (now \$22), at \$25 (now \$18.50), at \$20 (now \$15.50), at \$18, (now \$13.50), at \$15 (now \$10.50), and at \$12.50 (now \$8.50).

All Boys' Suits and Coats are also going at less than first cost.

Some Suspicious Persons

Enquired if we were "hiring" a certain "weekly" paper to abuse us.

Of course every time a spot light is turned on from any source it offers a splendid chance to talk about the merits of the products, but 'pon honor now, we are not hiring that "Weekly."

The general reader seldom cares much for the details of "scraps."

A few may have read lately some articles attacking us and may be interested in the following:

Some time ago a disagreement arose with a "Weekly." They endorsed our foods by letter, but wanted to change the form of advertising, to which we objected.

The "Weekly" discontinued inserting our advertisements while they were negotiating for some changes they wanted in the wording and shape of the advertisements, and during this correspondence our manager gave instructions to our Advertising Department to quit advertising altogether in that "Weekly."

Quite a time after the advertising had been left out, an editorial attack came. We replied in newspapers and the scrap was on.

Then came libel suits from both sides, and some harsh words.

Generally tiresome to the public.

That "Weekly" has attacked many prominent men and reputable manufacturers.

Our Company seems prominent enough for a sensational writer to go after, hunt for some little spot to criticize, then distort, twist and present it to the public under scare heads.

Distortion No. 1 stated that we have been accustomed to advertise Grape-Nuts and Postum as "cure-alls for everything."

It has never been the policy of this Company to advertise Grape-Nuts or Postum to cure anything.

We say that in cases where coffee disagrees and is causing sickness its dismissal will remove the cause of the trouble, and we suggest the use of Postum for the reason that it furnishes a hot palatable morning beverage, and contains natural elements from the grain which can be used by nature to assist in rebuilding nerve centres that coffee may have broken down.

Likewise Grape-Nuts food does not cure anything, but it does assist nature tremendously in rebuilding, provided the undigestible food that has been used is discontinued and Grape-Nuts taken in its place.

Charge No. 2 states that the passage of the National Food & Drugs Act compelled us to drop from the packages some assertions regarding the nutritive value of Grape-Nuts.

We have never been "compelled" to make any change.

Since the beginning it has been a universal rule to print clearly on every package exactly what the contents are made of.

Before the passage of the Pure Food Law the packages stated that Grape-Nuts food was made of wheat and barley.

We did not esteem the small amount of salt and yeast as of value enough to speak of, but after the new Law came in we became as technical as the officials at Washington and added the words "yeast" and "salt," although we have no recollection of being asked to.

We believed that our statement that Grape-Nuts will supply elements to nourish the brain and nerve centers is true and bring authorities to support the fact.

Some state chemists believed this a gross exaggeration and inasmuch as the Food Dept. at Washington could easily harass grocers, pending a trial on the disputed question, we concluded that much the better way would be to eliminate from our packages such claims, however certain we may be that the claims are true.

Another statement objected to read as follows:

"The system will absorb a greater amount of nourishment from one pound of Grape-Nuts than from ten pounds of meat, wheat, oats, or bread."

Some Department chemists deceive themselves as well as the public.

"Calorie" is the word which defines a unit of heat determined by the amount necessary to raise one kilo-

gram of water one degree centigrade. On this basis a table of calories is prepared showing the percentage of different kinds of food. Butter shows 8.60; Grape-Nuts 3.96; milk 0.70. Remember the statement on the package spoke of the nourishment the system would absorb, but did not speak of the calories of heat contained in it. For the heat is not nourishment, and the nourishment cannot be judged by the number of heat units, notwithstanding the fact that certain chemists would have the public believe so.

As an illustration: Attempt to feed a man sixty days on butter alone, with its 8.60 calories. The man would die before the experiment had run sixty days.

Then, take Grape-Nuts with 3.96 and milk with 0.70—the two combined equal 4.66—about one-half the number of calories contained in butter. The man fed for sixty days on this food would not only live, but six months on that food alone, and we do not hesitate to say from our long knowledge of the sustaining power of the food that a man at the end of sixty days would be of practically the same weight as when he started—if he be a man of normal weight.

We will suppose that from his work he lost a pound a day and made up a pound each day from food. If that premise proved to be true the man in sixty days' time would make sixty pounds of tissue to replace what had been lost, and this would be done on Grape-Nuts and milk with half the number of calories of butter, upon which no one can sustain life.

Therefore, we have reason to believe that our contention is right that concentrated food like Grape-Nuts which is partly digested and ready for easy assimilation by the body, presents more nourishment than the system will absorb than many other forms of food, and we will further say that in cases of digestive troubles where meat, white bread and oats cannot be digested, that Grape-Nuts and milk contain more nourishment than the system will absorb than many pounds of these other foods.

Distortion No. 3 charges that our testimonials were practically all paid for and re-written in Battle Creek.

These testimonials were demanded by the opposing lawyers. Naturally this demand was refused, for they are held in vaults and kept safe to prove the truth, and are not to be delivered up on demand of enemies.

Testimony at the trial brought out the fact that we never printed a single testimonial that we did not have the genuine letter back of. Many of these letters came spontaneously. A record was kept of twelve hundred and four (1,204) letters received in one month from people who wrote that they had either entirely recovered their health or been benefited by fol-

So an attorney from New York spent more or less time for months in Battle Creek hoping to find impurities in our foods, or dirt in the factories. After tireless spying about he summoned twenty-five of our workmen and took their testimony. Every single one testified that the foods are made of exactly the grain and ingredients printed on the packages; the wheat, barley and corn being the choicest obtainable—all thoroughly cleaned—the water of the purest, and every part of the factories and machinery kept scrupulously clean.

That all proved disappointing to the "Weekly." There are very few factories, hospitals, private—or hotel and restaurant kitchens that could stand the close spying at unexpected times and by an enemy paid to find dirt or impurities of some kind.

In any ordinary kitchen or factory he would find something to magnify and make a noise about.

But he failed utterly with the Postum Works and products. Twenty to thirty thousand people go through the factories annually and we never enquire whether they are there to spy or not. It makes no difference to us.

He next turned to discover something about our advertising that could be criticised.

An analysis of the methods and distorted statements of the "Weekly" may interest some readers, so we take up the items one by one and open them out for inspection. We will "chain up" the harsh words and make no reference in this article to the birth, growth and methods of the "Weekly," but try to confine the discussion to the questions now at issue.

lowing our suggestions on food and beverages.

On three or four occasions in the past ten or twelve years we printed broadcast in papers offers of prizes to users of Postum and Grape-Nuts—two hundred \$1.00 prizes, one hundred \$2.00, twenty of \$5.00 and five of \$10.00 each—stating that each must be an honest letter with name and address. We agreed not to publish names, but to furnish them to enquirers by letter. These letter writers very generally answered those who wrote to them, and verified the truth of the statements.

Under this agreement not to publish names literally scores of letters came from doctors. We kept our word and neither printed their names or surrendered the letters.

Right here notice an "imitation epism." The "Weekly" says: "Post got those testimonials by advertising for them. In New York he used for that purpose the New York Magazine whose editor is now in the Federal Penitentiary for fraudulently use of the mails. For example, Post announced in that magazine in 1907, etc." (then follows our prize competition).

We used nearly all of the papers and magazines in New York and the rest of America, but the sensational writer gives the impression to his readers that the only magazine we used was one "whose editor is now in the Federal Penitentiary," etc., something that we know nothing of the truth of now, and never did. Space was bought in the magazine spoken of on a business basis for the reason that it went to a good class of readers. The incident seems to have furnished an opportunity for a designing writer to deceive his readers.

We look upon honest human testimony from men and women as of the greatest value to those in search of it. Our business has been conducted from the very first day upon lines of strict integrity and we never yet have published a false testimonial of human experience. Many of these letters covered numerous sheets, some, if printed, would spread over half a page of newspaper. If we would attempt to print one such letter in every one of the thousands of papers and magazines we use, the cost for printing that one letter would run into many thousands of dollars.

We hold down these letters exactly as a newspaper writer holds his news—stocking sacredly to the important facts and eliminating details about the family and other unimportant matters. This work of boiling down or editing, is done honestly, and with a full knowledge of our responsibility, but notice the art of the "twister" in the way he presents to his readers this matter of testimonials.

Distortion No. 4. This is a bad one. It reads as follows: "The health officers of Mich., Maine, Penn., New Hamp., and other states in their official bulletins have for years been denouncing as preposterous and fraudulent the claims made by the Postum Cereal Company." We do not recall any criticism except from Mich., Penn., Maine, and S. Dakota.

The average reader might think that the opinions expressed by the State Officials are always correct, but that conclusion is not borne out by facts.

As an illustration: About thirteen years ago the Dairy and Food Commission of Michigan for some personal reason printed a severe criticism on us for making Postum of Barley Nuts, but much to the chagrin of the "Weekly," when our attorney asked him if the article he wrote about coffee was true, he replied, "Yes."

Statement No. 5 reads: "The health officers of Mich., Maine, Penn., New Hamp., and other states in their official bulletins have for years been denouncing as preposterous and fraudulent the claims made by the Postum Cereal Company." We do not recall any criticism except from Mich., Penn., Maine, and S. Dakota.

We believe that most of the state officials are honest, and on the other hand we are firmly convinced that some of their conclusions cannot be substantiated by facts in scientific research.

They never criticize the purity of our foods, for so much we are thankful.

If our conclusions in regard to its being a brain food differ from theirs, and we are both honest, they have

only famous physician whose name was signed to a testimonial was produced in Court by Colliers and turned out to be a poor old breakdown homeopath, who is now working in a printing establishment. He received ten dollars (\$10.00) for writing his testimonial.

We will wager ten thousand dollars (\$10,000.00) with any investigator that we have, subject to inspection of any fair committee, upwards of three hundred (300) communications from physicians, many of them expressing the highest commendation of our products, but these will not now or ever be turned over to the publisher for his use.

Notice the statement in this charge: "The only famous physician whose name was signed to Postum testimonial, etc."

The truth is, this Dr. Underwood was one of a great many physicians who have not only written commendatory words about the value of our foods, but every now and then some physician writes an article on coffee or on food, and sends it to us with a suggestion of compensation for its use. We have never employed physicians in our own business, we occasionally engaged a doctor to write an article on coffee, always insisting that the article be an honest expression of his opinion and research.

The "Weekly" hunted up this physician, and because he seemed to be poor, and as it says, "broken-down," had him brought to Court to be examined before a jury as the "only physician that had ever endorsed Grape-Nuts," but much to the chagrin of the "Weekly," when our attorney asked him if the article he wrote about coffee was true, he replied, "Yes."

Statement No. 5 reads: "The health officers of Mich., Maine, Penn., New Hamp., and other states in their official bulletins have for years been denouncing as preposterous and fraudulent the claims made by the Postum Cereal Company." We do not recall any criticism except from Mich., Penn., Maine, and S. Dakota.

The average reader might think that the opinions expressed by the State Officials are always correct, but that conclusion is not borne out by facts.

As an illustration: About thirteen years ago the Dairy and Food Commission of Michigan for some personal reason printed a severe criticism on us for making Postum of Barley Nuts, but much to the chagrin of the "Weekly," when our attorney asked him if the article he wrote about coffee was true, he replied, "Yes."

Prevarication No. 8. "Post spends nearly a million a year in advertising and relies on that to keep out of the newspapers the dangerous nature of the fraud he is perpetrating on the public."

The Postum Company does pay out upwards of a million a year for trade

rather the advantage, because under the law they can order us to eliminate from the package any statement if it disagrees with their opinion. Otherwise they would harass grocers.

Spasm No. 6 Says: "The most dangerous thing in the world for a man to do is to eat any food whatever. Notwithstanding he knew that danger, C. W. Post advertised Grape-Nuts at fifteen cents a package for those so threatened."

This is intended to muddle the reader into believing that we put out by "the weekly" a cure for appendicitis. Grape-Nuts, however, has had probably as wide experience as any other man in America in the study and observation of food as related to the digestive organs, and we proved in Court by the physicians and surgeons on the witness stand that the predominant cause of appendicitis is undigested food, and that it is necessary to quit eating food, and when the body requires food again, use a predigested food, or at least one easy of digestion.

Dr. Ochsner in his work on appendicitis refers directly to the use of the well-known pre-digested foods that can be obtained on the market. He also brought out the interesting fact that in "after-treatment" it is advantageous to take on a pre-digested food.

The price of the package (referred to by the weekly) is not known by us to have any relation to the question. Our advice to stop using indigestible food in how troubles and to use Grape-Nuts food has been a great blessing to tens of thousands of people, and we hope will continue to be a good many more in the succeeding years.

No. 7 is a live wire. It refers to C. W. Post and his studies and experience in "Suggestive Therapeutics," or "Mental Healing," which further lead to a most careful and systematic study of the effect of the mind on the digestive and other organs of the body.

He attended clinics in Europe and fitted himself for a future career in which he has become known as one of the food experts of the world, fitted to judge both from the material as well as the mental side of the question.

For about eight years previous to 1891 he was an invalid. In that year after being under the care of several well-known physicians he was quickly healed, by what to him was a curious and not well-understood method. Sufficient to say he became a well man, weighing about 185 pounds.

This experience challenged his investigation into causes of disease and their amelioration. Those studies and experiences developed a very profound reverence for a Supreme Power which directly operates upon the human being, and this reverence for the infinite became to him a form of religion which included honesty of purgation towards his fellowman. A statement which will be indorsed by every one who knows him closely.

He will make a public announcement in detail of these facts, and the Postum Company will cause that statement to be published in newspapers and magazines in due time. We suggest the reader look for it.

Some Facts

Battle Creek, Michigan, December 30, 1910.

We, the undersigned, certify that never to our knowledge has a testimonial letter been printed by the Postum Cereal Co., Ltd., which did not have behind it a genuine letter signed, and believed to be an honest statement.

To the best of our knowledge and belief the Company has received upwards of fifty thousand (50,000) genuine testimonial letters. This Company has never knowingly made nor permitted an untruthful statement regarding its products or its methods.

The "Weekly" carefully eliminates from its printed account, testimony regarding the years of research and study by Mr. Post in fitting himself for his work, and would lead the reader of the distorted article to believe that his education began since 1905.

Distortion No. 12 reports Mr. Post as a "dodging witness."

His eye is not of the shifty kind observed in the head of one of his chief critics. On the witness stand Mr. Post looks quietly but very steadily straight into the eyes of the haggling, twisting lawyer, trying by all his art to ask double-barreled questions and bull-dozing and confuse a witness.

The "dodging" it seems consisted of replying, "I don't know."

Opposing counsel holds a book in his hand while he queries. "I want to know if there is a single thing in your whole book here that suggests any particular kind of food." Then followed some discussion between attorneys.

When Mr. Post was allowed to reply he said: "I don't know until I read the book over to see."

This book, it turns out, was written by Mr. Post seventeen years ago and probably has not been read carefully by him in the last fifteen years. It would require a remarkable memory to instantly say "yes" or "no" as to did not contain, without reading it over—but such conservatism, by balancing answers are construed by sensation seekers to be "dodging."

The attorney sought by every art to impress the jury with the fact that Mr. Post's belief in the power of Mind as a relation to the body branded him as unreliable and worse.

The following is quoted from one of the questions:—

(The lawyer reading from the book.)

"The writer of these pages desires to say nothing of himself other than as a simple instrument through which the Divine Principle chooses to manifest itself by precept and example."

"Skill in mental practice is gained in the same way as skill in any department of science—by observation, study, experience and the ability to evolve correct conclusions."

"Read carefully, thoughtfully no more than twenty pages daily. Afterward seek an easy position where you will not be disturbed. Relax every muscle. Close your eyes, and go into the silence where mind is plastic to the breathings of spirit and where God talks to the Son. The thoughts from Divine Universal Mind come as winged angels and endow you with a healing power. If you go into the silence humble and trusting, you will come out enriched and greatly strengthened in body by contact even for a short time with the Father of all life and all power. You will feel refreshed in every way and food taken will digest readily as the influence of a Higher Power."

"I ask you if you did not write that, and if you did not believe it when you wrote it."

For a moment the Court Room was in absolute silence.

Mr. Post slowly leaned forward over the rail, pointed his finger at the Atty's face to emphasize his reply and with eyes that caused those of the Attorney to drop he said: "Yes, I am proud to say 'I did.'"

Human physiology, by Raymond. Physiological Chemistry, by Simon. Digestive Glands, by Pawlow. Hand Book of Appendicitis, by Ochsner.

After all the smoke of legal battle blows away, the facts will stand out clearly and never be forgotten that Postum, Grape Nuts, and Post Toasties are perfectly pure, have done good honest service to humanity for years, the testimonials are real and truthful and the business conducted on the highest plane of commercial integrity.

"There's a Reason"

Postum Cereal Co., Ltd., Battle Creek, Mich.

It may be remembered that we were first attacked and have since defended ourselves by placing facts before that great jury.—The Public.

A good "scrap" is more or less comforting now and then, if you know you are right.

In the case lately tried, an appeal has been taken to the higher courts. We have unbounded faith in the ultimate decision of our American Tribunals.

Our suits against the "weekly" have not yet been tried. They are for libel and \$500,000.00 is asked as damages, and may the right man win.

ELKINS IS BURIED IN WEST VIRGINIA

Funeral of Late Senator at Little City Bearing His Name.

Elkins, W. Va., Jan. 7.—Senator Stephen B. Elkins today is sleeping his last long sleep in the graveyard of this little mountain town. He was laid to rest within a brief time after the funeral train from Washington had crept into the station this morning, and the mourning friends, both in official life and out, another special train arriving from the mountain capital, practically at the same time. It brought Governor Cassese, his cabinet and the justices of the supreme court and a score and more of state officials.

BOY BANDITS ARE BEHIND BARS AT POLICE STATION

(Continued from page 1.)

will be 16 next March and Johnson was 15 last November. They were caught as they lay sleeping in bunk beds with loaded revolvers under their pillows. Both of them spoke freely of the morning's occurrences of yesterday. Johnson appears to be far the more innocent and the police credit him with telling a more straightforward story than Melodrowski, who appears to be trying to attach a far greater share of the blame upon his companion than is his just due.

Johnson the Follower.

Undoubtedly Melodrowski is a bad boy. Johnson is good, but circumstances indicate that he is not really criminal and was a follower of one of the boys who was with him. Melodrowski appears to have done all the planning, purchasing the guns and cartridges, led his accomplice into the desert and kept him where he had the blood of Patrolman Harry Chesmore on his hands.

Mail Carrier Gives Clue.

Through information furnished by Rural Mail Carrier W. W. Schaub, who carries mail on the Rice Lake road, the police obtained their first positive clue as to the direction taken by the boys when they left their probable whereabouts. And it was owing to the story printed in the Herald last evening that he called upon the station to tell them of the boys whom he had given a ride towards the far end of his route.

In Desperate Camp.

The police station story for a short time at the stopping place of like brown and then went on to the lumber town which was not being worked this year. It is guarded by a watchman and the police are certain that the fugitives were inside.

As they approached the place, two men stationed themselves outside to prevent another escape, and the others went inside with drawn revolvers, approaching the bunks in which the boys were sleeping under piles of blankets.

Seeing that resistance was useless, the men immediately rushed to the loaded revolvers were found under their pillows.

Johnson, who he did the shooting, was a 28-caliber, and the other, who was Johnson, was a 22-caliber. Both were of the cheaper variety.

Asked at the police station this morning why they took their guns to bed with them, they answered that there was a chance they might need them in case they were attacked.

Almost in the same breath they declared that they didn't think that there was a possibility of the police finding them while they were in the camp.

They explained that they had kept a sharp lookout, but had not seen a sign of anything that looked like a man of the law. Yet they asserted that they did not want to leave any loot behind.

"Didn't you know that you would be caught, someone?" they were asked.

"Well, we thought that we could get away. We didn't think that the police would get us. We didn't want to go to jail," was the reply.

After the excitement at the McKay hotel they went back to their room at the Merchants hotel, Superior street, where they were staying.

There they divided the money which they had stolen from the cash drawer, taking about \$25 each. Then they started back looking for a place to pass the loot in which they had so recently ravaged the deeds of the law.

As they walked in front of the hostelry they saw a uniformed policeman standing at the door leading to the dining room. Only hasty glances were cast along the street, and over the hill. There Melodrowski claims that he shot two shots at the policeman, although this is denied by Johnson.

Cutting down the hill they made their way to Garfield avenue. They followed this thoroughfare to the office of the Alger-Smith company to wait for a car which would carry them to Superior. As it approached one of them hailed it. As it came to a stop they

saw the policeman on board. At the same time he caught sight of them and stepped off.

Without any preliminaries the policeman said that he was looking for a man named Johnson and after seeing the marks on the face of Melodrowski, he was certain that he had the right boys.

Leading them to the nearest crossing where cars stopped in coming from the next Duluth-Superior car going to the east, he placed them on the rear vestibule and stood there with them until Superior street was reached. At that point Johnson complained of being cold. The officer allowed them to go inside. The boys sat on one side and he took his place on the other.

As it rolled toward the Sixth avenue crossing, Melodrowski drew his revolver and the attention of the policeman was attracted to the rear of the car. In that instant Melodrowski fired a shot into the door. The first shot Chesmore jumped. The second shot was fired, entering the right side of the car. The third shot, not ceasing his efforts to subdue Melodrowski, he hit the hand of Melodrowski's hand against the door.

Johnson said that he was not against the policeman. He was only trying to get the gun out of him. He was not a desperado. He was only trying to get the gun out of him. He was not a desperado. He was only trying to get the gun out of him.

ON THE IRON RANGES

TO BURY MOTHER AND HER VICTIMS

Mrs. Swanson and Two Children to Be Interred Beside Each Other.

Virginia, Minn., Jan. 7.—(Special to The Herald.)—The funeral of Mrs. Nelson Swanson, suicide, and her two sons, Carl Walter and Gunhard Valdimar, day afternoon at 2:30 o'clock from the home of her mother, is getting along nicely and will be held at the residence of the Modern Brotherhood of America, of which lodge Mrs. Swanson was a member.

ELY LAKE WATER FOUND VERY PURE

Predicted Gilbert, Eveleth and Even Virginia May Use It.

Gilbert, Minn., Jan. 7.—(Special to The Herald.)—The ice harvest is on and several firms are busy at Ely lake filling ice houses. This ice is of fine quality, being frozen from absolutely pure water, having strong mineral properties. The mining companies predict that both Eveleth and Gilbert will have to depend on this lake in the near future for their water and ice supply as the present sources are inadequate. The supply from the Genoa mine, now used by the Gilbert water system, will, it is estimated, hold out only about one more year.

Eveleth lowered St. Mary's lake several feet last summer, and as this lake is shallow at the best, the only course left seems to be to extend their mains to Ely lake. It is predicted that Virginia will also be compelled to get its water by way of Eveleth from Ely lake also. The state board of health has made several tests of the water of this lake and has found it absolutely pure. There is little drainage into the lake, and the waters are from lake bed springs. There is no sewage flowing into the lake, and no logging in the vicinity, so the lake is of much value as a source of water supply for neighboring towns.

SALOON KEEPER GETS FAD.

Jealous of Gilbert "Fire" Sales, Offers "Fire Water."

Gilbert, Minn., Jan. 7.—(Special to The Herald.)—Gilbert's epidemic of clothing store and saloon fires has resulted in the displaying of many "Fire, Smoke and Water" sales advertisements along Broadway. An enterprising saloon keeper in order to divert the stream of bargain seekers to his place, put up the following: "Fire-Water and Smoke Sale."

Scott; master of excelsior, W. R. Fowler; inner guard, James C. Towler; outer guard, W. H. Coleman to grand lodge, and W. H. Irwin and E. A. Daniels as alternates.

The Macabees Wednesday installed the following: Andrew Anderson, past commander; A. E. Sunnerberg, lieutenant; David Thoren, commander; William Towler, record keeper; C. W. Dawson, chaplain; E. P. Christianson, M. D. Swan, force, master at arms; George Le Merre, first guard; J. B. Kontny, second guard; Frank Glazier, sentinel; Ole Winter, picket; Oederle Le Claire, trustee for three years. After the installation there was a roast beef banquet and a smoker.

HIBBING COURT RECEIPTS HEAVY

Over \$11,000 Taken in By Municipal Court Last Year.

Hibbing, Minn., Jan. 7.—(Special to The Herald.)—Last year was not what might be termed a "quiet" year in the municipal court, judging by the total receipts set forth in the report of Miss Rose Silk, the clerk. The total amount collected in fines being \$9,511.62, while the fees for civil business amounted to \$1,503.04. There were 1,573 prisoners arrested and of this number ninety-one were either dismissed or found not guilty by the court. Of the 1,573 prisoners, 1,123 were under the influence of liquor when arrested.

Many Assault Cases. Assault in various degrees brought 85 prisoners to the bar, and 53 men had to answer the charge of larceny; 20 were charged with either firing, or having in their possession guns or revolvers; and 17 blindfolded were hauled up. The heaviest week of the year was that ending with May 21, the total amount collected being \$751.60, and the lightest ending with Jan. 22, the amount being \$5.50. The greatest number of arrests in any week was sixty-seven, for the week ending July 2, the preceding week having sixty-six. The fewest arrests for any week occurred during the week ending Jan. 22, the total being ten. The leading week for civil court.

Hibbing, Minn., Jan. 7.—(Special to The Herald.)—Judge Hughes yesterday fined Daisy Redfield \$750 for running a disorderly house or take an indeterminate sentence under an indictment returned last spring. Matt Belch was given an eighteen-month reformatory sentence for assaulting a lady. The court suspended sentence during good behavior.

MEN'S WRITING ROOM IN HIBBING LIBRARY.

Hibbing, Minn., Jan. 7.—(Special to The Herald.)—The city board will install a writing room for men in the new library building. The board appropriated \$119 for new books. The library records show a liberal patronage.

Wed. in Cleveland. Virginia, Minn., Jan. 7.—(Special to The Herald.)—Dr. Paul Ashley, formerly of this city, now located at Wibaux, Mont., and Miss Mabel Reid,

a sister of Mrs. A. B. Coates, will be married Jan. 16, at the home of the bride in Cleveland, Ohio. The bride is Miss Inga Gimse, daughter of former Mrs. Peter Gimse. The groom has entered St. Luke's hospital in Duluth, to study nursing.

COLERAINE HAS MUCH TO AMUSE

Free Skating, Skiing, Bowling and Other Forms of Recreation Offered.

Coleraine, Minn., Jan. 7.—(Special to The Herald.)—Coleraine is making its reputation as one of the most delightful residence places on the Mesaba Iron range. While Trout lake contributes much to pleasantness of life in summer, yet the winter season has its provided pleasures. The village council has arranged for a fine free skating rink, where the children and young people can enjoy outdoor sport, and on a fine Sunday afternoon be cheered by the music of the village band. A commodious warming house, electric lighted and well heated, stands at the back of the rink. The \$2,000 steel ski slide rising 200 feet above the surface of the lake, together with the half dozen other amusements, constructed by the school boys, afford thrilling sport for men and boys. Each time the rink is opened, amusements there is the popular bowling alley, the newly-opened moving picture show, the free evening hand concert in the auditorium of the village hall, the first-class lectures and concerts in the high school auditorium, and the various social and literary clubs by the ladies. Another place for those who wish a pleasant place to spend a quiet hour in intellectual enjoyment is in the richly furnished reading and social rooms of the new public library. Then, too, the churches furnish other social centers of an excellent character.

THIRTY WORKING IN RUDDY MINE, BIWABIK.

Biwabik, Minn., Jan. 7.—(Special to The Herald.)—About thirty men are now employed at the new Ruddy mine, east of town. It is expected that this number will be increased when the mine is opened to the actual development of the mine begins.

STURGEON LAKE OLD TIMER LEAVES HOSPITAL.

Sturgeon Lake, Minn., Jan. 7.—(Special to The Herald.)—Joseph Hahn, well known to all farmers around here, who has been very sick in a Hibbing hospital for the past two months, has returned home. Mr. Hahn came here twenty years ago, and when here was only a very small issue in the raising of land values in this part of the country and has seen many changes since that time. Mr. Hahn has leased his farm under such terms that he will have as long as he wants as long as he lives.

HIBBING BRIEFS.

Hibbing, Minn., Jan. 7.—(Special to The Herald.)—W. J. Powers who built and owned the Mesaba Auto and Machine company, Hibbing's first garage, has sold out to Paul Williams, who has been connected with the business for the past twelve months. Four well known Hibbing horses are entered for the ice racing at Virginia today, owned by J. B. Dethlefsen, Dr. Forrester, Plappner, "Exception," Mr. Cox's "Little Patch," and Mr. McGraw's "Unknown." Among the favorites, the district court will resume on Monday at 9 o'clock at the home of Mr. Forrester of Sioux Falls, S. D., arrived here yesterday on business. C. K. Knudsen has returned to Duluth after spending a few days in the village. Rev. Frank Durant visited Duluth yesterday.

Representative John Healy is in the city and will return to St. Paul on Sunday to resume his legislative duties. Mr. Deering has returned from Chicago where he has been visiting with his wife. Mrs. Deering is making a long stay with friends here.

HOCKEY CUP IS DONATED

Trophy Will Be Competed for By Teams in Lake District.

Duluth Business Men Help Along Efforts to Establish Game.

Yesterday afternoon on behalf of the Stanley-McLennan firm, L. B. Stanley and James McLennan offered to donate a handsome loving cup or trophy to be contested for annually by the hockey teams in this section of the country, and it is expected that within a few days all the details regarding the rules under which the trophy shall be contested, will be settled and the offer accepted by the local hockey players.

It is the intention of the members of the firm to present a handsome cup of beautiful design, something that any club will be proud to hold, and to have this emblem contested for annually by the teams of a certain territory. Yesterday Mr. Stanley suggested that all the teams in the territory touching on Lake Superior be eligible to play for the cup.

Both Stanley and McLennan have the rules of play of the famous Stanley cup in mind, and have suggested that the conditions of holding the cup be similar to the rules covering the Canadian cup.

There is no doubt but that the offering of the cup will stimulate interest in the game, and will show that the proper spirit is being shown by the business men of the city. It is the intention of the Stanley-McLennan people to offer a trophy that will be coveted by all the teams in this section of the country, for it is believed that the offering of such an emblem will bring the best teams of Wisconsin and Michigan here, and will also help develop strong teams at Duluth.

In limiting the territory in which teams will be eligible to contest for the trophy, the intention is to prevent the cup from being carried out of range of the natural playing territory around this city, for if the cup were taken to Pittsburgh or Winnipeg, for instance, teams from this city might find it difficult to arrange for a challenge game.

It is believed that another season will see a league made up of Duluth, the Twin Cities, Houghton, Calumet and Sault Ste. Marie, and that these towns are all within easy traveling distance and would make up a fairly well past league. The cup would be open to competing teams in this league, and would be played for on the Stanley cup.

For years the Stanley cup has been the most cherished trophy in the hockey world, and it is believed that the offering of this trophy will, there will be a very strong team in this district, and a well organized amateur league, playing scheduled games.

It means much to the hockey interests, because it signifies that business men are becoming interested in the local efforts to put the game on a high plane.

MATCHES FOR COPPER COUNTRY

Karl Lehto, Young Miller and Ordemann Will Be Seen There.

Calumet, Mich., Jan. 7.—(Special to The Herald.)—The wrestling game has not been killed in the Copper country, although a half dozen questionable looking matches between big men and second raters held in this district during the past two years have almost killed it.

Newspaper men are now taking hold of the sport and are trying to bring the game back to its old basis of squareness and to provide the thousands of wrestling lovers up this way with good, fair matches. In this way they are receiving the help of such men as Young Miller of St. Paul, world's champion welterweight; Karl Lehto, the Finnish champion heavyweight; Gunnar Gronlund, a middleweight champion; Tonnenman, the Chicago and Illinois welterweight champion; Henry Ordemann, the Minneapolis blacksmith who claims the heavyweight championship of America; and others. Ordemann has been asked for matches up this way and has consented through his managers, but only on condition that everything be run on the square. Miller recently defeated Tonnenman in a match here, the bout being perfectly on the square and one of the prettiest and fastest shows ever pulled off.

off in this district. Lehto has been worked into what are said to have been questionable bouts up this way but it is practically certain he was not a party to any crooked business regarding them. Lehto is looked upon here as one of the bidders for the world's championship. He and Ordemann are to meet in Duluth on Jan. 28, and a delegation of wrestling fans from the Copper country will take in the match. Miller, Ordemann and Lehto, who wrestles at 155 to 165 pounds in a finish match here this month and will later meet Lehto in a handicap, are the only exponents of the mat game the lovers of the sport in the Copper country will swear by as being strictly straight and honest.

BOXING GOES IN LONDON

Hugh McIntosh Arouses Great Enthusiasm in English Fight Circles.

Contests Every Week and Some Big Fights Are Expected.

London is reveling in a pugilistic boom. More glove fights now take place in this city in one week than occur in the whole of the United States in a month.

Most of the aspirants for pugilistic fame at these places would be classed as mixed ale scrappers in America. But the display of fist skill is of a rudimentary order, the offer of purses that are now attracting pugilistic stars from all over the world to the British Isles.

While it is inevitable from their great number, at most of these boxing contests the display of fist skill is of a rudimentary order, the offer of purses that are now attracting pugilistic stars from all over the world to the British Isles.

It is due to Hugh McIntosh, the Australian night promoter who butted into the game here a few months ago, that London has now become a veritable pugilistic Mecca.

McIntosh has big ideas about the prize ring and money enough to carry them out. And one of his ideas is that a liberal investment of cash in the prize ring will yield a very handsome profit.

He has set a pace here which has left all his English competitors hopelessly in the rear. At King's hall he has for some time past been holding weekly boxing contests which are far and away the best seen in London.

And soon he is going to give Londoners a chance to see fighting by the best and highest priced exponents of the art as New Yorkers used to see it in Madison Square Garden.

It is these contests that are attracting the fistie stars from America and the colonies.

Looking for Henryweight. McIntosh is bent on discovering a white fighter capable of wrestling the championship from Jack Johnson, not as Mr. McIntosh candidly admits to gratify his racial pride, but because there would be big money in it.

He has conducted a series of elimination trials among the English heavyweights to find the best man among them.

Thus far Bombardier Wells has proved the best of the bunch and Mr. McIntosh has taken him in hand. He has a tremendous reach and he can land a very hard punch.

PACKY TO MEET FREDDIE WELCH

Stockyards Fighter Gets Offers From England—Will Accept One.

Kansas City, Mo., Jan. 7.—Packy McFarland, who is here received a bid of \$4,000 from the National Sporting Club of England for his fight with Freddie Welch. Hugh McIntosh has already offered \$1,000 and 25 per cent of the gross receipts.

McFarland said he would accept one of the offers but he did not know which one. In either event the fight will take place in England.

CYCLONE SMITH WILL MEET LEACH CROSS

Of Hoboken, N. J.

Cyclone Smith will box ten rounds with Leach Cross at the Fairmont Athletic club, on Jan. 10. This was the date originally set for the Goodman-McFarland fight, but the cut Goodman received in his fight with Powell did not lead sufficiently to permit him to go into a hard contest.

Smith has fought some good fights during the past six months and has beaten such good fighters as Young Sammy Smith and Frankie Madden. He has also fought Bert Kyles and Battling Hurley with no decision. Smith should be able to dispose of Cross.

FEW PUPILS MAKE GOOD

Ring History Fails to Show Sparring Partners Making Champions.

James J. Jeffries Was One Notable Exception to This Rule.

Why is it that sparring partners of great fighters seldom, if ever, cut much figure as principals in the squared circle?

With one gigantic exception, that of Jim Jeffries, who was used as an excruciating machine by Jim Corbett when the latter was preparing for his battle with Fitzsimmons at Carson City in the long ago, the human punching bags of the training quarters usually develop into mediocre pups and remain exactly in the also-ran class.

It is true that the artful "Kid" McCoy once acted as a sort of understudy to Tommy Ryan when the latter was at the head of the middleweight division; but McCoy already a seasoned fighter when he hooked up with Ryan, and his object in playing the under dog to the latter was purely and simply because he wanted to get an exact line on Ryan's style, make him believe that a McCoy-Ryan bout would be a regular free lunch for the middleweight champion, and incidentally beat Ryan's head off when he got him in the ring.

All of which was duly arranged and accomplished, much to Ryan's disgust and mortification.

But the ordinary sparring partner, the chap who takes all the hard knocks and poses for the camera with the champion utilizing his frame as a door mat, rarely reaches a position in the fistie world where he can command large purses.

Now and then champions have tried to shove their practice mates into popularity, but such efforts have seldom proved successful. John L. Sullivan, the first famous exponent of the staged game art in this country, had Jack Ashton, a promising heavyweight, for a boxing partner.

Ashton, though, came and fatter, had great faith in Ashton's abilities, and endeavored to push him along, but Ashton, thought, came and fatter, had great faith in Ashton's abilities, and endeavored to push him along.

When Peter Jackson, the great negro fighter, was at the height of his fame, he went to England, and while there hooked up with a huge Welshman named David St. John. The latter was of giant proportions, standing 6 feet 4 inches tall, and was perfectly proportioned—a spectacle of physical grandeur even to the eyes of the British citizens.

He had figured in a few minor battles when Jackson took him in hand and announced his intention of converting St. John into a world-beater. For years, Jackson, master and laborer, had been at the rough diamond from Wales into a sailable gem.

But St. John's intellect wasn't equal to the strain. He couldn't think quick enough to get a line on the finer points of the game. When he boxed exhibitions with Jackson at the London music halls he looked and acted like a helpless novice before the lithe, swiftly moving black, who hit him whenever and wherever he pleased.

In a contest with another Englishman named Johnny O'Brien before the National Sporting club, St. John was knocked out and had a rib broken in the ring came to an end right there.

He enlisted in the British army and was slain during a hand-to-hand scrimmage in the Boer war. He made a brilliant finish, killing four of his assailants with a clubbed rifle after his laymen had broken, thereby proving that whatever his shortcomings as a pugilist may have been, lack of gameness was not one of them.

One of Fitzsimmons' first sparring partners after Bob annexed the middleweight championship in this country, was Dan Hickley, another Australian. Dan was touted as something of a wonder in the boxing line, but it was nothing but a lie. He kept it there, for he never figured as a winner in the American ring.

Con Roddan, a heavyweight from the Pacific slope, acted as Fitz's partner for a while, but he was never able to do the job of boxing partner with Fitzsimmons. The conqueror of Dempsey and Jim Corbett was in the habit of dealing out some horrible blows with crooked fists even in friendly bouts, and more than one of his assistants eschewed the thankless task after a couple of short sessions with the sleep-producer from the Sandwich Islands.

Two of Jim Corbett's early boxing partners had the middleweight championship bee in their bonnets. Jim Daly was the first. Jim hailed from Buffalo and was a neat, clever performer. After he had worked with Corbett for a while, he assimilated some of the champion's brilliant tactics. It would have been a remarkable stupid human who would not improve in tactics by daily practice with the then holder of the heavyweight title. Corbett was a marvel of skill and grace, and the oftener Daly boxed with him the more he envied his tutor's cleverness.

As Daly got faster he began to fancy himself a bit, and went out after fresh honors in the ring. Unfortunately he ran into a snag in the tough, burly person of Joe Butler, the Philadelphia con. Butler put a crimp in Daly which had several kinks in it, and was never quite unraveled. Jim forgot his championship aspirations, and soon afterward retired for good.

Tom Lansing learned quite a lot from Corbett, and the latter expressed himself in print as believing that the Michigan youth was destined to carry off the middleweight title. Jack Root of Chicago spoiled that prophecy by knocking out Lansing before a New York club in a couple of rounds.

Later Root and Lansing met again in Chicago and Root won without much trouble. Lansing died shortly after the battle and his demise was attributed by many to the injuries he received in his second contest with the Chicagoan.

late on the guillotine, really escaped from his jailers and grew to maturity. Utilizing this motif the author has evolved a stirring, picturesque romance.

"Drifting" closed a ten-day run in New York on Tuesday evening. "We can't be as bad as All That" followed it on Thursday at the Nazimova theater.

Emma Dunn, who recently retired from the cast of "Mother," will make her debut in vaudeville in a playlet entitled "The Baby." In her company are Ruth Allen, John Stokes and Paul Wheeler.

Despite Henry E. Dixey's success in "The Naked Truth" and other modern plays, there are many persons who cannot forget his old triumphs in "Adonis." "You are certainly adorable as Adonis," a Chicago woman said to Dixey during the recent engagement in that city. "But," added the speaker, "you don't look anything like you did then."

"Why, no," responded Dixey, reflectively. "I've changed my tailor."

When "Daniel" was announced as the title of the new play that Wright Lottimer will produce as a companion to his perennial success, "The Shepherd King," a friend remarked: "It seems odd, Lottimer, for you to select another Biblical subject. You know people don't read the Bible any more."

"That's why I give Biblical plays," retorted Lottimer. "I believe in giving the public something novel."

Guy Bales Post continues to create a great deal of interest by his interpretation of the role of Philip Morris in "The Nigger," now in tour in the Middle West. Mr. Post played the role originally in the New theater production, New York. Out on the Pacific coast Florence Roberts is achieving

success in the leading role of Georgeanna Byrd in the same remarkable American play. The Southern states will soon give an opportunity to see "The Nigger."

"Does Shakespeare pay?" an inquisitive theater-goer asked Robert Mantell, the classic actor.

"I don't know," replied Mr. Mantell, "my business arrangements with him have always been through a third party."

Otis Harlan recently with "Baby Mine," is being presented in "The Girl and the Drummer," the lively musical play by George Broadhurst and Augustus Barratt. Harlan is one of the most popular comedians in the United States.

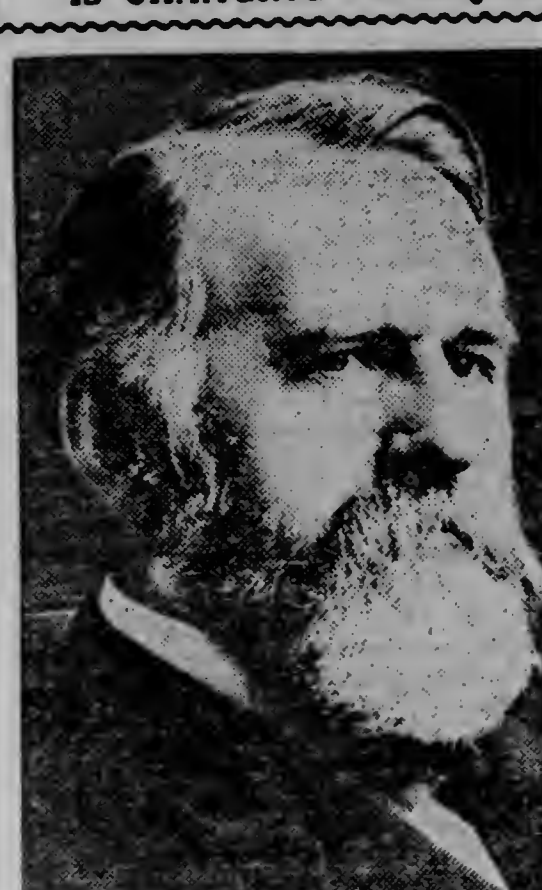

George Broadhurst's new play, "Bought and Paid For," which William A. Brady produced, with Henry E. Dixey in the stellar role, is the author's most pretentious work since his phenomenal success "Man of the Hour."

The success of "Sauce for the Goose," Geraldine Bonner's comedy of New York life in which Grace George is winning new laurels as Kitty Constantine, will not deter Miss George from reviving one or more famous old comedies before the close of the present season, as she originally planned.

Sixteen-year-old "Way Down East" recently broke all records for big business at McVicker's theater, Chicago.

"The Deep Purple," which has been thrilling Chicago for many months, will have its New York opportunity Jan. 9, when it will be taken into the Lyric theater. This is the melodrama by Paul Armstrong and Wilson Mizner, which has been hailed as a legitimate follower of "Alias Jimmy Valentine," which is also

MAN WHO SAYS WOMAN IS CHANGING PHYSIQUE

DR. DUDLEY SARGENT.

Boston, Mass., Jan. 7.—Dr. Dudley Sargent, director of the Sargent and Harvard gymnasium in Cambridge and recognized throughout the country as the foremost authority of the day in the physical development of women, says the women of today have bigger feet, smaller hips, broader shoulders and thicker necks than those of the typical woman of twenty years ago. He believes that the physical type of American women has undergone a tremendous change in the short space of twenty years and is approaching the physical conditions of the male sex.

the work of Mr. Armstrong. It tells the story of William Morris, who came to New York and became mixed up in an underworld complication of a sort familiar to sophisticated Manhattanites. Among the members of the company are Richard Henne, Charles E. Ferguson, Emmet Corrigan, W. J. Ferguson, Ada Dwyer, Isabelle Waldron and Catherine Call.

A Reliable Cough Medicine. Is a valuable family friend. Foley's Honey and Tar fulfills this condition exactly. Dr. Charles H. Foley, St. Paul, Minn., states: "Several members of my family have been cured of colds and coughs and colds by the use of Foley's Honey and Tar and I am never without a bottle in the house. It relieves the throat and loosens up the cold. It has always been a reliable cough cure. Sold by all druggists."

A PREHISTORIC ZOO. Prof. Shepherson in Strand. The latest attraction at Mr. Carl Hagenbeck's famous animal park at Schlingens, near Hamburg, is a series of wonderful and striking life-like representations of the great monsters that inhabited the earth in the distant past. In all, some thirty have been erected, but more are to follow, until we have a complete prehistoric zoo.

These weird beasts of the past rightly occupy a portion of the grounds to themselves. They have been built up of cement by a well known continental animal sculptor, Mr. J. Faller, burg around the shores of a delightful little lake, some three acres in extent. The animals are depicted standing by trees, while in the lake itself are shown huge crocodiles and strange looking creatures, half fish and half animal. Additional realism is added by representing a few of the beasts in the act of battling with specimens of their kind.

There are several representations of the dinosaurs, or "thunder lizards," some twenty-five feet into the air, making the trees around look quite small; the diplodocus, whose length of sixty-six feet and height of eighteen feet, render the modern elephant a mere pigmy; the stegosaurus, with its bony plates on its back and spikes on its tail; the triceratops, with its three horns on its face and huge collar of spikes around its neck; as well as representations of the sloth, dodo, and mammoth. Then we have huge flying reptiles with an enormous spread of wings, birds with formidable teeth, not to mention giant lizards, tortoises and toads, compared to which the present living snake, ancient in size no more than a dog to a cart horse. Some of these tortoises and toads are twelve feet and more in length.

For Lungs, Coughs and Stuffy Noses. Take Foley's Honey and Tar. It gives quick relief and expels the cold from your system. It contains no opiates, is safe and sure. Sold by all druggists.

Rev. E. F. Stidd, pastor of Merritt Memorial M. E. church, Forty-sixth avenue west and Halifax street, is "making good" with his tree night school idea.

The school, intended for young people who are employed in the daytime, has been conducted for several weeks at the Oneota church, but was discontinued during the holidays, after having been in session for six weeks. Rev. Mr. Stidd's plan has been to secure the services of competent instructors, who are willing to devote two or three evenings a week to the work. Sessions are held three nights a week and the attendance has averaged about twenty-five.

Commercial subjects are taught. Bookkeeping, shorthand, typewriting, business law and other kindred courses are free to all and those who have taken advantage of the opportunities offered have made a creditable showing.

On account of one of the instructors being absent from the city at the present time, school has not been resumed since the holidays. On his return, however, it is expected that the night school will be started again.

YOUTH MAKES A DARING FLIGHT

James Ward, 18 Years Old, Soars in a Bi-plane.

Charleston, S. C., Jan. 7.—James Ward, 18 years old, in a twenty-four horsepower biplane yesterday made a daring flight across two rivers, the harbor and out over the Atlantic ocean, reaching a height of 5,000 feet and winning a prize of \$5,000 by circling over two of the strongest fortifications on the Atlantic coast. He covered about twenty-five miles in forty-four minutes. Leaving the aviation grounds, Ward flew first to the navy yard on Cooper river, then down the river about five miles to the city. Turning eastward, he crossed the Cooper and the Wando rivers and the harbor of Charleston, and then, reaching Sullivan's island at the northern entrance of the harbor, where Fort Moultrie is situated, he

TWO CHINAMEN BURNED TO DEATH

Five-Story Lodging House Destroyed in New York.

New York, Jan. 7.—Two Chinese, who were relatives of Tom Lee, the "mayor of Chinatown," perished yesterday in a fire which destroyed a five-story lodging house in Chinatown. The bodies were not recovered until the flames had been extinguished and it is possible that others may be found when the ruins of the building are cleared off for the night. Twenty of them were painfully burned. More than 100 Chinese were in the building when the fire broke out, but notwithstanding the swift spread of the flames, the firemen believed they had rescued every one until the bodies were found. The property loss is \$150,000.

OUTLOOK FOR NEW YEAR ENCOURAGING

New York, Jan. 7.—R. G. Dun & Co.'s Weekly Review of Trade says: There is little or no change in the state of the larger trades. Contraction of output continues in iron and steel, but the outlook for the new year is regarded as encouraging. In the month of December twenty-seven additional furnaces were blown out and the daily rate of production fell from 8,659 to 5,252 tons, or nearly 25,000 tons less than in the corresponding period of 1909. However, prices at all leading centers still display a tendency toward great weakness, and buyers are holding back in the hope that further concessions will be granted. In some other branches of the industry conditions appear more encouraging. Imports from Chicago and Pittsburgh indicate a better inquiry from the railroads, while the outlook in the structural division is considered quite promising. Retailers of dry goods the country over are pushing sales of white goods and domestics, while jobbers are busy bringing out their new lines of spring goods for house display. Buyers are showing increased activity in the markets. There has been a little more trading in specialties, such as goods and gingham, and somewhat greater interest in early showings of blankets and napkins, but drills and sheetings have ruled quiet. Selling agents in both cottons and woollens, as well as in silk lines, find it very difficult to adjust prices because of the sustained high costs of raw material and production, while buyers are operating only for immediate needs. The movement in some directions is hampered by slow deliveries. A very fair export trade in cottons is now reported at the Far East. The footwear market continues quiet and unchanged. New England producers have but a small reserve for spring cutting, but buyers generally are looking for the latter end of the current month. The question of price is not a disturbing element at present. There is a somewhat firmer tone to the market on domestic hosiery and this is especially noticeable in cotton and silk lines. An export demand is again in evidence, principally for good lines of country hosiery and this has had a strengthening effect on the situation. There is a slight increase in the demand for leather, but trade is still far from being active.

Printer-Business Man Has Written Play for Bernhardt

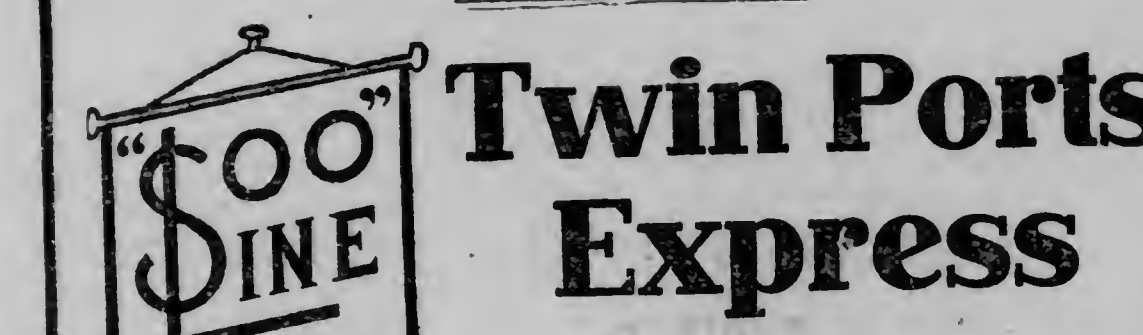

J. W. DE KAY.

J. W. De Kay, well known in London and New York, but better known in Mexico, has written a piece that Madame Bernhardt will produce in New York next month. The name of the play is "Judith." Mr. De Kay is the head of a large Anglo-Mexican concern in London. He was born in Iowa about thirty-eight years ago. He learned the printer's trade and at 12 was the owner of a daily and weekly newspapers near Chicago. He then went into the cattle business in Texas and from Texas went to Mexico, where he organized the Mexican Packing company.

\$7,000,000 HOME OF EX-SENATOR

New York, Jan. 7.—The home of former Senator W. A. Clark on Fifth avenue, is completed. It is on the corner of Fifth street and Fifth avenue, and it cost \$7,000,000. The house has been called "an old man's pad." Every part of it has had the personal attention of the owner and the house carries out his taste and reveals his tastes. When in New York the former senator has spent days within its walls watching its progress, giving his opinion, passing upon or rejecting pieces of work or bits for work. The house has every modern convenience and luxury and it will contain the art collection of the former senator.

THE OLD GUARD OF AMERICAN DIPLOMACY

Famous Surviving Coteries of Men Who Have Represented the United States at the Seats of the Seven Great Powers—John Bigelow, the Oldest American Ex-Minister to Anywhere, and His Premier Diplomatic Achievement—Daniel E. Sickles and His Most Important Service Abroad—Andrew D. White and His Successful Campaign Against Anti-American Sentiment in Germany—The Greatest Diplomatic Triumph of John W. Foster—William Waldorf Astor's One Supreme Effort in Italy—John W. Riddle's Unique Distinction.

Written for The Herald by E. J. EDWARDS ("Holland")

(Copyright, 1911, by E. J. Edwards.)

Some recent minor changes in Uncle Sam's foreign diplomatic service, and rumors of more important ones to come, serve to recall the days, happily now past, when the ocean steamship companies prided largely from conveying American diplomats and their entourages to and from foreign capitals with a frequency that has gone somewhat out of fashion since civil service reform became operative. Until recent years no American diplomat named for a foreign mission during the latter part of a presidential administration could get up much enthusiasm over the appointment. He was elected for the Italian mission by Abraham Lincoln when he first came into the presidency, a few days after his inauguration. Mr. Marsh went to Italy in 1861 and remained there as American representative until 1882, the year of his death. Thus he retained the office during five administrations—those of Lincoln, Johnson, Grant, Hayes and Garfield—and would have come down as an inheritance to Grover Cleveland, had not the death of Valeriano, Italy's president, compelled President Arthur to appoint a successor, William Waldorf Astor.

That continuous service of more than twenty years in a striking contrast with the brief tenure of office enjoyed by many diplomats during earlier administrations. Washington had a comparatively easy task in his selection of foreign representatives, since at that early period the new republic had established diplomatic relations with only three European nations, Great Britain, Spain and France. Thomas Pinckney, appointed to the office of minister to France, was Washington's first choice. Charles C. Pinckney in turn had charge of the French mission until the death of George Washington. Short of Virginia, a personal friend of the president, was named as successor, but Pinckney, who had been trying his hand at diplomacy in London, declined the honor. The duties were then given to the South Carolina diplomat and Lewis Humphreys, Connecticut Yankee, took his place.

John Adams was so impressed with the diplomatic finesse of Rufus King that he left him in undisputed possession of the office. Adams, who was a member in that the late Mr. Adams' term. Thomas Pinckney, who was later, appointed William Pinckney of Maryland to act jointly with him. Charles C. Pinckney had been diplomatic representative both for Adams and Jefferson sent him to Spain, and then Americans were not then popular. Pinckney failed to check the unfriendly sentiment against him, leaving the business in charge of his secretary, G. W. Erving, a Massachusetts man, who remained on the job until official relations between the two nations were broken off in 1808. Six years afterward, when intercourse was resumed, Erving was

sent by President Madison to Madrid as minister resident.

It was during Madison's administration that the mission to Russia was established, and John Quincy Adams

son seems to have had considerable trouble in keeping this mission in

one of his appointees being James Buchanan—and then having the

of the able first secretary, John C. Clay of Pennsylvania. Jackson, also

made three appointments to the French court, but it was not until Lewis Cass

assumed the management that matters moved smoothly for several months in

succession.

The Austrian mission was estab-

lished during Van Buren's adminis-

tration, and from that day to this no ap-

pointee has held it beyond the official

life of the president who named him.

With the exception of Robert S. Mc-

Cormick, who was minister when Mr.

Roosevelt succeeded McKinley and was

retained a few months until Helian-

tius was named, the European mis-

sions have been in the hands of a few

men. Among the thirty-nine men who

have held the office of American min-

ister to the European powers, only

three have held over—Henry Middleton,

chosen by James Monroe and retained

by John Quincy Adams; John W. Fos-

ter, who served both Hayes and appoint-

ed by McKinley and inherited by

Roosevelt. In the latter case a change

was made as quickly as it could be

effected with propriety.

At the court of St. James, Rufus

King served both Washington and

Adams, George M. Dallas, appointed by

Monroe, was good enough for Buchanan;

Johnson left him to Charles Francis

Adams and retained him until he could

substitute Theodore Tilton; James Rus-

sell, chosen by Lincoln, served both

Monroe and Arthur; and Joseph H.

Choate, made ambassador by Hayes, served

both Adams and Lincoln. Lewis

by the present administration, being

reappointed by Van Buren, William

Pinckney, who had been trying his

the honor. The duties were then given

kee, took his place.

As a sequel to all this diplomatic

shifting, which seems to be on the de-

cline, there are now living more than

fifty men who have been at the head

of Uncle Sam's diplomatic business in

European capitals. At least thirty-

five of them have been or are now min-

Germany, Russia, Austria-Hungary,

Italy and Spain. Only two of the pres-

idents who sent their names to the

United States senate for confirmation

twelve San Francisco and China. Mr.
Bigelow was confident that those ves-

sels were actually intended for Con-

federate cruisers. When armed and

equipped, these "pirates" would be

more formidable than any warship in

the Northern navy, and should they

appear on the American coast, New

York and the other great seacoast

cities would be in danger.

First, Mr. Bigelow tried to avert

the impending danger by ordinary

diplomatic means. With court in-

tercity, he could accomplish nothing in

France, and again he resumed his

campaign of education. After repeated

publication of an article denouncing

the building of the suspected steam-

ers, it was a strong appeal to interna-

tional justice, and it was so outspoken

in its demands for consideration that

the French government became alarmed,

backed down from its original posi-

tion and sold three of the vessels to

foreign powers, only the fourth falling

into the hands of the Confederates, but

owing to numerous delays brought

about by Mr. Bigelow's strenuous

efforts, the Stonewall did not reach

America until after peace had been

concluded.

Another never-to-be-forgotten ser-

vice rendered to his government by Mr.

Bigelow before he retired from the

post of American representative to

France was his skillful conduct of the

negotiations which resulted in the ex-

pulsion of the French imperial army

from the American continent at the

time of Maximilian's ill-fated attempt

to start monarchy in Mexico. And,

finally, perhaps his greatest achieve-

ment in France was his personal gra-

duation to the imperial court, despite the

French emperor's more or less indirectly

ing for this country and the well-

known zeal of the minister in the

French government. As he recalls his

difficulties during those history-making

years, Mr. Bigelow, now in his 84th

year, says that he never forgot his

facilities, wonders how he

did it.

Gen. Daniel E. Sickles' Most Important

Service.

Now in his 84th year and still the

renewed hero of many a dra-

matic episode, Gen. Daniel E. Sickles

is of the diplomatic service he ever

performed for his government was done

in the name of the American

minister to the short-lived Spanish re-

public, when he was sent to Madrid

in 1845. According to those who

Washington which will sustain him

in his position, Sickles' long

neglected state papers, it was due to

pressure exerted by Sickles, who

was then American minister to the

Spanish minister, that the aboli-

tion of slavery in Porto Rico was

achieved and the law providing for

gradual emancipation was passed.

And whenever the general

speaks of this he almost always

speaks of it as a triumph. It is

hardly too much to say that it is

one of the most important

achievements of his diplomatic

successful combatting of the anti-

American sentiment so universal

in Germany at the breaking out of

the Spanish-American war. At that

time, Germany's public opinion was

dominated by a profound disdain

MARKET IS DULL, BUT VALUES ARE INCREASING

Seasonable Inactivity in the Duluth Real Estate Field.

Business Property and De- sirable Acreage Tracts Are Closely Held.

Business still hangs over the real estate market like a pall, but there are signs of a few rents being made and real estate men believe that the next few weeks will see the passing of the gloom and the dawn of another and brighter day of activity.

Conditions prevailing now are seasonable and are not taken as an indication of the true status of Duluth real estate. A few deals are being made in improved and unimproved residence property, inquiry both from home and outside investors is strong and despite the absence of activity in the way of deals being closed, there is a strong movement in preparation for the active market that is certain to come within a very short time.

Dealers are looking ahead to one of the best years in the history of Duluth. Commercial and industrial activity will be greater. The population of the city is increasing. New railroads and new enterprises are increasing business in the city and bringing in new people to assist in the development of Greater Duluth. Activity in industry and commerce is always reflected in the real estate market. When general business conditions are good, the real estate market is active and when a state of depression or semi-depression such as prevailed during the past year, prevails, the real estate market is stagnant.

The true conditions are shown in the prices prevailing. There has not been a decrease in the value of Duluth real estate during the dull period, but an increase, and property will bring more in the market now than it would a year ago. Although conditions may not come in in the volume dealers would like, there is no wavering on the part of owners who are content to hold their property and get the benefit of the profits that accrue right along. There is no holder of business property in Duluth who doubts the stability of his investment and under such conditions there is certain to be a

slow volume. Satisfied investors do not throw property on the market and much of the dullness is due to the fact that property is so closely held that prospective purchasers are discouraged.

Sales of improved residence property has been more numerous during the past two or three months than in any similar period for some time. The reason is hard to find, unless it is that some owners of property are anxious to get the benefit of the increased value of their property in cash and to move out to the new suburbs where property is cheaper and taxes lower, while other people are anxious to get homes nearer the center of the city. The man who built a house five years ago in the East end district can sell it now at a good profit and re-establish himself in one of the suburbs by the expenditure of his original investment. Many people believe that the reason for the unusual activity in improved residence property lies there.

Unimproved residence lots are being sold right along and the business is beginning to look up. The turn of the year finds many people planning to build in the spring. Knowing their district and the character of the property, many people take no chances in buying residence lots at this time of the year. In consequence, there is a pronounced movement in that class of property, the purchasers being people who are intent on getting work on their homes under way early in the spring.

The fact that the acreage movement is slow is due to close holding of choice tracts within the city limits. Any number of capitalists are anxious to buy good acreage in the vicinity of Duluth, but there is very little property for sale in large tracts and many inquiries are disappointed. The unusual success of sales of residence lots on the easy payment plan last year have made owners of acreage satisfied with their holdings and few large pieces of property are on the market at any price.

There is a pronounced movement beginning in acreage along the different rivers and lakes in the vicinity of Duluth. A large number of Duluth men are becoming possessed of the desire to own summer homes at beautiful spots near the city and dealers in land of that class find an increase in the inquiry. Many tracts were sold last year to Duluth people who have established summer homes on lakes in the north and south. There are no more beautiful woods in the world than those of Northeastern Minnesota and there are any number of nature's beauty spots where summer home sites may be obtained at low prices.

RESIDENCES ARE SOLD

Three Homes in East End District Figure in Realty Deals.

Inquiry for Investment Prop- erty and Acreage on the Increase.

Sales of three well-known pieces of residence property in the East end district were the most notable real estate transactions made public during the past week. L. C. Harris purchased the J. T. Hale residence at Twelfth avenue east and First street; A. B. Kenny bought the R. P. Suman home at Twenty-fourth avenue east and Fourth street, and George W. Martin bought Dr. Bagley's former home at Twenty-second avenue east and Third street.

Although the market has been very quiet for the past two months, the turn of the year has brought signs of an awakening. Inquiry for investment property and acreage is increasing in volume, and dealers are preparing for a more active market as spring approaches.

Mr. Harris purchased the Hale residence on the Hale investment company. The property consists of two lots and a frame residence on the northeast corner of Twelfth avenue east and First street. The consideration was \$10,000.

The Suman residence on the northeast corner of Twenty-fourth avenue east and Fourth street is a frame building, which was built about five years ago. It is beautifully situated on a lot 60 by 140 feet, and is regarded as a very desirable piece of residence property near the city and dealers in the transfer to Mr. Kenny has not been made public.

Dr. Bagley's former home, which was purchased by George W. Martin, is at 2130 East Third street, and is a modern residence well located. The consideration was not given in the deed.

Through Stryker, Manley & Buck, Jennie Bloom has purchased from W. D. Dehn a frame residence at 31 West Fifth street. The consideration was \$5,500.

John T. Stack has sold to George A. (Continued on page 25, first column.)
